Preface

This manual is designed to provide you with the information necessary to use the Integrated Funds Distribution, Control Point Activity, Accounting and Procurement (IFCAP) system to report, record, and amend Purchase Card purchases. The IFCAP package has automated certain functions in Acquisition and Materiel Management Services (A&MM), Fiscal Service, and all of the services that request supplies and services.

Chapter 1. Introduction

1.1 The Role of the Purchase Card User

Purchase Card Users use Purchase Cards to pay for goods and services, and use IFCAP to report these purchases. Purchase Card Users also review the payments that the Credit Card Vendor makes to the Purchase Card account. After the Purchase Card User matches the payment to the Purchase Card order (Reconciliation), the Approving Official approves the Reconciliation.

This manual will teach you how to use IFCAP (Integrated Funds Distribution, Control Point Activity, Accounting and Procurement) to record purchases, edit Purchase Card orders, report receipt of goods and services bought with a Purchase Card, review an FMS payment report, approve payments Reconciled (Approving Officials only,) create reports. The manual will also show users how to convert a Purchase Card order into a Delivery Order or into a VA Form 2237 for completion as a Purchase Order and/or delivery order.

This manual explains how to perform the role of the Purchase Card User by dividing that role into small, manageable tasks. The authors of this manual have listed these tasks in successive order so that each instruction builds on the functionality and information from the previous instructions. This will allow new Purchase Card Users to use this manual as a tutorial by following the instructions from beginning to end. Experienced Purchase Card Users can use this manual as a reference tool by using the index and table of contents.

1.2 Reference Numbering System

This manual uses a special paragraph numbering system to allow users to understand how the sections of the manual relate to each other. For example, this paragraph is section 1.3. This means that this paragraph is the main paragraph for the third section of Chapter 1. If there were two subsections to this section, they would be numbered sections 1.3.1 and 1.3.2. A paragraph numbered 1.3.5.4.7 would be the seventh subsection of the fourth subsection of the fifth subsection of the third subsection of Chapter 1. All clear? Actually, all this means is that users that want to divide their reading into manageable lessons can concentrate on one section and all of its subsections, e.g., section 1.3.5 and all of its subsections would make a coherent lesson.

1.3 Legal Requirements and Security Measures

IFCAP allows only the person who enters an order or their approved surrogate to edit that order. This is a security measure that prevents users from altering the requests of others. Due to the nature of the information being processed by IFCAP, special attention has been paid to limiting usage to authorized individuals. Individuals in the system who have authority to approve actions, at whatever level, have an **electronic signature code**. This code is required before the documents pass to a new level for processing or review. Like the access and verify codes used when gaining access to the system, the electronic signature code will not be visible on the terminal screen. These codes are also encrypted so that even when viewed in the user file by those with the EXAMPLEest levels of access, they are unreadable. Electronic signature codes

are required by IFCAP at every level that currently requires a signature on paper. To designate IFCAP Purchase Card Users, the IFCAP Purchase Card Coordinator will use the Purchase Card Registration - option.

1.4 Package Operation

IFCAP automates fiscal, budgetary, inventory, billing and payment activities. To accomplish all of these tasks, IFCAP consists of several functional components, each responsible for a similar set of tasks:

- **Funds Distribution (Fiscal Component)**
- **Funds Control (Control Point Component)**
- **Processing Requests (Control Point Component)**
- **Purchase Orders/Requisitions (A&MM Component)**
- **Accounting (Fiscal Component)**
- **Receiving (A&MM Component)**
- **Inventory (A&MM/Control Point Component)**

As a Purchase Card User, you are affecting Control Point balances. Different kinds of IFCAP users have different menus. If the menus in this manual don't include options that you see on your screen, don't panic! The instructions in this manual only use the options that you have as a Purchase Card User. If you don't know what to enter at an IFCAP prompt, enter one, two or three question marks and IFCAP will list your available options or explain the prompt. The more question marks you enter at the prompt, the more information IFCAP will provide.

The options you use on IFCAP have been divided into groups based upon the type of work you do. When you select these options, IFCAP will ask you a series of questions. If you do not understand the question or are unsure of how to respond, enter a question mark (?) and the computer will explain the question, or allow you to choose from a list of responses.

1.5 FMS-ET VENDOR FIELDS

You must populate the field FMS-ET Vendor Code using the Site Parameters option before your site can use the Purchase Card Reconciliation process. A second field is the FMS-ET Alternate Address Indicator. Currently the FMS-ET Alternate Address Indicator is to be left blank.

THIS PAGE INTENTIONALLY LEFT BLANK

Chapter 2. Record Card Purchases in IFCAP

2.1 Introduction

To ensure that balances are accurate for the Control Point which funds purchases made via your Purchase Card, all such purchases must be recorded in IFCAP.

2.2 Determine What Kind of Purchase Card Order to Enter

If you need to record the purchase of goods or services that will be delivered after purchase, create a *detailed* Purchase Card order (see 2.4 below). You should also create a detailed Purchase Card order if you need to enter information about specific items being tracked in an inventory point. Otherwise, create a *simplified* Purchase Card order (see 2.3 below).

Note: No procurement history is collected on Simplified Orders.

2.3 Enter a Simplified Purchase Card Order

2.3.1 Introduction

The option allows you to log enough information about the purchase that you can easily reconcile it with the payment from CitiBank. In the background, IFCAP will create the appropriate **CONTROL POINT ACTIVITY (#410)** and **PROCUREMENT & ACCOUNTING TRANSACTIONS (#442)** file entries. IFCAP will populate many of the fields in this option with values from the **Purchase Card Information** file. This option also allows you to edit these fields and enter other details about the purchase.

This option may not be used to enter purchases where the cost exceeds \$2500. For orders over \$2500, you *must* use the **New Detailed Purchase Card Order** option (see 2.4 below).

2.3.2 Menu Path

From the **Purchase Card Menu**, select the **New Detailed Purchase Card Order** option.

```

2.3.3 Prompts

1. Enter a station number if prompted. Usually the primary station number will be the default. Press <Enter> to accept the default, or type in the required station number and then press <Enter>.
2. Enter the purchase order number series. This is a common number series already defined for use on Purchase Card orders at your station. IFCAP will generate the next available purchase order number and prompt you, “Are you adding ‘[PO #]’ as a new Purchase Order Number?”
3. Enter the substation. If the facility has been integrated with another facility you may be prompted for a Substation. Enter the appropriate Substation number. **If your station is not integrated, this prompt will not appear.**
4. At the Purchase Card Name: prompt, if you have more than one Purchase Card, enter the Purchase Card name you are using to purchase the items or services.
5. At the P.O. Date: prompt, enter the date of the new purchase order.
6. At the PCDO Vendor: prompt, enter the vendor for the Purchase Card order. If you wish to use a vendor that is *not* in the Vendor File, enter the word SIMPLIFIED at the prompt. At the FREE TEXT Vendor: prompt, enter the name of the vendor you wish to use.
7. At the FCP: prompt, enter the Fund Control Point for the order. IFCAP will use the information associated with the Purchase Card as the default value for this prompt. Make sure that you change the value if it is different from the default.
8. At the ????: prompt, enter the cost center for the order. Cost centers allow Fiscal staff to create total expense records for a section or service. IFCAP will supply a default value for this prompt based on the information associated with the Purchase Card. Make sure that you change the value if it is different from the default.
9. At the Classification of Request: prompt, create a classification name for the request if you like, or press <Enter> to skip this prompt. The Classification of Request: prompt allows you to create reports that group requests by categories that YOU define.

10. At the `Purchase Cost:` prompt, enter the cost of the purchase. If the cost exceeds \$2500.00, the following message will appear and you will not be allowed to proceed. The message “COST CANNOT EXCEED \$2500.00 - YOU MUST USE DETAILED PURCHASE CARD!!” will appear.
11. At the `???:` prompt, enter a description of the purchase.
12. At the `BOC:` prompt, enter the Budget Object Code for the purchase. If you do not know the BOC, enter two question marks at the prompt and IFCAP will display the available BOCs. IFCAP will supply a default value for this prompt based on the information associated with the Purchase Card. Make sure that you change the value if it is different from the default.
13. At the `???:` prompt, enter comments if you like.
14. If this purchase is assigned to a project, office, or some other category for which a sort group has been created, at the `Sort Group:` prompt, enter a sort group. If this purchase does not belong to a sort group, just press <Enter>. Sort groups are used to generate expense reports for projects and offices. Make sure that you include all applicable purchases in the sort group and exclude all purchases that do not belong to the sort group.
15. At the `Select Sub-Control Point:` prompt, you can associate this purchase with a category of purchases defined by the Fund Control Point. This allows you to group similar purchases together.
16. At the `$Amount:` prompt, enter the amount that you want to charge the Sub-Control Point.
17. You may review the Purchase Card order if you like. IFCAP will display the new Purchase Card order to your screen.
18. You will now be prompted for your Electronic Signature Code.
19. You may print the Purchase Card order using the output device you specified.

Note: If the order is over \$2500.00 or is on a contract, you *cannot* use the Simplified Purchase Card option. You *must* use the Detailed Purchase Card option!

2.4 New Detailed Purchase Card Order

2.4.1 Introduction

If you need to record the purchase of goods or services that will be delivered after purchase, or you are tracking items in an inventory point create a detailed Purchase Card order. You should

also create a detailed Purchase Card order if you need to enter information about specific items on the order. **Note: Use of the Detailed Purchase Card Order updates the Procurement History File in Austin.** Otherwise, create a simplified Purchase Card order.

2.4.2 Menu Path

From the Purchase Card Menu, select Process Purchase Card Menu.

