

Questions:

Archana Mahankali:What is the turn around time for the telehealth consult for ID? Thanks
Answered – Dr. Jana Baker: Average turnaround time is within 1-2 hours. You can specify in consult if you would like an answer back that day or within 1 day.

Comments:

Pearl McGee-Vincent: Wonderful job Beth! COVID Coach is a great app and has helped a lot of Veterans, caregivers, and staff during this time

Leonie Heyworth: To place a Tele-ID consult:

Donovan Sandrey - Montana VA: It's been an interesting perception shift out here. A lot of people assume that we only admin COVID suspect or positive into med/surg or ICU. We are lucky and it is not the majority of our census, but definitely interesting to combat that perception.

Hal: The concept that a specialist can be available for a voice to voice (+/- video) consult in growing frequency and specialties, is so "on point" and practical that this is an amazing movement and event!!
