I. Introduction

A. Background

The Department of Veterans Affairs (VA) is taking action toward its goal of ending homelessness among our nation's Veterans. To achieve this goal, VA is helping Veterans acquire safe housing, needed treatment services, opportunities to return to employment and benefits assistance. VA intends to end the cycle of homelessness by preventing Veterans and their families from entering homelessness and by assisting those who are homeless in obtaining safe housing as quickly as possible. VA Homeless initiatives have contributed to continue declines in homelessness among Veterans. VA strives to further reduce the estimated 76,000 Veterans experiencing homelessness on any given night through strategic and targeted program intervention.¹

In 2010, President Obama launched *Opening Doors*, a comprehensive Federal Strategic Plan to Prevent and End Homelessness in the next five years. Strategies for achieving the plan's goal are to increase leadership, collaboration and civic engagement; increase access to stable and affordable housing; increase economic security; improve health and stability; and improve homeless crisis response.² The plan aims to employ these strategies through strengthened partnerships among VA, the Department of Housing and Urban Development (HUD), the Department of Health and Human Services (HHS) and the Department of Labor.

Accurate and timely data are fundamental to the success of these initiatives. VA is developing a comprehensive Homeless Registry, a data warehouse that tracks and monitors homeless program expansion, operation, and treatment outcomes. The Registry allows "real-time" access to data by VA providers, program administrators, and medical center (VAMC), Veterans Integrated Service Network (VISN), and Central Office (VACO) leadership to facilitate performance monitoring and decision-making. The Homeless Operations Management and Evaluation System (HOMES) is a component of the Registry that VA staff nationwide use to enter, update and track homeless Veteran data. The data collected through HOMES is used to support VA efforts to prevent and end homelessness.

B. HOMES Overview

HOMES is an online data collection system that tracks homeless Veterans as they move through VA's system of care. The system streamlines data collection processes and facilitates communication between VA homeless program staff and leadership on the local, regional, and national levels. By providing a centralized data collection system, HOMES enables VA to efficiently and effectively collect, manage and access homeless Veteran data.

¹ U.S. Department of Housing and Urban Development, Office of Community Planning and Development (2011). *Veteran Homelessness: A Supplemental Report to The Annual Homeless Assessment Report to Congress*. February 2011.

² U.S. Interagency Council on Homelessness, "Opening Doors: Federal Strategic Plan to Prevent and End Homelessness," 2010.

These data will help VA to identify and understand the needs of homeless Veterans and to develop programs and services to address those needs. Thus, data collection in HOMES is an essential tool for combating Veteran homelessness.

HOMES provides a single point of data entry that satisfies the requirements of the Northeast Program Evaluation Center (NEPEC), the Computerized Patient Record System (CPRS) and Homeless Management Information System (HMIS) Data Standards.

Currently, data are entered into HOMES for the following homeless case management programs, residential treatment programs, and services for justice-involved Veterans:

- Housing and Urban Development VA Supported Housing (HUD-VASH)
- Healthcare for Homeless Veterans (HCHV)
- Grant and Per Diem (GPD)
- Domiciliary Care for Homeless Veterans (DCHV)
- Compensated Work Therapy / Transitional Residences (CWT/TR)
- Healthcare for Re-entry Veterans (HCRV)
- Veterans Justice Outreach (VJO)

Data for these programs are entered into HOMES using the following forms and templates:

- Veteran Record (all Veterans contacted by specialized homeless programs)
- Assessment (used by all specialized homeless programs)
- Program Entry (HUD-VASH, Residential Programs, HCHV Case Management, HCRV, VJO)
- Progress Update (HUD-VASH, VJO)
- Program Exit (HUD-VASH, Residential Programs, HCHV Case Management, HCRV, VJO)

1. Goals and Objectives

HOMES is designed to support VA's mission to end Veteran homelessness by achieving the following goals and objectives:

- Improve care for homeless Veterans by providing more rapid access to programs;
- Integrate data collection and reduce duplication of data entry across all VA specialized homeless programs;
- Provide consistent measurement across all homeless specialty programs;
- Ensure that Veterans remain engaged in service through increased coordination of care;
- Enhance VA's capacity to monitor program effectiveness including the utilization and outcome of VA-funded services;

- Provide future compatibility with VA CPRS as well as HUD's Homeless Management Information System (HMIS); and
- Provide data needed for Commission on Accreditation of Rehabilitation Facilities (CARF) and Joint Commission on the Accreditation of Healthcare Organization (JCAHO) documentation requirements.

2. Advantages to Users

Historically, VA's specialized homeless programs were monitored and evaluated through the completion of paper or online forms designed for each individual program. As a result, new forms were completed if a Veteran entered another homeless program or new VAMC. This arrangement resulted in data entry redundancy and limited access to Veteran information across programs and medical centers.

To streamline homeless program data collection, eliminate data entry redundancy and facilitate information sharing, HOMES was developed. HOMES offers many advantages over previous methods of entering and tracking Veteran information, including:

- **Access:** HOMES allows VA homeless staff from different programs at VAMCs across the country to access homeless Veteran information through a single point of entry. While access to the secure system is restricted to VA staff involved in the provision and/or administration of VA homeless services, Veteran records entered into the system can be viewed by all system users. Increased access to Veteran information is particularly important for facilitating referrals across programs and medical centers.
- **Efficiency:** HOMES enables efficient entry, management and retrieval of Veteran records. Such "real-time" access to data facilitates decision-making and allows for expedited referrals across programs and medical centers. In addition, data entered into HOMES can be cut and pasted into CPRS, thus eliminating the need to enter information in both systems (future versions of HOMES will offer more complete integration with CPRS).
- **Coordination of Care:** HOMES increases the user's ability to coordinate Veteran care internally and externally among programs and across VAMCs. HOMES fosters collaboration among stakeholders to improve Veteran care.

