--------------	-------------	--------------	-----------	-----------------

### OPIOIDS, ADDICTION, AND PAIN MANAGEMENT

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">National Tobacco Cessation: Changing the Default for Tobacco Treatment to Increase Engagement and Cessation</a>	This recorded, knowledge-based training will present a promising practice model of opt-out care for tobacco treatment.	1 hour	1122117	8/31/2027
<a href="#">Potential Uses of Psychedelics in Substance Use Disorder Care</a>	This recorded, knowledge-based training will provide inter-professional health care teams with a thorough review of research examining the use of psychedelic-assisted psychotherapy for the treatment of substance use disorders, discuss clinical details of protocols and share potential training for providers in this modality.	1 hour	1120731	6/6/2027
<a href="#">Alcohol Use Disorder Pharmacotherapy Outside Substance Use Disorder Specialty Care: Seizing Opportunities and Overcoming Challenges</a>	This recorded, knowledge-based training will provide inter-professional health care teams with information addressing common provider myths related to treatment of alcohol use disorder outside of specialty substance use disorder care. Representatives from primary care, psychiatry, gastroenterology and pharmacy will provide expertise and recommendations for dealing with this high-risk population.	1 hour	1119169	4/10/2027
<a href="#">Treating Tobacco Use in Patients With Mental Illness</a>	This recorded, knowledge-based training will provide an overview of smoking as a health disparity issue among mental health populations, including data on the higher rates of smoking among mental health and substance use disorder populations, as well as the effect of smoking on mental health outcomes.	1 hour	1120555	4/29/2027

<a href="#">Digital Therapeutics for Substance Use Disorder</a>	This recorded, knowledge-based training will provide inter-professional health care teams with information and rationale on digital tools for management of substance use disorders.	1 hour	1117751	3/11/2027
<a href="#">National Tobacco Cessation: Tobacco Use Treatment in Cancer Care Settings</a>	The purpose of this recorded, knowledge-based training is to educate health care providers about the relationship between smoking and cancer; the benefits of quitting even after a cancer diagnosis; and the rationale for integrating smoking cessation interventions in cancer care settings from screening through survivorship, with a focus on lung cancer screening.	1 hour	1116623	2/4/2027
<a href="#">Minimal Services Methadone Maintenance Treatment</a>	This recorded, knowledge-based training will explain the neurological and behavioral rationale for contingency management, as well as the procedural details in providing treatment to patients with substance use disorder.	1 hour	1098827	12/25/2026
<a href="#">Tobacco Cessation Evidence-Based Elements of Behavioral Counseling for Smoking Cessation</a>	This recorded training is designed to familiarize inter-professional practitioners with basic assessment and brief counseling strategies, and educate providers regarding effective elements of behavioral counseling for treatment of tobacco dependence.	1 hour	1115438	12/15/2026
<a href="#">Recognition of VHA's Health Care Priorities and Aligning its Support of the National Drug Control Strategy: International Overdose Awareness and Harm Reduction</a>	The purpose of this recorded, knowledge-based webinar is to provide attendees with greater awareness, education, training and resources on overdose prevention and harm reduction so that they are better positioned to provide timely and reliable interventions to Veterans at-risk for overdose and connect Veterans to individualized health care services.	1 hour	1114710	12/8/2026
<a href="#">Cultural Competence and Integrated Care for Substance Use Disorders</a>	This recorded, knowledge-based presentation will improve cultural competence as it applies to providing integrated substance use care in Black, indigenous and People of Color patients and to achieve improved health outcomes associated with institutionalized racism, prejudice and discrimination.	1 hour	1098824	12/30/2026
<a href="#">Tobacco Treatment: Importance of Medications for a Chronic Relapsing Disease</a>	This recorded, knowledge-based presentation will provide an overview of the Food and Drug Administration approved pharmacotherapy for tobacco treatment and emphasis on the chronic, relapsing nature of tobacco use dependence.	1 hour	1115708	12/18/2025
<a href="#">Mindfulness-Based Interventions for Smoking Cessation</a>	This recorded presentation will give an overview of the current research on mindfulness for smoking cessation to date, with some specific studies highlighted that attempt to address existing gaps.	1 hour	1115596	10/21/2025

<a href="#"><u>Lung Cancer Screening and Smoking Cessation: Combining Care to Improve Health Enduring</u></a>	This recorded, knowledge-based presentation will review the new guidelines and supporting evidence for lung cancer screening with low-dose computed tomography and to discuss current knowledge and knowledge gaps surrounding the integration of tobacco dependence treatment into lung cancer screening care processes.	1 hour	1115592	1/29/2026
<a href="#"><u>Group Tobacco Treatment: What Is It and Why Offer it?</u></a>	This recorded, knowledge-based program will educate providers and teams regarding group tobacco treatment counseling. Participants will be able to learn about different approaches proven to work in group tobacco treatments, and they will be able to implement these different approaches in their own treatment plans for Veterans.	1 hour	1115526	5/25/2026
<a href="#"><u>Introduction to the Updated VA/DoD Clinical Practice Guideline: The Use of Opioids in the Management of Chronic Pain</u></a>	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who are prescribed opioids for managing pain. This recorded training will assist learners in delivering high-quality, evidence-based care to patients with pain who have been prescribed opioids.	1 hour	1107213	11/22/2025
<a href="#"><u>Deconstructing Addiction Stigma</u></a>	The purpose of this recorded, knowledge-based training is to help clinicians understand the impact of stigma in clinical environments and general culture; how it might jeopardize patient care; and how to best address stigma in clinical settings. It will also discuss the causes and effects of stigma, as well as discriminatory behaviors in addiction treatment.	1 hour	1107045	11/17/2025
<a href="#"><u>Ethics in Substance Use Disorder Care</u></a>	The purpose of this recorded, knowledge-based webinar is to fill identified knowledge and skill gaps in substance use disorder ethics, thereby promoting a strong ethical practice among health care teams and providers.	1 hour	1105409	8/15/2025
<a href="#"><u>Lessons for the Substance Use Disorder Field From Chronic Care Medicine</u></a>	The purpose of this recorded, knowledge-based webinar is to provide perspective on the treatment and evaluation of substance use disorders (SUDs) from comparative study of mainstream medicine's treatment of chronic illnesses. The presentation will improve communication between the SUD field and the rest of the mainstream health care teams. The presentation will also improve and modernize evaluation methods and outcomes.	1 hour	1103897	5/30/2025
<a href="#"><u>Best Substance Use Disorders Care for Native Americans</u></a>	The purpose of this recorded, knowledge-based presentation is to promote traditional Indian medicine among clinicians. Participants will learn treatment strategies and multidisciplinary evaluation methods when treating American Indian/Alaska Native Veterans	1 hour	1103184	4/29/2025

with substance use disorder, and will be able to refer the Veteran successfully, if required.

<a href="#">Substance Use Disorder Pharmacotherapy – Opioids, Alcohol and Tobacco</a>	This knowledge-based presentation will provide awareness to clinicians and staff of the existence of the pharmacotherapies and how to use them to provide optimal patient care to Veterans.	1 hour	1098806	11/11/2024
<a href="#">Motivational Enhancement Therapy for Substance Use Disorder: An Overview of Treatment, Efficacy and VA Training</a>	This training will raise awareness of motivational enhancement therapy (MET) as a substance use disorder (SUD) evidence-based therapy and prompt engagement by VA SUD treatment providers in further training in it. It will provide education regarding differentiating motivational interviewing and MET and a closer look at the elements of the MET intervention. <b>Expiring soon!</b>	1 hour	1100836	10/19/2024
<a href="#">Psychosocial Treatments for Substance Use Disorders</a>	The purpose of this knowledge-based webinar is to present evidence on the efficacy of various psychosocial treatments for alcohol and drug use disorders. This will include a discussion of the latest VA/DOD substance use disorder clinical practice guidelines, which are based on a recent comprehensive systematic review of the research literature. <b>Expiring soon!</b>	1 hour	1098736	9/13/2024

#### EPILEPSY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

#### HEALTH DISPARITY AND HEALTH EQUITY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Lesbian, Gay, Bisexual and Queer Veterans: Introduction</a>	This training provides VA staff and clinicians with a general understanding of critical concepts and terminology and VHA policy regarding care for LGBTQ Veterans.	1 hour	1123161	7/29/2027
<a href="#">Transgender and Gender Diverse Veterans: Introduction</a>	This training provides staff and clinicians with a general understanding of critical concepts and terminology and VHA policy regarding care for transgender and gender diverse Veterans.	1 hour	1123160	7/29/2027
<a href="#">Sexual Orientation: Why It Matters in Health Care</a>	This training will help learners understand how and why Veterans' sexual orientation matters in the health care setting and how to deliver personalized care.	1 hour	1121513	6/30/2026

## HEALTH DISPARITY AND HEALTH EQUITY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">LGB+ Veteran Health Care Modules– Group 1</a>	The purpose of this series of recorded, brief trainings is to give providers a foundational understanding of key components of care for lesbian, gay, bisexual, or LGB+, Veterans. It is VHA policy that all staff provide clinically appropriate, comprehensive, Veteran-centered care with respect and dignity to LGB+ Veterans. This video addresses how to ask the appropriate questions and provides scenarios to demonstrate clinically appropriate conversations.	1.25 hours	1105282	12/2/2024
<a href="#">Transgender Training Series: Psychotherapy for Gender Dysphoria</a>	This brief training is part of a series of programs on health care for transgender and gender diverse Veterans. This session focuses on psychotherapy for gender dysphoria.	1 hour	1090829	10/24/2025
<a href="#">Transgender Training Series: Mental Health Evaluation for Gender Affirming Surgery</a>	This brief training is part of a series of programs on health care for transgender and gender diverse Veterans. This session focuses on diagnosing gender dysphoria.	1 hour	1090830	10/24/2025
<a href="#">LGB+ Veteran Health Care Modules– Group 2</a>	The purpose of this series of recorded, brief trainings is to give providers a foundational understanding of key components of care for lesbian, gay and bisexual, or LGB+, Veterans. This program is designed to educate the inexperienced employees and health care teams who have not yet cared for a transgender patient. Provider exposure to this training series will help to ensure that each Veteran receives the care they need and deserve.	1 hour	1105284	12/2/2024
<a href="#">Creating Gender Affirming Workplaces</a>	This recorded, knowledge-based virtual training for health care teams will assist in increasing awareness of diversity, equity and inclusion (DE&I) in the work place, and highlight theories of DE&I in organizational change.	1 hour	1103175	4/11/2025

## WAR RELATED ILLNESS/POST DEPLOYMENT HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">War-Related Injury and Illness Study Center: Chronic Multi-Symptom Illness/Gulf War Illness: Veteran Care and the</a>	The purpose of this recorded, knowledge-based webinar is to review, with providers, the developed care plan for Veterans with chronic multi-symptom illness (CMI)/Gulf War illness (GWI) and to	1 hour	1122954	7/22/2027

<a href="#">2021 Clinical Practice Guideline</a>	increase their knowledge of CMI and GWI. Best practices based on evidence-based guidelines will be reviewed, in addition to addressing a specific curriculum requested by providers.				
<a href="#">War-Related Injury and Illness Study Center: Garrison Exposures: Camp Lejeune, Fort McClellan and Polyfluoroalkyl Substances</a>	The purpose of this knowledge-based webinar is to inform health care providers about garrison exposures at Camp Lejeune, Fort McClellan and other bases. This review will also provide guidance on how to care for and communicate with Veterans with these concerns.	1 hour	1101050	8/22/2027	
<a href="#">War-Related Injury and Illness Study – Health Outcomes Military Exposures: Brain Cancer Mortality Among Gulf War I Veterans Exposed to Explosions at Khamisiyah</a>	This recorded, knowledge-based training will discuss brain cancer mortality among 1990-1991 Gulf War Veterans exposed to explosions of munitions facilities at Khamisiyah.	1 hour	1123106	8/15/2027	
<a href="#">War-Related Injury and Illness Study – Health Outcomes Military Exposures: Veteran Signals Survey: Fostering Veteran Trust Around Military Environmental Exposures</a>	This purpose of this recorded course is to discuss the Veterans Signals survey and how health care professionals can continue to build trust with Veterans with concerns about military environmental exposures.	1 hour	1123113	8/15/2027	
<a href="#">War-Related Injury and Illness Study Center: Impact of Deployment-Related Exposures on Women’s Health</a>	This recorded training will enhance the current knowledge of providers on how to best care for women Veterans with deployment-related exposure health conditions.	1 hour	1122741	8/27/2027	
<a href="#">War-Related Illness and Injury Study Centers: Clearing the Air: Understanding Airborne Hazards and Open Burn Pits</a>	The purpose of this recorded, knowledge-based module is to provide information on airborne hazard and open pit exposures to providers who are interested in learning more about these exposures.	1 hour	1122721	8/5/2027	
<a href="#">War-Related Injury and Illness Study Center: The Invisible Elephant: How to Identify and Address the Most Common Military Environmental Exposures</a>	This recorded training will discuss the most common environmental exposures among military personnel and how these exposures may affect Veteran health.	1 hour	1122437	4/29/2027	
<a href="#">War-Related Injury and Illness Study Center: Clinical Guidance and Policies Related to Per- and Polyfluoroalkyl</a>	The purpose of this recorded, knowledge-based webinar is to provide an overview of what is known about per- and polyfluoroalkyl substances (PFAS), as well as clinical guidance and policies to care for Veterans with PFAS concerns.	1 hour	1120298	5/14/2027	

