JOHN G. NUTT, M.D.
Professor, Department of Neurology and Physiology & Pharmacology
Director, Parkinson Center of Oregon
Director, Portland VAMC Parkinson’s Disease Research, Education and Clinical Center (PADRECC)

John Nutt, M.D., earned his degree at Baylor College of Medicine in Houston, Texas. He completed his internship at OHSU and his residency at the University of Washington Medical School. Nutt joined OHSU’s faculty in 1978 as assistant professor of neurology and pharmacology.

Nutt is dedicated to improving therapies for movement disorders, particularly Parkinson’s disease. He has studied Parkinson’s disease for nearly three decades. He is an active speaker at neurological conferences worldwide and has been widely published. Nutt is a fellow of the American Academy of Neurology.

MARTY SALINSKY, M.D.
Professor, Department of Neurology
Director, Epilepsy Center

Dr. Salinsky graduated from the State University of New York at Stony Brook School of Medicine and trained in Internal Medicine and Neurology at the University of Wisconsin, Madison. He completed fellowship in Clinical Neurophysiology and Epilepsy and came to OHSU in 1987 to start the Comprehensive Epilepsy Center, now in its 20th year.

His clinical interests have centered on the treatment of medically refractory seizures using epilepsy surgery, neural stimulation, and novel antiepileptic drugs. Research studies have investigated the effects of antiepileptic drugs on cognition and quantitative EEG.

JAMES C. ANDERSON, M.D.
Assistant Professor Neuroradiology Neuroradiology Section Chief Diagnostic Radiology Residency Director Neuroradiology Fellowship Director

Dr. Anderson completed radiology residency in 1995 and was in private practice for 4 years prior to his Neuroradiology fellowship at Vanderbilt University. In 2001 he relocated to Portland and OHSU where he became associate residency director for the radiology residency program. In 2006, he became the residency director for diagnostic radiology and chief of neuroradiology. His primary areas of interest are in education and in advanced CT imaging. He has earned awards for teaching from the radiology residency programs at Vanderbilt University and OHSU as well as from the Neurology residency program at OHSU.

DENNIS BOURDETTE, M.D.
Chairman and Roy and Eulaila Swank Family Research Professor Department of Neurology Director, MS Center of Oregon Co-Director, MS Center of Excellence- West Portland, VAMC

Dr. Bourdette is a graduate of the University of California at Davis School of Medicine, completed his neurology residency at OHSU, and was a postdoctoral fellow in neuroimmunology at the Portland VA Medical Center. His area of special interest is the immunopathogenesis and treatment of multiple sclerosis and other neuroimmunologic diseases.

The author or coauthor of numerous journal articles and book chapters, Dr. Bourdette’s work has been published in periodicals such as Nature Medicine, Neurology, Multiple Sclerosis, the Journal of Immunology, CNS Drugs, the Journal of Neuroscience Research, and the Journal of Neuroimmunology.

LOCAL SPEAKERS

ACREDITATION
Oregon Health & Science University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT
OHSU School of Medicine, Division of CME, designates this educational activity for a maximum of 5.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
This neurologic multi-specialty course is designed for practicing clinical and research neurologists and neuroscientists. The course will provide updated information on new clinical trials and updated research findings as well as current options for diagnosing and treating neurology patients. At the conclusion of the program, the attendees will have improved knowledge of surgical options for epilepsy; managing difficult Alzheimer cases; treating insomnia, multiple sclerosis, ALS, movement disorders and proper uses of neuroradiology. This is an excellent opportunity for neurologists and neuroscientists to update their knowledge base and exchange information among each other.

### MORNING SESSIONS

Supported in part by: TEVA Neuroscience, MS Center of Excellence – PVAMC, EMD Serono/Pfizer, Biogen Idec and Valeant.

11:00 - 11:45  
Whitaker Lecture  
*The Viral Hypothesis of MS: Past and Present*  
Leslie Weiner, M.D.  
Professor, Department of Neurology, Keck School of Medicine  
University of Southern California

11:45 - noon  
Panel Question & Answers

noon - 1:00  
Lunch

**AFTERNOON SESSIONS**

1:00 - 1:45  
*Treatment and Research for ALS: What’s New?*  
Richard Barohn, M.D.  
Chairman, Department of Neurology  
Gertude and Dewey Ziegler Professor of Neurology  
University of Kansas Medical Center