3. Future Development and System Enhancement

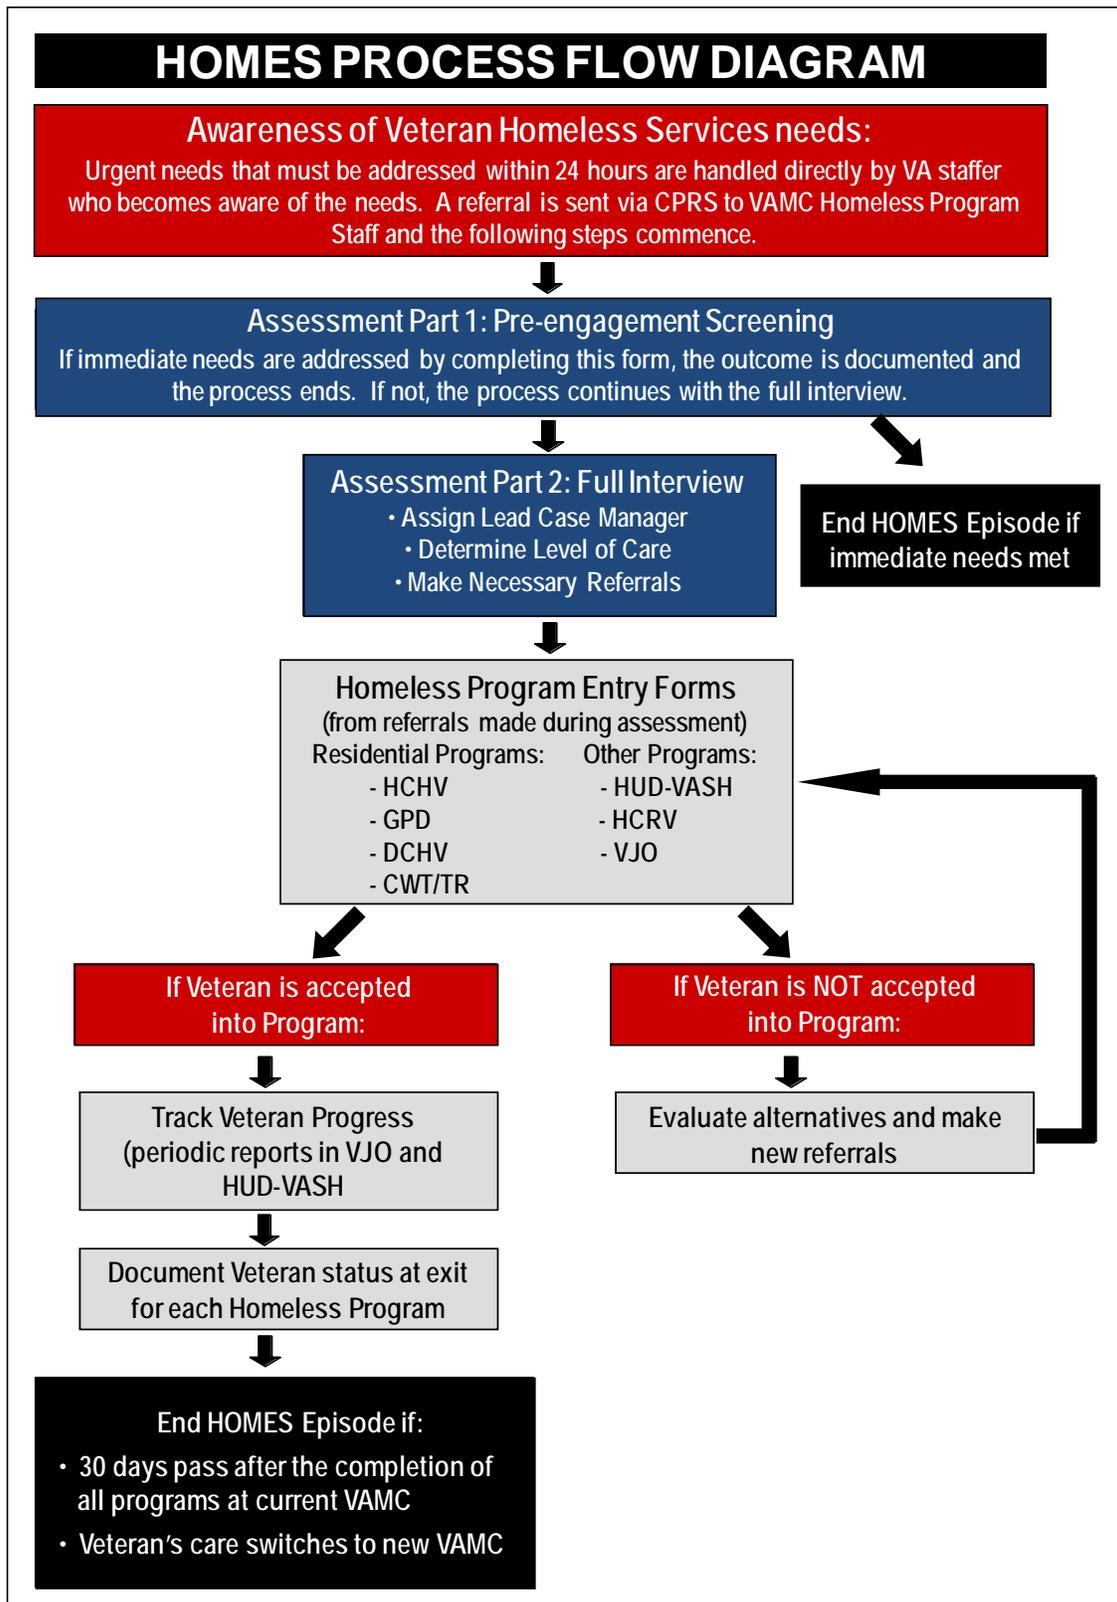

HOMES satisfies immediate VA and program-specific needs with the opportunity to incorporate future enhancements. The current focus is on the activation of HOMES as a case management and evaluation tool for use by staff assigned to VA homeless services. Phase 1 was launched in April of 2011 and allows for the integration of data collection for the following programs: HUD-VASH, HCHV Case Management, HCHV Contract and Residential Treatment, DCHV, GPD, CWT/TR, HCRV and VJO. Improvements to HOMES will continue in order to capture the full potential of the online data collection system. Details of new versions will be announced prior to implementation.

C. HOMES Process Flow

HOMES is designed to track and maintain homeless Veteran data as Veterans move through VA's system of care. The following diagram illustrates the process flow within HOMES. As shown in the diagram, this process is initiated when a Veteran in need of homeless services is identified. **A HOMES episode begins when a full Assessment Interview is completed. The episode ends 30 days after a Veteran exits all homeless programs or the Veteran's care is provided at a new VAMC.**

On the Assessment, referral(s) are made to appropriate programs and services. After referrals are made, HOMES tracks the Veteran's transition(s) into and out of VA homeless programs.

Figure 1: HOMES Process Flow Diagram

1. Pre-Engagement Screening

The Pre-Engagement Screening is the stage prior to the initiation of a HOMES episode of care. This brief screening is completed in instances where a VA clinician has a very brief encounter with a homeless Veteran in the community (e.g. soup kitchen, shelter or Stand Down) and cannot conduct a full Assessment. It is also completed if a Veteran is unwilling to fully engage in specialized VA homeless services. The pre-engagement screening, located within the Assessment Form, allows for basic documentation of the Veteran's urgent clinical needs. If, at a later time, the Veteran is interested in participating in treatment, then the full Assessment is completed, appropriate referrals are made and the HOMES episode begins.

2. Assessment and Episode Initiation

The Assessment Form is the first form that is completed for a new Veteran and initiates the HOMES episode. The full Assessment Interview collects information about the Veteran's background, including military service, current housing situation, employment status, financial benefits, and medical and psychiatric problems. Clinical impressions and plans for immediate referral(s) are documented in the last sections of the Assessment Interview.

Depending on where the Veteran is interviewed, it may be possible for the clinician conducting the Assessment to access HOMES and enter data directly into the system. However, if the interview is conducted at a location where HOMES is not accessible, the clinician should use a paper copy of the form (data entry worksheets) to record responses and enter the data into HOMES following the interview (see Appendix F for the Assessment Form Worksheet). Paper forms can be shredded once data is entered into HOMES.

A HOMES episode is initiated when a full Assessment interview is conducted and the Assessment Form is completed and submitted via HOMES. The date of the Assessment is the HOMES episode start date.

3. Program Referral(s)

The clinician completing the Assessment makes referrals to programs and services based on information collected in the Assessment Form and his or her clinical evaluation. The clinician considers the Veteran's needs and determines an appropriate level of care when making a referral. It is possible that the clinician may find that referral to a VA homeless program is not appropriate given the Veteran's current status. In such cases, the clinician assists the Veteran by coordinating with other VA and/or non-VA service providers (see Appendix D for brief descriptions of programs available to Veterans).

Referral plans are documented in the last sections of the Assessment Form. Once the form is submitted, an email notification is sent to appropriate program staff alerting them that a referral has been made. Program staff can access the Veteran's information in HOMES and evaluate the Veteran for entry into their program.

While most referrals will result in program entry, there may be cases in which a Veteran does not enter the referred program. In these cases the referring clinician will receive an email notification. The clinician will then work with the Veteran to identify and evaluate alternatives.

4. Program Entries and Exits

When a referral is made via HOMES, staff from the appropriate program receives an email notification. A clinician from the referred program then determines whether or not the Veteran will be able to enter the program. The program entry decision (entry or non-entry into the program) is documented in HOMES using a Program Entry Form. Veterans entering the HUD-VASH and VJO programs will also have periodic Progress Reports completed for them. When a Veteran exits a program, a clinician from the program completes an Exit Form.

5. Supplemental Referrals

Once an Assessment Form has been submitted (and is therefore unavailable for further modification), additional program referrals can be made using the Supplemental Referral Form. For example, a Veteran who was only referred to GPD could be referred to VJO while in residence at the GPD facility, should such services be warranted. Referrals made using the Supplemental Referral Form enable program entry forms in the same way as referrals made on the original Assessment. Additionally, Supplemental referrals can be made within 30 days after all programs have been exited—prior to the HOMES episode ending. However, once the HOMES episode ends, a clinician will need to initiate a new episode by filling out a new Assessment Form. New Assessment forms will pre-populate with the information on the most recently submitted Assessment form.

If the Veteran's care moves to a VAMC that is not his or her primary or secondary VAMC, a clinician should fill out exit form(s) for that Veteran to end the HOMES episode. The new episode cannot be initiated until the previous episode is closed.

6. Key Concepts and Terms

Users should familiarize themselves with key concepts and terms used throughout this document. Some of these concepts and terms are new to HOMES. The following list of definitions is organized alphabetically.

HOMES Episode: A HOMES episode refers to the period of time during which a Veteran's progress is being tracked in the system. The episode begins on the date of the full Assessment Interview and ends 30 days after all programs are exited and no supplemental referrals are made.

HOMES Episode Start Date: The HOMES episode begins on the date that the Assessment Interview is completed. This date is documented on the Assessment Form.

HOMES Veteran ID: Every Veteran entered into HOMES is assigned a new Veteran HOMES ID number. The HOMES ID is a permanent and unique number generated by the system.

Primary VAMC: A Veteran's Primary VAMC is the facility that they utilize most often.

Secondary VAMC: A Veteran who lives in close proximity to another VAMC may have that VAMC designated in HOMES as a Secondary VAMC where he or she can be treated. Services that occur at the Secondary VAMC will be considered within the same HOMES Episode as the primary VAMC.

II. Using the HOMES Online System

A. HOMES Access and User Roles

Program coordinators (or designated points of contact) should contact NEPEC to identify VA Clinicians who require access to HOMES.

