Brooks,

Nothing really here today.

- No new Mission Assignments
- No new Veteran or Employee Case data available today.
- Of note: Based upon typical historical case volumes, VA would have performed approximately 85,000 surgical cases March 18\textsuperscript{th} and May 27\textsuperscript{th}. Between March 18\textsuperscript{th} and May 27\textsuperscript{th}, the VA actually performed 19,957 cases in the OR. The projected volume of pending operating room procedures is therefore approximately 65,000 cases which may become an issue as we return to more normal operations.

• VA OGC partnered with the VA Voluntary Service to create a universal gift form for distribution within VA listing general departmental needs during the COVID-19 emergency. Each VAMC Director can solicit and accept the listed donations pursuant to VHA Directive 4721, VHA General Post Fund — Gifts and Donations. (3/27/20)
• On March 30th, the Denver Logistics Center (DLC) will receive a shipment of 500 iPads for the VA Video Connect (VVC) Community. These iPads are designed to allow “skype” type appointments between the Veteran patient and the Care Provider. The DLC will prepare the iPads for immediate shipment to fulfill backorders.
• Invocation of the Defense Production Act (DPA) resulted in confusion in the commercial sector as to how to prioritize orders, resulting in delays and cancellations on orders and deliveries to VA. Under the DPA, the FEMA Task Force, used its authority to divert materiel originally offered to VA for delivery to the SNS.
  o VA orders for masks, gowns, gloves, and PARP have been cancelled by our vendors. This is high risk for not only our enterprise, but for the Administration as our hospitals will be without supplies starting late this week.
  o FEMA and HHS have been made aware; VA is awaiting resolution from them.
  *Issue has since been resolved

• VA contracted with Battelle for use of their Critical Care Decontamination Systems (CCDS) to sanitize N95 masks for Brooklyn, Manhattan, and East Orange, NY medical centers. Great partnership with HHS and FDA led to the approval to reuse masks 20x after sanitization. (4/3/20)
• VA has administered more than 18,900 tests and has more than 3,000 additional tests on hand. (4/3/20)
• Contract awarded for Alternate Care Sites-Four (4) 125 bed, soft-sided, portable medical structure. Awaiting delivery and selection of sites. (4/3/20)

• VA was prepared to accept a donation of 1 million N-95 masks and other PPE from Salesforce. However, FEMA General Counsel determined that the donation was too large for VA to accept. Secretary Wilkie sent a formal letter to FEMA Administrator asking for authority to accept the donation OR purchase the materials directly. (4/9/20)
• VA awarded an $8M urgent sole source contract to SDV Office Systems for 97 Tablo® Helodialysis Systems for treating patients with COVID-19 infection. The contractor will deliver as many units as possible before July 31, 2020. The need is particularly pressing for patients with end-stage kidney disease being treated with intermittent hemodialysis (HD). (4/10/20)
• VA request to POTUS for Advanced Payment Authority was approve and signed by POTUS. (4/11/20)
• VA completed a temporary delegation which will apply to the Federal Supply Schedule for Healthcare Staffing Services’ ceiling price determination for field contracting officers to use. This delegation, which is available for use until July 1, 2020, will provide immediate nursing staff augmentation for our medical centers. (4/11/20)
• VA reported to OIG regarding a potential case of price gouging. DOJ issued a press release on April 10th concerning the arrest of Christopher Parris, who attempted to sell VA $750 million of nonexistent masks and other PPE: https://www.justice.gov/opa/pr/georgia-man-arrested-attempting-defraud-department-veterans-affairs-multimillion-dollar-covid
• VA has partnered with Facebook to provide more than 7,400 Facebook portal devices. The American Red Cross Military Veteran Caregiver Network will store and ship the devices to qualifying Veterans in pairs. Devices are available today (4/15/2020) for Veterans and their caregivers and families to reduce isolation, improve mental health, wellness, and social connectedness at home. (4/15/20)
• VA acquired the former Garland-Baylor, Scott & White hospital, April 3, to increase its capacity to care for Veterans and support the department’s response to COVID-19. The 470,000 square foot facility was donated by Baylor, Scott & White and will eventually serve as an outpatient and specialty care clinic within the VA North Texas Health Care System. The hospital will be able to open Monday April 20. (4/17/20)
• VA National Acquisition Center FSS coordinated with National Association of State Procurement Officials (NAPSO) authorizing State and Local governments to procure Covid-19 support using FSS vendors/contracts. (4/17/20)
• The Strategic Acquisition Center awarded a purchase order for 5 million, 3-ply disposable medical masks (non-N95) valued at $2.8M. The contract was signed on April 22, 2020. (4/23/2020)
• VA may now utilize the contract HHS funded through DLA to receive N95 mask decontamination and transportation services from Battelle without reimbursing HHS (no cost to supplemental funding). (4/24/20)
• On 5/4/20, the Strategic Acquisition Center awarded a contract to Hanes for 2.4M cloth masks valued at $1.9M. This contract has ten optional Contract Line Item Number (CLINs) with the possibility to supply ten million additional masks. (5/5/20)