---

[Substances Exposure in the Military](#)

<a href="#">War-Related Illness and Injury Study Centers: Understanding the Veteran Woman: Briefs From Women's Operational Military Exposure Network</a>	This recorded, knowledge-based webinar will discuss the latest research on common health concerns among female Veterans with military exposures and how to translate these findings into clinical care.	0.5 hour	1117519	2/22/2027
<a href="#">Military Exposures and Care: Enhancing Military Culture Competence to Optimize Veteran-Centered Care</a>	The purpose of this recorded, knowledge-based webinar is to provide clinicians with an understanding of common military customs and experiences that will help them better communicate with Veterans, establish trust and build rapport to optimize care.	1 hour	1117520	2/22/2027
<a href="#">War-Related Illness and Injury Study Centers: Neuropsychological Evaluation of Gulf War Veterans</a>	This recorded, knowledge-based webinar will discuss neuropsychological evaluation of Gulf War Veterans, including why neuropsychological evaluation is important for this population, the latest research and tips for providers.	0.5 hour	1117552	2/22/2027
<a href="#">Individual Longitudinal Exposure Record Introductory Training</a>	This knowledge-based training reviews the individual longitudinal exposure record, its limitations and its usefulness as a resource in accessing military environment exposure records.	1 hour	1116123	12/30/2026
<a href="#">War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment</a>	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026
<a href="#">War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 1: Introduction to Level 2 Certification</a>	The purpose of this enduring knowledge-based module is to share the importance of education and training to ensure health care personnel have the competence to address military-related exposure concerns among Veterans. By attending, clinicians will understand the general format of the level 2 certification in military environmental exposures and be able to explain eligibility criteria and purpose of Congressionally mandated VA programs.	1 hour	1114724	10/12/2026
<a href="#">War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 2: Airborne Hazards and Open Burn Pit Exposures</a>	The purpose of this enduring knowledge-based module is to provide additional information on airborne hazard and open pit exposures to providers who are interested in learning more about these exposures.	1 hour	1114715	10/12/2026

---

<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 4: Depleted Uranium, “Black Goo” and Karshi-Khanabad: Military Environmental Exposures at K-2 Air Base</u></a>	The purpose of this enduring knowledge-based module is to review the exposures at Karshi-Khanabad, or K-2, Air Base in Uzbekistan. Health care professionals will be able to identify the types of military environmental exposures that occurred at this specific location and apply this knowledge in their care of Veterans.	1 hour	1114759	10/12/2026
<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 5: Embracing a New Way of Thinking: Supporting Veterans Living With Gulf War Illness</u></a>	The purpose of this enduring knowledge-based module is to enhance the clinicians understanding of the complex array of exposures often encountered by military personnel during the 1990-1991 Gulf War and other combat deployments. Clinicians will be able to recognize diagnostic approaches and care planning for Veterans, and demonstrate competencies in the assessment and care for individuals with Gulf War illness and other similar chronic multi-symptom illnesses.	1 hour	1114763	10/12/2026
<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 6: Gulf War I Service and Non-Gulf War Illness Conditions</u></a>	The purpose of this enduring knowledge-based module is to gain understanding of non-chronic multi-symptom illness conditions affecting Gulf War I Veterans through several case study examples. During this module the Gulf War report and research and development report will be reviewed, along with mycoplasma theory as a non-contributor to fibromyalgia, chronic fatigue syndrome and/or GWI.	1 hour	1114745	10/12/2026
<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 7: Ionizing Radiation and Health Concerns for Veterans</u></a>	The purpose of this enduring knowledge-based module is to review what ionizing radiation energy is and its potential health effects. Providers will be able to understand the types of electromagnetic energy and describe the authority for the ionizing registry exams. Last, they will be able to determine medical conditions that are presumed related to ionizing radiation exposure.	1 hour	1114748	10/12/2026
<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 8: Operation Tomodachi</u></a>	The purpose of this enduring knowledge-based module is to review a radiation case study. Clinicians will learn about the Great Tohoku Earthquake and its subsequent tsunami, and the ultimate Fukushima Nuclear Power Plant meltdown in 2011.	1 hour	1114749	10/12/2026
<a href="#"><u>War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case</u></a>	The purpose of this enduring knowledge-based module is to discuss a clinical case for a Veteran with toxic embedded	1 hour	1114746	10/12/2026

<a href="#">Study 9: Toxic Embedded Fragments and Depleted Uranium</a>	fragment and depleted uranium concerns.				
<a href="#">War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 10: Vietnam and Agent Orange Health Concerns</a>	In this enduring, knowledge-based module, providers will learn how to access information and conduct environmental exposure assessments related to Agent Orange. They will be able to evaluate a Veteran with Agent Orange concerns and formulate a plan with appropriate referrals for follow-up care.	1 hour	1114747	10/12/2026	
<a href="#">War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment</a>	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026	
<a href="#">War-Related Injury and Illness Study Center: Clinical Neuroscience Consequences of Military Exposures</a>	The purpose of the this recorded, knowledge-based presentation is to review neurological and neuropsychiatric conditions Veterans often suffer from, which may have been caused by exposures during their deployment.	1 hour	1112123	8/17/2026	
<a href="#">War-Related Injury and Illness Study Center: Military Exposures and Gastrointestinal Health</a>	The purpose of this recorded, knowledge-based presentation is to review the impact of war and occupational exposures on gut health, addressing the emerging role of the gut microbiome on Veteran's health and well-being.	1 hour	1112126	8/17/2026	
<a href="#">War-Related Injury and Illness Study Center: Good for the Heart Is Good for the Brain: Brain Health Risks and Reduction</a>	The purpose of this recorded, knowledge-based presentation is to provide information to clinicians on expanding clinical care and using best practices to improve healthy lifestyles and resources for Veterans.	1 hour	1112125	8/17/2026	
<a href="#">War-Related Injury and Illness Study Center Module 1: Assessing Deployment-Related Environmental Exposures</a>	The War-Related Illness and Injury Study Center, a national program in VA's Post-Deployment Health Services, provides expertise to Veterans and providers on difficult to diagnose illnesses and environmental exposure concerns. Module 1, Assessing Deployment-Related Exposures, provides clinically relevant knowledge on the role of environmental exposures in Veteran health and the importance of addressing each patient's exposure concerns.	1 hour	1070234	6/26/2026	
<a href="#">War-Related Illness and Injury Study Centers: Tips for Working With Veterans With Airborne Hazards Concerns</a>	This recorded training will discuss tips for how clinicians, nurses and health care providers can work with Veterans who have concerns about exposure to airborne hazards during their military service.	1 hour	1110628	5/22/2026	

<a href="#">War-Related Illness and Injury Study Centers: Is it Exposure-Related? Evidence-Informed Clinical Decision-Making</a>	The purpose of this recorded, knowledge-based presentation is to expand clinical care and best practices knowledge by being able to interpret published literature and incorporate best practices in clinical care.	1 hour	1110695	5/22/2026
<a href="#">War-Related Illness and Injury Study Centers: Registry Exams: What Clinicians and Health Care Staff Need to Know</a>	This inaugural Military Exposures Clinical Briefs series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Illness & Injury Study Center – Health Outcomes Military Exposures webinar series. This recorded session will discuss important information that health care providers and staff need to know about registry exams.	1 hour	1110624	5/22/2026
<a href="#">War-Related Illness and Injury Study Centers: Military Exposures and Dermatological Conditions</a>	The purpose of this recorded, knowledge-based presentation is to increase provider knowledge while sharing best practices leading to expanding clinical care. Specific curriculums will be addressed, and providers/clinicians will have a higher understanding of the relationship between military exposures and dermatological conditions.	1 hour	1109937	3/28/2026
<a href="#">War-Related Illness and Injury Study Centers: Who We Are and How We Serve Clinicians and Providers</a>	The purpose of this recorded, knowledge-based presentation is to discuss how Veterans exposure team-health outcomes of military exposures (VET-HOME)'s creation of a network of specialized providers and a call center provides Veterans with an integrated care team to support their comprehensive health care needs.	1 hour	1109916	5/28/2026
<a href="#">Quick Tips for Everyday Clinical Care of Veterans With Exposure Concerns</a>	This knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills. This recorded session will discuss tips for how clinicians, nurses and health care providers can engage in everyday clinical care of Veterans with exposure concerns.	1 hour	1109396	3/27/2026
<a href="#">War-Related Illness and Injury Study Center: Supporting Veterans With Military Exposure Concerns</a>	This recorded, knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Injury and Illness Study Center webinar series.	1 hour	1108887	3/14/2026

<a href="#">War-Related Illness and Injury Study Centers: Can Integrative Health Interventions Help Gulf War Veterans?</a>	The current standard of care for Gulf War Veterans is not fully effective and may require complementary and alternative medicine approaches to enhance positive outcome for this unique post-deployment cohort. This recorded, knowledge-based presentation will increase and promote learning tools and understanding of available resource to Veterans, providers and other stakeholders.	1 hour	1108890	3/2/2026
<a href="#">War-Related Illness and Injury Study Centers: How to Help Veterans With Military Exposures Receive the Benefits They Deserve</a>	This knowledge-based, interview-style, Military Exposures Clinical Briefs series features conversations with specific occupational groups to offer some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Injury and Illness Study Center webinar series.	0.5 hour	1108272	2/1/2026
<a href="#">War-Related Illness and Injury Study Centers: Tips for How Clinicians Can Talk With Veterans About Exposures</a>	In this recorded, knowledge-based training, the presenter will discuss how clinicians can talk to Veterans about their exposure concerns, including the basics of risk communication and suggestions for how to respond to traditionally difficult-to-answer questions.	1 hour	1108269	2/1/2026
<a href="#">War-Related Illness and Injury Study Centers: Approaches to Long-COVID: Leveraging the Concordant Care Model For Chronic Multi-Symptom Illness</a>	The purpose of this recorded, knowledge-based presentation is to educate providers on the concordant care treatment model developed for Veterans with chronic multi-symptom illness and how to apply this model to the treatment of Veterans with long-COVID.	1 hour	1108078	1/30/2026
<a href="#">War-Related Illness and Injury Study Centers: Module 5 – Depleted Uranium and Toxic Embedded Fragments</a>	This curriculum provides health care providers with knowledge about the current research on health effects in depleted uranium (DU)-exposed populations; information about enrolling Veterans with suspected DU exposure or toxic embedded fragments into VA registry programs; and guidance about the clinical approach to Veterans with embedded fragments.	1 hour	1087697	10/1/2025
<a href="#">War Related Illness and Injury Study Center-VA Health Outcomes Military Exposures: Hot Topics in Environmental Exposures: Lead, Anti-Malarials and Karshi Khanabad</a>	This recorded, knowledge-based webinar will include the latest information on topics including anthrax, liver fluke infection, mefloquine, directed energy, lead and radiation, as well as potential exposures at Qarmat Ali and Karshi Khanabad. Health care teams will be provided with best practices updates to help them answer questions from concerned Veterans.	1 hour	1102355	1/27/2025

