WORKING YOUR BODY
Exercise gives you energy and strength. Movement can make you more flexible. Exercise is also good for your mind. Regular exercise can lower blood pressure and cholesterol and reduce the risk for heart disease. Examples of exercise and movement include walking, gardening, dancing, or lifting weights. It’s important to find what works for you.

SURROUNDINGS
Your environment can affect your health. You may have problems with safety, or things like clutter, noise, bad smells, poor lighting or water quality. You may be able to change some of these problems. You may not be able to change them all. It starts with paying attention to the influences of your environment on your life and health. Improve what you can. It’s good to have a safe, comfortable, and healthy space.

PERSONAL DEVELOPMENT
No matter where you are in life, your personal and work life is very important. How do you spend your time and energy during the day? Do things give you energy or make you tired? Do you spend time doing what matters most to you? How do you feel about your finances and how are they affecting your life? These factors affect not only your happiness, but also your health.

FOOD AND DRINK
What you eat and drink can nourish your body and mind. Choose healthy eating habits that fit your lifestyle. Certain supplements can support your health goals. Limit alcohol, caffeine, and nicotine. Keep your body and mind properly fueled.

RECHARGE
Sleep is very important for your body and mind. Rest can give you peace. Relaxation can lower stress. Activities you enjoy can help you feel recharged. A good balance between activity and rest improves your health and well-being.

FAMILY, FRIENDS, AND CO-WORKERS
Feeling alone can sometimes make you get sick or keep you sick. Positive social relationships are healthy. A healthy intimate relationship with a life partner can be a source of strength. It’s good to talk to people who care about you and listen to you.

SPIRIT AND SOUL
A sense of meaning and purpose in life is important to many people. When things are hard, where do you turn for strength and comfort? Some people turn to spiritual or religious faith. Some people find comfort in nature. Some connect with art, music or prefer quiet time alone. Some want to help others. You may express this as a guide to living fully.

POWER OF THE MIND
Your mind can affect your body. Sometimes when you think about stressful things, your heart rate and blood pressure go up. You can use the power of your mind to lower blood pressure or control pain. Learn to use the connection between your body, brain, and mind. Warriors and athletes use the power of the mind to visualize a successful mission or event. Mind-body practices tap into the power of the mind to heal and cope.
HEALTH: YOU AS A WHOLE PERSON

You are the expert on you! What really matters to you? Why do you want or need your health? What do you want your life to be like? Sometimes, it is hard to figure this out.
