# CONGRATULATIONS

## Holly Mukina, CHAI Award Winner!!

*Holly was instrumental administering and developing important processes in a special workgroup entitled "the future of telehealth" at the Erie VAMC to help guide the medical center in the Covid-19 era.*

*An offshoot of this workgroup was the development of a "welcome kit"(WK) that was offered to newly enrolled patients. The contents of the WK included equipment such as home blood pressure monitors, glucose testing equipment, pulse oximeters, scales, etc. The rationale for this equipment was that patients would be able to utilize these "peripherals" at home. Holly personally assisted and ensured that patients received this equipment. This program and its processes have been expanded and will eventually be offered to all patients that receive their primary care at the Erie VA.*

*In summary, Holly has worked tirelessly in support of these initiatives and continues to do so on a daily basis in addition to her regular duties as connected care manager. Her efforts are the embodiment of hard work and innovation.*
