

On behalf of Mr. Joe Paiva, Executive Director, VLER, the following information is provided as input to the weekly Cabinet Report:

29 May – 1 June 2012

Virtual Lifetime Electronic Record

On May 30 to June 1, 2012, representatives from Virtual Lifetime Electronic Record (VLER) will attend an Information Technology (IT) Roadmap Lockdown hosted by the Office of Architecture Strategy and Design (ASD). The purpose of this lockdown is to: develop a Department of Veterans Affairs (VA) IT Roadmap for Fiscal Year 2013-2020; establish technology categories; establish a baseline description of the current VA computing environment; and define what Office of Information Technology (OIT) improvements are needed. Overall, participation in this lockdown will help create a blueprint for the evolution of IT support.