<a href="#">War-Related Illness and Injury Study Centers: VA Health Outcomes Military Exposures: Health Coaching for Veterans With Complex Pain</a>	This recorded, knowledge-based presentation will provide clinicians with clinical care best practices for health coaching and teach them skills to incorporate health coaching into their own practice for treatment of Veterans.	1 hour	1105910	10/6/2025
<a href="#">War-Related Illness and Injury Study Centers: Applying Health Coaching Strategies to Clinical Care</a>	The purpose of this recorded, knowledge-based presentation is to introduce coaching strategies and tools for busy clinicians to leverage in their practice. It will provide awareness to providers of how the tools of health coaching can be used to increase patient satisfaction, improve clinical recommendation adherence and improve provider/patient communication.	1 hour	1105507	8/11/2025
<a href="#">War Related Illness and Injury Study Center: Infectious Diseases, Vaccinations and Antimalarials</a>	The purpose of this virtual, knowledge-based presentation is to review and discuss research and potential health effects of infectious diseases, vaccinations and antimalarials, and to highlight useful clinical resources. Providers will increase their knowledge and implementation of clinical best practices.	1 hour	1103340	5/8/2025
<a href="#">War-Related Injury and Illness Centers: Toward Zero Harm: Addressing Mental Health Misdiagnoses in Veterans: Introduction</a>	This recorded, knowledge-based training will cover how to address, repair and prevent the harm caused by mental health misdiagnoses using clinical skills and existing resources available to Veterans and health care providers. The focus will be on the restorative power of accurate, compassionate care.	1 hour	1102202	2/14/2025
<a href="#">War Related Illness and Injury Study Center – VA Health Outcomes Military Exposures: Enhanced Implementation of the Burn Pit Registry Clinical Evaluation: Introductory Course</a>	This recorded, knowledge-based presentation will increase learner's understanding of system characteristics affecting performance of airborne hazards and open burn pit registry (AHOBPR) exams. They will be able to identify best practices for integrating these exams into the broader context of the AHOBPR and clinical care.	1 hour	1101594	12/21/2024
<a href="#">War-Related Injury and Illness Centers: Behavioral Health Treatment for Medically Unexplained Symptoms: Introduction</a>	This recorded, knowledge-based training will teach behavioral health providers a trans-theoretical approach to recognizing medically unexplained symptoms (MUS), developing rapport and treating MUS that they can integrate into their existing behavioral health practice.	1 hour	1101306	11/30/2024
<a href="#">War-Related Injury and Illness Centers: Behavioral Health Treatment for Medically</a>	This recorded, knowledge-based training will teach behavioral health providers a trans-theoretical approach to recognizing medically unexplained symptoms (MUS),	1 hour	1101306	11/30/2024

[Unexplained Symptoms: Introduction](#) developing rapport and treating MUS that they can integrate into their existing behavioral health practice.

#### POST-TRAUMATIC STRESS DISORDER (PTSD)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Cognitive Behavioral Nightmare Therapies and PTSD</a>	This live, knowledge-based webinar will summarize data regarding the definition and prevalence of nightmares; provide an overview of cognitive behavioral therapy-nightmare (CBT-N) protocols; describe research of the efficacy of CBT-N in PTSD; and describe a newly developed, DOD-funded, web-based provider training for CBT-N. <b>Expiring soon!</b>	1 hour	1123114	Live event to be held Sept. 18 only
<a href="#">Eye Movement Desensitization and Reprocessing to Treat PTSD</a>	This virtual, knowledge-based webinar presentation will provide an overview of the evidence showing the effectiveness of using eye movement desensitization and reprocessing (EMDR) to treat PTSD. Strategies and resources for including EMDR within shared decision-making will also be discussed. <b>Expiring soon!</b>	1 hour	1123046	Live events to be held Oct. 9 and 10 only
<a href="#">Cognitive Processing Therapy for PTSD Enhanced Practice</a>	The purpose of this knowledge-based educational web course is to provide knowledge and skills to implement cognitive processing therapy in order to be able to offer this therapy as an option for all Veterans seeking treatment for their PTSD symptoms.	1 hour	1084993	6/30/2027
<a href="#">Clinical Practice Guideline for PTSD: Complementary, Integrative and Alternative Approaches</a>	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to complementary, integrative and alternative approaches to treating PTSD. It will also discuss the clinical implications for providers treating Veterans with PTSD.	1 hour	1116160	12/30/2026
<a href="#">PTSD Consultation Program Monthly Lecture Series: Bridging the Gap: Using VA Mental Health Apps to Support Treatment for PTSD</a>	This recorded, knowledge-based webinar will review current research and the latest clinical developments in the use of the National Center for PTSD mental health apps for self-care and to enhance clinical care.	1 hour	1116146	12/29/2026
<a href="#">PTSD: Cultural Considerations for Conducting Trauma-</a>	This recorded, knowledge-based presentation will propose several culturally responsive strategies for	1 hour	1101707	12/30/2026

<a href="#">Focused Treatment With Latinx Patients</a>	therapists and health care teams to consider when conducting prolonged exposure for or cognitive processing therapy with Latinx patients to improve clinical outcomes. Subjects discussed will include building trust and rapport early on; conducting culturally informed assessment; investing in psychoeducation; optimizing exposures; challenging beliefs with cultural humility; and problem-solving common barriers to treatment engagement.			
<a href="#">PTSD Consultation Program Monthly Lecture Series: What's the Buzz?: New Developments in Prolonged Exposure for PTSD</a>	This recorded, knowledge-based webinar will provide awareness and updates on some of the most groundbreaking research on prolonged exposure to dispel myths and increase understanding of its powerful efficacy with complex patients with PTSD in clinical practice.	1 hour	1116121	12/14/2026
<a href="#">Introduction to VA/DOD Clinical Practice Guideline for the Management of Posttraumatic Stress Disorder</a>	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with posttraumatic stress disorder (PTSD) based on current therapeutic guidelines, best practices and clinical evidence. It will also have the learner apply the knowledge to clinical practice management.	1 hour	1115187	11/30/2026
<a href="#">PTSD Consultation Program Lecture Series: Treating Co-Occurring Chronic Pain and PTSD</a>	This recorded, knowledge-based webinar presentation will provide information about the prevalence of chronic pain and PTSD; the relationship between these conditions; the literature around their treatment; and approaches for management of these co-occurring issues.	1 hour	1113757	9/30/2026
<a href="#">PTSD Consultation Program Lecture Series: Clinical Practice Guideline for PTSD 2023: Medication and Other Biological Treatments</a>	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to medications and other biological treatments for PTSD, as well as discuss the clinical implications for providers treating Veterans.	1 hour	1113891	9/14/2026
<a href="#">PTSD and Schizophrenia–Spectrum Disorders: Assessment and Treatment</a>	This recorded, knowledge-based webinar will describe clinical recommendations to facilitate assessment and treatment of PTSD in those with co-occurring schizophrenia-spectrum disorders.	1 hour	1112324	8/14/2026

<a href="#">PTSD Consultation Program Lecture Series: Understanding Native American History as a Foundation of Culturally Aware PTSD Treatment</a>	This recorded, knowledge-based webinar will help bridge a gap by providing information about historical trauma for Native American Veterans, the current culturally informed research related to historical trauma, how historical trauma may complicate PTSD treatment and strategies that are culturally informed to address historical trauma.	1 hour	1112320	8/14/2026
<a href="#">PTSD Patient Engagement</a>	This course reviews the evidence base and utilization data for PTSD psychotherapies available in VA and defines patient engagement.	1 hour	1063771	3/23/2025
<a href="#">PTSD 101: The 2017 Revised Clinical Practice Guideline for PTSD: Recommendations for Medications</a>	The purpose of this knowledge-based web course is to close a training gap by helping clinicians become knowledgeable about the recommendations for medication and to assist them in providing care based on the latest evidence. This course will review the process by which the guideline was developed, clearly explain the recommendations related to medications and discuss the clinical implications for providers treating Veterans.	1 hour	1083746	1/31/2026
<a href="#">PTSD 101: Prolonged Exposure Therapy: Effective Treatment for PTSD</a>	The purpose of this knowledge-based course is to review the recent research on prolonged exposure (PE), provide a basic description of the treatment and to describe areas of future research for the team. By addressing a training practice gap, current PE providers/team members may improve their delivery of PE by learning about how recent research has informed new clinical recommendations for this treatment.	1 hour	1088863	11/29/2025
<a href="#">Ethical Considerations in Shared Decision-Making for PTSD Treatment</a>	This recorded, knowledge-based training will discuss ethical considerations in shared decision-making, including common pitfalls in selecting amongst evidence-based treatment options for health care teams. Resources to support the implementation of shared decision-making will be shared.	1 hour	1107258	1/1/2025
<a href="#">PTSD Lecture Series: Troubleshooting Lack of Improvement in PTSD Treatment</a>	This recorded, knowledge-based lecture will provide a framework for examining progress in treatment, potential indicators for lack of improvement and recommendations	1 hour	1107265	1/1/2025

	for how to proceed in these cases. Research and literature associated with PTSD treatment planning and progress will be reviewed to help clinicians with decision-making.			
<a href="#">The Science of Cannabis and Its Effects</a>	The purpose of this recorded, knowledge-based webinar is to provide an overview of the science of cannabis and its acute and chronic effects.	1 hour	1114071	1114071
<a href="#">PTSD Lecture Series: Legalized Cannabis and PTSD Treatment</a>	This recorded, knowledge-based webinar will provide information about the prevalence of cannabis use and the types of cannabis products available; the relationship between PTSD and cannabis use; and clinical practice strategies for addressing cannabis use among patients with PTSD.	1 hour	1107315	12/31/2024
<a href="#">Eye Movement Desensitization and Reprocessing to Treat PTSD</a>	This recorded, knowledge-based webinar presentation provides an overview of the evidence showing the effectiveness of using eye movement desensitization and reprocessing (EMDR) to treat PTSD, and will review the eight-phase protocol and mechanisms of EMDR for health care teams. Strategies and resources for including EMDR within shared decision-making will also be discussed.	1 hour	1107253	1/1/2025
<a href="#">PTSD Treatment for Veterans With Disabilities</a>	The purpose of this recorded, knowledge-based training is to provide knowledge and skills for mental health providers and health care team members providing culturally competent PTSD treatment to Veterans with disabilities.	1 hour	1107249	1/1/2025
<a href="#">The Dissociative Subtype of PTSD</a>	This training series is designed to address key areas of PTSD that have the most profound impact on Veterans and active-duty service members.	1 hour	1063808	3/17/2025
<a href="#">PTSD and Eating Disorders</a>	This recorded training will inform attendees about the research findings regarding safety planning and post-acute care for individuals experiencing suicidal ideation. It will also describe the VHA enterprise-wide clinical program called Safety Planning in the Emergency Department, or SPED, that has been implemented within VA.	1 hour	1103471	5/25/2025

<a href="#">Clinician Administered PTSD Scale for DSM-5 Training Simulator Part 2</a>	In this virtual course, learners will identify the interview principles required for administering the Clinician-Administered PTSD Scale for DSM-5 (CAPS-5).	1 hour	1090937	3/12/2026
<a href="#">Clinician-Administered PTSD Scale for DSM-5 (CAPS-5) Training Simulator – Part 4</a>	This course uses speech recognition and virtual patient technology to help the most advanced learners gain a deeper understanding of how to administer and score the Clinician-Administered PTSD Scale (CAPS-5) for Diagnostic and Statistical Manual of Mental Disorders, or DSM-5. The course challenges learners to distinguish between a patient's symptoms of PTSD and co-occurring conditions.	1.25 hours	1103441	3/17/2025
<a href="#">PTSD and Aging: PTSD in Older Veterans</a>	This course is designed to increase awareness of the impact of PTSD in older Veterans, including unique aspects of treatment and intervention related to this population. The course will also provide practitioners with practical tips and skills that may be used when working with older Veterans who experience post-trauma symptoms. <b>Expiring soon!</b>	1 hour	1101748	10/30/2024
<a href="#">Health Care Planning and Management for Older Adults With Dementia</a>	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced and virtual educational opportunities.	1 hour	1096045	11/1/2026
<a href="#">Examining Diagnostic Approaches to Dementia Care Through Use of Biomarkers</a>	This recorded, knowledge-based webinar will help bridge the knowledge gap with what is currently known about Alzheimer's disease blood tests and introduce new research being conducted in the VA to improve current tests.	1 hour	1103495	5/31/2025
<a href="#">PTSD: From Neurobiology to Treatment</a>	This presentation will highlight major advances in the neurobiology of PTSD and link these insights to novel therapeutic strategies. In doing so, this presentation will take a historical perspective and highlight advances from the 25 years of research within the Clinical Neuroscience Division of the National Center for PTSD. <b>Expiring soon!</b>	1 hour	1083779	9/30/2024

<a href="#">Introducing CPT Coach 2.0: Integrating CPT Coach Into Cognitive Processing Therapy</a>	The purpose of this recorded virtual conference tutorial is to provide clinicians with the knowledge and skills to augment their ability to implement cognitive processing therapy (CPT) in order to be able to offer this therapy as an option for all Veterans seeking treatment for PTSD symptoms.	1 hour	1105041	7/20/2025
<a href="#">Special Considerations for Cognitive Processing Therapy: Understanding the Impact of Diversity and Implicit Bias</a>	The purpose of this recorded, virtual presentation is to explore how various diversity factors and concerns related to implicit bias can impact patient engagement and treatment outcomes in cognitive processing therapy.	1 hour	1116874	2/4/2027

