

How to Get a Report On "Latered" Messages in Your Mailbox

You can use the Report on Later'd Messages option available on the Other MailMan Functions menu to display a list of messages that you've set to be new at a future date and time ("Latered").

The report provides the following information:

- **Date**—The date and time the message will be made new (i.e., "latered" date and time). Effective with MailMan V. 7.1 with Patch 50, the date includes a one or two-digit month, a one or two-digit day, and a four-digit year for greater clarity (e.g., 7/4/2000).
- **Basket**—The mailbox basket name where the "latered" message is located.
- **Msg ID**—The MailMan internal message identification number of the "latered" message.
- **Subject**—The subject of the "latered" message.

For more information on "Latering" messages, please refer to the "Later Messages ('L') Action" topic in Chapter 2 or "Later ('L') Action" topic in Chapter 3 in this manual.

To list your "Latered" messages, choose the Report on Later'd Messages option on the Other MailMan Functions menu, as shown below:

```
Select MailMan Menu Option: other MailMan Functions

      Report on Later'd Messages
      Change/Delete Later'd Messages
      Mailbox Contents List

Select Other MailMan Functions Option: report on Later'd Messages
DEVICE: HOME// <RET> Telnet terminal