NEPEC User Request Contacts: 203-932-5711

Leslie Cavallaro (x2666) - HCHV, GPD, HCRV, VJO staff access

Diane DiLella (x5877) - VASH staff access

Ron Gniadek (x5812) - CWT/TR and DCHV staff access

The primary users of HOMES are described below:

- VA specialized homeless program clinicians have the primary responsibility for entering data on all forms that track a Veteran's HOMES episode;
 - Staff have access only to the Veteran Record, Veteran Contact Information, Assessment and Entry and Exit Forms for the program to which they are assigned; however, staff may be assigned to more than one program.
 - Inclusion on email notifications regarding program referrals can be specified independently for each staff role.
- Non-clinicians (including administrative support staff) may access forms as read-only.

NEPEC staff will maintain user access to HOMES and edit submitted data as necessary. Please contact NEPEC to make any edits to activity submitted in HOMES.

B. Veteran Record

The Veteran record is critical for identifying and tracking Veterans within HOMES. The Veteran record includes the Veteran's name, Social Security Number (SSN), date of birth, gender and HOMES Veteran ID. Name, SSN, date of birth and gender are collected during the first contact with the Veteran. Unlike most other forms, fields in the Veteran Record may be edited by users other than NEPEC administrators.

The HOMES Veteran ID is a computer generated number assigned to each Veteran when the record is created. Once the Veteran is entered into HOMES, Veteran record information is used to search for and locate the Veteran within the system. The HOMES ID and SSN are unique to each Veteran and are the most reliable information to use when searching for a Veteran record, with the HOMES ID being the preferred method. The HOMES ID is preferred because it uniquely identifies the Veteran and is not Protected Health Information. The ID is used in all email notifications.

C. Veteran Contact Information

The Veteran's contact information includes the Veteran's address, phone number and email. This information should be collected upon first contact with the Veteran and updated as necessary. Partial information should be recorded if full information is not available. Unlike most other forms, fields in the Veteran Contact Information may be edited by users other than NEPEC administrators.

D. Assessment Form

The Assessment Form is used to gather and document data about the Veteran's status, determine the Veteran's needs and identify specific homeless program(s) that address these needs. The pre-engagement section of the Assessment Form is used when the interviewing clinician conducts a brief needs Assessment for a Veteran who has been contacted but may not be willing to have a full Assessment or participate in programs. If the Veteran agrees to a full Assessment, the clinician gathers more detailed information including demographics, military background, living situation, employment, income and clinical status. The Assessment equips the clinician with the necessary information to formulate plans and submit referrals to VA homeless programs and services. Assessment forms should be entered into HOMES as soon as possible following the completion of the interview. Instructions for the completion of the Assessment Form can be found in Section III.D.

E. Supplemental Referral Form

The Supplemental Referral Form is used to refer Veterans to additional programs after the Assessment has been submitted. The form becomes available following the submission of the original Assessment and remains available until 30 days after the Veteran has exited all programs. Outside of this timeframe a clinician is required to initiate a new episode within HOMES, beginning with the Assessment Form. Instructions for the completion of the Supplemental Referral Form can be found in Section III.E.

F. Program Entry Forms

Program entry forms document whether or not a Veteran enters a program to which he or she was referred. If the Veteran enters the program, the date of entry and status at program entry are recorded. If the Veteran does not enter the program, the primary reason for non-entry is recorded. Program entry forms should be entered into HOMES as soon as possible after an entry decision is made. Upon submission of an entry form, a notification e-mail is sent to the Veteran's LCM with information regarding the entry decision. Instructions for the completion of entry forms can be found in Section III.

G. Program Progress Forms

HUD-VASH and VJO require the completion of periodic progress reports. These reports are used to document the Veteran's status in areas such as housing, health and healthcare, employment, income and program participation. Program progress forms should be entered into HOMES as soon as possible following the end of each reporting period. Instructions for the completion of progress forms can be found in Section III.

H. Program Exit Forms

Program exit forms are used to record a Veteran's date of exit and assess his or her status upon leaving the program. These forms are also used to record whether follow treatment arrangements have been made. Program exit forms should be entered into HOMES as soon as possible following the exit of a Veteran from a program. Upon submission of an exit form, a notification e-mail is sent to the Veteran's LCM. Instructions for the completion of exit forms can be found in Section III.

I. Reference and Resource Materials

HOMES provides reference and resource materials to help guide user response selection during interviews and completion and submission of online forms. These materials are accessible through the HOMES "Main Page" screen. The following materials are included:

- Assessment – Table of Equivalent Military Ranks
- Assessment – Scoring Guide
- HUD-VASH – Scoring Guide for Alcohol Use Assessment
- HUD-VASH – Scoring Guide for Drug Use Assessment
- Inquires to National Homeless Center
- Technical Questions – VSSC Help Desk

III. Instructions for Completing Forms in HOMES

A. Accessing the System

HOMES is accessed via the secure VA intranet by users registered with NEPEC. The URL to access this site is <https://vaww.homes.va.gov/>. To request access from NEPEC, refer to Section II.A. Users must be connected to the VA network in order to access the site. The system automatically “recognizes” a registered user through the VHA network domain and User ID (same ID as on the user’s PC at his or her medical center). Unauthorized users are shown an error message and denied access to the system.

The first screen is the “Main Page” screen. The system automatically detects and displays the staff name, login ID, email address and authorized level of access. From this screen, the user can access the following items: Veterans and Forms, Operational Reports, Management Reports and Reference and Resource Material.

Instructions for navigating the system can be found in the following sections.

B. Guidelines for Navigating the System and Entering Data

1. Navigating within Forms

Users may navigate through individual forms using the mouse or computer keyboard. To use the mouse, select an item by clicking directly on it. To use the keyboard, press the TAB key to advance to the next item and the Shift+TAB keys to return to the previous item.

Note that in Internet Explorer, the BACKSPACE key is a shortcut for the “Back” button which returns the user to the previous screen. If the user hits the BACKSPACE key while the cursor is in a drop down list, the user will be returned to the previous screen. If this occurs, the user should click the browser’s “Forward” button to return to the form. The BACKSPACE key may be used to edit a text field (e.g. date of Assessment, date of entry into Grant and Per Diem, etc.); however, the cursor must be in the text box that the user wants to edit before hitting the BACKSPACE key. If not, HOMES may automatically return the user to the last screen visited. If this occurs, the user should click the “Forward” button to return to the form.

2. Entering Data

Enter data into HOMES within 24 hours of conducting an interview or receiving updated information. Timely data entry ensures that HOMES users have access to up-to-date information and fosters data integrity.

Items with drop-down lists can be answered by entering the number of the selected response using the computer keyboard or by selecting the appropriate response using the mouse. Text fields should be completed by using the computer keyboard to enter responses directly into the fields provided.

0. No
1. Yes
98. Veteran declined to answer
99. Interviewer omitted item

Required items are denoted by a red asterisks (*) found to the right of a text field or drop down list.

Required items may not be left blank. If the Veteran declined to answer or the interviewer omitted the item, select the corresponding response choice. If left blank, the system will display an error message prompting the user to answer the incomplete item. As forms are completed, built-in validity checks are conducted. These validity checks are designed to enhance data integrity. The following

examples demonstrate a “pop up” error message and an embedded error message indicating that responses within the form are inconsistent and/or incomplete.

The system is also designed to navigate the user through the form such that required items are answered and items that are not applicable are skipped. When these skip patterns appear in a form, one or more items may become “grayed out” and locked (i.e., unanswerable) based on a response to a previous item. In addition to enhancing data integrity, this feature facilitates the data entry process by allowing users to quickly identify and respond to appropriate items.

3. Form Submission

After entering data into a form, the user may submit the form, save it for review/submission at a later time, or cancel the form.

To submit a form, click the “Submit” button at the end of the form. A prompt may appear with instructions for correcting remaining errors identified by the built-in validity checks. Upon submission of the form, a summary of responses is displayed. Users can print the information or copy it to the Windows clipboard so that it can be pasted into CPRS. All submissions are final and cannot be edited. To make corrections, please contact NEPEC (contact information available in Appendix A).

Click the “Save but do not submit” button to save current progress and finish the form at a later time. To return to a saved but not submitted form, click on the “View saved but not submitted forms” button located on the Veteran search page.

Click the “Cancel” button to exit the form without saving.

C. Veteran Record

1. Locating an Existing Veteran Record

From the HOMES “Main Page,” click “1. Add/Edit Veteran(s) and Form(s)” button. This will open the Veteran search page. To determine whether a Veteran already has a record in HOMES, enter the Veteran’s first and/or last name, SSN, and/or HOMES Veteran ID in the appropriate fields and click “Search for Veteran.” Matching records will be displayed in a table.