```
Select Purchase Card Menu Option:  Process Purchase Card Menu

Select Process Purchase Card Menu Option: New Detailed Purchase Card Order
```

2.4.3 Prompts

1. Enter a station number if prompted.
2. Enter the purchase order number series. This will be a common number series already defined for use on Purchase card orders at your station. IFCAP will generate the next available purchase order number and prompt you, 'Are you adding (PO #) as a new Purchase Order Number?'
3. Enter a substation, if applicable.
4. If you have more than one Purchase Card, enter the Purchase Card name you are using to purchase the items or services at the Purchase Card Name: prompt. The option is "case-sensitive".
5. Enter the date of the order at the P.O. Date: prompt.
6. Enter N at the Estimated Order?: Answer Y if the quantity is estimated or the due to the service an exact price cannot be given at the time of the order.
7. Enter the Source Code.
8. Enter the vendor for the Purchase Card order at the PCDO Vendor: prompt
9. Enter the Fund Control Point for the order at the FCP: prompt. IFCAP will use the information associated with the Purchase Card as the default value for this prompt. Make sure that you change the value if it is different from the default.

Record Card Purchases in IFCAP

10. Enter the Cost Center. Cost centers allow Fiscal staff to create total expense records for a section or service. IFCAP will use the information associated with the Purchase Card as the default value for this prompt. Make sure that you change the value if it is different from the default.
11. Enter the Requesting Service. Enter the service that has requested the goods being ordered.
12. At the Classification of Request: prompt, create a classification name for the request if you like, or press <Enter> to skip this prompt. The Classification of Request: prompt allows you to create reports that group requests by categories that **YOU** define.
13. Enter Y at the Receiving Required?: prompt if this Purchase Card order is for goods or services that have not yet been received and you wish to record the receipt as part of the record. You will then be offered the Delivery Location: prompt. Enter the building, floor and/or room number the items are to be delivered to
14. Enter O for origin at the F.O.B. (Freight On Board) Point: prompt if additional freight charges are due to the carrier at the time of delivery. Enter D for destination if no additional freight charges are due at time of delivery.
15. Enter the date that the purchase is due at the Delivery Date: prompt.
16. Enter the name of the vendor representative that quoted the purchase price at the Proposal: prompt, and the date of the quote or a quote number if they are available (for example, 'telephone quote IFVENDOR,ONE quote #001 dated 3-10-95'). Enter the estimated shipping and handling charges.
17. If shipping and handling charges are entered you will have to enter a Shipping BOC as well.
18. Enter the line item number of the item you want to add to the Purchase Card order at the Select Line Item Number: prompt.
19. Enter the Item Master File number of the item if there is an Item Master File number associated with the item. If there is none, hit "ENTER"
20. Enter a description of the first item order at the Description: prompt. If you used an Item Master Number the description information will appear automatically.
21. Enter the quantity of the item to be ordered at the "Quantity": prompt.
22. At the "Unit Of Purchase": prompt, enter the unit used to buy the item, such as box, each, pound, etc.
23. Enter the unit cost of the item, not including delivery, at the Actual Unit Cost: prompt.
24. Enter the number of units per shipping package at the Packaging Multiple: prompt.
25. Enter the factor that you use to convert the packaging multiple to the unit of purchase at the Unit Conversion Factor: prompt.
26. At the Vendor Stock Number: prompt, enter the stock number supplied by the vendor for the item.

27. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.
 28. At the Contract/BOA #: prompt, enter a contract number if the purchase price and vendor is established by a purchasing contract with that vendor.
 29. Enter the Budget Object Code classification for the item at the BOC: prompt. If you do not know the Budget Object Code, enter two question marks at the prompt and IFCAP will display the available Budget Object Codes.
 30. Repeat steps 17 through 28 for each line item that you want to add.
 31. Enter comments if you like.
 32. Enter a sort group at the Sort Group: prompt if this purchase is assigned to a project, office, or some other category for which a sort group has been created. If this purchase does not belong to a sort group, just press <Enter>. Sort groups are used to generate expense reports for projects and offices. Make sure that you include all applicable purchases in the sort group and exclude all purchases that do not belong to the sort group.
 33. Enter a Sub-Control Point if you are using that feature.
 34. Enter the Type Code. This is the procurement method/type of business.
 35. Enter the Competitive Status. A double question mark may be entered for a list of possible entries.
 36. Enter the Preference Program Code. A double question mark may be entered for a list of possible codes. Only the listed codes are allowed.
 37. Enter the reason the order was not competed.
 38. Enter the number of vendors submitting a bid.
 39. Enter the solicitation procedures. Solicitation procedures are to be used for orders under and over \$25K.
 40. Enter a Funding Agency Code. This is a 4-character code from FIPS Pub. 95 to indicate the funding agency. Leave this field blank, if funding was not provided by another agency.
 41. Enter Yes or No, depending on whether this is a multi-year contract.
 42. Enter NA, if this is not a service contract; yes, if 50% or more of this contract is performance based; and no, if 50% or less of this contract is performance based.
 43. You may review the Purchase Card order if you like.
 44. Enter your electronic signature code.
 45. You may send the Purchase Card order to a printer if you like. IFCAP will display the cost of the request and the current Control Point balance.
 46. Enter another purchase order number at the Purchase Order: prompt, or press <Enter> to return to the Purchase Card Menu.

2.5 Editing Purchase Card Orders

2.5.1 Edit, Amend, or Adjust Purchase Card Orders

There are three ways to change Purchase Card orders:

- **Editing** a Purchase Card order is changing the order *before* you certify the Purchase Card order with your electronic signature code.
- **Amending** a Purchase Card order is changing a Purchase Card order *after* you have certified the purchase order with your electronic signature code and prior to receipt of items/services. To amend a Purchase Card order, see section 9.2, Amendment to Purchase Card Order.
- **Adjusting** a Purchase Card order is decreasing the quantity received on a receiving report for a Purchase Card order. To adjust a Purchase Card order receiving report, see section 9.3, Adjustment Voucher to Purchase Card Order.

NOTE: The options Amendment to Purchase Card Orders and Adjustment to purchase Card orders are explained in Chapter 9 as part of the Supplemental Purchase Card Options.

2.5.2 Editing a Simplified Purchase Card Order

2.5.2.1 Introduction

Editing a Purchase Card order will allow you to change the order before you certify it with your electronic signature code. All previously entered data will appear as default data.

2.5.2.2 Menu Path

From the Purchase Card Menu, select Process Purchase Card Menu.

Select Purchase Card Menu Option: Process Purchase Card Menu

