VHA TRAIN Course Catalog: Introduction

[VHA TRAIN](#) is a gateway into TRAIN National, the most comprehensive catalog of public health learning products. TRAIN is one of the most widely used learning management systems and is a free service of the Public Health Foundation. Access VA-approved and sponsored learning on Veteran health topics now! Also, [subscribe to specific topics of interest](#) to receive periodic VHA TRAIN eblasts and other news tailored to your area of interest.

Below is a list of current courses available through VHA TRAIN organized by topic and updated monthly:

MILITARY CULTURE				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
OPIOIDS, ADDICTION, AND PAIN MANAGEMENT				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
End-of-Life Nursing Education Consortium: Symptom Management	Clinical teams must work collaboratively in symptom management, which will improve the quality of life for Veterans and their families especially at the end-of-life. This module explores several common symptoms that Veterans with life-threatening diseases and serious illness experience. Expiring soon!	1 hour	1 hour	Live event to be held Feb. 29 only
Tobacco Cessation Evidence-Based Elements of Behavioral Counseling for Smoking Cessation	This recorded training is designed to familiarize inter-professional practitioners with basic assessment and brief counseling strategies, and educate providers regarding effective elements of behavioral counseling for treatment of tobacco dependence.	1 hour	1115438	12/15/2026
Recognition of VHA's Health Care Priorities and Aligning its Support of the National Drug Control Strategy: International Overdose Awareness and Harm Reduction	The purpose of this recorded, knowledge-based webinar is to provide attendees with greater awareness, education, training and resources on overdose prevention and harm reduction so that they are better positioned to provide timely and reliable interventions to Veterans at-risk for overdose and connect Veterans to individualized health care services.	1 hour	1114710	12/8/2026
Cultural Competence and Integrated Care for Substance Use Disorders	This recorded, knowledge-based presentation will improve cultural competence as it applies to providing integrated substance use care in Black, indigenous and People of Color patients and to achieve improved health outcomes associated with institutionalized racism, prejudice and discrimination.	1 hour	1098824	12/30/2026

<u>Tobacco Treatment: Importance of Medications for a Chronic Relapsing Disease</u>	This recorded, knowledge-based presentation will provide an overview of the Food and Drug Administration approved pharmacotherapy for tobacco treatment and emphasis on the chronic, relapsing nature of tobacco use dependence.	1 hour	1115708	12/18/2025
<u>Mindfulness-Based Interventions for Smoking Cessation</u>	This recorded presentation will give an overview of the current research on mindfulness for smoking cessation to date, with some specific studies highlighted that attempt to address existing gaps.	1 hour	1115596	10/21/2025
<u>Lung Cancer Screening and Smoking Cessation: Combining Care to Improve Health Enduring</u>	This recorded, knowledge-based presentation will review the new guidelines and supporting evidence for lung cancer screening with low-dose computed tomography and to discuss current knowledge and knowledge gaps surrounding the integration of tobacco dependence treatment into lung cancer screening care processes.	1 hour	1115592	1/29/2026
<u>Group Tobacco Treatment: What Is It and Why Offer it?</u>	This recorded, knowledge-based program will educate providers and teams regarding group tobacco treatment counseling. Participants will be able to learn about different approaches proven to work in group tobacco treatments, and they will be able to implement these different approaches in their own treatment plans for Veterans.	1 hour	1115526	5/25/2026
<u>Encounter Coding in Substance Use Disorder Care</u>	The purpose of this recorded, knowledge-based webinar is to provide an overview and education about current procedural terminology codes used to report clinical procedures for the provision of substance use disorders in VA.	1 hour	1108798	3/15/2024
<u>Introduction to the Updated VA/DoD Clinical Practice Guideline: The Use of Opioids in the Management of Chronic Pain</u>	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who are prescribed opioids for managing pain. This recorded training will assist learners in delivering high-quality, evidence-based care to patients with pain who have been prescribed opioids.	1 hour	1107213	11/22/2025
<u>Deconstructing Addiction Stigma</u>	The purpose of this recorded, knowledge-based training is to help clinicians understand the impact of stigma in clinical environments and general culture; how it might jeopardize patient care; and how to best address stigma in clinical settings. It will also discuss the causes and effects of stigma, as well as discriminatory behaviors in addiction treatment.	1 hour	1107045	11/17/2025
<u>Ethics in Substance Use Disorder Care</u>	The purpose of this recorded, knowledge-based webinar is to fill identified knowledge and skill gaps in substance use disorder ethics, thereby promoting a strong ethical practice among health care teams and providers.	1 hour	1105409	8/15/2025