If the Veteran is listed in the table, click the “Select” button adjacent to the Veteran’s name in order to view the Veteran History Screen. If the Veteran does not have an existing Veteran record in HOMES, follow the instructions in the following section to create a new Veteran record.

Follow the instructions for each item below to create a detailed and accurate Veteran record.

Name

The Veteran’s first, middle, and last name and suffix should be collected to support the unique identification of each person served. This information is collected at intake through an interview or forms completed by the Veteran. Clinicians should seek to obtain legal names only and avoid aliases or nicknames. Enter all available Veteran information into the fields provided.

Date of Birth

Enter the month, day and year of birth for every Veteran served. If a Veteran cannot remember the year of birth, ask for his or her age and calculate the approximate year of birth. If a Veteran cannot remember the month or day of birth, record an approximate date of “01” for month and “01” for day. Approximate dates for month and day will allow calculation of a person’s age within one year of their actual age. Record the appropriate date of birth type in the field provided. Date of birth should be collected at intake through an interview or forms completed by the Veteran.

Gender

Select male, female or other from the drop-down list. Gender should be assigned based on the Veteran's self-perceived gender identity. Ask the Veteran with which gender he or she associates and record the reported gender in the field provided. This information is collected at intake through an interview or forms completed by the Veteran.

Social Security Number

Record the Veteran's nine-digit SSN in the field provided. Confirm the number by retyping it in the field labeled "Confirm SSN". SSN is a unique identifier crucial for collecting accurate, unduplicated information. This information is collected at intake through an interview or forms self-administered by the Veteran.

Form Verification and Submission

It is critical that the user verifies the Veteran's information in CPRS before adding it to the HOMES system. A mistake in this record (such as an incorrect SSN) will cause problems when the user searches for the Veteran at a later date. It may also result in errors on forms that are completed on this Veteran. If an error is made, contact NEPEC after the Veteran record has been submitted so it may be corrected. Contact information can be found in Appendix A.

The Veteran record is created when the user clicks the "Add New Veteran" button.

The screenshot shows the 'Add/Edit Veteran' form in the HOMES system. The form is titled 'Add/Edit Veteran' and is part of the 'VA Homeless Operations Management and Evaluation System (HOMES)'. The user is logged in as 'DVA\vacoberman'. The form contains the following fields and values:

- Homes Veteran ID: 687
- Last Name: John *
- First Name: Smith *
- Middle Initial: [Empty]
- Date of Birth: 03/04/1980 *
- Sex: Male *
- SSN Type: Full SSN Reported *
- SSN: 987654321 *
- Confirm SSN: 987654321 *

A red message indicates 'Veteran Successfully added/updated'. Below the form are four buttons: 'Save Veteran Information', 'Add/Edit Veteran Contact Information', 'View Veteran History', and 'Search for another Veteran'.

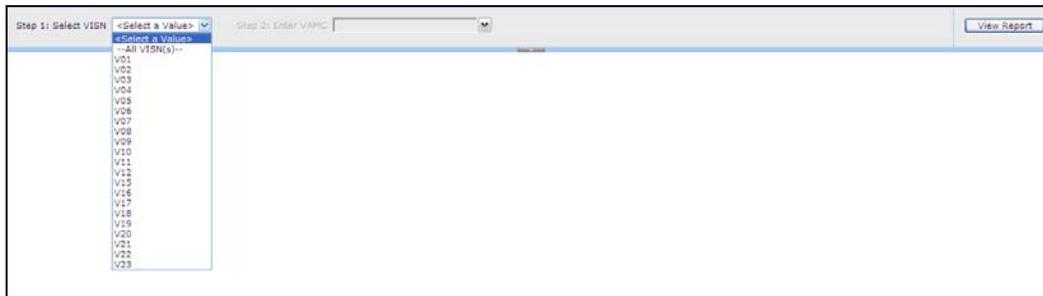

3. Tracking Veteran Status

Operation Reports

Operation reports provide VA staff members with access to three databases: "List of Veterans Referred," "List of Veterans not admitted to Program" and "List of Veterans Transferred." From the "Main Page" screen, access one of these databases by clicking on the corresponding button. Upon selecting a database, a new Internet Explorer window will open.

In the first tab, open the drop down list using the mouse and select a VISN by checking the box adjacent to the VISN number. Only one VISN may be selected.

Using the same process, select the VAMC(s) from the drop down list. More than one may be selected.

Click the “View Report” button to view results of the search. Navigate the database using the tools displayed above the database. Use the arrow buttons to change pages. To search for a Veteran, enter the Veteran’s name or SSN in the text field. Additional options also include saving and exporting data and printing the report.

Within the database, seven Veteran data categories are included. These categories are: Veteran ID, Veteran Name, SSN, DOB, VA Site, Dt (date) Referred and Program Referred To. Use the arrows at the next to the category name to sort information alphabetically or numerically.

Click a Veteran’s name to change his or her status.

Step 1: Select VSN | V01 Step 2: Enter VAMC (V01) (402) TOGUS, (V01) (402)M View Report

D. Assessment Form

1. General Instructions

The initial form that VA specialized homeless program staff will complete is the Assessment Form. A HOMES episode is initiated when a clinician completes and submits the Assessment Form. The date this form is completed is the HOMES episode start date. See Appendix F for a copy of the Assessment Form Worksheet.

2. When to complete and submit the Assessment Form

VA specialized homeless program staff should enter the online Assessment Form during or as soon as possible following the completion of the interview.

3. Who may complete and submit the Assessment Form

An Assessment form is completed by VA specialized homeless program staff. Clerks, other non-clinicians and non-VA staff should not complete this form.

4. Completing the Assessment Form

Search for the Veteran by clicking the “1. Add/Edit Veteran(s) and Form(s)” button on the VA HOMES Main Page. Enter the Veteran’s SSN, first or last name, or HOMES Veteran ID and click the “Search for Veteran” button. Locate the appropriate Veteran from the list and click the “Select” button. On the Veteran History Screen, click the “Add Assessment /Intake Form” button to access the form.

After navigating to the “Veteran History” screen, begin completing the Assessment Form by clicking the “Add Assessment/Intake Form” button.

III. Assessment Interview	Assessment Form
7. What race do you most strongly identify with?	
<p>Race is used to count the number of homeless persons who identify themselves within five different racial categories. Ask the Veteran which race he or she identifies with most strongly and select the corresponding response from the drop down list. Staff observations should not be used to collect information on race.</p> <p>Definitions of each of the race categories are as follows:</p> <p>1 = American Indian or Alaska Native is a person having origins in any of the original peoples of North and South America, including Central America, and who maintains tribal affiliation or community attachment.</p> <p>2 = Asian is a person having origins in any of the original peoples of the Far East, Southeast Asia or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam.</p> <p>3 = Black or African American is a person having origins in any of the black racial groups of Africa. Terms such as “Haitian” can be used in addition to “Black or African American.”</p> <p>4 = Native Hawaiian or Other Pacific Islander is a person having origins in any of the original peoples of Hawaii, Guam, Samoa or other Pacific Islands.</p> <p>5 = White is a person having origins in any of the original peoples of Europe, the Middle East or North Africa.</p>	
8. What ethnicity do you most strongly identify with?	
<p>Ethnicity is used to count the number of homeless persons who identify themselves as Hispanic or Latino. Ask the Veteran which ethnic background he or she identifies with most strongly and select the corresponding response from the drop down list. Staff observations should not be used to determine ethnicity.</p> <p>The definition of Hispanic or Latino ethnicity is a person of Cuban, Mexican, Puerto Rican, South or Central American or other Spanish culture of origin, regardless of race.</p>	
9. What is your current marital status?	
<p>Select the response from the drop down list that corresponds with the Veteran’s current/most recent marital status. For example, if the Veteran was married and then separated, choose separated.</p>	
10. How many children under the age of 18 do you have?	
<p>Enter the number of the Veteran’s children that are under the age of 18. Include biological children, adopted children, stepchildren and foster children. Describe the Veteran’s <u>current situation</u>.</p> <p>Declined/Omitted: If the Veteran declined to respond or the interviewer omitted the question, enter “N”.</p>	

III. Assessment Interview	Assessment Form

<p>19. Did you ever receive hostile or friendly fire in a combat zone?</p>	
<p>Indicate whether the Veteran received hostile or friendly fire in a combat zone by selecting the corresponding response from the drop down list.</p>	