```
New Simplified Purchase Card Order
Edit Simplified Purchase Card Order
New Detailed Purchase Card Order
Edit Detailed Purchase Card Order
Amendment To Purchase Card Order
Adjustment Voucher To Purchase Card Order
Receive Purchase Card Order
Item Display
Vendor Display
Create P/C Order From Repetitive Item List
Convert P/C Order To 2237 Request
Convert P/C Order to a Delivery Order
Cancel An Incomplete PC Order
Convert Temporary 2237 to PC Request
```

Select Process Purchase Card Menu Option: Edit Simplified Purchase Card Order

2.5.2.3 Prompts

1. Enter a station number if prompted. Enter the number of the purchase order or requisition associated with the Purchase Card order at the P.O./REQ.NO.: prompt. If your station has substations, IFCAP will prompt you for the substation for which you are ordering the items. You can enter a question mark at the Substation: prompt to see a list of available substations. Enter the Purchase Card name.
2. Enter the date of the order at the P.O. Date: prompt. Enter TODAY or a future date only.
3. Enter the vendor for the Purchase Card order at the PCDO Vendor: prompt. IFCAP will look for the Vendor in the Vendor File (440). If you are using a new vendor you may enter the word SIMPLIFIED at the vendor prompt: and then IFCAP will offer you the PCDO Vendor:: prompt again. You may enter a new vendor now.
4. Enter the Fund Control Point for the purchase at the FCP: prompt.
5. Enter the Cost Center. Cost centers allow Fiscal staff to create total expense records for a section or service.

Record Card Purchases in IFCAP

6. At the Classification of Request: prompt, create a classification name for the request if you like, or press <Enter> to skip this prompt. The Classification of Request: prompt allows you to create reports that group requests by categories that **YOU** define.
7. Enter the cost of the purchase at the Purchase Cost: prompt.
8. Edit the description of the purchase at the Description: prompt.
9. Enter the Budget Object Code classification for the item at the BOC: prompt. If you do not know the Budget Object Code, enter two question marks at the prompt and IFCAP will display the available Budget Object Codes.
10. Enter comments if you want to.
11. Enter a Sub-Control Point if you like.
12. If you enter Y at the Review Purchase Card Order?: prompt, IFCAP will display the Purchase Card order to your screen.
13. Enter your electronic signature code. You may print the Purchase Card order if you like. IFCAP will display the cost of the request and the current balance of the Control Point that will fund the Purchase Card order.
14. Enter the output device for the Purchase Card order. Enter another purchase order number or requisition number at the P.O./Req. No.: prompt, or press <Enter> to return to the Process Purchase Card Menu.

Note: If the order is over \$2500.00 or is on a contract, you *cannot* use the Simplified Purchase Card option. You *must* use the Detailed Purchase Card option!

2.5.3.2 Prompts

Note: Previously entered data will appear as a default value. Do you want this note remarks have been entered with both edits?

1. Enter a station number if prompted.
2. Enter the number of the purchase order or requisition associated with the Purchase Card order at the P.O./REQ.NO.: prompt.
3. You can enter a question mark at the Substation: prompt to see a list of available substations. (Only appears if site has invoked the sub-station functionality)
4. Enter the Purchase Card name.
5. Enter the date of the order at the P.O. Date: prompt.
6. Enter N at the Estimated Order?: Answer Y if the quantity is estimated or due to the service an exact price cannot be given at the time of the order.
7. Enter the vendor for the Purchase Card order at the PCDO Vendor: prompt.
8. Enter the Fund Control Point for the purchase at the FCP: prompt.
9. Enter the Cost Center. Cost centers allow Fiscal staff to create total expense records for a section or service.
10. Enter the service requesting the order at the Request for Service: prompt.
11. At the Classification of Request: prompt, enter a classification name for the request if you like, or press <Enter> to skip this prompt. The Classification of Request: prompt allows you to create reports that group requests by categories that **YOU** define.
12. Enter Y at the Receiving Required?: prompt if this Purchase Card order is for goods or services that have not yet been received. Enter the Delivery Location at the Delivery Location: prompt,
13. Enter where you want the VENDOR to deliver the purchase at the Ship To: prompt.

14. Enter O for origin at the F.O.B. (Freight On Board) Point: prompt if additional freight charges are due to the carrier at the time of delivery.
15. Enter the date that the purchase is due at the Delivery Date: prompt.
16. #17 should go in here per the caption??
17. Enter the estimated shipping and handling charges.
18. Enter the name of the vendor representative that quoted the purchase price at the Proposal: prompt, and the date of the quote or a quote number if they are available (for example, 'telephone quote IFVENDOR,FOUR quote #001 dated 3-10-95').
19. Enter the line item number of the item you want to edit or add to the Purchase Card order at the Select Line Item Number: prompt.
20. Enter the Item Master File number of the item.
21. Enter a description of the item at the Description: prompt if you didn't enter an Item Master File number.
22. Enter the number of units of purchase received at the Quantity: prompt.
23. At the Unit Of Purchase: prompt, enter the unit used to buy the item, such as box, each, pound, etc.
24. Enter the unit cost of the item, not including delivery, at the Actual Unit Cost: prompt.
25. Enter the number of units per shipping package at the Packaging Multiple: prompt.
26. Enter the factor that you use to convert the packaging multiple to the unit of purchase at the Unit Conversion Factor: prompt.
27. At the Vendor Stock Number: prompt, enter the stock number supplied by the vendor for the item.
28. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.
29. At the Contract: prompt, enter a contract number if the purchase price and vendor is established by a purchasing contract with that vendor.
30. Enter the Budget Object Code classification for the item at the BOC: prompt. If you do not know the Budget Object Code, enter two question marks at the prompt and IFCAP will display the available Budget Object Codes.
31. Repeat steps 18 through 28 for each item you want to edit.
32. Add comments if you like.
33. Enter a sort group at the Sort Group: prompt if this purchase is assigned to a project, office, or some other category for which a sort group has been created. If this purchase does not belong to a sort group, just press <Enter>. Sort groups are used to generate expense reports for projects and offices. Make sure that you include all applicable purchases in the sort group and exclude all purchases that do not belong to the sort group.

Record Card Purchases in IFCAP

34. At the Select Sub-Control Point: prompt, you can associate this purchase with a category of purchases defined for the Fund Control Point. This allows you to group similar purchases together.
35. Enter the Type Code. This is the procurement method/type of business.
36. Enter the Competitive Status. A double question mark may be entered for a list of possible entries.
37. Enter the Preference Program Code. A double question mark may be entered for a list of possible codes. Only the listed codes are allowed.
38. Enter the reason the order was not competed.
39. Enter the number of vendors submitting a bid.
40. Enter the solicitation procedures. Solicitation procedures are to be used for orders under and over \$25K
41. Enter a Funding Agency Code. This is a 4-character code from FIPS Pub. 95 to indicate the funding agency. Leave this field blank, if funding was not provided by another agency.
42. Enter Yes or No, depending on whether this is a multi-year contract.
43. Enter NA, if this is not a service contract; yes, if 50% or more of this contract is performance based; and no, if 50% or less of this contract is performance based.
44. If you enter Y at the Review Purchase Card Order?: prompt, IFCAP will display the Purchase Card order to your screen.
45. Enter your electronic signature code.
46. You may print the Purchase Card order if you like. IFCAP will display the cost of the request and the balance of the Control Point that will fund the request. Other messages related to Inventory point due-ins and PHA transactions may appear.
47. Enter the output device for the Purchase Card order at the Queue On Device: prompt. IFCAP will print or display the Purchase Card order on the output device you selected.
48. Enter another purchase order number at the Purchase Order: prompt, or press <Enter> to return to the Process Purchase Card

Chapter 3. Create and Convert Orders

3.1 Introduction

Purchase Card orders may be generated from other IFCAP documents. For example, you may convert a *Repetitive Item List* (RIL) or *Temporary Transaction* into a Purchase Card order. A Purchase Card order may be converted back into a 2237 or Delivery Order if it is determined a Purchase Card order is not appropriate.

3.2 Create a PC order from a RIL

The user may create a Purchase Card order from an existing RIL.

3.2.1 Menu Path

Select Purchase Card Menu Option: PROCess Purchase Card Menu

SPO	New Simplified Purchase Card Order
ES	Edit Simplified Purchase Card Order
DPO	New Detailed Purchase Card Order
EDO	Edit Detailed Purchase Card Order
	Amendment To Purchase Card Order
	Adjustment Voucher To Purchase Card Order
	Receive Purchase Card Order
	Item Display
	Vendor Display
	Create P/C Order From Repetitive Item List
	Convert P/C Order To 2237 Request
	Convert P/C Order to a Delivery Order
	Cancel An Incomplete PC Order
	Convert Temporary 2237 to PC Request

Select Process Purchase Card Menu Option: CREATE P/C Order From Repetitive Item List

3.2.2 Prompts

Note: Data entered on the RIL will appear as a default value.

1. Select a RIL. If you don't know the RIL number, enter a question mark (?) to generate a list of RILs. All the information on the RIL will be displayed as a default value during the edit of the Purchase Card order. You may change these default data values if necessary.
2. Enter the common number series that is used for Purchase Card orders at the P.O./REQ.NO.: prompt.
3. Enter the Purchase Card name.
4. Enter the date of the order at the P.O. Date: prompt.

Create and Convert Orders

5. Enter N at the Estimated Order?: Answer Y if the quantity is estimated or due to the service an exact price cannot be given at the time of the order.
6. Enter the vendor for the Purchase Card order at the PCDO Vendor: prompt.
7. Enter the Fund Control Point for the purchase at the FCP: prompt.
8. Enter the Cost Center. Cost centers allow Fiscal staff to create total expense records for a section or service.
9. Enter the service requesting the order at the Request for Service: prompt.
10. At the Classification of Request: prompt, enter a classification name for the request if you like, or press <Enter> to skip this prompt. The Classification of Request: prompt allows you to create reports that group requests by categories that **YOU** define.
11. Enter Y at the Receiving Required?: prompt if this Purchase Card order is for goods or services that have not yet been received. Enter the Delivery Location at the Delivery Location: prompt.
12. Enter where you want the **VENDOR** to deliver the purchase at the Ship To: prompt.
13. Enter O for origin at the F.O.B. (Freight On Board) Point: prompt if additional freight charges are due to the carrier at the time of delivery.
14. Enter the date that the purchase is due at the Delivery Date: prompt.
15. Enter the name of the vendor representative that quoted the purchase price at the Proposal: prompt, and the date of the quote or a quote number if they are available.
16. Enter the estimated shipping and handling charges
17. Enter the line item number of the item you want to edit or add to the Purchase Card order at the Select Line Item Number: prompt.
18. Enter the Item Master File number of the item.
19. Enter a description of the item at the Description: prompt if you didn't enter an Item Master File number.
20. Enter the number of units of purchase received at the Quantity: prompt.
21. At the Unit Of Purchase: prompt, enter the unit used to buy the item, such as box, each, pound, etc.
22. Enter the unit cost of the item, not including delivery, at the Actual Unit Cost: prompt.
23. Enter the number of units per shipping package at the Packaging Multiple: prompt.
24. Enter the factor that you use to convert the packaging multiple to the unit of purchase at the Unit Conversion Factor: prompt.
25. At the Vendor Stock Number: prompt, enter the stock number supplied by the vendor for the item.

26. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.
27. At the Contract: prompt, enter a contract number if the purchase price and vendor is established by a purchasing contract with that vendor.
28. Enter the Budget Object Code classification for the item at the BOC: prompt. If you do not know the Budget Object Code, enter two question marks at the prompt and IFCAP will display the available Budget Object Codes.
29. Repeat steps 18 through 28 for each item you want to edit.
30. Add comments if you like.
31. Enter a sort group at the Sort Group: prompt if this purchase is assigned to a project, office, or some other category for which a sort group has been created. If this purchase does not belong to a sort group, just press <Enter>.
32. At the Select Sub-Control Point: prompt, you can associate this purchase with a category of purchases defined for the Fund Control Point. This allows you to group similar purchases together.
33. Enter another purchase order number at the Purchase Order: prompt, or press <Enter> to return to the Process Purchase Card Menu ,Select Process Purchase Card Menu Option: EDIT Detailed Purchase Card Order

