Getting to Zero

SSVF and Ending Homelessness Among Veterans

A Map to Zero

- Needs to include measurable targets for each program element
- Identify specific actions steps required to improve coordination and remove barriers
- Assign responsibility and hold yourselves and others accountable
- Set target dates with measurable goals
- Revise your plan – practical flexibility to achieve our shared mission

How To GPS

- Not enough to know destination, need to know starting point
- What are the existing efforts in your community? (i.e. CoC coordination, Mayor's Challenge, Zero 2016, coalition of the willing, VA funded programs)
  - How can you enhance, rather than duplicate, those efforts?
  - What is your role in driving system change?
- Agree on how to coordinate efforts to maximize resources, support coordinated entry and measure progress
- Common goals = Attainable Outcomes

Next Steps

- Review current plan based on Launch. VA will send questions for considerations in early January
- Coordination calls with VA (RCs or TA) by end of January
- Revised Community plans due February 13th
- Community meetings February and March
- January – December 2015: End Veteran Homelessness. This is OUR charge!
