Message From Monica Diaz, Executive Director, VHA Homeless Programs Office

When you're close to reaching a goal, sometimes you need a little extra help to achieve it. Like a baseball closer coming into the game to seal the win after the starting pitcher has left —the extra boost can make a difference in whether or not a team wins the game.

In this light, and in response to the affordable housing crisis, the Supportive Services for Veteran Families (SSVF) program launched the Shallow Subsidy service. Think of this program like the closer in a baseball game.

Typically, the Shallow Subsidy service is targeted to Veterans who need longer-term assistance to achieve housing stability. It provides rental assistance for a specific

period of time to eligible and enrolled Veterans. Through this service, the maximum amount of rental subsidy that can be given on behalf of a Veteran household is up to 50% of the lease rent.

Health Update

The CDC recommends that all adults get an updated 2023-2024 COVID-19 vaccine. If it's been at least 2 months since your last COVID-19 vaccine dose, you should get a single dose of the updated 2023-2024 vaccine now. This is also true if you never got a COVID-19 vaccine before.

If you have certain conditions that weaken your immune system, you may be eligible to get additional doses of the updated 2023-2024 vaccine. Ask your provider how many doses they recommend for you.

Before you go to a VA health facility to get a COVID-19 vaccine, call to make sure the facility has the vaccine you want.

VA offers flu and COVID-19 vaccines to all Veterans who are enrolled in VA health care and eligible for a COVID-19 vaccine based on CDC recommendations. [Find out how to get your COVID-19 vaccine at VA.](#)
