Dear David,

Hope all is well with you and that you are adjusting to your new whirlwind life in D.C.

Commensurate with my brief discussion to you last month I have been working with Marty Levine who will likely represent the American Osteopathic Association and their subgroups in a proposal I wanted to send to you in its raw form. I spoke to Poonam at the banquet about it briefly so I am copying her on the proposal Marty and I wrote . If you want to wait for its final form you don't have to read it, but if you read it and either you or Poonam have any thoughts , any and all changes to form and content are welcome.

Be Well and as always , it was great to see you in NJ 📧📞
