GRANTEE PERFORMANCE

• Grantees (to include program leadership) **must** have regular discussions with their GPD liaison regarding performance
  – **At least quarterly**, Liaisons must share data regarding performance metrics on permanent housing, reducing negative exits, & employment
  – Performance should be compared to goals for each grant type (stated in NOFO)
  – Discuss average programmatic LOS
    • Length of stay should be driven by clinical need, as evidenced by progress toward the Veterans goals in their individual service plan
  – Discuss average occupancy
    • If utilization rate is low, are there short-term reasons (e.g., COVID, damage to portion of the facility) or is it a reflection of changing needs in the community

• Option year renewals occurred for all grantees that signed updated agreements

• In FY 2022, GPD National Office will resume reviews looking at the performance-related items above

38CFR61.62 Program Changes

(a) Except as provided in paragraphs (b) through (d) of this section, a recipient may not make any significant changes to a project for which a grant has been awarded without prior written approval from the VA National Grant and Per Diem Program Office. Significant changes include, but are not limited to, a change in the recipient, a change in the project site (including relocating, adding an annex, a branch, or other expansion), additions or deletions of activities, shifts of funds from one approved type of activity to another, and a change in the category of participants to be served.

(b) Recipients of grants involving both construction and non-construction projects must receive prior written approval from the VA National Grant and Per Diem Program Office for cumulative transfers among direct cost categories which exceed or are expected to exceed 10 percent of the current total approved budget.
(c) Recipients of grants for projects involving both construction and non-construction who are state or local governments must receive prior written approval from the VA National Grant and Per Diem Program Office for any budget revision which would transfer funds between non-construction and construction categories.

(d) Approval for changes is contingent upon the application ranking remaining high enough after the approved change to have been competitively selected for funding in the year the application was selected.

(e) Any changes to an approved program must be fully documented in the recipient's records.
• Changes of scope should be discussed with the GPD liaison and the VAMC prior to submission to our office

• Changes of scope that are clear and concise will likely result in a quicker response from our office as they will involve less consultation about the request with the grantee and/or VAMC

• Please refer to Grant Recipient Guides on our GPD Provider webpage for more detailed information on how to write and request a change of scope.

• For a more detailed presentation on this topic, please review the February Operational Provider call (starts at 32:15):

GPD Regulations and Guides

GPD General Terms and Conditions of Award
version date May 2020
Racial Equity
Black, Indigenous, People of Color are overrepresented in the homeless system as a proportion of their populations. The GPD National Program Office encourages grantees to recognize racial disparities and work towards creating a culture of racial equity.

FY 2021 PDO and FY 2022 SN grant applications contained a section outlining the grantee’s plan to focus on culturally competent staff development. Training activities should be developed to assist grantee staff with providing relevant services to Veterans impacted by racial inequity. If grantees have any concerns or questions about implementing a racial equity staff development plan, please reach out to the GPD liaison.

You may find the following resources helpful:
- National Alliance to End Homelessness: [Racial Equity Network Toolkit](#)
- HUD Exchange: [Racial Equity Resources](#)
Ability—in approximately 500 words, describe the organization’s staff development plan to help staff gain and maintain the knowledge, skills and abilities to provide culturally competent and relevant related services to people impacted by racial inequity. Include details on how staff will participate in specific training activities.

• Leadership should ensure that staff providing services have read the grant and understand expectations for service delivery
• Leadership should ensure staff are trained as outlined in the grant
• If the grantee is not following what is written in the grant, corrective action may be a possibility