V. Living Situation	Assessment Form
20. During the past 30 days, how many days did you sleep in the following kinds of places?	
<p>Ask the Veteran where he or she slept during the <u>last 30 days</u> (1 month).</p> <p>Declined/Omitted: If the Veteran declined to respond or the interviewer omitted the question, select the appropriate response from the drop down list.</p> <p>20a-t. For items 20a-t., determine and enter the number of days (out of 30) the Veteran spent in each of the listed settings. Make sure that the responses for 20a-t total 30 days, unless the Veteran declined to response or the interviewer omitted the question.</p> <ul style="list-style-type: none"> • For items a-e, select the response that includes the type of housing subsidy, if any, the Veteran received. A housing subsidy may be tenant-, project- or sponsor-based and provides ongoing assistance to reduce rent burden. This includes either a housing subsidy provided through the HUD-VASH program or other housing subsidy. Other housing subsidies may include a HUD-funded subsidy (e.g., public housing, Housing Choice Voucher or “Section 8”) or other housing subsidy (e.g., state rental assistance voucher). • Please note that item 20t (places not meant for habitation) includes places such as enclosed bus stops, ATM buildings and lobbies of buildings which are closed for the night. 	
21. In which of the above locations did you sleep last night?	
<p>Use the letter codes a-t to indicate where the Veteran slept last night (i.e. the night before the Assessment was completed).</p> <p>Declined: If the Veteran declined to answer, enter “98”.</p> <p>Omitted: If the interviewer omitted the item, enter “99”.</p>	
22. What is the zip code of that location?	
<p>Record the five-digit zip code of where the Veteran slept last night in the field provided (i.e., the code indicated in item 12). If the zip code is unknown, enter “N”.</p> <p>The zip code is used to identify the former geographic location of Veterans experiencing homelessness or current geographic location of Veterans who are at risk of homelessness.</p>	
23. Are you living with others at that location?	
<p>Determine whether the Veteran is living with others at the location where the Veteran slept last night. Select the response from the drop down list that accurately represents the Veteran’s answer.</p> <p>YES: If the Veteran is living with others, answer items 23a-d.</p> <p>If yes, does the household include: For items 23a-d, select a response from the drop down list that best reflects the Veteran’s current living situation.</p> <p>23a. Spouse/Significant Other: Select a response from the drop down list that indicates whether</p>	

V. Living Situation	Assessment Form
<p>the Veteran currently has a spouse or significant other.</p> <p>23b. Children Under 18: Determine the number of children under 18 living in this household and enter the number in the field provided. If no children under 18 are living at this location, enter “0”.</p> <p>23c. Related Adults: Determine the number of related adults currently living in this household and enter the number in the field provided. If no related adults are living at this location, enter “0”.</p> <p>23d. Unrelated Adults: Determine the number of unrelated adults currently living in this household and enter the number in the field provided. If no unrelated adults are living at this location, enter “0”.</p>	
<p>24. Housing Stability: How would you describe the current housing situation?</p>	
<p>Determine whether the Veteran is: literally homeless; imminently losing their housing; unstably housed and at-risk of losing their housing, or stably housed. Select the corresponding response from the drop down list.</p> <p>Examples of Veterans who are literally homeless include those who are:</p> <ul style="list-style-type: none"> • Living in places not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport or camping ground; • In a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including hotels and motels paid for by Federal, State or local government programs for low-income individuals or by charitable organizations, congregate shelters and transitional housing for homeless persons); • In a hospital or other institution, if the person was sleeping in an emergency shelter or other place not meant for human habitation (cars, parks, streets, etc.) immediately prior to entry into the hospital or institution; • Fleeing a domestic violence situation. <p>Veterans who are imminently losing their housing include those who:</p> <ul style="list-style-type: none"> • Are currently housed and not literally homeless; • Are imminently losing their housing, whether permanent or temporary; • Have no subsequent housing options identified; and • Lack the resources or support networks needed to retain current housing or obtain temporary or permanent housing. <p>Examples of imminent housing loss include:</p> <ul style="list-style-type: none"> • Being evicted from a private dwelling unit (including housing they own, rent or live in without paying rent, are sharing from others and rooms in hotels or motels not paid for by Federal, State or local government programs for low-income individuals or by charitable

<p>organizations);</p> <ul style="list-style-type: none"> • Being discharged from a hospital or other institution; • Living in housing that has been condemned by housing officials and is no longer considered meant for human habitation. <p>Veterans who are unstably housed and at-risk of losing their housing include those who:</p> <ul style="list-style-type: none"> • Are currently housed and not literally homeless or imminently losing their housing; • Are experiencing housing instability, but may have one or more other temporary housing options; and • Lack the resources or support networks to retain or obtain permanent housing. <p>Housing instability may be evidenced by:</p> <ul style="list-style-type: none"> • Frequent moves because of economic reasons; • Living in the home of another because of economic hardship; • Being evicted from a private dwelling unit (including housing they own, rent, or live in without paying rent, are sharing with others, and rooms in hotels or motels not paid for by Federal, State or local government programs for low-income individuals or by charitable organizations); • Living in a hotel or motel not paid for by Federal, State or local government programs for low-income individuals or by charitable organizations; • Living in severely overcrowded housing; • Being discharged from a hospital or other institution; or • Otherwise living in housing that has characteristics associated with instability and an increased risk of homelessness. <p>Veterans who are stably housed are in a stable housing situation and not at risk of losing this housing (i.e., do not meet the criteria for any of the other housing response categories).</p>	
<p>25. How long have you been homeless?</p>	
<p>Please do not take short-cuts in completing this item! To answer this item, ask the Veteran the following two questions. Then determine the length of homelessness using the calculation described below:</p> <p>1. When was the last time you had an apartment, room or house in which to live for 30 days or more?</p> <p>[Note to clinician: use your judgment when determining what constitutes a regular residence. Other people’s homes count as a regular residence if the Veteran had a regular sleeping place there, could receive mail and was not expected to be only a temporary guest.]</p> <p>2. Since that time, how long have you spent in a hospital, a residential treatment facility or a correctional facility?</p>	

V. Living Situation	Assessment Form
<p>To calculate the length of homelessness subtract the number of days spent in a hospital, residential treatment or correctional facility (question 2) from the number of days since the Veteran last had a home for 30 days or more (question 1).</p>	
<p>26. How many separate episodes of homelessness have you experienced in the last three years?</p>	
<p>Determine the number of homeless periods the Veteran experienced during the past three years and select the corresponding response from the drop down list.</p> <p>If the Veteran is currently homeless, include the current episode in this count. It may take time and additional questioning to obtain accurate information about instances of homelessness during the past year.</p>	
<p>27. What is the total amount of time, if any, that you have spent in jail or prison during your lifetime?</p>	
<p>Select the response that corresponds with the total amount of time that the Veteran has spent in either jail or prison in his or her lifetime.</p>	

VI. Employment and Income	Assessment Form
<p>28. Which best describes your employment pattern in the last 3 years?</p>	
<p>Select the response from the drop down list that best reflects the Veteran’s employment pattern during the majority of the past three years. If the Veteran was employed one and a half years and unemployed for one and a half years, choose his or her most recent employment situation.</p>	
<p>29. How many days did you work for pay in the past 30 days?</p>	
<p>Enter the total number of days that the Veteran worked for pay during the past 30 days. Do not include days off (e.g. weekends and holidays).</p> <p>Declined: If the Veteran declined to answer, enter “N”.</p> <p>NO: If the Veteran did not work for pay during any of the past 30 days, enter “00”.</p>	
<p>30. Did you receive any money in the past 30 days?</p>	
<p>Select the response from the drop down list that best reflects whether the Veteran received any money in the past 30 days. E. Supplemental Referral Form

1. General Instructions

The Supplemental Referral Form is used to refer Veterans to other programs. The Veteran may be enrolled in more than one program at a time (except for residential programs). See Appendix G for a copy of the Supplemental Referral Form Worksheet.

2. When to complete and submit the Supplemental Referral Form

This form is available upon submission of original Assessment and through 30 days after ending a HOMES episode. If it is outside this timeframe, the clinician will need to initiate a new HOMES episode by completing a new Assessment Form.

3. Who may complete and submit the Supplemental Referral Form

Input permission is granted by NEPEC to the case managers and workers listed in the programs below. A VA clinician should complete and submit the form. Clerks, other non-clinicians and non-VA staff should not complete this form.

4. Completing the Supplemental Referral Form

Search for the Veteran by clicking the “1. Add/Edit Veteran(s) and Form(s)” button. Use the Veteran’s SSN, first or last name, or HOMES Veteran ID to search for the Veteran. Select the appropriate Veteran from the list and click the “select” button. After navigating to the “Veteran History” screen, begin completing the Supplemental Referral Form by clicking the “Add Supplemental Referral Form” button.