```

Chapter 4. Convert PC Orders to Other Document Types

4.1 Introduction

The Purchase Card module permits a user to convert an Unsigned Purchase Card order to a 2237 or a delivery order which can then be processed utilizing the appropriate menu options for 2237's and delivery orders.

4.2 Convert a PC order to a 2237

This option will allow the user to convert the “unsigned” Purchase Card order back into a 2237. This might be necessary if the Vendor will not accept a credit card, or the user has exceeded their Single or Monthly Purchase Limit. The use of this option will eliminate the need to reenter all the order data.

4.2.1 Menu Path

SPO	New Simplified Purchase Card Order
ES	Edit Simplified Purchase Card Order
DPO	New Detailed Purchase Card Order
EDO	Edit Detailed Purchase Card Order
	Amendment To Purchase Card Order
	Adjustment Voucher To Purchase Card Order
	Receive Purchase Card Order
	Item Display
	Vendor Display
	Create P/C Order From Repetitive Item List
REQ	Convert P/C Order To 2237 Request
DEL	Convert P/C Order to a Delivery Order
	Cancel An Incomplete PC Order
TEMP	Convert Temporary 2237 to PC Request

Select Process Purchase Card Menu Option: DEL Convert P/C Order to 2237 Request

Use transaction 999-00-3-110-0106 to access this record from your fund
control point.
Conversion completed.
```

NOTE: Use the Control Point options to edit and complete the 2237.

4.3 Convert a 2237 to a Delivery Order

This option will allow the user to convert the “unsigned” Purchase Card order into a Delivery Order. This might be necessary if the Vendor will not accept a credit card, or the user has exceeded their Single or Monthly Purchase Limit and the items you are ordering are under contract. The use of this option will eliminate the need to reenter all the order data.

4.3.1 Menu Path

  Are you adding '999-U00037' as a new Purchase Order number ? Y
(YES)

This Purchase Card order has now been converted to a delivery order.
  The Purchase Card Order No: P05178 has been converted to Delivery
Order No: U00037

  This delivery order must be edited.
```

Note: Use the Delivery Orders module to edit and complete the order.

Chapter 5. Record Receipt of a PC Order

5.1 Introduction

The "Receive Purchase Card Order" option allows individuals with Purchase Card authority to receive goods within their area. The option is similar to the current Warehouse Receiving option but is limited to PURCHASE CARD orders that the user has set up for DIRECT delivery. The warehouse staff will record the receipt of items delivered to them using existing options in the Warehouse Menu. The Receive Purchase Card Order option also allows the user to update the due-ins in the Inventory Package thus eliminating the need to receive twice (once in the Purchase Card program and once in the Inventory Program). If the order is received in the warehouse, the warehouse will utilize their Warehouse Receiving option to receive the goods; however, there would still be a need for the authorized buyer to receive the goods into the Inventory Package. It will not be necessary for the approving official to "sign off" at the receiving process. The approving official will "approve" through the reconciliation process. There will be the capability to process partials on Purchase Card orders. If a partial is processed, the status will be updated to Partial Order Received. If the order is received as complete, the status of the order will be updated to Complete Order Received. There will be no receiving document printed in Fiscal and no FMS document created and transmitted to Austin.

5.2 Menu Path

Select Process Purchase Card Menu from the Purchase Card Menu.

Select Receive Purchase Card Order from the Process Purchase Card Menu.

Select Purchase Card Menu Option: Process Purchase Card Menu

- New Simplified Purchase Card Order**

Select Process Purchase Card Menu Option: Receive Purchase Card Order

5.3 Prompts

1. Enter a Purchase Card order number.
2. You can review the Purchase Card order if you like.
3. Enter the date you received the goods at the Date Received: prompt.
4. Enter the line item number for the items at the Line Item: prompt.
5. Enter the quantity that you are receiving.
6. Repeat steps 4 and 5 to enter additional line items.
7. IFCAP will display the receiving report.
8. You can approve the Receiving Report by entering a Yes at the prompt and by then entering your electronic signature code. If the item is part of the Inventory Point attached to the order, the GIP Receipt screen will open and the item may be received into the Inventory.
9. If you choose to print an additional copy of the receiving report enter a device at the prompt.
10. Enter another Purchase Card order at the Purchase Card Order: prompt, or press <Enter> to return to the Process Purchase Card Menu.

Chapter 6. Reconcile Payment Authorizations from FMS

6.1 Introduction

6.1.1 The Purchase Card Reconciliation Process

CitiBank transmits Purchase Card order transactions to the Credit Card System (CCS) at the Austin Finance Center (AFC). This computer updates its database and sends the payment transactions to FMS. The AFC system also transmits purchase date, amount and vendor information to IFCAP in a transaction called a CC document. FMS records the payment transactions and formats the transactions into F16 Transactions that FMS sends to IFCAP. IFCAP processes the F16 entry and posts it to the FMS transaction portion of the Running Balance. IFCAP stores the CC transactions from the CCS system in the Reconciliation File. Purchase Card Users reconcile the transaction records in the Reconciliation File with the Purchase Card orders they entered in IFCAP. If the accounting data differs, IFCAP will create an Expenditure Transfer (ET) document and transmit it to FMS to correct FMS Control Point records. IFCAP will also correct its own Control Point Records. IFCAP is presumed to have the correct set of accounting data.

Note: You must reconcile your transaction records in a timely manner. When you go to your Purchase Card menu and you have payment documents to reconcile, a bulletin will appear stating “You have (number) transaction(s) to reconcile (date range).” The number states how many payment documents you have to reconcile and the date range states the range you will print in the Daily Purchase Card Charges Statement.

6.1.2 Data Sharing for Reconciliation

Reconciliation data will be transmitted from CitiBank into the Credit Card System (CCS) in Austin. This information includes: RETAIL ID; PURCHASE DATE; PURCHASE CARD NUMBER; DOLLAR AMOUNT and VENDOR NAME. The CCS database will create what is known as a CC# which begins with C. The next three digits are the station number, the next digit is the last digit of the calendar year, the next three digits are the Julian date and the remaining digits are a sequential number. (Example: C61202630001) The CCS database will transmit this information to the FMS system, which will, in turn, generate an F16 document back to IFCAP. The CitiBank system will also send Credit Card Registration data through the CCS system to IFCAP. This data will update the Purchase Card Information File (440.5) in IFCAP.

6.2 Menu Path

Select Reconciliation Menu from the Purchase Card Menu. Select Reconciliation from the Reconciliation Menu. Select Reconciliation from the Purchase Card Menu. Enter a station number. At the Select Number: prompt, enter 1 for Auto if you want IFCAP to generate a list of all pending Oracle records for you to reconcile. Enter 2 for Manual if you want to choose specific Purchase Cards and payment documents. Enter 3 to reconcile by Purchase Card Order number.

