SUICIDE RISK AND PREVENTION

GETTING VETS OFF THE STREETS

- You gave **hope** to many Veterans experiencing unsheltered homelessness during your surge events.
- We see **suicide prevention** as part of the important work you do each day to serve Veterans.
- September is recognized as Suicide Prevention Month by the VA.

THE CHALLENGE – “THERE’S NO SINGLE CAUSE”

- Suicide is often the result of a complex interaction of risk and protective factors at the individual, community, and societal levels.
- Homeless and legally-involved Veterans both experience many of these risk factors at a heightened propensity.
 - Yet the experience of these risk factors does not “explain” suicide risk.
 - For example, even after accounting for several risk factors (e.g., PTSD, depression, substance use), homeless Veterans were still 8.8 times more likely to attempt suicide.

ADDITIONAL CONSIDERATIONS

- All VAMCs have suicide prevention coordinators, work with your GPD Liaison to get to know them!
 - [VA Suicide Prevention Resource Locator](#).
- Assist Veterans with connecting to mental health services. Get information about inpatient and outpatient services available through VA at [MentalHealth.VA.gov](#).
- Ensure all staff complete the [S.A.V.E training](#) and discuss internal protocols for effective implementation.
 - **S** Spot the signs a Veteran might be thinking about suicide.
 - **A** Ask the critical question — “Are you thinking of killing yourself?”
 - **V** Validate the Veteran’s experience.
 - **E** Encourage and support next steps with the Veteran.
- Ensure that you are familiar with your organization’s procedures for identifying and responding to suicide risk.
