

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

U.S. Department
of Veterans Affairs

ADAPTIVE SPORT ENTITIES IN THE UNITED STATES COMMONWEALTHS AND TERRITORIES

Q: In regards to the Adaptive Sports Grant (ASG) Program, are adaptive sports entities in the United States Commonwealths and Territories eligible for grants?

A: Yes. As defined in 38 CFR Part 77.2, adaptive sports entities in American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the United States Virgin Islands are eligible to receive grants under the ASG Program. For Paralympic sports, there are different jurisdictions in the Commonwealths and Territories. Applicants pursuing a grant for a Paralympic sport activity in the Commonwealths and Territories should include their respective Paralympic organization.

ADMINISTRATIVE COSTS

Q: Our organization will be applying for an ASG Program grant. Are there limitations on indirect cost/F&A rates or can we use our federally negotiated rates?

A: The ASG Program has a legislated mandatory indirect cost rate. In development of the initial U.S. Paralympics Integrated Adaptive Sports Program and subsequent VA Adaptive Sports Grant (ASG) Program, indirect costs were included under the Administrative Costs provision under 38 U.S.C. 521A. 38 CFR 77.14(c) identifies Administrative Costs are limited to 7.5% during FY2015 and 5.0% after FY2015. Also, 38 CFR 77.14(c)(2) links some Personnel Costs to Administrative Costs. Personnel Costs that involve direct coaching and/or direct instruction of disabled Veterans and disabled members of the Armed Forces are classified as operational costs. By law, all personnel costs that do not involve coaching and/or instruction of disabled Veterans and disabled members of the Armed Forces are classified as administrative costs and will be included among administrative costs in consideration of 38 CFR 77.14(c) allowable administrative costs.

ALLOWABLE COSTS

Q: We are a 501c3 non-profit adaptive sports team with disabled Veteran participants and also annually host a tournament in which we bring in teams from around the world and the United States to compete. Can we apply for the ASG Program grant to help with team expenses or help cover the costs of hosting our tournament?

A: As a 501c3 non-profit adaptive sports entity that meets the eligibility criteria defined in 38 CFR 77.2, this adaptive sports organization is eligible to apply for an ASG Program grant. However, the ASG Program is authorized to provide adaptive sports activities for disabled Veterans and disabled members of the Armed Forces. Therefore, an applicant would have to determine what costs would be considered allowable costs for inclusion in the grant application. Expenses incurred for participants who are not disabled Veterans or disabled members of the Armed Forces are not allowable costs. Applicants need to comply with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (<http://www.gpo.gov/fdsys/pkg/FR-2013-12-26/pdf/2013-30465.pdf>), and 38 CFR Part 77.

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

Q: We are thinking of allocating percentages of the grant to [Project X] to achieve [Result X], [Project Y] to achieve [Result Y], and subgrants to our centers for [Project Z] to achieve [Result Z]. What are our chances of receiving a grant?

A: During the open competitive grant application period, VA is allowed to provide information to clarify items related to the ASG Program grant, application, and technical issues, but not discuss substantive items that may influence the results of the competitive grant process. In addition, any ASG Program subgrants may only be awarded for Paralympic sport-related activities as specified in Public Law 113-59 and further described in 38 CFR 77.15.

AUDITS

Q: We understand a grant of \$500,000 will trigger a requirement for an A-133 audit (Single Audit Act), which will incur a significant expense that it looks like the grant won't cover. What options can we use to meet the audit costs?

A: The Office of Management and Budget released 2 CFR 200 (<http://www.gpo.gov/fdsys/pkg/FR-2013-12-26/pdf/2013-30465.pdf>) in December 2013 and among its changes, 2 CFR 200.501 Audit Requirements raised the Single Audit threshold from \$500,000 in Federal awards per year to \$750,000 in Federal awards per year. Therefore, no single ASG Program award would trigger the requirement for an A-133 equivalent audit. To require such an audit, the grant recipient would have to have an additional \$250,000 in Federal awards beyond the proposed \$500,000 ASG Program grant to reach the threshold. See 2 CFR 200 for other changes.

CHANGES TO ACTIVE GRANTS

Q: If my application for an FY2015 ASG Program grant is selected, can any aspects of the grant be changed or must I implement exactly in accordance with the grant application?

A: As cited in 2 CFR 200.308, changes to grants are authorized and grant recipients are authorized to enact certain changes within the scope authorized. For requesting changes to a grant, VA requires a formal grant change request to provide the data in order to assess validity of a change request. Changes may be submitted as determined necessary and can be submitted either as an individual action or if there is sufficient lead time, the change request can be included as part of the quarterly report. However, there is no guarantee a change request will be approved and grant applications should be based on implementing the program proposed in the application.

