

**HAZARDOUS MATERIAL**

**Harm / Risk Assessment Worksheet**

**Product:** \_\_\_\_\_

**DOT Classification:** \_\_\_\_\_

**Physical State:** \_\_\_\_\_

| <b>Hazard</b>           | <b>Characteristics</b> | <b>Norm/Limits</b> | <b>Harm</b> |
|-------------------------|------------------------|--------------------|-------------|
| <b>Flammability</b>     | Flash Point-           |                    |             |
|                         | UEL-                   |                    |             |
| <b>Toxic</b>            | TLV-TWA-               |                    |             |
|                         | STEL-                  |                    |             |
|                         | C-                     |                    |             |
|                         | IDLH-                  |                    |             |
| <b>Vapor Pressure</b>   |                        |                    |             |
| <b>Vapor Density</b>    |                        |                    |             |
| <b>Specific Gravity</b> |                        |                    |             |
| <b>Water Solubility</b> |                        |                    |             |
| <b>Other</b>            |                        |                    |             |

|                                |  |
|--------------------------------|--|
| <b>Level of PPE needed</b>     |  |
| <b>Secondary Contamination</b> |  |
| <b>Other information</b>       |  |