Lessons for the Substance Use Disorder Field From Chronic Care Medicine	The purpose of this recorded, knowledge-based webinar is to provide perspective on the treatment and evaluation of substance use disorders (SUDs) from comparative study of mainstream medicine's treatment of chronic illnesses. The presentation will improve communication between the SUD field and the rest of the mainstream health care teams. The presentation will also improve and modernize evaluation methods and outcomes.	1 hour	1103897	5/30/2025
Best Substance Use Disorders Care for Native Americans	The purpose of this recorded, knowledge-based presentation is to promote traditional Indian medicine among clinicians. Participants will learn treatment strategies and multidisciplinary evaluation methods when treating American Indian/Alaska Native Veterans with substance use disorder, and will be able to refer the Veteran successfully, if required.	1 hour	1103184	4/29/2025
Substance Use Disorder Pharmacotherapy – Opioids, Alcohol and Tobacco	This knowledge-based presentation will provide awareness to clinicians and staff of the existence of the pharmacotherapies and how to use them to provide optimal patient care to Veterans.	1 hour	1098806	11/11/2024
Motivational Enhancement Therapy for Substance Use Disorder: An Overview of Treatment, Efficacy and VA Training	This training will raise awareness of motivational enhancement therapy (MET) as a substance use disorder (SUD) evidence-based therapy and prompt engagement by VA SUD treatment providers in further training in it. It will provide education regarding differentiating motivational interviewing and MET and a closer look at the elements of the MET intervention.	1 hour	1100836	10/19/2024
Psychosocial Treatments for Substance Use Disorders	The purpose of this knowledge-based webinar is to present evidence on the efficacy of various psychosocial treatments for alcohol and drug use disorders. This will include a discussion of the latest VA/DOD substance use disorder clinical practice guidelines, which are based on a recent comprehensive systematic review of the research literature.	1 hour	1098736	9/13/2024
Using the Brief Addiction Monitor in Measurement-Based Care for Veterans With Substance Use Disorders	The purpose of this recorded, knowledge-based presentation is to provide the foundation for measurement-based substance use disorder care and how the brief addiction monitor (BAM) can support its provision. This webinar will instruct learners about BAM data, how and when to share the data with Veterans, and how to integrate the data into treatment planning.	1 hour	1098735	7/18/2024
What is Addiction?	The purpose of this knowledge-based presentation is to promote understanding of substance use disorders as chronic diseases by explaining the normal physiology of operant conditioning and how addicting drugs alter brain function. Case examples will illustrate how	1 hour	1098733	3/15/2024

	altered brain functioning manifests as symptoms of substance use disorders and how evidence-based treatments restore normal brain functioning. Expiring soon!			
Promoting Patient Engagement in Substance Use Disorders Treatment	This recorded, knowledge-based presentation will enhance patient engagement in Veterans with substance use disorders.	1 hour	1098734	6/13/2024
Opioid Overdose Education and Naloxone Distribution	This knowledge-based course is designed to train providers on opioid safety, overdose prevention and training patients to respond to an overdose with naloxone. The tutorial will increase provider awareness of the need for opioid safety and overdose prevention, as well as describe national VA naloxone kits and how to use them. Expiring soon!	1 hour	1087390	3/23/2024
Twelve-Step Facilitation for Adults With Substance Use Disorders	This recorded, virtual presentation will respond to these challenges: Does 12-step group participation help recovery and for which patients? How can providers make effective referrals to 12-step groups so that patients participate in them? By attending this presentation, clinicians, including health care teams, will be able to review research that participation in 12-step groups by people with substance use disorders increases the likelihood of recovery.	1 hour	1098840	5/6/2024
Minimal Services Methadone Maintenance Treatment	This recorded, knowledge-based training will explain the neurological and behavioral rationale for contingency management, as well as the procedural details in providing treatment to patients with substance use disorder. Expiring soon!	1 hour	1098827	1/31/2024
Infectious Disease Among Patients With Substance Use Disorder	This knowledge-based, virtual presentation will provide information to clinicians and health care teams on screening Veterans with substance use disorder (SUD) for infection. Learners will be able to identify complications associated with SUD. Expiring soon!	1 hour	1098813	2/1/2024

HEALTH DISPARITY AND HEALTH EQUITY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Health Concerns for Gay and Bisexual Men	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on health concerns for gay and bisexual men.	1 hour	1111112	4/30/2024
Fertility and Family Building	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on fertility and family building.	1 hour	1111113	4/30/2024
Health Concerns for Older LGB Veterans	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual, or LGB, and related identities. This session focuses on health concerns for older LGB Veterans.	1 hour	1111120	4/30/2024
Minority Stress and Health	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on minority stress and health.	1 hour	1111123	4/30/2024
Importance of an Affirming Clinical Environment	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on the importance of an affirming clinical environment.	1 hour	1111125	4/30/2024
Stress and Trauma-Informed Care	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on stress and trauma-informed care.	1 hour	1111130	4/30/2024
Sexual Health Care for Genderqueer and Nonbinary Veterans	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on sexual health care for genderqueer and nonbinary Veterans.	1 hour	1111131	4/30/2024
Health Concerns for Gay and Bisexual Men	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on health concerns for gay and bisexual men.	1 hour	1111112	4/30/2024
Fertility and Family Building	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on fertility and family building.	1 hour	1111113	4/30/2024

