

File Security

All HBHC files are exported with FileMan security codes set to "@" for Data Dictionary, Read, Write, Delete, LAYGO, & Audit file access. Each of the files listed below will need the FileMan security code changed from "@" to an appropriate code for the HBHC service. Each service will need to determine the proper access level for their users.

Data Dictionary and Audit access are reserved for the IRMS staff. Delete access should NOT be allowed on any HBHC files since these files point to or are referenced by other files. Read and/or Write Access is granted by virtue of the menu options that reference each file.

NUMBER	NAME	DD	RD	WR	DEL	LAYGO	AUDIT
631	HBHC PATIENT	@	@	@	@	@	@
631.1	HBHC REJECT/WITHDRAWEL REASON	@	@	@	@	@	@