Select STATION NUMBER: 999

Select one of the following:

1      Auto Charge Selection
2      Manual Charge Selection
3      Reconcile by Purchase Card Order #

Select Number: 1 Auto Charge Selection
Reconcile for your own Purchase Card orders?
```

6.3 Automatic Reconciliations

6.3.1 Auto Charge Selection

If you are an Approving Official for the service, IFCAP will ask you if you want to reconcile for your own Purchase Card orders. If you do, enter Yes. If you are the Approving Official for another Cardholder and you want to Reconcile orders for that person, enter No. You will then be asked to enter a Cardholder's name. IFCAP will display the first payment document. The entry will show the Vendor Name, Purchase Date and Amount and *may* include the Purchase Order Number. If a match is found, the user will be prompted with the order and default of YES. If it is not the correct order, answer N and IFCAP will continue the matching process.

IFCAP will then begin a matching process. IFCAP will attempt to find an existing purchase order with the same Credit Card Number and Purchase Order # that is on the payment entry. If no match is found, IFCAP will then search for a match using the Credit Card Number and the Amount of the Purchase Card Order.

Reconcile Payment Authorizations From FMS

If a dollar Range has been defined in File 411 the matching process will look for Amounts, which fall within the Range specified.

If no match is found, IFCAP will then do the matching process again using any other Credit Card that is assigned to the CARDHOLDER.

If IFCAP finds potential matches, IFCAP will display a list of possible Purchase Card orders.

Enter the sequence number associated with the Purchase Card order you want to reconcile, or enter ND to see the *next payment document*. IFCAP will display the next payment document

Select DO at the Action Code: prompt to display the purchase order.

Enter DC at the Action Code: prompt to display any previously reconciled charges for this order.

Enter RS at the Action Code: prompt to reselect the purchase document and start the matching process over.

Enter RD at the Action Code: prompt to Redisplay Data.

Enter RC at the Action Code: prompt to Reconcile the payment with the selected Purchase Card order.

If the Purchase Order is a Simplified Order or a Detailed Order and the Receiving Required response was N, the Complete Order Received?: prompt will appear. Enter Y if the item(s) you are receiving are the last of the outstanding items for the order.

Enter Y at the Final Payment: prompt ONLY if you do not expect any more payments or credits to the Purchase Card order you selected.

If you indicate all the merchandise is received but you indicate the payment is NOT the Final you will receive this prompt: Are You Going To Dispute This Charge?: Enter Yes or NO as applicable.

If there is a difference between the accounting elements on the Purchase Card Order in IFCAP and the accounting elements on the payment charge an Expenditure Transfer (ET) document will be created automatically and sent to FMS in Austin. (IFCAP is presumed to have the correct set of accounting elements.)

Chapter 7. Approving Official Options

7.1 Approve Reconciliation

7.1.1 Introduction

Approving Officials use this option to electronically approve the reconciliation. This affords the Approving Official the opportunity to ensure that the reconciliation is correct and complete. The Approve Reconciliation option is controlled with the Security Key PRCH AR.

This new option prompts the Approving Official to loop through all cardholders for whom they have approving authority. The Approving Official will be able to approve a single entry or a range of entries. Once the Approving Official enters their electronic signature, IFCAP will update the status of the order to "Transaction Complete," or to "Transaction Complete (Amended)" if an amendment has been processed on the order.

7.1.2 Menu Path

```
Select Purchase Card Menu Option: APProving Official Menu

7.2 Reports

7.2.1 Introduction

The Approving Official menu provides many different reports that will enable the Approving Official to confirm the correctness of the Reconciliation process. There are reports that identify unreconciled orders, unreconciled payments, incomplete orders, disputed orders and delinquent orders. Reports can be run for all the cardholders the Approving Official is responsible for.

Some reports may be run for a specific cardholder and some are run for all cardholders. A sample of each report follows.

7.2.2 Menu Path

<p>Select Purchase Card Menu Option: APProving Official Menu</p> <p>You have 1 order(s) to approve for FCP,USER.</p> <p>You have 44 order(s) to approve for IFVENDOR2,TEN.</p> <p>Unreconciled Austin Payments - Official</p> <p>Unreconciled Purchase Card Transactions - Official</p> <p>Approve Reconciliation</p> <p>Card Holder Daily Charge Statement</p> <p>Delinquent PC Listing - Official</p> <p>Disputed Purchase Card Orders - Official</p> <p>History of Purchase Card Transactions - Official</p> <p>Incomplete Purchase Card Orders - Official</p> <p>Official Charges Audit</p> <p>Purchase Card Orders Ready for Approval</p> <p>Reconciled Purchase Card Transactions - Official</p>

7.2.3 Unreconciled Austin Payments – Official

This option will display unreconciled payment transactions for the approving official's cards. The Official will enter their name, select a cardholder or accept the default of first for all cardholders they are an official for and enter a printer device.

Chapter 8. Purchase Card Coordinator Options

8.1 Introduction

The Purchase Card Coordinator's Menu is a stand-alone menu that must be assigned to the Purchase Card Coordinator at your facility. It has a set of options that allow the Purchase Card Coordinator to add, change or delete information about Purchase Card Users and monitor the use of Purchase Cards at their facility. The option names and descriptions are listed below.

Austin Audit Information

This option is used to link Oracle ID numbers to Purchase Card numbers, to be used with random sample audits performed by Austin.

Charge Card Reg. Exception

This report will list any Charge Card Registration entries passed to IFCAP but not activated in File #440.5

Coordinator Approving Official Charge Audit

This report provides an audit list of Charges by selected date and approving official.

Daily Charge Transmission Log

This report will list the charge transmissions received in IFCAP for a selected date. The entries identify the number of records sent from Austin and the number posted to IFCAP.

Delinquent Approvals

This report will list Purchase Card orders, which were approved more than 14 days after being reconciled.

Delinquent PC Listing

This option creates a report of delinquent Purchase Card orders.

Delinquent Reconciliations

This report will list transactions that were reconciled more than 5 days after being received in File 440.6.

Fiscal Daily Review

This option creates a report showing buyer, vendor, and status information for Purchase Card orders within a selected date range.

History of Purchase Card Transactions

This option creates a report of Purchase Card orders sorted by unpaid, paid or both status, for a selected date range.

IMPAC Account Information

This option is used to generate a report of card information sent from the credit card vendor. User may display Active, Inactive or Both types of entries.

Purchase Card Coordinator Options

Inactivate Expired Charge Cards	This option is used to inactivate the expired charge cards before the default date of TODAY.
Incomplete Purchase Card Orders Report	This option creates a report of incomplete Purchase Card orders.
Print Unregistered Credit Card Charges	This report will list all charges in File #440.6 that have no corresponding credit card entry in File #440.5
Purchase Card exceptions/replacements	This option will allow users to print exceptions/replacements reports previously run through the Fileman print option.
Purchase Card Information List	This option will display card holder, Purchase Card name, approving official, alternate approving official, and surrogate(s) for entries in the Purchase Card Information file (#440.5).
Purchase Card Registration	This option is used to assign Purchase Cards to the users on the IFCAP system.
Purchase Card Statistics	This option creates a report of totals for each Purchase Card and each control point, and the percentage of Purchase Card orders for each control point.
Purchase Card Timely Commitment Report	This option is used to track the days between initial entry into IFCAP, signing of order and reconciliation.
Reconciled Purchase Card Transactions	This option creates a report of reconciled Purchase Card orders sorted by user and card number.
Retrieve Unregistered Credit Card Charges	After the credit card information has been entered into File #440.5 for an unregistered charge, this option will fill-in the cardholder information on the unregistered charges in File # 440.6 . These charges will be then be ready for reconciliation.
Summary Report of Unpaid PC Transactions	This option creates a report showing the unpaid Purchase Card order total for each control point.
Unapproved Reconciliations	This option generates a report of unreconciled Purchase Card data, sorted by approving official, control point, and cardholder.

Unreconciled Austin Payment Transactions	This option is used to print Oracle transaction data from unreconciled transactions.
Unreconciled Purchase Card Transactions	This option creates a report of unreconciled Purchase Card orders.

8.2 Austin Audit Information

8.2.1 Introduction

This option is used to link payment transaction numbers to Purchase Cardholders and Purchase Card orders, to be used with random sample audits performed by Austin.

8.17 Purchase Card Registration

8.17.1 Introduction

The 'Purchase Card Registration' option is designed for the exclusive use of the Purchase Card Coordinator. Purchase Card Users will have the capability to display their own information from this file but will not be able to view data on other Purchase Card users. There will be times when either the Approving Official is not available or the Approving Official must complete the

reconciliation process for his/her user. In those instances, another (Alternate) Approving Official would be required to approve a reconciliation done by the Approving Official.

