DOJ's FOIA Guidelines emphasize that “[a]pplication of the proper disclosure standard is only one part of ensuring transparency. Open government requires not just a presumption of disclosure, but also an effective system for responding to FOIA requests.” It is essential that agencies effectively manage their FOIA program.

Please answer the following questions to describe the steps your agency has taken to ensure that the management of your FOIA program is effective and efficient. You should also include any additional information that describes your agency’s efforts in this area.

Results are trended and provided to facility and VHA Central Office Senior leadership. PCA also provides results to the VHA FOIA Office to incorporate into the training program. PCA conducts on-site and virtual audits.

Note: In September 2017, OIP released a FOIA Self-Assessment Toolkit as a resource for agencies conducting a self-assessment of their FOIA program. The Toolkit is available on OIP’s website for all agencies to use.

**F. Success Stories**
Out of all the activities undertaken by your agency since March 2020 to increase transparency and improve FOIA administration, please briefly describe here at least one success story that you would like to highlight as emblematic of your agency’s efforts. The success story can come from any one of the five key areas but should not be something that you have reported in a prior year. As noted above, OIP will highlight these agency success stories during Sunshine Week. To facilitate this process, all agencies should use bullets to describe their success story and limit their text to a half page. The success story is designed to be a quick summary of key achievements. A complete description of all your efforts will be contained in the body of your Chief FOIA Officer Report.

- This Fiscal Year our Agency saw an increase in the number of requests we received, and the level of complexity of these requests have also increased, requiring extensive searches with the probability of a very high volume of responsive records. We have also taken a great amount of time to train and revise the FOIA program throughout VACO. To mitigate this increase and the many labor-intensive man-hours to keep up with the processing workload and continue working to decrease the backlog, we are utilizing Electronic Document Review (EDR) licenses for FOIAxpress. Having the EDR technology has proven very effective in speeding up the discovery to search, sort and identify responsive records in large volumes of emails, attachments and other documents. Now our FOIA personnel can quickly filter, deduplicate, rank and sort documents for redaction and processing all within the FOIAxpress system. The agency has also tasked the contracting support with the backlog, which will support the increase of man hours and record search it will take to process this initiative. With these initiatives and the revisions of SOP’s, correspondence, directives etc. The agency intends to have the resources and support to ensure processing time is reduced and closing request increases. In addition to these changes, the agency has given extensive training to VHA, OAWP, VBA and all new employees.