CROSSFLOW OF INFORMATION

Q: Can VA provide information on a concept (adaptive sport, technology, equipment ...) to potential applicants to the ASG Program for incorporation in their grant applications?

A: No. To maintain the integrity of the grant application and award processes, VA will not transfer concepts that might compromise the integrity of the ASG Program.

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

ELIGIBILITY OF NON-FEDERAL AND TRIBAL GOVERNMENT ENTITIES

Q: Are state agencies appropriate to apply for the ASG Program?

A: Eligible entities are defined in 38 U.S.C. 521A(a)(2) and 38 CFR Part 77.2. Although adaptive sports grant recipients have primarily included the United States Olympic Committee (USOC), National Governing Bodies, colleges and universities, Paralympic Sports Clubs, Parks and Recreation Departments, hospitals, and Veterans Services Organizations, the basic eligibility criteria is defined as Non-Federal adaptive sports entities “with significant experience in managing a large-scale adaptive sports program”. Therefore, state agencies that meet the overall eligibility requirements in 38 U.S.C. 521A and 77 CFR Part 77 to receive an ASG Program grant would be an eligible entity.

Q: Are tribal governments eligible to apply for the ASG Program?

A: For the ASG Program, eligibility factors applicable to state agencies presented above are also applicable to tribal governments. Therefore, a tribal government that meets the overall eligibility requirements in 38 U.S.C. 521A and 77 CFR Part 77 to receive an ASG Program grant would be an eligible entity.

ELIGIBLE PARTICIPANTS

Q: Who are Veterans barred from qualifying and how is this defined?

A: 38 CFR 77.14(e) restricts participation of certain Veterans and former Servicemembers. The grant agreement will prohibit grant funds from being used to support or provide services (including adaptive sports activities) to Veterans or former Servicemembers who are barred from receiving VA benefits based on their service (see 38 U.S.C. 5303-5303A <http://www.gpo.gov/fdsys/granule/USCODE-2011-title38/USCODE-2011-title38-partIV-chap53-sec5303A>) and to Veterans or former Servicemembers who, if otherwise eligible, would be barred from receiving VA pension, compensation or dependency and indemnity compensation based on the character of their discharge from military service (see 38 CFR 3.12 Character of discharge. <http://www.gpo.gov/fdsys/pkg/CFR-2011-title38-vol1/pdf/CFR-2011-title38-vol1-sec3-12.pdf>). (Authority: 38 U.S.C. 521A(d)(4))

Q: Can individuals who are not disabled Veterans participate in ASG Program grant-funded activities?

A: No. ASG Program grants are awarded in order to provide adaptive sports activities for disabled Veterans and disabled members of the Armed Forces. ASG Program grant application selection, performance metrics, and performance reporting are based on provision of adaptive sports activities for disabled Veterans and disabled members of the Armed Forces. However, disabled individuals may participate in ASG Programs under the condition that no additional ASG Program funds are expended as a result of their participation; because using grant funds for individuals who are not eligible disabled Veterans or disabled members of the Armed Forces is not an allowable cost.

Q: Do Veterans have to be recent Veterans having served in the Post 9/11 World Trade Center attack timeframe to qualify as a participant?

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

A: No. The VA Paralympic and adaptive sports programs are open to eligible disabled Veterans and disabled members of the Armed Forces, regardless of age. In fact, there are many initiatives to enhance adaptive sports opportunities for older Veterans, because many Veterans become disabled after their discharge from the Armed Forces due to factors such as aging, disease, and accidents. For example, diabetes-related amputations are a significant cause of disabilities.

Q: Do Veterans have to be combat Veterans to qualify as a participant?

A: No. All disabled Veterans are equally eligible to participate in and receive benefits related to the VA adaptive sports programs. Combat status is not a factor in eligibility.

Q: Do Veterans have to be registered with VA Healthcare to qualify as a participant?

A: No. Veterans do not have to be registered for VA Healthcare to qualify as a participant. For example, a Veteran may have only served on active duty 2 years during peacetime and separated honorably in perfect health after their brief active duty career; therefore, the Veteran would not be considered for VA Healthcare. However, later in life, the Veteran may experience a disease, accident, or other agent that causes a disability. As a disabled Veteran, this individual is eligible to participate in Adaptive Sport Grant activities, the monthly assistance allowance for disabled Veterans training in Paralympic sports, and other VA adaptive sports programs applicable to their situation

FORMS

Q: Is a Pre-Application required for the ASG Program grant and what forms are required in the Pre-Application?

