

Accessing UpToDate®

The new UpToDate link (<https://vacoweb02.dva.va.gov/VALNETCC/uptodate>) eliminates the need for VA users to enter their personal username and password every time they use UpToDate.

The first time you access the new UpToDate link, you will be brought to the Registration page.

1. If you are a new UpToDate user with no current Username and Password, complete all registration fields and then click *Submit Registration*.
2. If you already have an UpToDate Username and Password from a Personal Subscription or previous access, click the blue *Log In* hyperlink at the top of the Registration page. The Log In page will display. Sign in with your existing credentials. This will retain all of your current CME/CE records.
3. Upon completion of the registration process you will receive a verification code via email. Enter the code and you will receive a confirmation email from UpToDate with instructions on downloading the Mobile App.

Registration/Log In through the new UpToDate link is a one-time process and you will be automatically signed in moving forward when you access UpToDate through this method.

NOTE: The new UpToDate link is only valid while on the VA network, including VPN. When off the VA network, users should use the current link <http://www.uptodate.com>, which will still require their UpToDate username and password. The new link will not connect when working off the VA network, as it is on the VA intranet.
