

VA MISSION Act of 2018: Section 505 – Personnel Transparency Quarter Ending December 31, 2019

Executive Summary

February 14, 2020

The Department of Veterans Affairs (VA) remains committed to building and sustaining a workforce that can carry out VA's vision of providing Veterans and their families with the world-class benefits and services they have earned, with high standards of compassion, commitment, excellence, professionalism, integrity, accountability and stewardship. Achieving full staffing capacity is critical to VA being able to carry out its mission, and improved outcomes show that Veterans are being well served.

With approximately 393,000 employees onboard as of December 31, 2019, VA remains the second largest Federal Agency in the United States. Under section 505(a) of the VA Maintaining Internal Systems and Strengthening Integrated Outside Networks Act of 2018 (VA MISSION Act) (Public Law 115-182), the VA Secretary shall make publicly available on a quarterly basis information pertaining to "VA Personnel Transparency." This information shall include the number of personnel encumbering positions, the number of accessions and separation actions processed during the prior quarter, the number of vacancies, and the percentage of new hires hired within the time-to-hire target of the Office of Personnel Management (OPM).

In the 1st quarter of Fiscal Year (FY) 2020 (i.e. the quarter ending December 31, 2019), VA's talent acquisition strategies resulted in a net increase of 3,009 onboard⁽¹⁾ strength since the 4th quarter FY 2019 MISSION Act Personnel Transparency report, while maintaining turnover and vacancy rates well below industry standards. **VA's approximate 9-9.5% turnover rate compares favorably with other large Cabinet-level agencies, which averaged 11% turnover in recent years.**⁽²⁾ VA's workforce continues to grow, commensurate with VA's significant budget growth over the past 10 years, both of which increased due to augmented business requirements and workload. Most of the vacancies are the result of average turnover in such a large organization, in addition to new positions that are added to increase capacity. VA is making progress on its manpower management capabilities, to fine tune staffing data and to better identify staffing gaps.

The 1st Quarter FY 2020 VA Personnel Transparency report shows the following:

- **VA** reports 392,897 total onboard employees (i.e., personnel encumbering positions); 9,411 accession actions; 6,173 separation actions; and a total of 49,082 vacant Full-Time Equivalents (FTEs)⁽³⁾. How do I interpret the data?⁽⁴⁾

Onboards

Onboards (i.e., the number of personnel encumbering positions) are the number of employees (i.e., headcount) onboard at the time the data are reported. Note that "onboards" differ from "FTE," which is a budgetary term based on compensable hours as opposed to headcount. Onboard does not include unpaid health professional trainees or other volunteers.

Accessions (Hiring) and Separations

Accessions are personnel actions that result in the addition of an employee to an agency's staff (i.e., transfers-in from another agency, and new hires to the Federal government) and generally lead to increases in onboards. Separations are personnel actions resulting in the loss of an employee from the agency's staff (i.e., transfers-out, quits, retirements, terminations or removals, death, and other separations).

Vacancies

Unencumbered positions with a valid workload requirement that are budgeted and approved by a resources board. Note that vacancies may be in various stages of the hiring process, from creating and posting a job announcement to pending the security clearance process.

Time-To-Hire

OPM's 80 calendar day time-to-hire target is used for positions filled through a Job Opportunity Announcement (JOA) posted to USAJobs. The count begins when a hiring need is validated and ends with the employee's entry on duty (i.e. start date). For health care professionals hired by VHA, the time to hire includes the extra requirement of credentialing which lengthens the time to hire average for those occupations.