The screenshot displays the 'Veteran History' page for a user logged in as 'DVA\jacobermam'. The page is divided into several sections:

- Personal Information:** A table showing Last Name: Thomas, First Name: John, SSN: 123045678, Date of Birth: 03/12/1980, and Sex: Male. Below this are buttons for 'Edit Veteran', 'Edit Veteran Contact Information', and 'Search for Another Veteran'.
- Assessment/Intake Forms Entered:** A table with columns: Date of Assessment, Primary VAMC, Secondary VAMC, Homeless Program Referrals, Edit Form, and View Form. One entry is shown for 04/10/2011 at VAMC 642.
- Supplemental Referral Forms Entered:** A section stating 'No Supplemental Referral forms entered' with an 'Add Supplemental Referral(s)' button.
- Residential Program Forms Entered:** A section stating 'No Residential program forms entered'.

I. HCRV Forms

1. HCRV Entry Form

a) General Instructions

Use this form for Veteran entry into the HCRV program. See Appendix K for the HCRV Entry Form Worksheet.

b) When to complete and submit the HCRV Entry Form

The HCRV Entry Form is to be completed on Veterans who are within 6 months of release. Specialists should make sure that corrections and Veterans know your main function and usefulness is to Veterans who are within 6 months of release. By regulation we cannot provide treatment and by policy we are limited to pre-release Assessments no earlier than 6 months before release. This form should be completed and submitted as soon as a decision has been made regarding a Veteran's entry into the program.

c) Who may complete and submit the HCRV Entry Form

Staff members who fill out the HCRV Entry Form should be regular staff of the HCRV program or staff of another mental health program who conduct outreach to correctional facilities that is consistent with the HCRV model as a defined part of their position. "Correctional facilities" include prisons, jails, federal- or state-funded correctional halfway houses or work release programs. Clerks, other non-clinicians and non-VA staff should not complete this form.

d) Completing the HCRV Entry Form

Search for the Veteran by clicking the "1. Add/Edit Veteran(s) and Form(s)" button. Enter the Veteran's SSN, first or last name, or HOMES Veteran ID and click "Search for Veteran" button. Locate the appropriate Veteran from the list and click the "Select" button. On the Veteran History Screen, click the "Add HCRV Entry Form" button to access the form.

J. VJO Forms

1. VJO Entry Form

a) General Instructions

Use this form for Veteran entry into the VJO program. See Appendix L for the VJO Entry Form Worksheet.

b) When to complete and submit the VJO Entry Form

This form should be completed and submitted as soon as a decision has been made regarding a Veteran’s entry into the program.

c) Who may complete and submit the VJO Entry Form

Staff members who fill out the VJO entry form should be regular staff of the VJO program or staff of another VA mental health program who conduct outreach to courts and correctional facilities that is consistent with the VJO model as a defined part of their position. For VJO, “correctional facilities” include jails, but not prisons or federal- or state-funded correctional halfway houses or work release programs. Clerks, other non-clinicians and non-VA staff should not complete this form.

d) Completing the VJO Entry Form

Search for the Veteran by clicking the “1. Add/Edit Veteran(s) and Form(s)” button. Enter the Veteran’s SSN, first or last name, or HOMES Veteran ID and click the “Search for Veteran” button. Locate the appropriate Veteran from the list and click the “Select” button. On the Veteran History Screen, click the “Add VJO Entry Form” button to access the form.

3. VJO Exit Form

a) General Instructions

Use this form to document Veteran exit from the VJO program. See Appendix L for the VJO Exit Form Worksheet.

b) When to complete and submit the VJO Exit Form

This form should be completed and submitted as soon as it is determined that the Veteran will exit the VJO program

c) Who may complete and submit the VJO Exit Form

Staff members who fill out the VJO Exit Form should be regular staff of the VJO program or staff of another VA mental health program who conduct outreach to courts and correctional facilities that is consistent with the VJO model as a defined part of their position. For VJO, “correctional facilities” include jails, but not prisons or federal- or state-funded correctional halfway houses or work release programs. Clerks, other non-clinicians and non-VA staff should not complete this form.

d) Completing the VJO Exit Form

Search for the Veteran by clicking the “1. Add/Edit Veteran(s) and Form(s)” button. Enter the Veteran’s SSN, first or last name, or HOMES Veteran ID and click the “Search for Veteran” button. Locate the appropriate Veteran from the list and click the “Select” button. On the Veteran History Screen, click the “Add VJO Exit Form” button to access the form.

IV. Frequently Asked Questions

A. Who has access to HOMES?

VA specialized homeless program clinical staff of the HCHV, HCHV Contract Residential Treatment, GPD, DCHV, CWT/TR, HUD-VASH, HCRV and VJO programs.

Administrative support staff, other non-clinicians may have read-only access; non-VA staff will not have access.

B. Who can input data?

Input permission is granted by NEPEC to VA specialized homeless program staff of the HCHV, HCHV Contract Residential Treatment, GPD, DCHV, CWT/TR, HUD-VASH, HCRV and VJO programs.

C. Who can generate reports?

NEPEC will generate reports to support field staff; additionally, HOMES data will serve as input to a Homelessness Services Data Cube that is currently in development.

D. What data is shared with HMIS?

Although there are plans to integrate HOMES data and HMIS data in the Homeless Registry, decisions about sharing VA data with HMIS are currently pending.

E. How can I access HOMES if I am in the field?

HOMES is implemented in a VA intranet site; therefore it can be accessed through a laptop PC, if a connection to the VA network can be made via VPN software (RESCUE). Alternatively, you can use data entry worksheets and then enter the information into HOMES when you return to the office.

F. When can I stop sending in NEPEC data?

NEPEC evaluation systems for the VA specialized homeless programs will phase out through attrition. That is, episodes of care that were started in NEPEC data collection systems (HCHV-ODC, HUD-VASH-ODC, DCHV Form Z and CWT/TR Form TR) should be completed in those systems; all new activity should be recorded in HOMES.

G. Won't HOMES slow down the intake and engaging process with the Veteran?

No, once you are familiar with the data input process, this actually can be quicker than paper and pencil or the current ODC method. Sharing of information between forms will speed things up even more.

H. Will I still have to input notes in CPRS?

Yes, this first version will require you to cut and paste the HOMES data into a CPRS note as you do now with the ODC. Future generations of HOMES will automatically interface with CPRS.

I. The search for a client's SSN shows a matching record, but when I click on the "select this client" link, nothing happens.

To avoid this problem, please ensure that (1) the screen resolution on the PC monitor is set to a minimum of 1024 x 768 and (2) no other parts of the Internet Explorer browser (such as "favorites", "search", "browsing history") are open and sharing the IE window with the HCHV system. (3) the screen is maximized Reference Appendix B for instructions on how to configure browser settings.

J. While entering a form, I did something that jumped me out of the form and returned me to the previous screen. What do I do? Did I lose the form?

In Internet Explorer, the BACKSPACE key is a shortcut for the Back button which returns you to the previous page that was displayed. If the cursor is in a drop-down field and you hit the BACKSPACE key, the browser will display the previous page. If this occurs, click the browser's Forward button to return to the form that you were entering. Reference Appendix B for instructions on how to configure browser settings.

K. After searching for a client record that I previously added to the system, I received a message that there is no match. What do I do?

Contact the appropriate NEPEC staff person (see Appendix A) who will work with you to determine if an error was made when the client record was entered into the system.

L. What do I do if I realize that a form I submitted contains an error?

Contact the appropriate NEPEC staff person who will correct the error.

M. When I try to submit an admission record, I receive a message that the admission date overlaps with a previous residential program episode. What do I do?

Cancel and return to the client history so that you can view the previous residential episodes and identify the problem. Contact the appropriate NEPEC staff person who will work with you to explain the problem and correct any errors if necessary.

N. Should an Assessment be fully conducted if it is already known or quickly discovered that the Veteran is not eligible for VA healthcare?

Yes, Assessments may be done on veterans who may or may not be eligible for VA healthcare. Veterans who are not eligible for VA healthcare are still eligible for the Grant & Per Diem program. In addition, some Veterans will be contacted, but will not be ready or willing to receive homeless services.

O. Should a Veteran be referred to a program when it is known that resources within that program are currently limited (e.g., no available vouchers in HUD-VASH prior to interview of Veteran)?

Veteran referrals are dependent on the referring clinician's knowledge of the current status of the Veteran and specific program. If the clinician determines a referral to a specific program is not a viable option at that point in time, an alternative plan should be developed.

P. Can Veterans simultaneously receive services from more one program? If so, what forms must be completed?

A Veteran can be in only one residential program at a time (HCHV contract residential treatment, GPD, DCHV, CWT/TR), but a veteran can receive other services concurrently (e.g., a Veteran may be in a GPD program but also receive services from VJO). HOMES enables Entry Forms for all programs to which a Veteran has been referred.

Q. Must a Veteran's episode be closed before they are entered into a new program?

Not necessarily. A Veteran may be enrolled in multiple programs at the same VAMC at the same time.

R. Can a Veteran simultaneously receive services from programs at more than one VA medical center (VAMC)?

No. An episode in HOMES records all services received at a single VAMC; when a Veteran's care changes to a new VAMC, a new HOMES episode must be initiated.

