§ 3.381 Service connection of dental conditions for treatment purposes.

(a) The Veterans Benefits Administration (VBA) will adjudicate a claim for service connection of a dental condition for treatment purposes after the Veterans Health Administration determines a veteran meets the basic eligibility requirements of §17.161 of this chapter and requests VBA make a determination on questions that include, but are not limited to, any of the following:

(1) Former Prisoner of War status;
(2) Whether the veteran has a compensable or noncompensable service-connected dental condition or disability;
(3) Whether the dental condition or disability is a result of combat wounds;
(4) Whether the dental condition or disability is a result of service trauma; or
(5) Whether the veteran is totally disabled due to a service-connected disability.

(b) Treatable carious teeth, replaceable missing teeth, dental or alveolar abscesses, and periodontal disease are not compensable disabilities, but may nevertheless be service connected solely for the purpose of establishing eligibility for outpatient dental treatment as provided for in §17.161 of this chapter. These conditions and other dental conditions or disabilities that are noncompensably rated under §4.150 of this chapter may be service connected for purposes of Class II or Class II (a) dental treatment under §17.161 of this chapter.

SUPPLEMENTARY INFORMATION: On May 19, 2011, VA published a notice of proposed rulemaking in the Federal Register (76 FR 28925), that proposed to amend regulations in 38 CFR part 39 governing Federal grants for the establishment, expansion, and improvement of veterans cemeteries and to implement through regulation new statutory authority to award grants to Tribal Organizations in the same manner and under the same conditions as awarded to States, as authorized by the Act (Pub. L. 109–461), enacted December 22, 2006. VA provided a 60-day comment period for the proposed rule that ended on July 18, 2011.

We received one comment which supported providing cemetery grants to Tribal Organizations in the same manner VA currently provides grants to States. The comment indicated that the process for Tribal Organizations to qualify for a grant should be no different than the process that States are currently required to follow. No change is required in the final rule to address this comment. As specified in the Act, grants to Tribal Organizations “shall be made in the same manner, and under the same conditions, as grants to States.” Public Law 109–461, § 403. Accordingly, Tribal Organization grants will be awarded in the same manner as VA currently provides grants to States. The final rule adheres as closely as possible to the procedures and requirements for States to apply for cemetery grants. The final rule does not change the existing grant prioritization process and retains the same four priority groups as the current Part 39. Thus, in accordance with 38 U.S.C. 2408, Tribal Organizations will compete with States in the prioritization process.

Based on the rationale set forth in the proposed rule, and upon consideration of the public comment submission, we adopt the provisions of the proposed rule as a final rule, with minor non-substantive edits to the rule text to accurately reflect the wording and punctuation in the current 38 CFR part 39.

Executive Orders 12866 and 13563

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, when regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, and other advantages; distributive impacts; and equity). Executive Order 13563 (Improving Regulation and Regulatory Review) emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. Executive Order 12866 (Regulatory Planning and Review) defines a “significant regulatory action,” which requires review by the Office of Management and Budget (OMB), as “any regulatory action that is likely to result in a rule that may: (1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the
rights and obligations of recipients thereof; or (4) Raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in this Executive Order.”

The economic, interagency, budgetary, legal, and policy implications of this regulatory action have been examined and it has been determined not to be a significant regulatory action under Executive Order 12866.

**Executive Order 13175**

Executive Order 13175 provides that Federal agencies may not issue a regulation that has Tribal implications, that imposes substantial direct compliance costs on Tribal governments, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the Tribal Organizations or the Federal agency consults with Tribal officials early in the process of developing the proposed regulation and develops a Tribal summary impact statement. VA’s cemetery grant program for Tribal Organizations is required by statute, which specifically provides that the grants shall be “made in the same manner, and under the same conditions, as grants to States are made”. In addition, participation is voluntary and 100 percent of the development costs for an approved project are provided by VA. Thus, Executive Order 13175 requirements are not applicable. However, in the spirit of the Executive Order, VA has communicated with the Tribal Organizations regarding the proposed regulatory grant application process. On January 28, 2008, an informational letter was sent to each of the Federally-recognized Indian Tribes informing them that “American Indian Tribal grants will be considered in the same manner as State veterans cemetery grants under the authority of title 38 Code of Federal Regulations (CFR) Part 39.” Further, on February 22, 2008, a conference call took place between senior VA officials and representatives designated by Tribal leadership of Federally-recognized Tribes to discuss the grant application process. Senior NCA officials and representatives continue to meet with and communicate with Tribal Organizations that are interested in the grant program.

