VA to start processing disability claims for certain conditions related to particulate matter

WASHINGTON — The Department of Veterans Affairs will begin processing disability claims Aug. 2 for asthma, rhinitis and sinusitis on a presumptive basis based on presumed particulate matter exposures during military service in Southwest Asia and certain other areas — if these conditions manifested within 10 years of a qualifying period of military service.

VA conducted the first iteration of a newly formed internal VA process to review scientific evidence to support rulemaking, resulting in the recommendation to consider creation of new presumptions of service connection for respiratory conditions based on VA's evaluation of a National Academies of Science, Engineering and Medicine report and other evidence.

The process concluded that particulate matter pollution is associated with chronic asthma, rhinitis and sinusitis for Veterans who served in the Southwest Asia theater of operations beginning Aug. 2, 1990 to the present, or Afghanistan, Uzbekistan, Syria or Djibouti beginning Sept. 19, 2001 to the present. VA's review also concluded that there was sufficient evidence to presume that these Veterans have been exposed to particulate matter.

"I announced my intent to initiate rulemaking on May 27 to consider adding respiratory conditions to the list of chronic disabilities," said Denis McDonough, Secretary of Veterans Affairs. "Through this process I determined that the evidence provided was sufficient to establish presumptions of service connection for these three respiratory conditions. This is the right decision, and VA will continue to use a holistic approach in determining toxic exposure presumptives moving forward."

The Southwest Asia theater of operations refers to Iraq, Kuwait, Saudi Arabia, the neutral zone between Iraq and Saudi Arabia, Bahrain, Qatar, the United Arab Emirates, Oman, the Gulf of Aden, the Gulf of Oman, the Persian Gulf, the Arabian Sea, the Red Sea and the airspace above these locations.

VA will conduct outreach to impacted Veterans and survivors to inform them about their eligibility and will provide information on how to apply. Veterans and survivors who believe they may be eligible for the newly established presumptive conditions are encouraged to apply. They should file a [VA Form 21-526EZ](#) if applying for the first time or a [VA Form 20-0995](#) if they are reapplying for these conditions. For more information on the new presumptive conditions, visit our website at [Airborne Hazards and Burn Pit Exposures - Public Health \(va.gov\)](#).

To apply for benefits, Veterans and survivors may visit [VA.gov](#) or call toll-free at 800-827-1000. Within the next week, you can view the interim final rule at [www.regulations.gov](#).