The posting of card registration information to File 440.5 is expected to be done automatically based on transmission of the data from the credit card Vendor to Austin and then to IFCAP. In the event of a problem with the timely transmission of data, the coordinator will be able to enter data manually if necessary.

8.17.2 Menu Path

Unreconciled Purchase Card Transactions
Select Purchase Card Coordinator's Menu Option: Purchase Card Registration

8.17.3 Prompts

1. Enter a station number if prompted.
2. Enter the Purchase Card number. The Purchase Card number is the account number on the Purchase Card.
3. Enter the name of the Purchase Card Holder, or enter a question mark to see a list of all the users in the New Person File.
4. Enter a name for the Purchase Card.
5. Enter the expiration date of the card.

Purchase Card Coordinator Options

6. Enter Yes if you wish to Inactivate the card.
7. Enter the Fund Control Point that will fund the Purchase Card. Cardholder must have at a minimum, Requestor level access in the Fund Control Point.
8. Enter the Cost Center. Cost centers allow Fiscal staff to create total expense records for a section or service.
9. Enter the Budget Object Code for the Purchase Card, or enter a question mark to see a list of the available Budget Object Codes for the Cost Center.
10. Enter the maximum amount per purchase at the Single Purchase Limit: prompt.
11. Enter the maximum total expense per monthly statement at the Monthly Purchase Limit: prompt.
12. At the Delivery Location: prompt, enter the location of delivery.
13. Enter the Approving Official that will approve a reconciliation for the new Purchase Card at the Approving Official: prompt, or enter a question mark to see a list of the valid Approving Officials. IFCAP will not allow you to enter the Purchase Card User as the Approving Official for the same card. Approving Official must have, at a minimum, Requestor Level access to the Fund Control Point.
14. Enter the Alternate Approving Official that will approve a reconciliation for the new Purchase Card at the Alternate Approving Official: prompt, or enter a question mark to see a list of the valid Alternate Approving Officials. Alternate Approving Official must have, at a minimum, Requestor Level access to the Fund Control Point.
15. Enter the Purchase Card User Surrogate that can enter or edit Purchase Card orders for the Purchase Card User at the Purchase Card User Surrogate: prompt. A surrogate will not be allowed to reconcile Purchase Card orders. Surrogate must have, at a minimum, Requestor Level access to the Fund Control Point.
16. Enter the Replaced Card: *number*. This insures a link between the new card and the replaced card for charge reconciliation crossovers on old orders against replaced cards when charges come through under the new card number. This 'REPLACED CARD' number MUST be a valid card number, inactive, not used as a replacement card for another card and match the new card for the following fields: CARD HOLDER, STATION NUMBER, FUND CONTROL POINT, COST CENTER and BUDGET OBJECT CODE.
17. Enter Y at the Would you like to register another Purchase Card?: prompt to enter another Purchase Card number for the Purchase Card User, or press <Enter> to return to the Purchase Card Coordinator's Menu.

8.18 Purchase Card Statistics

8.18.1 Introduction

This option creates a report of totals for each Purchase Card and each control point, and the percentage of Purchase Card orders for each control point. You can select a date range for the report. The report will generate statistics for all Purchase Card orders for the station for the date range you selected, sorted by Control Point. The report also shows the average dollar cost per card in the Control Point, and the average number of line items on each card. It also shows the percentage of Purchase Card orders for all orders for each Control Point.

Chapter 9. Supplemental Purchase Card Options

9.1 Introduction

This chapter explains several options from the IFCAP Purchase Card Menu that were not explained in the previous chapters.

9.2 Amendment to Purchase Card Order

9.2.1 Introduction

Use this option to make changes to a Purchase Card order after the Purchase Card User has authorized the order with their electronic signature code.

9.2.2 Amendment types

There will be times when it will be necessary to amend a Purchase Card order. Purchase card order amendments will be allowed for the following:

- **LINE ITEM ADD:** This amendment adds a line item to the Purchase Card order. Purchase Card Users can only add line items on Detailed Purchase Card Orders.
- **LINE ITEM DELETE:** This amendment deletes a line item to the Purchase Card order. Purchase Card Users can only delete line items on Detailed Purchase Card Orders.
- **LINE ITEM EDIT:** This amendment edits a line item on the Purchase Card order. Purchase Card Users can only edit line items on Detailed Purchase Card Orders.
- **FCP CHANGE (Limited to authorized buyer information/list.)** This amendment changes the Fund Control Point on a Purchase Card order.
- **VENDOR CHANGE:** This amendment changes the vendor on a Purchase Card order.
- **CANCEL P/C ORDER:** This amendment cancels a Purchase Card order.
- **F.O.B. EDIT:** This amendment changes the Freight On Board charges from Origin to Destination or vice versa. Purchase Card Users can only change Freight on Board charges on Detailed Purchase Card Orders.

9.2.3 Order Status after Amendment

Upon approval of the amendment, IFCAP will permit the user to select the appropriate status for the document. Status selection offered will depend on what the status was, when the user started the amendment. The following is a partial list of possible choices:

- Cancelled Order
- Complete Order Received (Amended)
- Ordered (No Fiscal Action)-Amended

Supplemental Purchase Card Options

- Partial Order Received (Amended)
- Partial Payment (Not Received) - Amended
- Transaction Complete (Amended)