#### ETHICS IN HEALTH CARE/WHOLE HEALTH CARE/CULTURAL TRANSFORMATION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Clinician Self-Care: You in the Center of the Circle of Health</a>	The purpose of this knowledge-based web course is to describe the challenges clinicians face and enhance their own resilience against burnout by creating their own health plan. These techniques will better address training gaps, as well as connect their health and well-being to their patient's health and well-being.	1 hour	1068296	5/31/2025
<a href="#">Whole Health for Complex Patients: Chronic Pain</a>	The purpose of this recorded, knowledge-based training is to address the intersection of mental health and chronic pain co-morbidities.	1 hour	1121551	7/1/2027
<a href="#">Whole Health as Suicide Prevention</a>	This recorded, knowledge-based presentation will provide an overview of the whole health system to engage Veterans who are socially connected, engaged in self-care activities and have a trusting relationship with health care team members.	1 hour	1110868	5/11/2026
<a href="#">Whole Health for Nurses: Beginning the Whole Health Journey</a>	The purpose of this knowledge-based web course is to introduce nurses to whole health and its synergies with foundational nursing theory and practice.	1 hour	1105141	7/1/2025

## DENTAL CARE

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">VA's First Virtual Symposium on Artificial Intelligence in Dentistry</a>	The International Virtual Symposium on Artificial Intelligence in Dentistry will provide participants with a fundamental understanding of artificial intelligence (AI) as it relates to software as a medical device (SaMD), clinical decision support systems and related applications. It will provide course participants with an overview and assessment of current and potential future uses of AI and SaMD in dental practice. <b>Expiring soon!</b>	1 hour	1122725	Live event to be held Oct. 11 only

## MENTAL HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Clinician-Administered PTSD Scale for DSM-5 (CAPS-5) Clinician Training – Part 3</a>	This course uses virtual patient technology to help advanced learners gain a deeper understanding the clinician-administered PTSD scale for the Diagnostic and Statistical Manual of Mental Disorders-5, or DSM-5. It challenges learners to administer and score the measure without any assistance, but in a low-stress environment.	1.5 hours	1098335	3/21/2027
<a href="#">Introduction to VA/DOD Clinical Practice Guideline for the Management of Bipolar Disorder</a>	This recorded, knowledge-based program will equip learners with relevant information needed for managing patients with bipolar disorder based on current therapeutic guidelines, best practices and clinical evidence.	1 hour	1114069	10/29/2026
<a href="#">Pain and Stress</a>	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114232	7/31/2026

<a href="#"><u>Working With Deeper Beliefs</u></a>	The purpose of this knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on working with deeper beliefs.	1 hour	1114568	8/1/2025
<a href="#"><u>Recognizing and Managing Thoughts That Work Against You</u></a>	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. Cognitive behavioral therapy stresses the relationship between one's thoughts, feelings and actions.	1 hour	1114602	7/31/2026
<a href="#"><u>Pain and Communication</u></a>	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and communication.	1 hour	1114605	7/31/2026
<a href="#"><u>Pain and Emotions</u></a>	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and emotions.	1 hour	1114604	7/31/2026
<a href="#"><u>Getting Active and Other Useful Health Habits</u></a>	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on useful health habits.	1 hour	1114611	8/1/2026
<a href="#"><u>How The Brain Deals With Pain and How To Deal With The Brain</u></a>	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This training will bridge the knowledge with what is currently known about the brain and pain stimulus and introduce new concepts on how to handle pain and the mental fallout from pain management.	1 hour	1114618	7/31/2026

<a href="#">Reviewing Your Pain Coping Toolbox: Your Gate Closers</a>	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114802	8/1/2025
<a href="#">Skills for Psychological Recovery</a>	Skills for psychological recovery, or SPR, is a skills-building intervention for post-disaster environments that uses components of cognitive behavioral treatments that are common across many diagnoses. This course will allow those who work with Veterans to learn a skills-building approach that can both be applied to increasing resilience in Veterans and to better respond to mass casualty and disaster situations.	1 hour	1091207	3/24/2026
<a href="#">Cognitive Behavioral Therapy for Depression In Veterans and Military Servicemembers: Group Therapy Companion Guide for Therapists</a>	The purpose of this guide is to provide clinicians who have received cognitive behavioral therapy for depression (CBT-D) training using a group format with a specific CBT-D protocol. Special focus is given to the importance of group process, as well as the implementation of specific cognitive and behavioral strategies within a 13-session group treatment protocol.	2.5 hours	1105251	8/8/2025
<a href="#">Mental Health Treatment Planning: Best Practices and Requirements</a>	The purpose of this recorded, knowledge-based presentation is to provide education about mental health treatment plan requirements and best practices for process and documentation, and to provide an update on treatment plan tools.	1 hour	1101065	11/16/2024
<a href="#">Using the New Mobile App to Enhance Treatment for Military Sexual Trauma Survivors</a>	This recorded, knowledge-based training will teach attendees about the background for and practical applications of a new mobile mental health app designed for military sexual trauma survivors and those who care for them.	1 hour	1103743	3/24/2025

#### LEAD COORDINATOR TRAINING

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE

#### TRAUMATIC BRAIN INJURY (TBI)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

<a href="#">War-Related Injury and Illness Study Center: Gender Differences in Symptoms and Functional Outcomes in Veterans With Traumatic Brain Injury</a>	The purpose of this webinar is to raise awareness of differences in the way traumatic brain injury is experienced in men and women.	1 hour	1098320	2/1/2027
<a href="#">Neuro-Behavioral Therapy Overview</a>	This recorded, knowledge-based webinar aims to provide clinicians with knowledge and guidance regarding the evidence base for neuro-behavioral therapy. Topics will include diagnosis, definition and treatment. The course will also include an overview of the therapeutic approach and workbook session content.	1 hour	1118767	1/8/2027
<a href="#">Evidence Base for Neuro-Behavioral Therapy</a>	This recorded, knowledge-based webinar aims to provide clinicians with knowledge and guidance regarding the evidence base for neuro-behavioral therapy. Topics will include reviewing data from clinical trials conducted using the intervention for patients with seizures and movement disorders, as well as an overview of the diagnostic formulation, which informs treatment.	1 hour	1118202	6/20/2025
<a href="#">Mild Traumatic Brain Injury</a>	This recorded, knowledge-based virtual training will provide important information to members of the health care teams about the management of patients who have had a mild traumatic brain injury and the principles of rehabilitation for patients experiencing persistent symptoms related to the injury. <b>Expiring soon!</b>	1 hour	1101353	10/11/2024
<a href="#">Traumatic Brain Injury: Diagnosis and Management</a>	This recorded training will include information about VA's traumatic brain injury (TBI)/polytrauma system of care, the need to develop an individualized plan of care for Veterans with TBI and how to connect Veteran patients to VA resources. Additionally, participants will learn about online tools and training resources highlighting issues related to Veterans and service members with TBI.	1 hour	1101180	11/10/2024
<a href="#">Best Practice in Cognitive Rehabilitation for Traumatic Brain Injury</a>	This recorded program aims to increase consistency in cognitive rehabilitation practices for service members and Veterans diagnosed with mild to moderate TBI. <b>Expiring soon!</b>	1 hour	1088051	10/28/2024

## SUICIDE PREVENTION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Suicide Prevention: Public Health Monthly Suicide Postvention</a>	The purpose of this recorded, knowledge-based webinar describes the widespread impact of suicide loss, including the impact of suicide loss on providers.	1 hour	1093767	9/11/2026
<a href="#">Cultural Considerations for People at Risk for Suicide</a>	This recorded, knowledge-based presentation will focus on the need for staff to be aware of their own biases when providing care to Veterans, especially those at risk for suicide. By learning the cultural characteristics to consider, staff can gain competency and skills in providing care that is inclusive, mindful, equal and equitable for those they serve.	1 hour	1122281	8/22/2027
<a href="#">Introduction to the Updated VA/DOD Clinical Practice Guideline: The Management of Suicide Risk</a>	This recorded, knowledge-based webinar will provide important information to members of the health care teams about managing suicide risk. It will assist them to deliver high-quality, evidence-based care to patients with suicide risk, and better understand how the VA/DOD guideline was developed, how to use it and which interventions can provide the most benefit to their patients.	1 hour	1122458	7/14/2027
<a href="#">An Environmental Scan of Suicide Prevention Resources for Older Veterans in Primary Care</a>	This recorded, knowledge-based presentation will help bridge the knowledge gap for providers when it comes to suicide risk management for older Veterans seen in primary care.	1 hour	1117658	2/21/2027
<a href="#">Preventing Suicide Among Veterans Experiencing Homelessness: Drivers of Risk and Tailoring Evidence-Based Care</a>	This recorded program will help bridge the gap for providers working with Veterans experiencing homelessness by discussing important and novel approaches for understanding the needs of homeless Veterans, as well as resources and tools that providers can access to enhance their discharge and treatment planning.	1 hour	1119873	5/5/2027
<a href="#">Black Mental Health and Suicide Risk</a>	The purpose of this recorded, virtual webinar is to provide attendees with the opportunity to openly explore and discuss the rising rates of suicide among Black individuals. This presentation will also create a space to openly explore inherent bias within the mental health system, with a focus on the stereotypes and bias directed at Black individuals.	1 hour	1114344	10/29/2026
<a href="#">Suicide Risk Management Consultation Program:</a>	This recorded presentation promotes the importance of self-care and sustainability for providers and health care teams who	1 hour	1113605	10/16/2026

<a href="#">Providers Working in Suicide Prevention</a>	work with individuals who are at higher risk for suicide. An area of focus will be on one presenter's experience of post-traumatic growth, recovery and healing in the wake of a colleague's death by suicide. The importance of recognizing signs of burnout and actualizing self-care strategies will be reviewed in order to allow for sustainability in challenging work.			
<a href="#">Lethal Means Safety Training</a>	This recorded webinar will provide updated lethal means training and resources for VHA facility suicide prevention coordinators and other mental health and suicide prevention clinicians.	1 hour	1075258	9/29/2026
<a href="#">Population-Level Analyses of the Rural Urban Suicide Disparity Among VA Patients</a>	The overall purpose of this recorded knowledge-based program is to discuss recently published research examining the rural-urban disparity in the risk of death by suicide among VA patients.	1 hour	1111641	8/1/2026
<a href="#">Utilizing the Clinical Practice Guidelines to Inform Standardized Suicide Risk Screening and Evaluation</a>	This virtual presentation will allow attendees to increase their familiarity with the clinical practice guidelines and to learn about real-world examples of how they can be implemented in clinical practice.	1 hour	1111237	6/25/2026
<a href="#">Military and Veteran Caregivers: Health, Well-Being and Phenotypes for Suicidal Ideation</a>	This recorded, virtual webinar will provide an overview of the psychosocial characteristics of military and Veteran caregivers in the U.S. The presenter will describe the health, well-being and unique challenges of military and Veteran caregivers.	1 hour	1109612	4/27/2026
<a href="#">Latest Research Updates on Caring Contacts for Suicidal Patients</a>	This recorded webinar will describe the origin and rationale of Caring Contacts as envisioned by Motto, with a focus on recent meta-analysis and related clinical trials, including Caring Contacts research with active-duty military personnel and Veterans.	1 hour	1109151	2/24/2026
<a href="#">Skills Training for Evaluation and Management of Suicide</a>	The purpose of this knowledge-based course is to provide training on how to use the clinical practice guidelines to facilitate the development of suicide risk assessment and management skills. Using information and micro-simulations, learners will be able to discuss suicide risk with Veterans, determine acute and chronic suicide risk, and implement a treatment plan to manage suicide risk.	1 hour	1090912	4/10/2025
<a href="#">Gatekeeper Training as a Force Multiplier for Community Suicide Prevention</a>	This recorded, knowledge-based webinar for interpersonal health care teams will introduce the clinical practice guidelines on gatekeeper training and provide an	1 hour	1107542	12/29/2025

