

Learn About VA Blue Button Features

VA Blue Button Enhancements: Engaging Veterans by Improving Access to Information

The Department of Veterans Affairs (VA) works to continually enhance and update VA Blue Button features to provide additional data to Veterans, empowering them to become active partners in their health care.

VA Blue Button and My HealtheVet

VA Blue Button enables Veterans to generate and download an electronic file that contains their available personal health information from My HealtheVet, which is VA's electronic personal health record (PHR) for Veterans. VA has significantly expanded the types of information that are available to Veterans who have an upgraded Premium My HealtheVet account.*

Get a My HealtheVet Premium Account

If you are a Veteran and use the VA Health Care System, you can upgrade to a My HealtheVet Premium Account. This type of account lets you use all features of My HealtheVet.

To upgrade to a Premium account, follow these two steps:

- Step 1** Register for My HealtheVet (www.myhealth.va.gov)
- Step 2** Get authenticated (in person or online)

Learn About VA OpenNotes and VA CCD – new tools in VA health care.

VA OpenNotes, a new feature on **VA Blue Button**, 'opens' clinical notes, allowing patients to read their health care team's notes from appointments and hospital stays. This initiative provides Veterans with the ability to read and discuss notes with their health care teams, family and Caregivers, allowing them to gain greater control over their health care. To learn more about the OpenNotes initiative visit:

www.myopennotes.org.

The new **VA Continuity of Care Document (VA CCD)** feature contains essential health and medical care information in a .XML file format that uses recognized standards of interoperability. The **VA CCD** supports the exchange of information between health care providers for the effective continued care of a patient. A PDF file is also available.

Learn About VA Blue Button Features, VA OpenNotes and VA CCD

VA offers several features for **VA Blue Button**. These features allow Veterans to access more information for greater control of their health care including:

- **VA Allergies*** – Recorded allergies and adverse reactions; Available immediately
- **VA Admissions and Discharges*** – Admissions and discharges including comprehensive discharge summaries; Available three days after Discharge Summary is completed
- **VA Appointments*** – Two years past and all future VA appointment details; Available immediately
- **VA Demographics*** – Demographic information from VA Treating Facilities in the last three years; Available immediately
- **VA Electrocardiogram (EKG) Reports*** – A list of EKG studies performed at VA Treating Facilities; Available immediately
- **VA Immunizations*** – History of recorded immunizations along with any reactions; Available immediately

(continued on back)

**Get the most out of My HealtheVet. Take the next step and upgrade to a Premium account. With a Premium account, you can access all that My HealtheVet has to offer and will be the first to have access to new features.*