9.2.4 Menu Path

Convert Temporary 2237 to PC Request

Select Process Purchase Card Menu Option: Amendment To Purchase Card Order
```

9.2.5 Prompts

1. Enter a station number if prompted.
2. Enter a Purchase Card order number, or enter two question marks to see a list of available purchase orders. If there is an amendment pending for the purchase order, IFCAP will ask you if you want to edit it. If no amendment is pending IFCAP will assign an amendment number for this transaction.
3. At the Effective Date: prompt, enter the date that the amendment will take effect, or press <Enter> to accept the default of today's date.
4. At the Authority: prompt, enter the authority by which you amend the Purchase Card order. If you do not know the applicable authorization, enter two question marks and IFCAP will list the available authority categories. Press <Enter> to accept the default value of "D". If you are canceling the order, change the value to "E".

5. Enter comments about the amendment if you like at the Type Comments: prompt.
6. At the Contractor Required To Sign?: prompt, enter Y if the contractor has to sign the amendment showing that they accept the terms of the amendment.
7. IFCAP will display a list of the amendment types you can create. At the Type Of Amendment Number: prompt, enter the number corresponding to the type of amendment you want to create.
8. IFCAP will display the edit prompt(s) that correspond to the amendment type you selected.
9. If you would like to amend the Purchase Card order in another way, enter another amendment type at the Select Type Of Amendment Number: prompt.
10. You may enter the new status of the Purchase Card order at the Amendment/Adjustment Status: prompt, or enter a question mark to see a list of valid status.
11. Enter a justification for the amendment. You may review the amendment if you like.
12. If you entered Y at the Review Amendment?: prompt, IFCAP will display the amendment on the screen.
13. If you are satisfied with the amendment, enter Y at the Approve and print Amendment number (#)?: prompt.
14. Enter your electronic signature code.
15. At the Queue On Device: prompt, enter the output device for the amendment. IFCAP will print the amendment on the output device you selected.
16. Enter another station number if prompted, to amend another Purchase Card order, or enter a caret (^) to return to the Process Purchase Card Menu.

9.3 Adjustment Voucher to Purchase Card Order

9.3.1 Introduction

Use this option to decrease the quantity received on a receiving report for a Purchase Card order. This option will follow the prompts of the current Adjustment Voucher option. This new option will be available to all Purchase Card Users. Depending upon where the order is in the system, the system will update the status to one of the following:

- Complete Order Received (Amended)
- Ordered (No Fiscal Action Required) - Amended
- Paid (No Receipt) - Amended
- Paid (Partial Receipt) - Amended
- Paid (Complete Order Received) - Amended
- Partial Payment (No Receipt) - Amended
- Partial Payment (Partial Rec) - Amended
- Partial Payment (Complete Rec) - Amended
- Transaction Complete (Amended)

9.3.2 Menu Path

Select Process Purchase Card Menu from the Purchase Card Menu.

Select Adjustment Voucher to Purchase Card Order from the Process Purchase Card Menu.

Select Process Purchase Card Menu Option: Adjustment Voucher to Purchase Card Order

9.3.3 Prompts

1. Enter a station number if prompted.
2. Enter the Purchase Card order you wish to adjust at the Purchase Order: prompt, or enter two question marks to see a list of available purchase orders.
3. IFCAP will display the Adjustment number it is working on. You will be prompted 'Do you wish to continue? Yes//'. Accept the default of Yes to continue with the adjustment voucher.
4. At the Effective Date: prompt, enter the date that the adjustment will take effect.
5. You may enter the new status of the Purchase Card order at the Amendment/Adjustment Status: prompt, or enter a question mark to see a list of valid status.
6. Enter the date of the receiving report you wish to adjust at the Select Partial Date: prompt.
7. If you do not know the report date, enter three question marks and IFCAP will list the available dates.
8. Enter the sequence number of the item you want to adjust (e.g., 1 for the first item on the purchase order) at the Select Item: prompt.
9. Enter the new quantity at the QTY Being Received: prompt. This value has to be smaller than the quantity on the receiving report.
10. Press Enter at the Select Item: prompt when you are through entering items for adjustment. You may review the adjustment if you like. IFCAP will display the adjustment voucher.
11. You may also edit the description of the adjustment.
12. Confirm that you want to approve the adjustment by entering Y at the Approve And Print (In Fiscal And Supply) Adjustment No. (#)?: prompt.
13. Enter your electronic signature.
14. Enter an output device for the adjustment voucher. IFCAP will print or display the adjustment voucher on the output device you selected.

9.6 BOC Report for OA&MM/Fiscal

9.6.1 Introduction

This report will allow users to specify a date and name range to print any Purchase Card transactions that include BOC numbers 2696 to 2699. It is used by OA&MM/Fiscal to perform Supply Funds reconciliation. NOTE: This option is usually assigned to the Purchase Card Coordinator and /or Fiscal Staff. It may not be on your menu.

Chapter 10. The Logistics Data Query Tool

The Logistics Data Query Tool is designed to assist Chief Logistics Officers;; Materiel Managers; Purchasing Agents; and members of the Facility Logistics Staff (including Inventory Managers; Supply, Processing, and Distribution (SPD) Technicians; Management Analysts; Warehouse Clerks; or Supply System Analysts). The Query Tool can be used to quickly access, analyze and verify IFCAP and Prosthetics procurement data and display it using a graphical user interface to the VistA data. You can sign-on to VistA, find data, view the data, or easily move the data into a Microsoft® Excel® spreadsheet.

The Query Tool is a Windows software application that acts as a “front-end” to enable you to more easily find, display, and export VistA data. The Query Tool is an alternative to the VA FileMan utility program which has traditionally been used to look directly at the MUMPS globals (files) which store VistA data. The Query Tool enables you to...

- Search for data and display data by a range of dates
- Sort and rearrange the view of the data; display the data in a custom view
- Export the data into a Microsoft Excel spreadsheet file

Information on what the Query Tool can do for you can be found in the Logistics Data Query Tool User Manual.

The Logistics Data Query Tool User Manual is available online: at...

 <http://www.va.gov/vdl/application.asp?appid=42>.

Chapter 11. Glossary

This glossary defines terms in this manual that users might find unfamiliar.

Term	Definition / Discussion
1358	VA Form 1358, Estimated Obligation or Change in Obligation.
2138	VA Form 90-2138, Order for Supplies or Services. First page of a VA Purchase Order.
2139	VA Form 90-2139, Order for Supplies or Services (Continuation). This is a continuation sheet for the 2138 form.
2237	VA Form 90-2237, Request, Turn-in and Receipt for Property or Services. Used to request goods and services.
A&MM	Acquisition and Materiel Management Service.
Accounting Technician	Fiscal employee responsible for obligation of and payment for goods and services. Accounting Technicians process accounting transactions and transmit them to FMS.
ADP Security Officer	The individual at your station who is responsible for the security of the computer system, both its physical integrity and the integrity of the records stored in it. Includes overseeing file access.
Agent Cashier	The person in Fiscal Service (often physically located elsewhere) who makes or receives payments on debtor accounts and issues official receipts.
Allowance table	Reference table in FMS that provides financial information at the level immediately above the sub-allowance level.
Amendment	A document that changes the information contained in a specified Order.
Approve Requests	The use of an electronic signature by a Control Point Official to approve a 2237, 1358 or other request form and transmit said request to A&MM/Fiscal.
Authorization	A charge to an obligated 1358. Each authorization represents a deduction from the balance of a 1358 to cover an expense. Authorizations are useful when you have expenses from more than one vendor for a single 1358.
Authorization Balance	The amount of money remaining that can be authorized against the 1358. The service balance minus total authorizations.
Batch Number	A unique number assigned by the computer to identify a batch (group) of Code Sheets. Code Sheets may be transmitted by Batch Number or Transmission Number.

Term	Definition / Discussion
Breakout Code	A set of A&MM codes which identifies a vendor by the type of ownership (e.g., Minority-owned, Vietnam Veteran Owned, Small Business Total Set Aside, etc.).
Budget Analyst	Fiscal employee responsible for distributing and transferring funds.
Budget Object Code	Fiscal accounting element that tells what kind of item or service is being procured. Budget object codes are listed in the VA Handbook 4671.2
Budget Sort Category	Used by Fiscal Service to identify the allocation of funds throughout their facility.
Ceiling Transactions	Funding distributed from Fiscal Service to IFCAP Control Points for spending. The Budget Analyst initiates these transactions using the Funds Distribution options.
Classification of Request	An identifier a Control Point can assign to track requests that fall into a category, e.g., Memberships, Replacement Parts, and Food Group III.
Common Numbering Series	This is a pre-set series of Procurement and Accounting Transaction (PAT) numbers used by Purchasing and Contracting, Personal Property Management, Accounting Technicians and Imprest Funds Clerks to generate new Purchase Orders/Requisitions/Accounting Transactions on IFCAP. The Application Coordinator establishes the Common Numbering Series used by each facility.
Control Point	Financial element, existing ONLY in IFCAP that corresponds to the ACCS number in FMS. Also the division of monies to a specified service, activity or purpose from an appropriation.
Control Point Clerk	The user within the service who is designated to input requests and maintain the Control Point records for a Service.
Control Point Official	The individual authorized to expend government funds for ordering of supplies and services for their Control Point(s). This person has all of the options the Control Point Clerk has plus the ability to approve requests by using their electronic signature code.
Control Point Official's Balance	A running record of all the transactions generated and approved for a Control Point. Provides information that shows the total amount of funds committed, obligated and remaining to be spent for a specified fiscal quarter.

Term	Definition / Discussion
Control Point Requestor	The lowest level Control Point user, who can only enter temporary requests (2237s, 1358s) to a Control Point. This user can only view or edit their own requests. A Control Point Clerk or Official must make these requests permanent before they can be approved and transmitted to A&MM/Fiscal.
Cost Center	“Subsection” of a Fund Control Point. Cost centers allow fiscal staff to create total expense reports for a section or service, and allow requestors to assign requests to that section or service. Cost centers are listed in the VA Handbook 4671.1.
Date Committed	The date that you want IFCAP to commit funds to the purchase.
Default	A suggested response that is provided by the system.
Deficiency	When a budget has obligated and expended more than it was funded (see MP-4, Part V, Section C).
Delinquent Delivery Listing	A listing of all the Purchase Orders that have not had all the items received by the Warehouse on IFCAP. It is used to contact the vendor for updated delivery information.
Direct Delivery Patient	A patient who has been designated to have goods delivered directly to him/her from the vendor.