	overview of the options and applications of such training in community settings.			
<a href="#">Financial Well-Being and Suicide Risk in Military Veterans</a>	This recorded, knowledge-based webinar provides an overview of financial well-being and challenges of Veterans, and then summarizes empirical research showing a link between financial strain and suicide risk in Veterans and non-Veterans.	1 hour	1106388	10/21/2025
<a href="#">Lithium for Suicide – A Therapeutic Risk Management-Informed Approach</a>	This recorded webinar offers an approach to individualized risk-benefit analysis regarding the use of lithium for suicide prevention for patients with mood disorders.	1 hour	1105937	10/15/2025
<a href="#">Suicide Prevention in Veterans With Substance Use Disorders</a>	This recorded, knowledge-based webinar will address challenges in assessing individuals with concurrent substance use and suicide risk, and it will offer treatment recommendations.	1 hour	1105865	9/23/2025
<a href="#">Suicide Prevention and End-of-Life</a>	In this recorded training, learners will be provided with information on the differences between suicidality and the desire for hastened death. They will learn about the elements of risk assessment and appropriate interventions to manage suicidality and/or desire for hastened death at the end-of-life.	1 hour	1104959	7/30/2025
<a href="#">Suicide Prevention Among Those With Neurologic Conditions</a>	Individuals with a history of neurologic conditions have been identified as having a history of increased risk for suicide. In this recorded training, data regarding risk and associated risk will be presented, as well as information regarding most prevalent mechanisms of suicide death. Strategies for intervention with these high-risk cohorts will also be discussed.	1 hour	1105253	7/30/2025
<a href="#">Suicide Risk Factors and Clinical Implications</a>	This recorded presentation will provide an overview of suicide risk factors and the related literature findings. Presenters will emphasize clinical implications, including addressing risk factors in risk assessment, risk stratification and targeted treatment interventions.	1 hour	1104919	7/15/2025
<a href="#">Dialectical Behavior Therapy via Telehealth</a>	The purpose of this recorded presentation is to present on dialectical behavior therapy, an evidence-based treatment for chronic suicidal behavior and borderline personality disorder, and discuss its application via telehealth.	1 hour	1104069	5/31/2025
<a href="#">Self-Directed Violence Classification System</a>	Understanding and classifying suicidal thoughts and behaviors remains a challenge. In particular, misclassification can impact clinical care and surveillance,	1 hour	1103730	6/1/2025

	which can result in decreased understanding of the issue and appropriate treatment considerations and planning. Utilization of a standard nomenclature, such as the Suicidal Self-Directed Violence Classification System (SDVCS), developed by the Centers for Disease Control and Prevention, addresses such an issue. This recorded course will discuss the SDVCS to assist learners in better understanding classification of this matter.			
<a href="#">Recommendations for Postvention Processing Sessions</a>	When providers lose a patient to suicide, they are affected by the loss both personally and professionally. This recorded presentation will illustrate how to effectively and efficiently conduct postvention processing services for providers.	1 hour	1103698	5/22/2025
<a href="#">Suicide Risk Management for Rural Native Veterans</a>	This recorded program will provide context and overview of providing mental health care to Rural Native Veterans and discuss approaches in suicide risk management.	1 hour	1103393	5/12/2025
<a href="#">Psychosocial Rehabilitation and Suicide Prevention</a>	The purpose of this recorded webinar is to describe the Psychosocial Rehabilitation and Recovery Services section of the Office of Mental Health and Suicide Prevention, and how its mission promotes recovery and includes a prominent suicide prevention component.	1 hour	1103392	5/12/2025
<a href="#">Maximizing Therapeutic Alliance in Suicide Risk Assessment, Management and Treatment</a>	This recorded, knowledge-based virtual training for health care teams will focus on key reasons for suicidality for active duty and Veteran women and how these reasons are impacted by military and other cultural factors.	1 hour	1103106	4/11/2025
<a href="#">Treating PTSD and Suicide Risk: Separating Myth From Fact</a>	Although suicidal thoughts and behaviors are common among patients with PTSD, myths and misconceptions about suicide abound among clinicians. In this course, data that refute these myths, especially the belief that suicidal patients cannot be safely or effectively treated with empirically supported trauma therapies will be presented and discussed.	1 hour	1083785	12/14/2024
<a href="#">Understanding and Navigating Elevated Suicide Risk</a>	This recorded webinar training will provide participants with an understanding of the extant literature on and a conceptual overview of using leading theory-driven models of suicidal self-directed violence. Existing services available within VHA will also be reviewed.	1 hour	1101511	12/20/2024

<a href="#">Sleep, Suicide and the Role of Sleep Medicine</a>	This recorded training will explore relationships among sleep disorders, suicidal thought and behavior, as well as sleep medicine. <b>Expiring soon!</b>	1 hour	1100750	10/29/2024
<a href="#">Problem Solving Therapy and Suicidality</a>	This recorded, knowledge-based webinar training will examine the relevance of emotion-centered problem-solving therapy as a treatment and prevention approach for health care teams and clinical professionals to reduce suicidality. A conceptual problem-solving model of suicide in addition to various clinical guidelines will be presented. <b>Expiring soon!</b>	1 hour	1100217	9/24/2024
<a href="#">Clinical Practice Guideline for Suicide Prevention: Status of VA Ketamine and Esketamine Services</a>	The U.S. Department of Veterans Affairs (VA), Office of Mental Health and Suicide Prevention (OMHSP), will host monthly training webinars to educate VA field employees on how to implement the components of the organization's public health approach to suicide prevention.	1 hour	1095268	9/28/2026
<a href="#">Firearm Acquisition and Ownership: Decision-Making Within the Context of Injury Risk</a>	The purpose of this recorded, knowledge-based program is to discuss the obstacles that hinder the adoption of safety recommendations in order to provide better Veteran care. It will offer and improved understanding of the reasons individuals own and use firearms, and how they make decisions about injury risk.	1 hour	1113222	9/29/2026
<a href="#">Safe Storage Options for Your Firearms</a>	This video will provide education on the safe storage options for firearms.	1 hour	1104942	5/31/2025
<a href="#">Partnering With Firearm Retailers to Promote Temporary Out-of-Home Firearm Storage</a>	This recorded, knowledge-based webinar describes preliminary findings from The Armory Project, a VA-community partnership with three firearm retailers to promote lethal means safety messaging and temporary storage options for suicide prevention.	1 hour	1102797	4/1/2025

## GRAND ROUNDS

<a href="#">Prostheses for Sensory Restoration Insert</a>	restoration of touch and grasp to individuals with upper-limb amputation.			
<a href="#">Amputation Grand Rounds: Regenerative Peripheral Nerve Interfaces for the Treatment and Prevention of Painful Neuromas in Major Limb Amputees</a>	This recorded training offers insight into how painful neuromas in the amputee population are diagnosed and treated at both the Ann Arbor VA and the University of Michigan. It will also describe a novel surgical strategy, regenerative peripheral nerve interface, that seeks to both reduce chronic neuroma pain in existing lower extremity amputees and prevent neuroma development in patients undergoing new amputations.	1 hour	1110960	6/6/2026
<a href="#">Amputation Grand Rounds: The Utah Bionic Leg</a>	The purpose of this recorded presentation is to introduce clinicians and inter-professional health care teams to the Utah Bionic Leg. This lightweight robotic leg prosthesis replicates the key biomechanical functions of the knee, ankle and toe. The presenters will review the design and development process, as well as the preclinical testing with individuals with above-knee amputations.	1 hour	1109611	4/5/2026
<a href="#">Amputation Grand Rounds: How Limb Loss Affects Heart and Lung Function</a>	During this recorded, knowledge-based webinar, interdisciplinary health care teams will explore how lower limb loss affects heart function and how very proximal limb loss affects breathing capacity. This will enable providers to help patients and their families formulate reasonable expectations surrounding prosthetic candidacy and outcomes.	1 hour	1108259	2/15/2026
<a href="#">Amputation Grand Rounds: The Psychological Impact of Amputation: What Rehabilitation Providers Should Know</a>	During this recorded, knowledge-based webinar, factors associated with significant emotional distress and poor psychological functioning among amputees will be presented. This presentation will encourage the early identification of psychosocial contributors to adjustment to amputation and provide education about appropriate ways to intervene from an interdisciplinary care team perspective.	1 hour	1106324	10/9/2025
<a href="#">Amputation Grand Rounds: Prosthesis and Rehabilitation</a>	The purpose of this recorded, knowledge-based training session is to discuss prosthetic and rehabilitation considerations in people with lower limb amputation who	1 hour	1105362	8/16/2025

## GRAND ROUNDS

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Considerations for K2 Ambulators</a>	are in Medicare functional classification level 2.			
<a href="#">Amputation Grand Rounds: Dermatologic Surgery Interventions for People With Limb Loss: Use of Lasers and Botulinum Toxin in the Treatment of Scarring, Sweating and Folliculitis</a>	This live, knowledge-based webinar will discuss various treatment techniques used by dermatology to address integumentary issues experienced by individuals living with limb loss. Health care teams will have the opportunity to review laser technologies, the use of botulinum toxins and other specialized treatments for scars to enhance the prosthesis-wearing experience.	1 hour	1104495	6/14/2025
<a href="#">Amputation Grand Rounds: Innovations in Prosthetic Limb Control: The Ewing Procedure</a>	This recorded education session is designed to provide clinicians with enhanced awareness and knowledge related to innovations in prosthetic limb control, including the Ewing procedure.	1 hour	1103178	4/11/2025
<a href="#">Amputation Grand Rounds: Impairments, Pain and Performance in Upper Extremity</a>	The purpose of this recorded, knowledge-based education session is to provide health care teams with enhanced knowledge and skills to manage Veterans with upper extremity amputation. It will facilitate dissemination and understanding of recent research studies. Participants will specifically review the results of a large, multi-center research study of people with major upper limb amputation and who use prostheses. <b>Expiring soon!</b>	1 hour	1100735	10/10/2024

## VETERAN COMMUNITY CARE PROVIDER

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Community Care Provider – A Perspective for Veteran Care</a>	The course will give an introduction for community providers about Veterans and issues that are deemed more common in Veteran patients. It will discuss military culture; suicide awareness and prevention; military sexual trauma; PTSD; and traumatic brain injury.	1 hour	1085488	9/30/2025

## COVID-19

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Personal Protective Equipment Powered Air Purifying Respirator and N95 Donning and Doffing</a>	This interactive training experience will demonstrate the procedures for personal protective equipment (PPE) powered air purifying respirator (PAPR) and N95 donning and doffing according to PPE PAPR Center for Disease Control guidelines and VHA standard operating procedures.	2.5 hours	1104873	5/27/2025
PHARMACY				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Pharmacy Technician: Introduction to Pharmacy: Medical and Pharmaceutical</a>	This course will identify the appropriate pharmaceutical terms and definitions; apply terms to scenarios; and assist in selecting the advantage and disadvantage of a given formulary type, as well as the reasons and implications for having a formulary.	1 hour	1102528	2/9/2026
<a href="#">Pharmacy Technician: Introduction to Compounding and Measuring</a>	This course will assist participants in selecting terminology, descriptions, definitions, uses and procedures required for application in pharmacy small compounding, measuring and bulk compounding.	1 hour	1101908	1/5/2026
<a href="#">Pharmacy Technician: Calculations Percentage Preparations</a>	This course will teach participants to calculate the percentage strength of a product when the amount of active ingredient and total amount of preparation are known.	1.5 hours	1101910	2/15/2026
<a href="#">Pharmacy Technician: Calculations Ratio and Proportions</a>	This knowledge-based web course is designed to develop a common understanding of standards involving conversion or ratio and proportions specific to pharmacy technician roles and responsibilities.	2 hours	1101911	2/15/2026
<a href="#">Pharmacy Technician: Introduction to Calculations</a>	This knowledge-based web course is designed to develop a common understanding of standards involving calculations. The course will assist participants to perform addition, subtraction, multiplication and division of whole numbers, mixed numbers, fractions and decimals with 100% accuracy.	2 hours	1101912	1/25/2026
<a href="#">Pharmacy Technician: Calculations Conversion and Metric</a>	This course will teach participants how to convert between the various denominations of each of the basic units of the metric system given measures of weight and/or volume.	2 hours	1101898	1/5/2026