Appendix B: Instructions to Configure Browser Settings

It is critical for customers to have their browser settings properly configured in order to access the VSSC web site and to run reports available there. The following information and instructions are provided to help customers properly configure their browsers for optimum use. If an error message is received when trying to configure your browser settings, contact your local Information Resource Management (IRM) office.

When using HOMES, please ensure that the Internet Explorer (IE) window is maximized. Close other parts of the IE window such as "favorites", "browser history" or "Search". Some links in HOMES will not operate correctly if these other windows are displayed.

It is important to have a current browser installed on your PC that supports proxy settings, such as Microsoft Internet Explorer (IE) 6.0 or higher. It is strongly recommended that customers using earlier versions of IE upgrade to version 6.0 or higher. These instructions focus on IE, due to its widespread use throughout VHA, and because the VSSC web site is viewed with any versions of Netscape that are currently available.

Note: If you currently use VPN to access a VHA server, make sure that VPN is connected first. If you are using Windows XP, please note the highlighted instructions for XP users at the end of this document.

If there are any questions about the following instructions, please send an e-mail message to us using this link http://klfmenu.med.va.gov/FAQ/HD_request.asp.

<p>Browser Configuration Instructions for Users Unable to Access Internet Sites Through a Proxy Server</p>

Microsoft Internet Explorer (IE) (6.0 or higher)

1. Click "Tools", then "Internet Options" then click the "Connections" tab at the top.
2. Click the "LAN Settings" button.
3. Make sure "Use a proxy server" is not checked.
4. Click "OK"
5. Click the "Security" tab.
6. Click the "Local Intranet" icon to highlight it.
7. Click the "Sites" button
8. Make sure the boxes for all three settings for webs to be included are checked.

9. Click the "Advanced" button.
10. Enter http://*.va.gov into the "Add this Web site to the zone" box.
11. Click the "Add" button.
12. Repeat steps 10 and 11 for the following web address: https://*.va.gov (note the https..., which makes this entry different from the one in step 10)
13. Click "OK" twice until back at the Internet Option box.
14. Click the "Advanced" tab.
15. Scroll down to the Security section
16. Check the checkbox labeled, Enable Integrated Windows Authentication*
17. Close and then re-open IE

Changing Security Settings

One of the primary reasons that users cannot get to the VSSC web site (or are prompted for the NT UserID) is that the security setting on the browser is set too high. Following are instructions for adjusting the security level.

Microsoft Internet Explorer (IE) 6.0 or higher

1. Click "Tools", then "Internet Options" then click the "Security" tab at the top.
2. Click the Custom Level button at the bottom of the dialog box.
3. Reset custom settings to Medium, Medium-low or Low.
4. Click the Reset button.
5. Click "Yes" to the question "Are you sure you want to change the security settings for this zone?"
6. Click "OK" to exit all dialog boxes that are open.

Removing Cached Pages

In addition to the above, it may be necessary to ensure that all cached of the VSSC web site pages have been removed:

1. Click "Tools", then "Internet Options" then click the "General" tab at the top.
2. In the Browsing History or Temporary Internet Files section (depending on which version of IE you are using), click the "Settings" button.

3. Check for newer versions of stored pages: please be sure “Every time I visit the webpage” is checked with a green dot.
4. Click the “View Files” button.
5. From the Edit menu, choose “Select All”.
6. Depending on the version of IE: Right mouse click and choose “Delete” or use the delete button on the keyboard. Click “Yes” to the question “Are you sure you want to delete the selected cookies.”

Entering Your UserID/Password/Domain Information

Some sites have special network configurations that prevent users from being able to reconfigure their browser settings. If you are unable to reconfigure your browser settings, you can refer to the guidelines provided here to complete the UserID/Password/Domain fields to access the VSSC web page.

Please note these prompts need to be completed with your network userid/password/domain information (i.e., the information you use to logon to your PC each day), not your Austin access codes. If you need assistance, please contact your local Information Resource Management Service (IRMS) or contact the VSSC KLF Help Desk at http://klfmenu.med.va.gov/FAQ/HD_request.asp.

Browser Configuration Instructions for Users Required to Access Internet Sites Through a Proxy Server

Although most of VHA does not use proxies, there are still a few sites that do. If you are at one of those sites, please follow these instructions to configure your browser. If you are not sure if this pertains to your site, contact your local IRMS.

Microsoft Internet Explorer (IE) 6.0 or higher

- Open Microsoft IE.

- Click “Tools”, then “Internet Options” then click the “Connections” tab at the top.
- Click the “LAN settings” button. Make sure the boxes “Automatically detect settings” and “Use automatic configuration script” are NOT checked.
- Check the box “Use a proxy server”
- Check the box “Bypass proxy server for local addresses”. If you enable proxies and wish to browse web pages on the VA intranet as well as the internet, it is essential that you enable the setting that bypasses the proxy server for intranet sites. Access response times to intranet sites can be decreased ten-fold by bypassing proxy servers as well as freeing up the pipes and the gateways to perform tasks they were meant to do.
- Depending on your geographical location, enter one of the following addresses into the address box: gk-west.va.gov, gk-cent.va.gov, or gk-east.va.gov (See * note below.)
- In the “Port” box type 80
- Click the Advanced button next to the “Port” box. Make sure the “proxy address to use” and “port” information that were typed in the previous screen appear in the HTTP box. If not, enter the information.
- Check the “Use the same proxy server for all protocols” box.
- Type the following information into the “Exceptions” box: *.va.gov and 10.*
- Click “OK” to exit all dialog boxes that are open.

Appendix D: Referral Program Descriptions

Case Management Services

HUD-VASH Case Management Services:

The HUD-VASH program provides permanent supported housing services to Veterans who are literally homeless and have a psychiatric or substance abuse disorder. HUD-VASH case management is intensive, especially early in a Veteran's involvement with the program. The ultimate goal of the program is to offer the homeless Veteran an opportunity to rejoin the mainstream of community life, to the fullest extent possible.³

HCHV Case Management Services:

The HCHV program is primarily an outreach program that serves Veterans who do not visit VAMCs on their own. Case management services are targeted at homeless mentally ill Veterans and may include referral to VA outpatient mental health programs and residential treatment.⁴

Residential Treatment/Transitional Housing

HCHV Emergency Housing Program:

Emergency Housing is designed to offer immediate, short-term housing for Veterans. While in the program, Veterans are assigned to a case manager who works with them to identify their reasons for homelessness and outline next steps in obtaining housing stability.

HCHV Contract Residential Treatment:

Contracted services at community-based residential treatment facilities include on-site group and individual counseling, life skills education, medication management and a structured environment that reinforces the principles of sober living. The intended stay for Veterans in these programs is approximately two months. Veterans who have more than \$1,000 monthly income; live in their own apartment, room or house; or have no psychiatric or substance abuse disorder may be considered lower priority for this program. However, there is notable variability with respect to these criteria across sites. Clinical judgment may outweigh other considerations. For example, a Veteran with a psychotic disorder who is about to be evicted may be appropriate for placement, even if he is in his own home the day of his Assessment.⁵

HCHV Safe Haven Program:

Safe havens provide immediate, accessible housing to chronic homeless Veterans. Safe havens also provide Veterans with access to other VA resources.

GPD Transitional Housing:

The GPD program establishes transitional housing and support services to homeless veterans through partnerships with community nonprofit and local government agencies. Per diem payments support ongoing operational support for transitional housing facilities. Some community partners may also receive assistance for the construction or renovation of the facilities. Veterans entering the GPD program face economic, medical, substance abuse and psychiatric problems.⁶

DCHV Residential Treatment:

The DCHV program offers rehabilitative services for physically and mentally ill or aged homeless Veterans who need assistance but are not in need of the level of care offered by hospitals and nursing homes. The program for homeless Veterans is designed to reduce the use of more expensive inpatient treatment, improve health status, and reduce the likelihood of homelessness through employment and other assistance.⁷

CWT/TR Residential Treatment:

The CWT program provides work experience and skills to Veterans with disabilities with the intent for them to re-enter the workforce and maintain employment on their own. Through this program, VA may employ Veterans directly, find work for Veterans at other federal agencies, or enter into contracts with private companies or nonprofit organizations that provide work opportunities for Veterans. As part of the program, Veterans receive wages commensurate with those for similar work in the community with the goal that ongoing work experience and earnings help Veterans to become self-sufficient.⁸

Other MH RRTP Residential Treatment (e.g., SA RRTP, PTSD RRTP, General RRTP):

A MH RRTP provides residential rehabilitative and clinical care to eligible Veterans who have a wide range of problems, illnesses, or rehabilitative care needs, including mental health, SUD, co-morbid medical, homelessness, vocational, educational, or social. MH RRTP includes Domiciliary Residential Rehabilitation Treatment Programs (DRRTP), Domiciliary Care for Homeless Veterans (DCHV), Health Maintenance Domiciliary, General Domiciliary (General Dom) or Psychosocial Residential Rehabilitation Treatment Programs (PRRTP), Domiciliary PTSD (Dom PTSD) or Post-Traumatic Stress Disorder Residential Rehabilitation Treatment Program (PTSD-RRTP), Domiciliary SA (Dom SA) or Substance Abuse Residential Rehabilitation Treatment Program (SARRTP), or CWT/TR.⁹

Services for Justice-Involved Veterans

Veterans Justice Outreach (VJO):

The purpose of the VJO initiative is to avoid the unnecessary criminalization of mental illness and extended incarceration among Veterans. The program is designed to ensure Veterans have timely access to VHA mental health and substance abuse services when clinically indicated as well as access to other VA services and benefits, as appropriate. Each VAMC has a VJO Specialist, who conducts direct outreach, Assessment, and case management for justice-involved Veterans. The VJO Specialist also fosters relationships with local justice system partners.¹⁰

VJO Specialists will complete the Assessment Form and on Veteran's referred to VJO the Entry Form will be completed at the same time.