Discount Item	This is a trade discount on a Purchase Order. The discount can apply to a line item or a quantity. This discount can be a percentage or a set dollar value.
EDI Vendor	A vendor with whom the VA has negotiated an arrangement to accept and fill orders electronically.
Electronic Data Interchange (EDI)	Electronic Data Interchange is a method of electronically exchanging business documents according to established rules and formats.
Electronic Signature	The electronic signature code replaces the written signature on all IFCAP documents used within your facility. Documents going off-station will require a written signature as well.
Expenditure Request	A Control Point document that authorizes the expenditure of funds for supplies and/or services (e.g., 2237, 1358, etc.).
FCP	Fund Control Point (see Control Point).
Federal Tax ID	A unique number that identifies your station to the Internal Revenue Service.
Fiscal Balance	The amount of money on a 1358 and any adjustments to that 1358 that have been obligated by Fiscal Service. This amount is reduced by any liquidations submitted against the obligation.

Term	Definition / Discussion
Fiscal Quarter	The fiscal year is broken into four three-month quarters. The first fiscal quarter begins on October 1.
Fiscal Year	Twelve-month period from October 1 to September 30.
FMS	Financial Management System, the primary accounting system for administrative appropriations. FMS has a comprehensive database that provides for flexible on-line and/or batch processing, ad-hoc reporting, interactive query capability and extensive security. FMS is concerned with budget execution, general ledger, funds control, accounts receivable, accounts payable and cost accounting.
FOB	Freight on Board. An FOB of "Destination" means that the vendor has included shipping costs in the invoice, and no shipping charges are due when the shipper arrives at the warehouse with the item. An FOB of "Origin" means that shipping charges are due to the shipper, and must be paid when the shipper arrives at the warehouse with the item.
FPDS	Federal Procurement Data System.
FTEE	Full Time Employee Equivalent. An FTEE of 1 stands for 1 fiscal year of full-time employment. This number is used to measure workforces. A part-time employee that worked half days for a year would be assigned an FTEE of 0.5, as would a full-time employee that worked for half of a year.
Fund Control Point	See Control Point
Funds Control	A group of Control Point options that allow the Control Point Clerk and/or Official to maintain and reconcile their funds.
Funds Distribution	A group of Fiscal options that allows the Budget Analyst to distribute funds to Control Points and track Budget Distribution Reports information.
GBL	Government Bill of Lading. A document that authorizes the payment of shipping charges in excess of \$250.00.
GL	General Ledger.
Imprest Funds	Monies used for cash or 3rd party draft purchases at a VA facility.
Integrated Supply Management System (ISMS)	ISMS is the system that replaced LOG I for Expendable Inventory. IFCAP sends PHA and PHM transactions to this system.
ISMS	Integrated Supply Management System.
Item File	A listing of items specified by A&MMS as being purchased repetitively. This file maintains a full description of the item, related stock numbers, vendors, contract numbers and a procurement history.

Term	Definition / Discussion
Item History	Procurement information stored in the Item File. A history is kept by Fund Control Point and is available to the Control Point at time of request.
Item Master Number	A computer generated number used to identify an item in the Item File.
Justification	A written explanation of why the Control Point requires the items requested. Adequate justification must be given if the goods are being requested from other than a mandatory source.
Liquidation	The amount of money to be paid a vendor. The payment will be posted on the 1358 document and will reduce the Fiscal Balance. They are processed through payment/invoice tracking.
LOG I	LOG I is the name of the Logistics A&MM computer located at the Austin Data Processing Center. This system continues to support the Consolidated Memorandum of Receipt.
Mandatory Source	A Federal Agency that sells supplies and services to the VA. VA Supply Depot, Defense Logistics Agency (DLA), General Services Administration (GSA), etc.
MSC Confirmation Message	A MailMan message generated by the Austin Message Switching Center that assigns an FMS number to an IFCAP transmission of documents.
Obligation	The commitment of funds. The process Fiscal uses to set aside monies to cover the cost of an Order.
Obligation (Actual) Amount	The actual dollar figure obligated by Fiscal Service for a Purchase Order. The Control Point's records are updated with actual cost automatically when Fiscal obligates the document in IFCAP.
Obligation Data	A Control Point option that allows the Control Point Clerk to enter data not recorded by IFCAP.
Organization Code	Accounting element functionally comparable to Cost Center, but used to organize purchases by the budget that funded them, not the purposes for spending the funds.
Outstanding 2237	A&MM report that lists all the IFCAP generated 2237s pending action in A&MM.
PAID	Personnel Accounting Integrated Data.
Partial	A Receiving Report (VA document that shows receipt of goods) for only some of the items ordered on a Purchase Order.
Partial Date	The date that a warehouse clerk created a receiving report for a shipment.

Term	Definition / Discussion
PAT Number	Pending Accounting Transaction number - the primary FMS reference number.
Personal Property Management	A section of A&MM Service responsible for screening all requests for those items available from a Mandatory Source, VA Excess or Bulk sale. They also process all requisitions for goods from Federal Agencies and equipment requests. In addition, they maintain the inventory of Warehouse stocked items and all equipment (CMRs) at the facilities they support.
PPM	Personal Property Management.
Program Code	Accounting element that identifies the VA initiative or program that the purchase will support.
Prompt Payment Terms	The discount given to the VA for paying the vendor within a set number of days (e.g., 2% 20 days means the VA will save 2% of the total cost of the order if the vendor is paid within 20 days of receipt of goods).
Purchase History Add (PHA)	Procurement History Add transaction. This updates the Procurement History file in Austin when orders are obligated in IFCAP. This same transaction is also used to send a PO for EDI processing.
Purchase History Mod (PHM)	Procurement History Modification. This updates the Procurement History file in Austin when orders are amended.
Purchase Order	A government document authorizing the purchase of the goods or services at the terms indicated.
Purchase Order Acknowledgment	Information returned by the vendor describing the status of items ordered (e.g., 10 CRTs shipped, 5 CRTs backordered).
Purchase Order Status	The status of completion of a purchase order (e.g., Pending Contracting Officer's Signature, Pending Fiscal Action, Partial Order Received, etc.).
Purchasing Agents	A&MM employees legally empowered to create purchase orders to obtain goods and services from commercial vendors.
Quarterly Report	A Control Point listing of all transactions (Ceilings, Obligations, and Adjustments) made to a Control Point's Funds.
Quotation for Bid	Standard Form 18. Used by Purchasing Agents to obtain written/electronic bids from vendors.
Receiving Report	Report that Warehouse Clerk creates to record that the warehouse has received an item. The VA document used to indicate the quantity and dollar value of the goods being received.

Term	Definition / Discussion
Reference Number	Also known as the Transaction Number. The computer generated number that identifies a request. It is comprised of the Station Number-Fiscal Year-Quarter -Control Point - 4 digit Sequence Number.
Repetitive Item List	A method the Control Point uses to order items in the Item File. The Control Point enters the Item Master Number, the quantity and vendor and IFCAP can sort and generate requests from the list.
Requestor	See “Control Point Requestor.”
Requisition	The order form used to buy from a Government vendor.
Running Balance	A running record of all the transactions generated and approved for a Control Point. Provides information that shows the total amount of funds committed, obligated, and remaining to be spent for a specified fiscal quarter.
Section Request	A temporary request for goods and/or services entered by a Control Point Requestor. These requests may or may not be made permanent by the Control Point Clerk/Official.
Service Balance	The amount of money on the on the original 1358 and any adjustments to that 1358 when created by that service in their Fund Control Point. This amount is reduced by any authorizations created by the service.
SF-18	Request for Quotation.
SF-30	Amendment of Solicitation/Modification of Contract.
Short Description	A phrase that describes the item in the Item Master file. It is restricted to 3 to 60 characters and consists of what the item is, the kind of item, and the size of item (e.g., GLOVE-SURGICAL MEDIUM).
Site Parameters	Information (such as Station Number, Cashier's address, printer location, etc.) that is unique to your station. All of IFCAP uses a single Site Parameter file.
Sort Group	An identifier a Control Point can assign to a project or group of like requests. It is used to generate a report that will tell the cost of requests.
Sort Order	The order in which the budget categories will appear on the budget distribution reports.
Special Remarks	A field on the Control Point Request that allows the CP Clerk to enter information of use to the Purchasing Agent or vendor. This field can be printed on the Purchase Order.
Stacked Documents	The POs, RRs & 1358s that are sent electronically to Fiscal and stored in a file rather than being printed immediately.

Term	Definition / Discussion
Status of Funds	Fiscal's on-line status report of the monies available to a Control Point. FMS updates this information automatically.
Sub-control Point	A specific budget within a Control Point, defined by a Control Point user.
Sub-cost Center	A subcategory of Cost Center. In IFCAP 5.0, the last two digits of the cost center, if anything other than "00" will be the 'sub-cost center' that is sent to FMS. IFCAP will not use a 'sub-cost center' field, but will send FMS the last two digits of the cost center as the FMS 'sub-cost center' field, unless the last two digits of the cost center are '00'.
Tasked Job	A job, usually a printout that has been scheduled to run at a predetermined time. Tasked jobs are set up to run without having a person watching over them.
TDA	See "Transfer of Disbursing Authority."
Total Authorizations	The total amount of the authorizations created for the 1358 obligation.
Total Liquidations	The total amount of the liquidation against the 1358 obligation.
Transaction Number	The number of the transaction that funded a Control Point (See Budget Analyst User's Guide). It consists of the Station Number - Fiscal Year - Quarter - Control Point - Sequence Number.
Transmission Number	A sequential number given to a data string when it is transmitted to the AAC; used for tracking message traffic.
Type Code	A set of A&MM codes that provides information concerning the vendor size and type of competition sought on a purchase order.
Vendor file	An IFCAP file of vendors solicited by the facility. This file contains ordering and billing addresses, contract information, FPDS information and telephone numbers. File 440 contains information about the vendors solicited by your station. The debtor's address may be drawn from this file, but is maintained separately. If the desired vendor is not in the file, contact A&MM Service to have it added.
Vendor ID Number	The ID number assigned to a vendor by FMS.
VRQ	FMS Vendor Request document. When users send vendor information to FMS, FMS sends a VRQ document to IFCAP with the vendor information, ensuring that the information in the IFCAP vendor file matches the information in the FMS vendor table.