<a href="#">Pharmacy Technician: Calculations Specific Gravity</a>	This course will provide information on how to solve for the missing variable given any two values of weight, specific gravity or volume, and provide information on how to calculate the amounts of ingredients required in a preparation involving specific gravity.	1 hour	1101999	1/31/2026
<a href="#">Pharmacy Technician: Pharmaceutical Calculations Dilutions</a>	This course will provide information on mathematical problem-solving involving dilution of stock preparations and performing the mathematical steps to solve the correct answers.	4 hours	1102001	1/31/2026
<a href="#">Pharmacy Technician: Calculations Alligations</a>	This knowledge-based web course is designed to develop a common understanding the mathematical problems involving the alligations method specific to pharmacy technician roles and responsibilities.	3 hours	1102000	1/31/2026
<a href="#">Pharmacy Technician: Pharmaceutical Dosage Calculations</a>	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving dosage calculations specific to pharmacy technician roles and responsibilities.	2 hours	1102005	1/31/2026
<a href="#">Pharmacy Technician: Pharmaceutical Calculations Measurement Systems</a>	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving Roman numerals, Arabic numerals and conversion systems specific to pharmacy technician roles and responsibilities.	1.5 hours	1102003	1/31/2026
<a href="#">Pharmacy Technician: Calculations Milliequivalents</a>	This knowledge-based web course is designed to develop a common understanding of calculations milliequivalents specific to pharmacy technician roles and responsibilities.	2 hours	1102059	1/31/2026
<a href="#">Pharmacy Technician: Calculations Reduction and Enlargement Formulation</a>	This knowledge-based web course is designed to develop a common understanding of calculations reduction and enlargement formulas specific to pharmacy technician roles and responsibilities.	4 hours	1102058	1/31/2026
<a href="#">Pharmacy Technician: Calculations Sterile Preparation Dosage</a>	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving sterile preparation dosages specific to pharmacy technician roles and responsibilities.	2.5 hours	1102060	1/31/2026
<a href="#">Pharmacy Technician: Oncology</a>	This knowledge-based web course is designed to familiarize learners with the many different types of cancers, the causes and the variety of treatments available	2 hours	1102472	2/16/2026

	specific to pharmacy technician roles and responsibilities.			
<a href="#">Pharmacy Technician: Immune System</a>	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the immune system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	2 hours	1102473	2/16/2026
<a href="#">Pharmacy Technician: Eyes and Ears</a>	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the eyes and ears, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	1.5 hours	1102474	2/16/2026
<a href="#">Pharmacy Technician: Infectious Disease</a>	This knowledge-based web course is designed to familiarize learners with terminology, characteristics and principles associated with infectious diseases specific to pharmacy technician roles and responsibilities.	3 hours	1102475	2/16/2026
<a href="#">Pharmacy Technician: Complementary and Alternative Medicines</a>	This knowledge-based web course is designed to familiarize learners with alternative, natural and complementary medicines. They will learn about various definitions, dietary supplements, credible sources of information, and the potential benefits and risks associated with non-traditional medicines specific to pharmacy technician roles and responsibilities.	1.5 hours	1102476	2/16/2026
<a href="#">Pharmacy Technician: Introduction to Therapeutics</a>	This knowledge-based web course will assist learners to recognize basic concepts and terms (anatomy, physiology and pharmacology) as they apply to pharmacy practice, and identify organ systems and their components, including cells, organelles and fluid movement.	2.5 hours	1102477	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Dermatologic System</a>	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the dermatologic system, as well as associated diseases and disorders.	1 hour	1102478	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Gastrointestinal System</a>	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the gastrointestinal system, as well as associated diseases and disorders.	1 hour	1102480	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Cardiovascular System</a>	This knowledge-based web course will identify basic anatomy and physiology of the cardiovascular system, as well as diseases and disorders of the cardiovascular system.	1.5 hours	1102484	2/1/2026

<a href="#">Pharmacy Technician: Therapeutics Central Nervous System</a>	This knowledge-based web course will identify basic anatomy and physiology of the central nervous system, as well as diseases and disorders of the central nervous system.	2 hours	1102485	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Peripheral System</a>	This knowledge-based web course will identify basic anatomy and physiology of the peripheral system, as well as diseases and disorders of the peripheral system.	1 hour	1102486	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Respiratory System</a>	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the respiratory system, as well as associated diseases and disorders of the respiratory system.	2 hours	1102520	2/16/2026
<a href="#">Pharmacy Technician: Therapeutics Musculoskeletal System</a>	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the musculoskeletal system, as well as associated diseases and disorders of the musculoskeletal system.	2 hours	1102521	2/1/2026
<a href="#">Pharmacy Technician: Therapeutics Renal System</a>	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the renal system, as well as associated diseases and disorders of the renal system.	2 hours	1102522	2/16/2026
<a href="#">Pharmacy Technician: Introduction to Pharmacy Roles and Responsibilities</a>	This course will assist learners in selecting a timeline that accurately depicts the evolution of the role of the pharmacy technician; identifying responsibilities that belong to the pharmacy technician; and selecting ethical standards of conduct applicable to the pharmacy technician.	1 hour	1102525	2/3/2026
<a href="#">Pharmacy Technician: References and Drug Information</a>	This course will identify the reasons to conduct drug information research and appropriate references for researching relevant information, given a particular drug and patient information.	1 hour	1102526	2/8/2026
<a href="#">Pharmacy Technician: Cause and Prevention of Medication Error</a>	This knowledge-based web course is designed to develop a common understanding of medication errors; the outcome; procedures to prevent errors; response to errors; and why errors should be reported specific to pharmacy technician roles and responsibilities.	1 hour	1102523	1/13/2026
<a href="#">Pharmacy Technician: Introduction to Pharmacy Prescription Interpretation</a>	This knowledge-based web course is designed to develop a common understanding of interpretation information on an outpatient prescription for dispensing, specific to pharmacy technician roles and responsibilities.	2 hours	1102524	2/3/2026

<a href="#">Pharmacy Technician: Therapeutics Nervous System Overview</a>	This knowledge-based web course is designed to develop a common understanding of how the nervous system regulates how one breathes, thinks, eats and causes one to be happy or sad. This training is specific to pharmacy technician roles and responsibilities.	2 hours	1102530	2/15/2026
<a href="#">Pharmacy Technician: Therapeutics Endocrine System</a>	This knowledge-based web course is designed to cover the basic anatomy and physiology of the endocrine system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	3 hours	1102531	2/15/2026
<a href="#">Pharmacy Technician: Reproductive System</a>	This knowledge-based web course is designed to cover the basic anatomy and physiology of the reproductive system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	1.5 hours	1102532	2/15/2026
<a href="#">Pharmacy Technician: Pharmaceutical Therapeutics Toxicology</a>	This knowledge-based web course is designed to cover the methods of treatment and specific antidotes for selected poisons specific to pharmacy technician roles and responsibilities.	1 hour	1102554	2/16/2026
<a href="#">Pharmacy Technician: Hematologic System</a>	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the hematologic system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.		1102555	2/16/2026

## WOMEN'S HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">Addressing Low Sexual Desire in Rural Women Veterans</a>	This recorded, knowledge-based training will describe the importance of assessing for low sexual desire in rural women Veterans, provide an overview of common contributors, review approaches to diagnosing low sexual desire and present a series of research-informed strategies for addressing low sexual desire in clinical settings.	1 hour	1121544	5/30/2027
<a href="#">Caring for Women Veterans in the Community</a>	In this web-based course, community providers will learn about issues such as military sexual trauma, musculoskeletal pain and how post-deployment readjustment can differently impact women Veterans compared to non-Veterans.	1 hour	1096557	12/6/2026

<a href="#">Trauma and Complex Trauma Among Service Members and Women Veterans</a>	This recorded, knowledge-based virtual training for health care teams is intended to increase mental health providers' knowledge of assessing and treating the effects of traumatic stress exposure among women service members and Veterans. The specific focus is to describe traumatic stress exposures common among women Veterans and service members, frequently observed symptom presentations associated with these types of traumatic stress exposures and best practice treatment options for associated mental health conditions.	1 hour	1103377	3/28/2025
<a href="#">Women's Mental Health Across the Lifespan</a>	This recorded, knowledge-based virtual training will provide an overview of women-specific influences on mental health throughout the lifespan, from in utero influences through adolescence, pregnancy, the postpartum period, the transition to menopause and aging.	1 hour	1103217	3/28/2025
OTHER				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
<a href="#">National VA Homeless Program Staff Educational Series: Cultural Competency and Tribal Outreach</a>	This training will inform VHA staff on the barriers that prevent rural/remote Veterans to access stable housing and health care, and provide strategies to develop Tribal outreach for Veterans. <b>Expiring soon!</b>	1 hour	1123102	1123102
<a href="#">Clinical Perspectives on Compulsive Sexual Behavior</a>	This recorded, knowledge-based training will provide inter-professional health care teams with knowledge on diagnostic criteria, research and clinical practices associated with compulsive sexual behavior disorder.	1 hour	1114126	8/18/2027
<a href="#">Food Matters: Nutrition Care for Mental Health</a>	The purpose of this recorded, knowledge-based training is to address the connection between nutrition and mental health. It will provide an overview of how nutrition correlates with mental health, specifically focusing on depression and anxiety; discuss supportive dietary patterns; and review emerging evidence on the connection between the gut and mental health so that providers can integrate this knowledge into patient care.	1 hour	1122862	8/25/2027
<a href="#">Community Inclusion as a Medical Necessity – Fundamentals for Making It Happen</a>	This live, knowledge-based training will enhance multidisciplinary health care teams to better utilize the aspects of	1 hour	1122643	Live event to be held Oct. 3 only

	community inclusion as a medical necessity. <b>Expiring soon!</b>			
<a href="#">Introduction to Complementary and Integrative Health Approaches</a>	The purpose of this knowledge-based web course is to explore how complementary approaches may fit into clinical practice. In this course, participants can reflect on and learn how to converse with patients about complementary approaches by learning how to discuss what a complementary approach is and why it is important; learning how to incorporate different approaches into practice; and exploring how to guide patients on the use of complementary approaches.	1 hour	1069357	5/31/2025
<a href="#">My Life, My Story</a>	The My Life, My Story program is designed to help Veterans share their story and record it for their medical care team, family and friends. This recorded webinar will provide training for volunteers tasked in delivering the My Life, My Story program to Veterans.	0.25 hours	1120503	1/30/2027
<a href="#">Updated VA/DOD Clinical Practice Guideline: The Management of Hypertension in Primary Care</a>	This recorded, knowledge-based webinar will provide important information to members of the health care teams about managing patients with hypertension. This video will assist health care teams better understand how the clinical practice guideline for the management of hypertension was developed, how to use it and which interventions will provide the most benefit to their patients.	1 hour	1119697	4/9/2027
<a href="#">Screening Swallowing for Patients With Suspected Stroke</a>	This program will present a systematic approach to swallowing screening using a swallowing screening bundle and a recently developed valid and reliable swallowing screening tool called the Rapid Aspiration Screening for Suspected Stroke, or RAS3, tool.	1 hour	1120311	4/4/2027
<a href="#">The Ethics of Professional Boundaries in Rural Communities</a>	This recorded, virtual presentation will improve the knowledge and skill of rural mental health practitioners to identify boundary issues and take proactive and constructive steps to resolve them.	1 hour	1119205	4/14/2027
<a href="#">Cognitive Processing Therapy for Diverse Populations</a>	This recorded, knowledge-based webinar will discuss one of the evidence-based psychotherapies for PTSD, cognitive processing therapy, and will review the research conducted adapting this psychotherapy for various diverse patient	1 hour	1116145	12/29/2026

	populations, both within and outside of the United States.			
<a href="#">Challenging Barriers to Safety Planning: Considering Context and Clinical Complexity</a>	This recorded, knowledge-based webinar will inform inter-professional health care teams about current research solicitation and funding processes in VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115457	12/23/2026
<a href="#">The Role of Relationships in Risk for Directed Violence</a>	This recorded, knowledge-based training virtual presentation for health care teams will discuss the impact that committed romantic relationships can have on a Veteran's self-harm based on recent research. Attendees will have the opportunity to discuss how to incorporate these insights into care of Veterans.	1 hour	1115720	12/28/2026
<a href="#">Primary Care and Community Living Centers: End-of Life Nursing Education Consortium: Cultural and Spiritual Considerations in Serious Illness</a>	This live, knowledge-based webinar will discuss the End-of-Life Nursing Education Consortium project that is a national and international education initiative designed to enhance quality palliative care by inter-professional health care teams so they can teach this essential information to practicing nurses and other health care professionals. This session will discuss cultural and spiritual considerations in serious illness.	1 hour	1122923	Live event to be held Dec. 10 only
<a href="#">Primary Care and Community Living Centers: End-of Life Nursing Education Consortium: Ethical Considerations</a>	This live, knowledge-based webinar will discuss the End-of-Life Nursing Education Consortium project that is a national and international education initiative designed to enhance quality palliative care by inter-professional health care teams so they can teach this essential information to practicing nurses and other health care professionals. This session will focus on ethical considerations near the end-of-life.	1 hour	1122895	Live event to be held Nov. 12 only
<a href="#">Primary Care and Community Living Centers: End-of Life Nursing Education Consortium: Loss, Grief, Mourning and Bereavement</a>	This live, knowledge-based webinar will discuss the End-of-Life Nursing Education Consortium project that is a national and international education initiative designed to enhance quality palliative care by inter-professional health care teams so they can teach this essential information to practicing nurses and other health care professionals. <b>Expiring soon!</b>	1 hour	1122743	Live event to be held Oct. 8 only
<a href="#">Supporting Caregivers of Veterans With Dementia at End-of-Life</a>	This live, knowledge-based webinar will focus on the experience of caregivers of Veterans with dementia who are near the	1 hour	1122630	Live event to be held Sept. 26 only

