

# VA'S CHOOSE HOME PARTNERSHIPS

The voices of Veterans and their caregivers and families are powerful. Veterans who are at risk of institutionalization or death are asking to stay in the comfort of their homes while they receive health care, rather than moving to an unfamiliar place. VA is responding to this need through its Choose Home initiative. The efforts of the Choose Home initiative will inform, and help guide, improvements in coordinated case management, and will develop an integrated care model for non-institutional care and services.

VA, other governmental agencies, and community organizations will work together through Choose Home to bring specific services to Veterans and their families, caregivers, and survivors. As this infographic demonstrates, these stakeholders will provide one another support and rely on one another's resources and expertise to bring in-home care to Veterans.

**VA's Choose Home Goal:** To create comprehensive, integrated service delivery and support, which will allow Veterans who are aging, or have complex care needs, to *Choose Home* and community living.