A: No. There is no requirement for a Pre-Application for ASG Program.

Q: What is the ASG Program grant's Competition Identification Number (CEI) for filling out Block 13 on Form SF-424?

A: The CEI is an optional number and there is no assigned CEI for ASG Program grant. Therefore, leave Block 13 blank on SF-424.

Q: How do you fill out [section/block X] of Standard Form 424A?

A: The SF-424 Instructions are located on the Grants.Gov website at <http://www.grants.gov/web/grants/form-instructions.html>. Please review the instructions before filling out the SF-424, SF-424A, and SF-424B and also before calling with questions.

GEOGRAPHICAL FOOTPRINT

Q: Our organization is located in Colorado, but we have programs in other states. Will our ASG Program grant proposal be evaluated for occurring in Colorado?

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

A: The ASG Program grant is evaluated based on the geographic footprint of the eligible participants affected by the adaptive sports activities delivered in the grant application. The information provided in the grant application in relation to the location of adaptive sports activities and eligible participants affected will determine how it is evaluated. In contrast, Federal award reporting requirements such as USAspending.com are normally based on the business address of the recipient organization. Therefore, the geographic footprint of the grant recipient and adaptive sports activities delivered by the grant may be completely separate locations.

Q: Our organization is considering proposing adaptive sports activities at several sites. Do we have to submit a grant application for each site?

A: No. The ASG Program grant application includes the applicant's plan of adaptive sports activities that may occur at one site or at multiples sites. There is no requirement for an applicant to submit multiple grant applications for a comprehensive adaptive sports activities plan with a budget of \$500,000 or less.

GOALS AND OBJECTIVES

Q: Can I find a document that describes VA's policy described in the NOFA under section "Federal Award Administration Information" (VI.B) and VA's goals and objectives as described under section "Other Information" (VIII.A)?

A: The NOFA for the FY2015 ASG Program was developed closely with 38 CFR Part 77 and as a result these sections were identified as reflecting both VA's goals and objectives in accordance with 38 CFR Part 77. The Department of Veterans Affairs' FY2014-2020 Strategic Plan provides the VA's Strategic Goals and Objectives and is available at the following webpage: <http://www.va.gov/op3/docs/StrategicPlanning/VA2014-2020strategicPlan.PDF>.

LODGING AND SUBSISTENCE EXPENSES

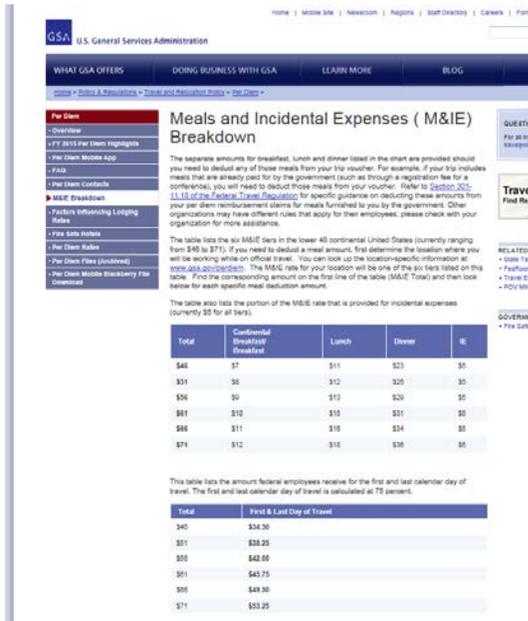

Q: Can I provide lodging and subsistence expenses as part of an ASG Program grant?

A: Lodging and subsistence expenses are allowable costs under travel costs and 2 CFR 200.474 Travel Costs includes explanation of travel costs. Under 2 CFR 200.474(b), the guidance indicates subsistence costs do not exceed charges normally allowed by the non-Federal entity in its regular operations as the result of non-Federal entity's written travel policy. Without superseding justification, event costs should not exceed the lodging and/or subsistence rates for the designated location established by the Administrator of General Services cited in 2 CFR 200.474. The rates for all locations in the United States are available at: <http://www.gsa.gov/portal/category/100120>

FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01

When determining the Per Diem Rates for any site in the United States, for example Tallahassee FL, the website gives the specific Per Diem Rates for Lodging, as well as a breakdown for all meals, as well as Incidental Expenses, as reflected in the following two screenshots:

In considering lodging and subsistence costs, 2 CFR 200.474(b) does provide for grantees to establish rates that are “reasonable and allowable to the extent such costs do not exceed charges normally allowed by the non-Federal entity in its regular operations as the result of the non-Federal entity’s

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

written travel policy.” If policies don’t exist, the GSA rates apply. Therefore, if a subsistence rate is projected that exceeds the GSA rate, the grant recipient must submit travel policies and data relating to costs in order to allow assessment of this request. Without proper justification of rates in excess of the GSA rates, costs that exceed the GSA rates will be assessed as unallowable costs.