	end-of-life. It will give an overview of the types of dementia and will describe the anticipated course of living with dementia. Additionally, demographics, risk factors and unique needs of Veterans and their caregivers will be shared. <b>Expiring soon!</b>			
<a href="#">Using Person-Centered Care and Cultural Humility to Improve Care for Veterans With Dementia or Delirium</a>	The purpose of this knowledge-based training is to employ a micro-learning approach and a cultural humility lens to equip acute care inter-professional staff to collect and convey key information regarding mentation and what matters most when caring for Veterans with dementia.	1 hour	1117143	1/28/2027
<a href="#">Updates on Dementia: Biomarkers, Clinical Use</a>	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up-to-date on changes to the clinical use of biomarkers and how they translate into care and diagnosis.	1 hour	1112334	8/13/2026
<a href="#">Updates on Dementia: Alzheimer Medications</a>	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up to date on changes in dementia and how they translate into care and diagnosis.	1 hour	1112327	8/13/2026
<a href="#">Introduction to VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus</a>	This recorded, knowledge-based program will educate health care team members on key principles of the VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus. It will equip learners with relevant information needed for managing patients with diabetes and prediabetes based on current therapeutic guidelines, best practices and clinical evidence.	1 hour	1112622	8/29/2026
<a href="#">Certified Diabetes Care and Education Specialist Certification Preparation Program: Comprehensive Medical Evaluation and Assessment of Comorbidities and Glycemic Targets</a>	The purpose of this comprehensive, knowledge-based program is to provide clinicians with advanced education and training on diabetes management and to prepare health care professionals to pass the diabetes care and education specialist certification exam or the board certified advanced diabetes management exam. This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover comprehensive medical evaluation and assessment of comorbidities, as well as glycemic targets.	1 hour	1110625	5/5/2026
<a href="#">Certified Diabetes Care and Education Specialist Certification Preparation Program: Pharmacologic</a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This	1.5 hours	1110660	5/5/2026

<a href="#"><u>Approaches to Glycemic Treatment</u></a>	session will cover pharmacologic approaches to glycemic treatment.			
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Children and Adolescents</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetic care for children and adolescents.	1.5 hours	1110665	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Facilitating Behavior Change and Managing Diabetes in Pregnancy</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss facilitating behavior change and managing diabetes in pregnancy.	1.5 hours	1110661	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Prevention or Delay of Type 2 Diabetes and Associated Comorbidities</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover prevention or delay of type 2 diabetes and associated comorbidities, as well as obesity and weight management for the prevention and treatment of type 2 diabetes.	1 hour	1110662	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Cardiovascular Disease and Chronic Kidney Disease</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss cardiovascular disease and chronic kidney disease.	1 hour	1110663	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Retinopathy, Neuropathy and Foot Care</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss retinopathy, neuropathy and foot care.	1 hour	1110666	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Technology</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss the role of technology in diabetic care.	2 hours	1110670	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Advocacy and Care in Hospital</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetes advocacy and care in hospitals.	1 hour	1110676	5/5/2026
<a href="#"><u>Diabetes Champion Hypoglycemia Patient-Centered Strategies</u></a>	The purpose of this knowledge-based webinar is to provide new information on the nutrition care process and clinical recommendations for hypoglycemia risk mitigation.	1.5 hours	1110672	5/5/2026

<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Improving Care and Promoting Health in Populations and Older Adults</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover improving care and promoting health in populations and older adults.	1.5 hours	1110900	5/5/2026
<a href="#"><u>Certified Diabetes Care and Education Specialist Certification Preparation Program: Overview of Becoming a Certified Diabetes Care and Education Specialist and Classification/Diagnosis of Diabetes</u></a>	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will give an overview on becoming a certified diabetes care and education specialist and also classification/diagnosis of diabetes.	1 hour	1110904	5/5/2026
<a href="#"><u>Exploring Grief, Loss and Meaning in Black, Indigenous and People of Color Veterans</u></a>	This recorded webinar will provide information to help explore the impact of historical trauma on contemporary grief and loss recovery.	1 hour	1108935	2/27/2026
<a href="#"><u>Supporting Staff During Challenging Times</u></a>	This recorded webinar will address the understanding of the impact of stressful life events on staff. It will discuss strategies leaders can take to support staff in the face of both acute and ongoing stressors.	1 hour	1107559	12/29/2025
<a href="#"><u>Disability Medical Assessment: Neurology Including Peripheral Nerves Examination</u></a>	The purpose of this web-based training course is to provide an overview of the nerve/neurology disability examination. It will address a knowledge gap by providing updated information, including procedures and a demonstration regarding how to prepare for, conduct and properly document a thorough and legally defensible diabetes disability examination.	1 hour	1064759	1/27/2026
<a href="#"><u>Disability Medical Assessment: Military Sexual Trauma and the Disability Examination Process – Update 2022</u></a>	This training provides an overview of the compensation and pension (C&P) military sexual trauma (MST) and the disability examination process for interdisciplinary teams. This training will provide updated information, including procedures to prepare for, conduct and properly document a C&P MST examination sufficient for adjudication purposes.	1 hour	1107533	12/19/2025
<a href="#"><u>Chronic Pain Education for Health Care Providers: Care of the Complex Patient</u></a>	Chronic pain is a significant clinical challenge for both patients and providers. In this course, participants will learn how to break the “iatrogenic cycle” of complex chronic pain; conduct a comprehensive biopsychosocial evaluation; respond helpfully during difficult clinical interactions; prescribe/taper opioids consistent with current guidelines; and	1 hour	1106794	10/31/2025

	help patients become an active partner in their own pain care.			
<a href="#">Improving Medication Prescription Practices Utilizing VIONE Medication Deprescribing Tool</a>	The purpose of this recorded, knowledge-based webinar is to provide a formal update to providers and health care teams on the topic of improving medication prescribing practices using the vital, important, optional, not indicated, every medication has a reason, or VIONE, deprescribing tool.	1 hour	1105856	9/30/2025
<a href="#">Strategies for Conceptualizing and Intervening on Therapy Interfering Behaviors</a>	This recorded, knowledge-based webinar will identify and describe strategies for identifying and conceptualizing potential therapy interfering behaviors (TIBs). Approaches to intervening on these TIBs will be discussed with specific strategies explored to target specific TIBs.	1 hour	1105829	9/20/2025
<a href="#">Enduring Dementia: Enhancing Care for Veterans Experiencing Dementia</a>	The purpose of this recorded, knowledge-based training series is to provide health care teams with adequate knowledge and/or skills to appropriately manage common geriatric conditions and syndromes in older Veterans. This recorded session focuses on reviewing pertinent elements of the cognitive assessment and current available treatments for cognitive impairment.	1 hour	1109699	4/24/2026
<a href="#">Updates on Dementia: Complex Care</a>	The purpose of this recorded, knowledge-based webinar is to keep clinicians up-to-date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations.	1.5 hours	1105391	7/31/2025
<a href="#">Updates on Dementia: Novel Therapies for Dementia</a>	This course provides clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations.	1 hour	1105393	7/31/2025
<a href="#">Updates on Dementia: Bold Act</a>	The purpose of this recorded, knowledge-based webinar is to keep clinicians up to date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with	1 hour	1105395	7/31/2025

	innovations. This session will discuss the Bold Act.			
<a href="#">Yoga and Meditation for Veterans' Healing, Health and Well-Being</a>	This recorded, knowledge-based presentation will describe the clinical yoga program at VA Palo Alto, and some of the research conducted into yoga at Palo Alto demonstrating the benefits of yoga for Veteran health. This course will increase provider knowledge and introduce implementation of clinical best practices.	1 hour	1103852	6/9/2025
<a href="#">Introduction to the Updated VA/DOD Clinical Practice Guideline: The Diagnosis and Treatment of Low Back Pain</a>	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who suffer from low back pain.	1 hour	1104025	6/6/2025
<a href="#">Sports and Arts – TetraWatercraft: Control Everything With Anything</a>	This education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive disabilities opportunities for recreation, fitness and sports. It will discuss independence and performance on the water with the world's only hybrid adaptive watercraft for kayaking and sailing.	1 hour	1104151	1/16/2025
<a href="#">9th Annual Advance Practice Provider Symposium</a>	This recorded, knowledge-based symposium is an educational opportunity provided by a partnership with VA and the Duke University School of Nursing. During the COVID-19 pandemic, there has been limited opportunities for providers to attend educational conferences. The goal of the knowledge-based educational symposium is to enhance health care teams' clinical practice with up-to-date, evidence-based education that affects current clinical practices across the country.	7.5 hours	1103088	3/14/2025
<a href="#">Sports and Arts – Out on a Limb: Adaptive Sports Recommendations for Athletes With a Prosthesis</a>	This recorded education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive disabilities opportunities for recreation, fitness and sports. With these skills, clinicians can implement recreation as part of Veterans rehabilitation to improve function, independence and getting them active in their home communities in sport and fitness.	1 hour	1103056	3/20/2025
<a href="#">Sports and Arts – Sit Down and Stand Out! Adaptive Equipment</a>	This recorded education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive	1 hour	1103057	3/20/2025

<a href="#">Recommendations for Seated Athletes</a>	disabilities opportunities for recreation, fitness and sports. With these skills, clinicians can implement recreation as part of Veterans rehabilitation to improve function, independence and getting them active in their home communities in sport and fitness.			
<a href="#">Empowerment Safety Planning</a>	The purpose of this recorded, knowledge-based training is to discuss the clinical utility of prevention safety planning and the added relevance of acceptance and commitment therapy (ACT), a contextual behavioral approach for suicide prevention. This program will specifically describe how an ACT approach can inform steps, used by health care teams, in the safety planning process when it comes to understanding the emotions and values of high-risk patients.	1 hour	1100647	11/5/2024
<a href="#">Sleep Apnea Assessment and Intervention: Recommendations to Optimize Veteran Adherence to Positive Airway Pressure</a>	The purpose of this recorded, knowledge-based training is to provide an overview of sleep-disordered breathing, including challenges and troubleshooting opportunities for Veterans who may struggle to adhere with positive airway pressure, or PAP, therapy.	1 hour	1119748	4/29/2027
<a href="#">Introduction to VA/DOD Clinical Practice Guideline for the Management of Headaches</a>	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with headaches based on current therapeutic guidelines, best practices and clinical evidence, and then have the learner apply the knowledge to clinical practice management.	1 hour	1115985	1/9/2027
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Oral Facial Pain</a>	This recorded, knowledge-based webinar will provide a review of the most common presentations of facial pain syndromes that are likely to be encountered by multiple medical disciplines.	1 hour	1107741	1/10/2026
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cluster Headache</a>	This webinar will provide case-based reviews for cluster headaches. It will present various treatment options for cluster headache and will help increase knowledge among clinicians in the field related to cluster headaches.	1 hour	1107749	12/26/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Apnea and Sleep Disturbance Management in Headache</a>	This recorded, knowledge-based webinar will start with a review of important headache-related lifestyle factors and sleep disturbance management in headache. Participants will learn to recognize headache types and to apply multiple,	1 hour	1107062	11/29/2025

	evidence-based modalities for evaluation and management of headache.			
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Secondary Headaches</a>	This recorded, knowledge-based activity will start with discussion of important secondary headache-related lifestyle factors and a review of general diagnostic criteria for secondary headache. This will be followed by case-based reviews, where inter-professional health care teams will learn to recognize secondary headache and to apply multiple, evidence-based modalities for evaluation and management.	1 hour	1106389	10/10/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Migraine and Medication Overuse Headache Management</a>	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting.	1 hour	1105636	8/31/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cervicogenic and Tension Headache Management</a>	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting.	1 hour	1104613	6/28/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Review of Women With Headache Disorders</a>	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1103745	5/1/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Migraine Pathophysiology</a>	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical	1 hour	1103231	4/26/2025

	prevalence, for the most common primary and secondary headache disorders to be encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.			
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Neuropharmacology of Headache</a>	This recorded, knowledge-based webinar followed by discussion and post-learning questions will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1103003	4/4/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Lifestyle Management in Headache</a>	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headaches.	1 hour	1102470	3/1/2025
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series: Case Studies and Mixed Headaches</a>	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headaches.	1 hour	1101768	12/30/2024
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series</a>	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1101493	12/5/2024
<a href="#">Headache Evaluation and Management for Primary Care Webinar Series</a>	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting.	1 hour	1100899	10/25/2024

	Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache. <b>Expiring soon!</b>			
<a href="#">Empowering Veterans Through Crisis Response Planning and the Safety Planning Intervention</a>	This recorded, knowledge-based webinar training will discuss how advanced training improves provider competency and the quality of safety plans, which impacts Veteran outcomes by reducing suicide behaviors. <b>Expiring soon!</b>	1 hour	1100475	10/15/2024
<a href="#">Multi-symptom Illness</a>	This recorded, knowledge-based training will educate members of the health care team on key principles of the 2021 VA/DOD clinical practice guidelines and the management of chronic multi-symptom illness (CMI), a diverse set of disorders, including, but not limited to, chronic fatigue syndrome, fibromyalgia syndrome and irritable bowel syndrome. CMI encompasses military-specific medically unexplained illnesses, such as Gulf War illness, Gulf War syndrome or post-deployment syndrome. <b>Expiring soon!</b>	1 hour	1100646	10/13/2024
<a href="#">Emergency Department Care Plans</a>	The VA Office of Mental Health and Suicide Prevention hosts monthly training webinars to educate employees on how to implement the components of the organization's public health approach to suicide prevention. This recorded session will cover emergency department care plans. <b>Expiring soon!</b>	1 hour	1100216	9/24/2024
<a href="#">Complementary and Integrative Health: Partnering With VHA</a>	This recorded, knowledge-based webinar is intended for non-VA providers to better understand how to best work with the VA for seamless patient care. Policy, workflows and promising practices for care coordination will be covered. <b>Expiring soon!</b>	1 hour	1100108	9/24/2024
<a href="#">Amputation System of Care Series: Amputation Prevention – Latest Research and PAVE Program Initiatives</a>	This recorded, knowledge-based webinar will provide attendees with an update on the latest research findings, clinical guidelines and Prevention of Amputation in Veterans Everywhere, or PAVE, initiatives so they will be able to better implement new strategies in the clinical setting to improve Veteran outcomes.	1 hour	1119696	5/5/2027
<a href="#">Amputation Skills Training: Introduction to and Overview of the Amputee Coalition</a>	This recorded webinar presentation will educate clinicians on the mission and vision of the amputee coalition. The presentation will give participants an overview of the amputee coalition, explain how to obtain resources and introduce the clinician to the	1 hour	1114586	11/1/2026

	National Limb Loss Amputee Coalition website.			
<a href="#">Amputation Skills Training: A Multidisciplinary Approach to Treating Veterans With Multiple Limb Amputations</a>	This recorded presentation will provide education and skills training to the clinicians of the interdisciplinary team in care of the individual with multiple limb loss using a case study approach with videos and photos; provide the clinicians of the interdisciplinary amputation clinic lessons learned from challenging cases related to caring for Veterans with conflict-related multiple limb amputees; and provide skills in evaluation, assessment, prescription and rehabilitation treatment most effective in caring for this population of conflict related multiple limb amputees.	1 hour	1110491	5/5/2026
<a href="#">Amputation Skills Training: Keeping Patients off the Floor: Addressing Fall Prevention After Limb Loss</a>	The purpose of this live, knowledge-based webinar is to address fall prevention associated with limb loss. During the training, inter-professional health care teams will review factors contributing to falls in the early post-amputation phase and for the ambulatory prosthetic user.	1 hour	1108674	3/2/2026
<a href="#">Amputation Skills Training: You Can't Improve What You Don't Measure: A FLOW3 Story</a>	This recorded, knowledge-based training will focus on the nuances of the FLOW3 system, conceived at the Seattle VA medical center and collaboratively developed with the Orthotics and Prosthetics Program Office in VA Central Office. There will be real-time presentation of the system to demonstrate how inter-professional health care teams should be integrating use of the system into their clinical practice.	1 hour	1107941	1/26/2026
<a href="#">2024 Amputation System of Care Education Series: Advances in Prosthetic Limb Control Strategies: Agonist-Antagonist Myoneural Interfaces and Beyond</a>	This live, knowledge-based webinar enhances the knowledge and skills of VHA clinical providers working in amputation specialty clinics regarding the agonist-antagonist myoneural interface procedure and the potential benefits of the procedure for improving outcomes for people with amputation who utilize prostheses. <b>Expiring soon!</b>	1 hour	1123117	Live event to be held on Oct. 15
<a href="#">2024 Amputation System of Care Education Series: Redefining the Veteran Athlete With Limb Loss Through Engagement in VA Care</a>	This live, knowledge-based webinar describes the importance of using a whole health approach by getting to know the patient, hearing their interests and initiating engagement in adaptive exercises using a mission, aspiration and purpose approach, thus maximizing functional level. <b>Expiring soon!</b>	1 hour	1123118	Live event to be held on Nov. 19

<a href="#">2024 Amputation System of Care Education Series: How to Turn a Great Idea Into a Scientific Research Project</a>	This recorded course will describe how research is funded, reviewed and managed in the VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115864	1/2/2027
<a href="#">Amputation Skills Training: Key Takeaways From the Updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation</a>	This recorded, knowledge-based education session is designed to provide health care teams with enhanced knowledge regarding the recently updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation.	1 hour	1105732	9/11/2025
<a href="#">Amputation Skills Training: Prosthetic Knees – Clinical Selection</a>	During this recorded, knowledge-based webinar, health care teams will be provided with an overview of prosthetic knee options and key features to optimize various phases of rehabilitation and activity levels for patients with knee disarticulations, transfemoral and hip disarticulation amputations.	1 hour	1104831	7/11/2025
<a href="#">Amputation Skills Training: Optimizing Service Delivery and the Patient Experience for Veterans With Limb Loss</a>	This recorded, knowledge-based will address common myths that exist in relation to amputation and prosthetic limb care to enhance both the quality and consistency of amputation care. It will also address the importance of collaboration across services to optimize the Veteran experience and outcomes.	1 hour	1106686	11/2/2025
<a href="#">Amputation Skills Training: Post-Operative Management of the Complicated Major Lower Extremity Amputation</a>	This recorded, knowledge-based webinar aims to provide health care teams with strategies for managing foot wounds in the population of Veterans at risk for limb loss. The presenters discuss the challenges in post-op incision healing, including healing and wound care techniques, prevention and managing slow-to-heal or complicated residual limb incision sites, and treating residual limb wounds.	1 hour	1103493	5/26/2025
<a href="#">Amputation Skills Training: Seating and Equipment Considerations for the Veteran Living With Limb Loss</a>	The purpose of this recorded, knowledge-based webinar is to increase the awareness of the continuous need of seating and equipment assessment of Veterans living with limb loss. During this training, health care teams will have the opportunity to review the roles of each clinician on the amputee clinic team in providing seating and equipment assessment.	1 hour	1103004	3/25/2025
<a href="#">Amputation Skills Training: Maximizing Participation in Fitness and Adaptive</a>	This recorded, knowledge-based presentation will focus on the integration of a comprehensive, multidisciplinary evaluation for Veterans with limb loss in an	1 hour	1101930	2/10/2025

<a href="#">Sports for the Patient With Limb Loss</a>	effort of increasing participation and success in fitness and sports endeavors.			
<a href="#">Amputation Skills Training: Rehabilitative and Prosthetic Considerations for Veterans</a>	This recorded session will equip providers with specific skills when dealing with device determination, prosthetic training and troubleshooting.	1 hour	1101396	1101396
<a href="#">Amputation Skills Training: Lower Extremity Residual Limb Care</a>	This recorded, knowledge-based webinar is designed to provide health care teams with specific knowledge and skills to manage the post amputation healing process and ensure residual limbs become optimized for prosthetic wear. At the conclusion, amputee health care team practitioners will have improved their understanding of skin anatomy, the healing process and scarring. <b>Expiring soon!</b>	1 hour	1100107	9/15/2024
<a href="#">VA Pharmacy Procurement: Wall-to-Wall Inventory</a>	This module will provide pharmacy procurement staff the understanding of the wall-to-wall inventory, including preparation; completion; reports; review and analysis; as well as submission and editing of data.	1 hour	1094928	8/14/2026
<a href="#">VA Pharmacy Procurement B09 Reconciliation Training - Pharmacist</a>	This module will provide VA pharmacy procurement staff the understanding of the B09 Reconciliation, including preparation, completion, reports, review and analysis as well as submission of data.	1 hour	1094926	8/30/2026
<a href="#">Lethal Means Safety Training</a>	This virtual knowledge-based presentation will educate VHA mental health providers and health care teams on lethal means safety counseling. Participants will learn about the purpose of lethal means safety counseling, including how to work with Veterans and their friends and family to facilitate lethal means safety during high-risk periods. The training emphasizes Veteran autonomy and teaches clinicians to work collaboratively with Veterans towards solutions that align with each Veteran's values and preferences.	1 hour	1075258	9/29/2026
<a href="#">War-Related Illness and Injury Study Centers: Team Addressing of Veterans' Military Exposure Concerns</a>	Using registry evaluations as a model, this recorded, knowledge-based webinar will provide training for primary care providers and health care teams on how to integrate and address exposure concerns into their workflows as Step 1 providers, as well as how to work closely with their registry clinicians, other Step 2 providers and the War-Related Injury and Illness Study Centers to ensure seamless stepped care for exposure-related health concerns.	1 hour	1107645	12/29/2025

<a href="#">War Related Illness and Injury Study Center — VA Health Outcomes Military Exposures: Exposure Concerns and Autoimmune Diseases</a>	The purpose of this recorded, knowledge-based webinar is to help providers develop an awareness of the extrinsic contributions to autoimmune disease in order to help them better address Veteran concerns.	1 hour	1104566	7/7/2025
<a href="#">WRIISC-HOME: Individual Longitudinal Exposure Record and Exposure Assessments: Introductory</a>	This recorded, knowledge-based presentation will educate providers and registry clinicians on VA/DOD military occupational and exposure assessments and use of the individual longitudinal exposure record. Updated information will be provided on this VA resource for VA providers and researchers to use when assessing Veteran environmental exposures.	1 hour	1102471	3/1/2025
<a href="#">War Related Illness and Injury Study Center: Southwest Asia Deployment Associated Lung Disease: Diagnostic Challenges</a>	The lack of clarity in terminology, such as "deployment-related lung disease" and "Iraq War lung disease," often leads to confusion among Veterans and providers causing diagnostic challenges. The purpose of this recorded, knowledge-based presentation is to provide information on correct terminology and share best clinical practices providers can implement when treating Veterans.	1 hour	1105581	9/11/2025
<a href="#">First Care Responder Bleeding Control Simulation</a>	This training will address a training gap in the ability of bystanders and first responders to perform immediate and emergent care for a victim suffering from a	1 hour	1106862	10/31/2025

	hemorrhaging injury. The training module uses an immersive approach to demonstrate bleeding control application.			
<a href="#">Tinnitus Clinical Management- Module 1 - Overview of Tinnitus and its Management</a>	This is Module 1 of a series of four online courses describing tinnitus clinical management. Module 1 is appropriate for all health care providers who are interested in learning about tinnitus and what can be done about it.	1 hour	1090587	9/30/2025
<a href="#">Tinnitus Clinical Management- Module 2: Tinnitus Assessment and Basic Care</a>	This is one of four web courses that provide training in tinnitus management. This module describes the basic protocol conducted by audiologists to provide tinnitus care, which is referred to as progressive tinnitus management level 2 audiologic evaluation. This knowledge-based activity reviews tinnitus characteristics from module 1 and steps through a decision-tree protocol for audiologists.	1 hour	1090589	11/30/2025
<a href="#">Tinnitus Clinical Management- Module 3: Clinical Intervention for Tinnitus</a>	This is one of four web courses that provide training in tinnitus management. This module describes progressive tinnitus management (PTM) level 3 skills education that is provided for patients needing care beyond PTM level 2.	1 hour	1090590	11/30/2025
<a href="#">Tinnitus Clinical Management- Module 4: Virtual Practicum for Tinnitus Management</a>	This is one of four web courses that provide training in tinnitus management. This module provides a virtual practicum for tinnitus management.	1 hour	1090591	11/30/2025
