

## Dental Drug and Clinical Information

For more than 30 years, Lexicomp has delivered point-of-care drug information to our country's most renowned medical institutions. We are honored to provide our industry-leading resources to the Department of Veterans Affairs' dental personnel. Drug information is constantly evolving. To keep up with these changes and to provide the dental team instant access to accurate, timely information, Lexicomp's clinical content is available online and on Smartphone/mobile devices. Please review the instructions below to access these resources.

This resource is available to you courtesy of the VA Library Network.

**Lexicomp**  
Online™ for  
Dentistry

### A Complete Pharmacology and Clinical Resource

This Web-based application provides access to Lexicomp's trusted dental drug information plus a full library of dental-specific databases and supporting modules. Lexicomp Online for Dentistry provides instant medication alerts and patient-specific drug interaction analysis.

#### How to Access:

- Available from any VA network computer
- For on-site access, visit <https://online.lexi.com/lco?siteid=983>
- For remote access, register for an Athens account at <http://tinyurl.com/VAathens>  
(Note: you must complete this one time registration on-site in order to gain remote access)

**Lexicomp**  
On-Hand™

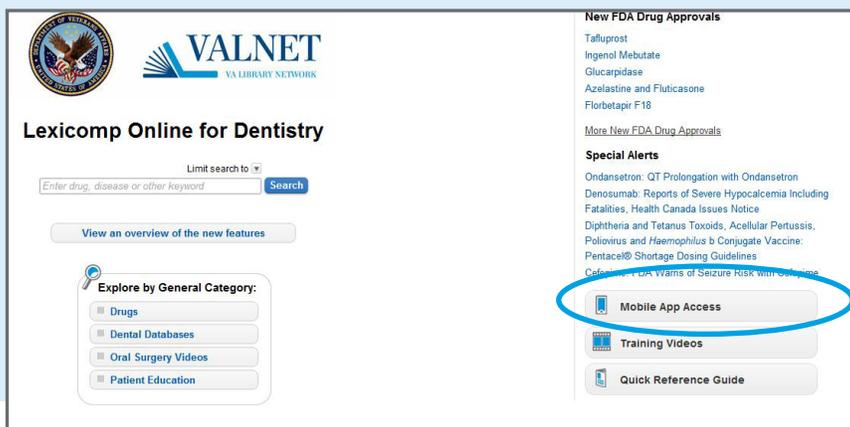

### Software for Mobile Devices

Lexicomp On-Hand software delivers Lexicomp's continually-updated content on handheld and mobile devices. Download the mobile software on all popular Smartphones, tablets and mobile devices.

#### How to Access:

- Follow instructions to access Lexicomp Online for Dentistry
- Click the link within Lexicomp Online: "Mobile App Access"