1:45 - 2:30  
*Video Session: Common and Not So Common Cases from the OHSU Movement Disorders Clinic*  
OHSU Movement Disorders Clinic Staff  
Moderated by: John J. Nutt, M.D.  
Professor, Department of Neurology  
Director, Parkinson’s Center of Oregon  
Oregon Health & Science University

2:30 - 2:45  
Break

2:45 - 3:30  
*Neuroradiology: Interesting Neurologic Cases*  
James C. Anderson, M.D.  
Professor, Department of Neuroradiology  
Neuroradiologist, Neurology, Pediatric Neurology and Neuro-Oncology  
Oregon Health & Science University
ONEIL S. BAINS, M.D.
Dr. Bains is Director of the Insomnia program in the Sleep Disorders Center at Virginia Mason. He completed his medical degree at SUNY at Buffalo followed by his residency in Internal Medicine at Emory University. He was a faculty member in Internal Medicine at Emory University from 1999 to 2001 after which he completed his fellowship in sleep disorders at Stanford University.

RICHARD BAROHN, M.D.
Dr. Barohn graduated from the University of Missouri – School of Medicine in 1980. He then interned at Wilford Hall Air Force Medical Center at San Antonio’s Lackland Air Force Base, where he later completed his neurology residency. He completed his neuromuscular fellowship at Ohio State University. He served on active duty in the U.S. Air Force until 1989 and remained in the reserves until 2000, retiring as a Lieutenant Colonel.

From 1989 to 1993, Dr. Barohn was faculty at the University of Texas Health Science Center in San Antonio. After that, he joined the faculty at the University of Texas Southwestern Medical Center in Dallas where he directed the neuromuscular disease program and became acting chair of the neurology department in 1998.

In January 2001, Dr. Barohn came to the University of Kansas Medical Center as chair of the Department of Neurology and also serves as the director of the General Clinical Research Center and for the Heartland Institute for Clinical and Translational Research.

Throughout his career, Dr. Barohn has been intensely involved in educating future neurologists and neuromuscular specialists. He has developed and directed neurology, neuromuscular and clinical neurophysiology fellowship programs in Texas and Kansas and has received numerous teaching awards.

ELAINE PESKIND, M.D.
Dr. Peskind is a Professor in the Department of Psychiatry and Behavioral Sciences at the University of Washington School of Medicine in Seattle. She is Associate Director of the University of Washington Alzheimer’s Disease Research Center and Co-Director of the VA Northwest Network Mental Illness Research, Education, and Clinical Center. At the national level, Dr. Peskind is an elected member of the American College of Neuropsychopharmacology. Her research addresses stress hormones in aging and Alzheimer’s disease, spinal fluid biomarkers, and treatment for both the cognitive impairment and noncognitive behavioral problems of AD. She has conducted single site as well as multi-site large scale pharmacological treatment trials for behavioral disorders.

LESLIE P. WEINER, M.D.
Leslie P. Weiner, M.D. is Professor of Neurology and Molecular Microbiology and Immunology at the Keck School of Medicine of the University of Southern California. He also holds the Richard Angus Grant, Sr. Chair in Neurology. He received his B.A. at Wilkes College, Wilkes-Barre, Pennsylvania and an M.D. from the University of Cincinnati College of Medicine in Ohio. He completed his internship at the State University of New York in Syracuse, New York, and residency at The Johns Hopkins Hospital in Baltimore. He completed two fellowships: Medicine (Neurology) and Epidemiology at the The Johns Hopkins University School of Medicine and Immunology at the NIH Laboratory of Slow Virus Infections, NINDS at Laurel, Maryland. Dr. Weiner is actively involved in both laboratory and clinical research related to viral infections of the nervous system, autoimmune disorders, gene therapy, and of late, stem cells. Multiple sclerosis is his main area of interest.
NEUROLOGISTS IN THE 21ST CENTURY:
WHAT’S NEW FOR 2009?

SEPTEMBER 27, 2008

DOERNBECHER CHILDREN’S HOSPITAL
VEY Conference Room, 11th Floor
3181 SW Sam Jackson Park Rd • Portland, OR 97239-3011
Phone: (503) 494-8811

Parking Available at the Hospital, on the street and
in front of the Speech & Hearing Building

If you require accommodations, the closest hotels are:

RiverPlace Hotel 503-228-3233
SW Harbor Way, Portland, OR 97201

Portland Marriott Downtown 503-226-7600
401 SW Naito Parkway, Portland, OR 97201

Residence Inn by Marriott 503-552-9500
2115 Riverplace Parkway, Portland, OR 97201
