

# FREE INSTITUTIONAL LICENSING FOR VA CLINICIANS

## NCIPH Foundations in Integrative Health Online Curriculum

The National Center for Integrative Primary Healthcare Foundations in Integrative Health is a 31.6-hour online curriculum delivered over 6 courses. This introductory course sets the foundation of developing a core set of integrative healthcare (IH) competencies and resources for the variety of health professionals who work in primary care, such as direct and lay health care workers. To learn more about the course learning objectives and lessons, please see the [curriculum syllabus](#)\*

### Accreditation

31.6 AMA PRA Category 1 Credits™ available for Physicians

31.6 CNE Credits available for Nurses

3.16 ACPE Credits available for Pharmacists

\*Based on all 6 courses. Accreditation is also available per course for courses 3-6. Courses 1-2 both must be taken for accreditation.

### Delivery

Online reading, activities, and video

### VA Learner Assessment

Short online course exam (70% score to pass each course, multiple choice).

### Program Completion

VA learners who complete the entire curriculum and pass a final exam will receive a program completion certificate.

\*At least 80% of entire curriculum must be complete to be considered as a graduate.

### Who can register

VA Clinicians (physicians, nurses, nurse practitioners, pharmacists, physician assistants, social workers, mental health professionals, and any clinicians involved in the delivery of primary health care)

**Registration Link** [VHA OPCC&CT Education—FIH Online Curriculum Request](#)