**Regulatory Flexibility Act**

The Secretary hereby certifies that this final rule has no significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. The Secretary acknowledges that this final rule may affect some tribal governments that may be considered small entities; however, the economic impact is not significant. This final rule imposes no mandatory requirements or costs on Tribal governments as a whole and only affects those that choose to apply for veterans cemetery grants. To the extent that small entities are affected, the impact of this amendment is both minimal and entirely beneficial. Therefore, pursuant to 5 U.S.C. 605(b), this final rule is exempt from final regulatory flexibility analysis requirements of sections 603 and 604.

**Unfunded Mandates**

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in an expenditure by State, local, or Tribal governments, in the aggregate, or by the private sector, of $100 million or more (adjusted annually for inflation) in any year. This final rule would have no such effect on State and local governments, or on the private sector. While the final rule may result in some expenditure by Tribal governments, the aggregate amount of such expenditures is estimated to be significantly less than $100 million.

**Paperwork Reduction Act**

This final rule requires Tribal Organizations to submit information to obtain grants under VA’s Veterans Cemetery Grants Service. The collections of information referenced in this final rule have been approved by OMB and have been assigned OMB control numbers 0348–0002, 4040–0004, 4040–0008, 4040–0009, and 2900–0550 in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521).

**Catalog of Federal Domestic Assistance Number and Title**

The Catalog of Federal Domestic Assistance program number and title for this final rule is 64.203, State Cemetery Grants.

**Signing Authority**

The Secretary of Veterans Affairs, or designee, approved this document and authorized the undersigned to sign and submit the document to the Office of the Federal Register for publication electronically as an official document of the Department of Veterans Affairs. John R. Gingrich, Chief of Staff, Department of Veterans Affairs, approved this document on December 20, 2011, for publication.

(4) The State or Tribal Organization will assist VA in assuring that the grant complies with section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), Executive Order 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a–1 et seq.).

(5) The State or Tribal Organization will obtain approval by VA of the final construction drawings and specifications before the project is advertised or placed on the market for bidding; it will construct the project, or cause the project to be constructed, to completion in accordance with the application and approved plans and specifications; it will submit to the Director of the Veterans Cemetery Grants Service, for prior approval, changes that alter any cost of the project, use of space, or functional layout; and it will not enter into a construction contract for the project or undertake other activities until the requirements of the grant program have been met.

VA will notify the State or Tribal Organization of any nonconformity. If the preapplication does conform, VA shall notify the State or Tribal Organization that the preapplication has been found to meet the preapplication requirements, and the proposed project will be included in the next scheduled ranking of projects, as indicated in §39.3(d).
15. Amend § 39.32 by:
   a. Revising the introductory text.
   b. Revising paragraph (a).
   c. Revising paragraphs (b) introductory text, (b)(1) introductory text, and (b)(2) introductory text.

The revisions read as follows:

§ 39.32 Plan preparation.

The State or Tribal Organization must prepare Establishment, Expansion, and Improvement Project plans and specifications in accordance with the requirements of this section for review by the VCGS. The plans and specifications must be approved by the VCGS prior to the State’s or Tribal Organization’s solicitation for construction bids. Once the VCGS approves the plans and specifications, the State or Tribal Organization must obtain construction bids and determine the successful bidder prior to submission of the application. The State or Tribal Organization must establish procedures for determining that costs are reasonable and necessary and can be allocated in accordance with the provisions of Office of Management and Budget (OMB) Circular No. A–87. Once the Establishment, Expansion, and Improvement Project preapplication and the project’s plans and specifications have been approved, an application for assistance must be submitted in compliance with the uniform requirements for grants-in-aid to State and local governments prescribed by OMB Circular No. A–102, Revised.

