

# Travel to the Cutting Edge of Patient Care

VA Travel Nurse Corps: Work with nationally recognized technology.

Experts say that VA employees work with some of the most high-tech medical systems in the Nation. Our award-winning Computerized Patient Record System (CPRS) is networked across every VA facility, and our Bar Code Medication Administration (BCMA) system has significantly improved patient safety. As a VA travel nurse, you'll learn our systems at orientation and use that same knowledge at every new assignment.

VA travel nurses earn a competitive salary, plus many other benefits:

- Paid orientation
- Paid travel to, from, and during assignment
- Travel advances, as needed
- Government travel card
- Paid lodging at first-rate apartments and hotels
- Daily stipend for meals and incidentals
- Laundry and telephone support
- Online tools to track payroll and travel expenses
- Flexible assignment lengths
- Shift/weekend differentials and holiday pay
- One state license valid at every VA facility nationwide; no re-licensing required
- Unlimited opportunities across multiple practice settings

Join the high-tech team that provides veterans with the high-touch care they deserve.