In addition, travel costs are an expense that facilitates conducting adaptive sports activities, but is not an adaptive sports activity. There is no requirement under either ASG legislation or regulation to provide full or partial travel costs.

OUTREACH PROGRAMS

Q: As described in the purpose section of the NOFA, applicants are required to establish outreach programs. The scoring criteria do not reference this expectation. In which section of the narrative do you plan to evaluate the outreach plan?

A: There are three scoring criteria that reflect assessment of the outreach plan. First, the outreach plan is a mandatory element and if not included, will result in failure to meet NOFA V.A(2)(i) standards. Also, like other elements of the applicant’s adaptive sports activities plan, the outreach plan will be assessed for clarity under Section V.A(2)(a). Because the outreach plan is an enabler that links the program elements with applicable national, regional and community-based entities and disabled Veterans and disabled members of the Armed Forces, outreach programs are most significantly aligned with V.A(2)(c) for program design based on facts, good reasoning, sound judgment, and logic, and program elements directly linked to the achievement of program objectives.

Q: As described in 38 CFR 77.11, grantees are expected to offer outreach programs. In addition, the NOFA states grantees are expected to participate in VA’s adaptive sports outreach programs. What are these?

A: The VA supports multiple outreach programs to enhance achieve the goals and objectives of adaptive sports programs to provide adaptive sports activities for disabled Veterans and disabled members of the Armed Forces. As appropriate, ASG Program grant-funded adaptive sports activities would be incorporated into the following VA adaptive sports outreach programs:

Adaptive Sports Club Finder: (http://www.va.gov/adaptivesports/va_clubFinder.asp) is a USOC-VA database where adaptive sports entities register their organizational information and adaptive sports activities to enable disabled Veterans and members of the Armed Forces to identify adaptive sports opportunities by sport type and region.

Facebook: The VA’s releases diverse information on VA and partnered adaptive sports activities through the VA Adaptive Sports Facebook page (<https://www.facebook.com/vaadaptivesports>).

Footstomp.com: Both the Department of Defense (DoD) and VA use Footstomp.com (<http://footstomp.com/>) to post adaptive sports activities and interact with disabled Veterans and disabled members of the Armed Forces on adaptive sports issues.

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

Instagram: VA posts pictures highlighting and helping understand adaptive sports activities on its Instagram account: [@VAAdaptiveSport](#).

Twitter: VA releases information on adaptive sports opportunities and other news on adaptive sports through Twitter at <https://twitter.com/VAAdaptiveSport>.

Interagency Coordination: The VA coordinates ASG Program adaptive sports activities with Department of Defense's adaptive sports programs for disabled Veterans and disabled members of the Armed Forces including the Services and Special Operations Command, as well as with the Department of State's Bureau of Educational and Cultural Affairs.

PARTNERSHIP

Q: How many letters of support are required?

A: There is no specific number of partnership documents required; the number of documents is determined by the number of partnerships and other interactive relationships cited in the ASG Program grant applicant's grant proposal. As identified in the section titled "Approach" in the NOFA, applicants will provide letters of support from any partners which will deliver services that reflect the applicant's engagement in providing adaptive sports activities. Also in Section title "Application and Submission Information" (IV.B), the NOFA, states that if the adaptive sports activities will be implemented through partnerships as described in 77.5(a)(5) and 77.8(b), signed documentation of the partners confirming a partnership must be submitted in Grants.Gov. Therefore, adequate documentation must be submitted to meet these requirements in order to verify a partnership exists. Besides letters of support, existing memorandums of agreement, contracts, status of one entity as a registered subordinate unit/chapter of the parent entity/organization and other equivalent documents that verify a formal partnership relationship exists may be used.

PERIOD OF AWARD

Q: Our organization has a 5-year plan for developing adaptive sports activities for disabled Veterans. Can it receive a multi-year grant?

A: No. ASG Program grant VA-ASP-2015-01 is a 14-month grant for adaptive sports activities occurring during the period of August 1, 2015 through September 30, 2016. An ASG Program grant for adaptive sports activities occurring after September 30, 2016, is planned to be available for application during FY2016 and should include the renewal grant option authorized by 38 CFR 77.4(b). The renewal grant allows for funding in subsequent fiscal years with little or no interruption in the provision of adaptive sports activities. Therefore, an applicant may apply for an ASG Program grant with intent for long-term development of adaptive sports activities for disabled Veterans and disabled members of the Armed Forces, but there is no guarantee of funding subsequent to an award period for an ASG Program grant received.