(a) General. These requirements have been established for the guidance of the State or Tribal Organization and the design team to provide a standard for preparation of drawings, specifications, and estimates.

(b) Technical requirements. The State or Tribal Organization should meet these technical requirements as soon as possible after VA approves the Establishment, Expansion, and Improvement Project preapplication.

(1) Boundary and site survey. The State or Tribal Organization shall provide a survey of the site and furnish a legal description of the site. A boundary survey need not be submitted if one was submitted for a previously approved project and there have been no changes. Relevant information may then be shown on the site plan. If required, the site survey shall show each of the following items:

(2) Soil investigation. The State or Tribal Organization shall provide a soil investigation of the scope necessary to ascertain site characteristics for construction and burial or to determine foundation requirements and utility service connections. A new soil investigation is not required if one was done for a previously approved project on the same site and information from the previous investigation is adequate and unchanged. Soil investigation, when done, shall be documented in a signed report. The investigation shall be adequate to determine the subsoil conditions. The investigation shall include a sufficient number of test pits or test borings as will determine, in the judgment of the architect, the true conditions. The following information will be covered in the report:

(c) Master plan. A master plan showing the proposed layout of all facilities—including buildings, roadways, and burial sections—on the selected site shall be prepared for all new cemetery establishment projects for approval by the VCGS. If the project is to be phased into different year programs, the phasing shall be indicated. The master plan shall analyze all factors affecting the design, including climate, site conditions, site boundaries, topography, views, hydrology, environmental constraints, transportation access, etc. It should provide a discussion of alternate designs that were considered. In the case of an expansion project or improvement project, the work contemplated should be consistent with the VA-approved master plan or a justification for the deviation should be provided.

(d) Preliminary or “design development” drawings. Following VA approval of the master plan, the State or Tribal Organization must submit design development drawings that show all current phase construction elements to be funded by the grant. The drawings must comply with the following requirements:

(e) Final construction drawings and specifications. Funds for the construction of any project being assisted under this program will not be released until VA approves the final construction drawings and specifications. If VA approves them, VA shall send the State or Tribal Organization a written letter of approval indicating that the project’s plans and specifications comply with the terms and conditions as prescribed by VA. This does not constitute approval of the contract documents. It is the responsibility of the State or Tribal Organization to ascertain that all State and Federal requirements have been met and that the drawings and specifications are acceptable for bid purposes.

(1) General. The State or Tribal Organization shall prepare final working drawings so that clear and distinct prints may be obtained. These drawings must be accurately dimensioned to include all necessary explanatory notes, schedules, and legends. Working drawings shall be complete and adequate for VA review and comment. The State or Tribal Organization shall prepare separate drawings for each of the following types of work: Architectural, equipment, layout, structural, heating and ventilating, plumbing, and electrical.

(2) Architectural drawings. The State or Tribal Organization shall submit drawings which include: All structures and other work to be removed; all floor plans if any new work is involved; all elevations which are affected by the alterations; building sections; demolition drawings; all details to complete the proposed work and finish schedules; and fully dimensioned floor plans at 1⁄8” or 1⁄4” scale.

(3) Equipment drawings. The State or Tribal Organization shall submit a list of all equipment to be provided under terms of the grant in the case of an Establishment Project. Large-scale drawings of typical special rooms indicating all fixed equipment and major items of furniture and moveable equipment shall be included.

(4) Layout drawings. The State or Tribal Organization shall submit a layout plan that shows:

(5) Structural drawings. The State or Tribal Organization shall submit complete foundation and framing plans and details, with general notes to include: Governing code, material strengths, live loads, wind loads, foundation design values, and seismic zone.

(6) Mechanical drawings. The State or Tribal Organization shall submit:

(7) Electrical drawings. The State or Tribal Organization shall submit separate drawings for lighting and power, including drawings of:

(9) Cost estimates. The State or Tribal Organization shall show in convenient form and detail the estimated total cost
of the work to be performed under the contract, including provisions of fixed equipment shown by the plans and specifications, if applicable, to reflect the changes of the approved financial plan. Estimates shall be summarized and totaled under each trade or type of work. Estimates shall also be provided for each building structure and other important features such as the assembly area and shall include burial facilities.

