RE: Grant and Per Diem Program – VA Letters of Collaboration

VA Homeless Coordinators and Staff:

As you know, VA recently released the Transition In Place (TIP) Notice of Fund Availability (NOFA) for the Grant and Per Diem (GPD) Program ([www.va.gov/homeless/gpd.asp](http://www.va.gov/homeless/gpd.asp)). Some of you have been or will be approached by community organizations requesting letters of collaboration. This memo will clarify how to respond to these requests. Please note applications are due to the GPD National Program Office by April 22, 2020, at 4:00pm Eastern Time.

**Evidence of Established Linkages/Collaboration:** If requested by an applicant, VISN and local VA Medical Center (VAMC) staff members may utilize the attached template (Memo Attachment A) to provide objective feedback describing VA’s knowledge of the applicant organization.

GPD requires that applicants describe how they consulted directly with the VAMC Director (or the appropriate authorized VAMC representative per the local VAMC’s practice) regarding coordination of services for project participants. GPD asks applicants to provide a plan to assure access to healthcare, case management and other care services. Applicants are invited, but not required, to include a letter of collaboration from the VAMC to corroborate the information in the application and to demonstrate coordination. The presence of, and/or content within, a letter can influence an application’s score, particularly in the areas of need and coordination. We encourage you to consider how the need for the proposed beds, TIP housing model or services are tailored to the location of the project and to the ability of the applicant.

For a letter to be considered part of an organization’s application, it should be available to the applicant in time for them to include it in their online application package by the due date and time noted above. Any materials arriving separately or late will not be accepted as part of the application. We encourage applicants to submit their applications early in order to avoid the risk of unanticipated delays, computer service outages or other submission-related problems that might result in ineligibility. We also ask applicants to give medical centers as much time as possible, and preferably at least 30 days, for providing a letter. Similarly, we encourage medical centers to support applicants’ efforts to submit as early as possible by responding in a timely manner.

If you have any questions or require further guidance, please do not hesitate to contact the GPD National Program Office at gpdgrants@va.gov.

Thank you in advance for your assistance.

Sincerely,

GPD National Program Office
