I get my health care through VA.

The health care law means my family can get coverage, too.

The Affordable Care Act, also known as the health care law, was created to give more Americans access to affordable health care. The law creates the Health Insurance Marketplace.

Your family members can use the Marketplace to shop for health insurance that fits their budget and needs.

To learn more about the Marketplace, visit www.healthcare.gov or call 1-800-318-2596.

For details on Veteran's health benefits coverage, visit www.va.gov/aca, or call 1-877-222-VETS (8387).