16. Revise § 39.33 to read as follows:

§ 39.33 Conferences.

(a) Predesign conference. A predesign conference is required for all Establishment, Expansion, and Improvement Projects requiring major construction, primarily to ensure that the State or Tribal Organization becomes oriented to VA procedures, requirements, and any technical comments pertaining to the project. This conference will take place at an appropriate location near the proposed site and should include a site visit to ensure that all parties to the process, including NCA staff, are familiar with the site and its characteristics.

(b) Additional conferences. At any time, VA may recommend an additional conference (such as a design development conference) be held in VA Central Office in Washington, DC, to provide an opportunity for the State or Tribal Organization and its architects to discuss with VA officials the requirements for a grant.

(Authority: 38 U.S.C. 501, 2408)

17. In § 39.34, revise paragraphs (a) introductory text, (b) introductory text, and (c) to read as follows:

§ 39.34 Application requirements.

(a) For an Establishment, Expansion, and Improvement Project to be considered for grant funding under this subpart, the State or Tribal Organization must submit an application (as opposed to a preapplication) consisting of the following:

* * * * *

(b) Prior to submission of the application, the State or Tribal Organization must submit a copy of an Environmental Assessment to determine if an Environmental Impact Statement is necessary for compliance with section 102(2)(C) of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.). The Environmental Assessment must briefly describe the project’s possible beneficial and harmful effects on the following impact categories:

* * * * *

(c) If an adverse environmental impact is anticipated, the State or Tribal Organization must explain what action will be taken to minimize the impact. The assessment shall comply with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.).

§§ 39.36 through 39.49 [Reserved]

18. Add and reserve §§ 39.36 through 39.49 in subpart B.

§ 39.50 Amount of grant.

* * * * *

(b) * * *

(3) In the case of an establishment grant, the cost of equipment necessary for the operation of the State or Tribal veterans cemetery. This may include the cost of non-fixed equipment such as grounds maintenance equipment, burial equipment, and office equipment.

(4) In the case of an improvement or expansion grant, the cost of equipment necessary for operation of the State or Tribal veterans cemetery, but only if such equipment:

* * * * *

20. In § 39.51, revise the introductory text and paragraph (d) to read as follows:

§ 39.51 Payment of grant award.

The amount of an Establishment, Expansion, and Improvement Project grant award will be paid to the State or Tribal Organization or, if designated by the State or Tribal Organization representative, the State or Tribal veterans cemetery for which such project is being carried out, or to any other State or Tribal Organization agency or instrumentality. Such amount shall be paid by way of reimbursement and in installments that are consistent with the progress of the project, as the Director of the Veterans Cemetery Grants Service may determine and certify for payment to the appropriate Federal institution. Funds paid under this section for an approved Establishment, Expansion, and Improvement Project shall be used solely for carrying out such project as approved. As a condition for the final payment, the representative of the State or Tribal Organization must submit to VA the following:

III. Background

A. History

The Federal laws governing drugs of abuse are set forth in the Comprehensive Drug Abuse Prevention and Control Act of 1970, often referred to as the Controlled Substances Act and the Controlled Substances Import and Export Act (21 U.S.C. 801–971), as amended. Controlled substances are drugs and other substances that have a potential for abuse and psychological and physical dependence. The Drug Enforcement Administration (DEA) is the primary agency responsible for enforcing the Federal controlled substance laws. The DEA regulations, which implement these laws, are found in 21 CFR parts 1300 to 1321. As part of these regulations, DEA publishes an updated list of controlled substances in 21 CFR 1308.11 through 1308.15. The controlled substances are divided into five schedules. The controlled substances listed in the schedule that are relevant to this rulemaking, Schedule I controlled substances, have a high potential for abuse and have no currently accepted medical use in the United States (DEA Interim Final Rule on Electronic Prescriptions for Controlled Substances, 75 FR 16236, March 31, 2010).

The Omnibus Transportation Employee Testing Act of 1991 (OTETA) mandated that DOT establish a
