

Are you going on extended travel away from home?

Help us coordinate your care at an alternate VA medical facility near your destination.

Notify your Patient Aligned Care Team (PACT), which is located within your primary care clinic, of your:

- travel destination(s) and temporary address at least 4 to 6 weeks prior to departure
- contact telephone number
- arrival and departure dates
- specific care concerns

Your VA PACT will consult with the Traveling Veteran Coordinator to manage your care at an alternate VA facility.
