

CONSISTENT PRACTICE, COAST-TO-COAST

VA Locum Tenens: One nationwide system with 1,400 places you can go

In the private sector, you might have to change Locum Tenens agencies two or three times – and complete all the associated paperwork each time – to get where you want to go. VA has more than 1,400 facilities in all 50 States, the District of Columbia, and U.S. Territories. Because VA is a single, integrated health system, our Locum Tenens primary care providers can enjoy the variety of traveling the country without the headaches that usually accompany changing hospital systems. Here, you'll find consistent patient care delivery methods and a single Computerized Patient Record System that's networked nationwide. Learn it once, and it's smooth sailing after that.