Q: Our organization is considering including an adaptive sports activity that will occur in conjunction with another adaptive sports event that is occurring during the first week of August 2015. Is it possible to include an event that soon?

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

A: Yes. The ASG Program grant submission period closes on May 26 and all processes involved in grant selection and award will commence immediately. Since this grant was appropriated with one-year FY2015 funding, all award actions and finalization of grant agreements must be completed by September 30, 2015 or funding can no longer be obligated. However, all elements of the evaluation, selection and award process are scheduled to occur prior to the end of July 2016. Therefore, adaptive sports activities scheduled to occur during the first week of August 2014 can be including in grant proposals.

PREVIOUS ADAPTIVE SPORTS GRANTS

Q: Our organization received an ASG grant under the FY2014 ASG Program. Can we receive a renewal and use the same name?

A: An ASG Program grant applicant can submit a grant proposal that essentially duplicates the adaptive sports activities that were performed as part of a subgrant under the FY2014 ASG Program. However, for the FY2015 ASG Program, the grant application includes two new forms: the VA Form 10096 Adaptive Sports Grant Application and the VA Administrative and Financial Review Questionnaire for Grantees. Therefore, a FY2014 ASG recipient is eligible to be considered for a FY2015 ASG Program renewal grant, because both application and reporting data related to the applicant's FY2014 ASG program grant can be referenced in the application to reduce administrative burden in the FY2015 ASG application. However, renewal grant applications are evaluated equivalently to initial grant applications. Also, as part of evaluation processes including risk assessment, VA reviews the Do Not Pay, System for Award Management, Federal Audit Clearinghouse, USASpending, and other applicable databases. Therefore, any previous FY2014 ASG Program participation is included in these databases and will be part of the assessment of the adaptive sports entity. As for use of the previously used program name, the ASG Program grant applicant can use any appropriate name as long as it is not prevented from use due to trademark, copyright or other restrictions.

RESEARCH

Q: Can the ASG Program fund research in adaptive sports?

A: No. Research is not an authorized activity as defined in 38 U.S.C. 521A(d) and 38 CFR Part 77.2.

Q: Can ASG Program activities be involved in research?

A: The ASG Program is not authorized to fund adaptive sports research. There is no prohibition against ASG Program adaptive sports activities being associated with research projects. However, any research activities and costs that may be linked with an ASG Program-funded adaptive sports activity would have to be authorized separately from the ASG Program through the applicable authorizing authority. In addition, the research must not negatively affect implementation and accomplishment of the goals and objectives of the ASG Program-funded adaptive sports activity.

SUBORDINATE ORGANIZATIONS

**FREQUENTLY ASKED QUESTIONS RELATED TO ADAPTIVE SPORTS GRANT
PROGRAM FUNDING OPPORTUNITY NUMBER: VA-ASP-2015-01**

Q: Can subordinate adaptive sports entities apply for the ASG Program?

A: Yes. Subordinate adaptive sports entities that have an independent legal status to enter grants and meet the criteria for an eligible adaptive sports entity may apply for a grant through the ASG Program. However, the ASG Program grant applications of the parent and subordinate adaptive sport entities must identify adaptive sports activities and costs with sufficient clarity to ensure duplicative expenses would not be charged in order for both ASG Program grant applications to be awarded.

TRACKING AND REPORTING OF UNIQUE VETERANS

Q: If we receive an ASG Grant, will our organization be responsible for maintaining sensitive personal data on participating Veterans?

A: No. One of the factors in considering ASG Program participants is documentation of participation. As 38 CFR 77.2 Definitions states “Participant means a disabled Veteran or disabled member of the Armed Forces who is receiving adaptive sport activities from a grantee.” After reviewing legal and other considerations related to collection of data on individuals, the VA Office of General Counsel (OGC) determined that to track disabled Veterans’ participation in ASG Programs in order to determine unique Veteran participants, the Veteran’s first and last names combined with the Veteran’s zip code would be sufficient to track unique Veterans. Because of sensitivity of personal data, OGC determined collection and reporting of additional disabled Veterans’ personal data was neither required nor advisable. Therefore, for tracking participating disabled Veterans and disabled members of the Armed Forces for ASG Program reporting, tracking of Veterans’ names and zip codes are required to verify participants.