Healthcare for Re-entry Veterans (HCRV):

The goal of the HCRV program is to address the community re-entry needs of incarcerated Veterans by preventing homelessness; reducing the impact of medical, psychiatric, and substance abuse problems upon community re-adjustment; and decreasing the likelihood of re-incarceration. HCRV services include outreach and pre-release Assessments services for Veterans in prison; referrals and linkages to medical, psychiatric, and social services; and short-term case management assistance.¹¹

HCRV Specialists will complete the Assessment Form and on Veteran's referred to HCRV the Entry Form will be completed at the same time. Staff will use the Assessment and Entry worksheets and will enter the data into HOMES when they return to the office as laptops are not allowed in prisons.

VA Prevention Services

HUD-VA Pilot:

The HUD-VA pilot program serves Veterans at risk of homelessness. The program is designed to provide housing and intensive case management, targeting areas with a large number of returning Veterans.¹²

Supported Service for Veterans Families (SSVF):

The SSVF program offers supportive services to very low-income Veteran families residing in or transitioning to permanent housing with the goal of promoting housing stability and preventing at-risk families from becoming homeless. VA awards grants to private non-profit organizations and consumer cooperatives that provide supportive services. To receive supportive services under this program, one must be a member of a Veteran family (e.g., a single person or a family in which the head of household or the spouse of the head of household is a Veteran), very low-income (e.g., income does not exceed 50% of area median

income as adjusted), and “occupying permanent housing” (e.g., residing in permanent housing, scheduled to become a resident of permanent housing within 90 days, or having exited permanent housing within the previous 90 days to seek other preferable housing).¹³

Rapid Re-housing:

The Homeless Prevention and Rapid Re-Housing Program (HPRP) was established by the American Recovery and Reinvestment Act to support homelessness prevention and rapid re-housing assistance. Financial assistance includes payment of rent or utilities, moving costs, security deposits, and services such as landlord outreach, landlord-tenant mediation, and housing-based case management services.¹⁴

VA Treatment Services

VA Emergency Room:

Emergency room services can be performed for medical or psychiatric issues.

VA Detoxification Services:

Detoxification services support sobriety and provide Veterans with drug and alcohol rehabilitation programs.

VA Mental Health or Substance Abuse Services:

Mental health or substance abuse services focus on treatment and rehabilitation. Hospitalization may also be part of the treatment regimen.

VA Medical Services:

Medical services are offered as part of inpatient and outpatient treatments.

VA Vocational Rehabilitation Programs (including VA CWT/SE):

Vocational rehabilitation programs such as CWT/SE help Veterans gain employment. Jobs offer skills training and development so that Veterans may become self-sufficient. CWT/SE provides support for Veterans diagnosed with a serious mental illness who might not otherwise find employment.¹⁵

VBA Services

Disability Compensation:

Disability benefits are a tax-free compensation benefit paid to a Veteran because of injuries that happened or diseases that were contracted while on active duty or exacerbated by active military service. Disability compensation may also be paid to certain Veterans disabled from VA health care.¹⁶

¹⁶ <http://www.vba.va.gov/bln/21/compensation/index.htm>

Pension Benefits:

Pension benefits are paid to wartime Veterans who have limited or no income and are age 65 or older. In order to receive pension benefits under the age of 65, the Veteran must be permanently and totally disabled. Veterans who are more seriously disabled may qualify for Aid and Attendance or Housebound benefits.¹⁷

Education:

Veterans may be eligible for education assistance under the Post-9/11 GI Bill.

Loan Guaranty:

Veterans may be eligible for a VA-backed home loan. If a Veteran is not able to make payments on the loan, then VA will cover losses the lender might incur.¹⁸

Vocational Rehabilitation and Employment:

The Vocational Rehabilitation and Employment (VR&E) VetSuccess program assists Veterans with service-connected disabilities to prepare for, find, and keep suitable jobs. Veterans are eligible if they have received a discharge that is other than dishonorable, have a service-connected disability rating of at least 10% or a memorandum rating of 20%+ from VA, and apply for VR&E VetSuccess services.¹⁹

Insurance:

Veterans may be eligible for a variety of life insurance policies.

Non-VA Services:

Basic Services:

Basic services include food, clothing, transportation, etc. These services may come from a variety of programs/sources.

Non-VA Housing:

Housing can be offered to Veterans through agencies and programs not affiliated with VA.

Non-VA Social Vocational Assistance:

Social assistance helps individuals and families become productive members of society by offering a variety of services including vocational assistance. Social services can also relate to food, housing, healthcare, and childcare.

Non-VA Income Resources and Non-Cash Benefits:

Grants and other benefits may be available to Veterans through non-VA organizations.

Supplemental Security Income (SSI) or Social Security Disability Income (SSDI):

Veterans may be eligible for disability benefits paid under SSI or SSDI, both of which are Federal programs providing assistance to people with disability benefits.

¹⁸ <http://www.benefits.va.gov/homeloans/lp.asp>

¹⁹ <http://www.vba.va.gov/bln/vre/index.htm>

Temporary Assistance for Needy Families (TANF):

TANF is designed to help needy families achieve self-sufficiency. Veterans may qualify for assistance in their state.

Food Stamps or Supplemental Nutrition Assistance Program (SNAP):

Food stamps and SNAP are designed to provide a means of obtaining food. SNAP benefits can be used to purchase food or seeds and plants that produce food.

General Assistance (GA):

GA programs offer support for people unable to work. Financial assistance may be used to cover medical expenses.

Women, Infants, and Children (WIC):

Veterans may qualify for WIC, a food assistance program that helps pregnant women, new mothers and young children eat well and stay healthy.

Non-VA Emergency Room:

Emergency room care can be for medical or psychiatric issues.

Non-VA Detoxification Services:

Detoxification services are designed to help treat individuals with a drug or alcohol addiction.

Non-VA Mental Health or Substance Abuse Services:

Mental health and substance abuse services offer treatment and rehabilitation.

Scoring Guide for Alcohol Use Assessment

<p>Please rate your client's use of alcohol during the last 30 days according to the following scale. If the person is in an institution, the reporting interval is the time period prior to institutionalization. You should weight evidence from self-report, interviews, behavioral observations, and collateral reports (family, day center, community etc.) in making this rating.</p>	
<p>Client has not used alcohol during this time interval.</p>	<p>Abstinent=1</p>
<p>Client has used alcohol during this time interval, but there is not evidence of persistent or recurrent social, occupational, psychological, or physical problems related to use and no evidence of recurrent dangerous use.</p>	<p>Use Without Impairment=2</p>
<p>Client has used alcohol during this time interval and there is evidence of persistent or recurring social, occupational, psychological, or physical problems related to use and no evidence of recurrent dangerous use. For example, recurrent alcohol use leads to disruptive behavior and housing problems. Problems have persisted for at least one month.</p>	<p>Abuse=3</p>
<p>Meets criteria for use without impairment, plus at least three of the following: greater amounts or intervals of use than intended, much of time used obtaining or using substance, frequent intoxication or withdrawal interferes with other activities, important activities given up because of alcohol use, continued use despite knowledge of substance related problems, marked tolerance, characteristic withdrawal symptoms, alcohol (drugs) taken to relieve or avoid withdrawal symptoms. For example, drinking binges and preoccupation with alcohol have caused client to drop out of job training and non-alcohol social activities.</p>	<p>Dependence=4</p>
<p>Meets criteria for dependence plus related problems are so severe that they make non-institutional living difficult. For example, constant drinking leads to disruptive behavior and inability to pay rent so that client is frequently reported to police and seeking hospitalization.</p>	<p>Dependence With Institutionalization=5</p>
