COMPETITION

The competition will be set up in a single elimination tournament format. All matches will be best two out of three games. Third Place game will match the two losers of the two semi-final games against each other. All games will be subject to a 10 min time limit.

Nine Ball is a rotation game, meaning the balls are shot in numerical order. The shooter must strike the lowest numbered ball on the table first. The game is over when the 9-ball is legally pocketed. A player retains his/her turn at the table as long as he/she strikes the lowest numbered ball first and legally pockets a ball. He/she need not pocket the lowest numbered ball to continue shooting. For example, he/she may shoot the 1-ball into the 4-ball, thus pocketing the 4-ball. He/she will then continue shooting but must, once again, strike the 1-ball first. If the shooter hits the 1-ball into the 9-ball and the 9-ball is pocketed, the game is over and that shooter wins. Neither shots nor pockets need to be called.

Nine balls are used and are racked in a diamond shape. All fouls carry the ball in hand penalty anywhere on the table.

The NVGAG will provide towels, appropriate life guarding equipment, lane markers, and starting device. Swimmers must provide their own suits, caps, and goggles.

COMPETITION

All swimming events will be based on time. The number of racers in each heat will be based on the number of entries. The opportunity to warm-up in the pool prior to the race will be given at the discretion of the event’s Head Official. The order of finish (First, Second, Third Places) will be determined by best times for each event within each age division. Any swimmer who uses improper methods in order to obtain an advantage over his/her competition will be disqualified from that event.

Starts: The forward and backstroke starts must be taken by an in-water push from the wall. A false start will result in disqualification.

Turns: A turn is completed when some part of the swimmer’s body touches the wall. Flip turns are not allowed.

Backstroke: There are no rules pertaining to arm or leg movements. The swimmer is allowed to turn over on his/her stomach during the turn prior to touching the wall, and must touch the wall with some part of their body during each turn and at the finish. Flip turns are not allowed.

Freestyle: Swimmers must touch the wall with some part of their body during each turn and at the finish. Flip turns are not allowed. Any stroke may be used and swimmers may switch strokes whenever they wish.

COMPETITION

This competition will consist of 100m, 200m, 400m, 800m, 1500m, and 1 mile powerwalk. The number of heats will be determined by the number of entries. The order of finish (First, Second, and Third Places…) will be determined by best times for each event within each age division. Athletes must not wear clothing that could impede the view of the officials (i.e., the knees and legs must be clearly visible at all times), so athletic shorts or tights must be worn.

Power Walking is a progression of steps taken so the walker makes contact with the ground with no visible (to the human eye) loss of contact. The advancing leg can be bent as it passes under the body. Officials will look for loss of road contact (both feet off the ground at the same time) and an athlete can be disqualified if they receive three warnings from three separate officials.
