Registration (DG) Patch DG*5.3*1106

Release Notes

October 2023

Department of Veterans Affairs

Table of Contents

Introduction

The release of patch DG*5.3*1106 addresses an issue of the Created by Site (#.09) field of the PRF Assignment History (#26.14) file not being stored for certain 'Edit' actions.

Purpose

These release notes cover the changes to VistA Registration (DG) for this release.

Audience

This document targets users and administrators of VistA Registration (DG) and applies to the changes made between this release and any previous release for this software.

This Release

The following sections provide a summary of the new features and functions added, enhancements and modifications to the existing software, and any known issue for patch DG*5.3*1106 and related documentation.

New Features and Functions Added

There are no new features or functions added from patch DG*5.3*1106.

Enhancements and Modifications to Existing

Modified the Patient Record Flag option, Record Flag Assignment [DGPF Record Flag Assignment], to store the 'Originating Facility' when using any of the 'Edit Flag Assignment' actions. This will mimic the same process for when a new Patient Record Flag (PRF) is assigned.

Patch DG*5.3*1106 makes the following change:

- The software will now store the Originating Facility for the following 'Edit Flag Assignment' actions:

<div align="center">

Continue
Inactivate
Entered in Error
Reactivate

</div>

Known Issues

This release of this patch will not update or correct any existing PRF Assignment History (26.14) records that do not have a value for the Created by Site (#.09) field.
