HAP Quarterly Newsletter - Summer 2023

In the latest issue of the newsletter, read about how Veterans Health Administration's (VHA) partnerships continue to support Veterans and their families with health and wellness programs, innovative resources, creative art therapy, and more.

Feature Article

The National Center for Healthcare Advancement and Partnerships (HAP) recently announced a new partnership between VHA and Mediflix. The partnership aims to empower Veterans and their families with vital healthcare resources and guide them toward informed decisions.

Mediflix, is an online streaming platform that hosts a vast selection of educational content and technology to improve health care for Veterans. Founded by a team of renowned media executives, Mediflix uses the latest digital technologies to virtually connect Veterans to hundreds of physicians across 37 medical specialties.

Through the partnership, Veterans receive access to a wealth of information about major health conditions from well-known medical institutions. The collaboration amplifies Veteran-focused health resources, including the Veterans Health Library (VHL), which offers Veterans, family members, and caregivers 24/7 access to printable health sheets, videos, worksheets and other helpful resources.