HEALTH DISPARITY AND HEALTH EQUITY

Health Concerns for Older LGB Veterans	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual, or LGB, and related identities. This session focuses on health concerns for older LGB Veterans.	1 hour	1111120	4/30/2024
Minority Stress and Health	This brief training is part of a series of programs on health care for Veterans with lesbian, gay, bisexual and related identities. This session focuses on minority stress and health.	1 hour	1111123	4/30/2024
LGB+ Veteran Health Care Modules – Group 1	The purpose of this series of recorded, brief trainings is to give providers a foundational understanding of key components of care for lesbian, gay, bisexual, or LGB+, Veterans. It is VHA policy that all staff provide clinically appropriate, comprehensive, Veteran-centered care with respect and dignity to LGB+ Veterans. This video addresses how to ask the appropriate questions and provides scenarios to demonstrate clinically appropriate conversations.	1.25 hours	1105282	12/2/2024
LGB+ Veteran Health Care Modules – Group 2	The purpose of this series of recorded, brief trainings is to give providers a foundational understanding of key components of care for lesbian, gay and bisexual, or LGB+, Veterans. This program is designed to educate the inexperienced employees and health care teams who have not yet cared for a transgender patient. Provider exposure to this training series will help to ensure that each Veteran receives the care they need and deserve.	1 hour	1105284	12/2/2024
Creating Gender Affirming Workplaces	This recorded, knowledge-based virtual training for health care teams will assist in increasing awareness of diversity, equity and inclusion (DE&I) in the work place, and highlight theories of DE&I in organizational change.	1 hour	1103175	4/11/2025

WAR RELATED ILLNESS/POST DEPLOYMENT HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Individual Longitudinal Exposure Record Introductory Training	This knowledge-based training reviews the individual longitudinal exposure record, its limitations and its usefulness as	1 hour	1116123	12/30/2026

	a resource in accessing military environment exposure records.			
War-Related Injury and Illness Study Center: Brain Cancer Mortality Among Gulf War I Veterans Exposed to Explosions at Khamisiyah	This live, knowledge-based training will discuss brain cancer mortality among 1990-1991 Gulf War Veterans exposed to explosions of munitions facilities at Khamisiyah. Expiring soon!	1 hour	1116231	Live event to be held April 23 only
Military Exposure Clues: How A Veteran's Military Occupation and History Can Help You Identify and Address Military Exposure Concerns	This training will discuss how understanding a Veteran's military history can provide important clues about exposure to potential hazardous materials. Expiring soon!	1 hour	1115758	Live event to be held March 26 only
War-Related Injury and Illness Study Center: Clinical Guidance and Policies Related to Per- and Polyfluoroalkyl Substances Exposure in the Military	The purpose of this knowledge-based, live virtual webinar is to provide an overview of what is known about per- and polyfluoroalkyl substances (PFAS), as well as clinical guidance and policies to care for Veterans with PFAS concerns. Expiring soon!	1 hour	1113225	Live event to be held Feb. 20 only
War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 1: Introduction to Level 2 Certification	The purpose of this enduring, knowledge-based module is to share the importance of education and training to ensure health care personnel have the competence to address military-related exposure concerns among Veterans. By attending, clinicians will understand the general format of the level 2 certification in military environmental exposures and be able to explain eligibility criteria and purpose of Congressionally mandated VA programs.	1 hour	1114724	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 2: Airborne Hazards and Open Burn Pit Exposures	The purpose of this enduring, knowledge-based module is to provide additional information on airborne hazard and open pit exposures to providers who are interested in learning more about these exposures.	1 hour	1114715	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 3: Airborne Hazards and Open Burn Pit Exposures	The purpose of this enduring, knowledge-based module is to review the exposures at Karshi-Khanabad, or K-2, Air Base in Uzbekistan. Health care professionals will	1 hour	1114759	10/12/2026

Study 4: Depleted Uranium, “Black Goo” and Karshi-Khanabad: Military Environmental Exposures at K-2 Air Base	be able to identify the types of military environmental exposures that occurred at this specific location and apply this knowledge in their care of Veterans.			
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 5: Embracing a New Way of Thinking: Supporting Veterans Living With Gulf War Illness	The purpose of this enduring, knowledge-based module is to enhance the clinicians understanding of the complex array of exposures often encountered by military personnel during the 1990-1991 Gulf War and other combat deployments. Clinicians will be able to recognize diagnostic approaches and care planning for Veterans, and demonstrate competencies in the assessment and care for individuals with Gulf War illness and other similar chronic multi-symptom illnesses.	1 hour	1114763	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 6: Gulf War I Service and Non-Gulf War Illness Conditions	The purpose of this enduring, knowledge-based module is to gain understanding of non-chronic multi-symptom illness conditions affecting Gulf War I Veterans through several case study examples. During this module the Gulf War report and research and development report will be reviewed, along with mycoplasma theory as a non-contributor to fibromyalgia, chronic fatigue syndrome and/or GWI.	1 hour	1114745	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 7: Ionizing Radiation and Health Concerns for Veterans	The purpose of this enduring, knowledge-based module is to review what ionizing radiation energy is and its potential health effects. Providers will be able to understand the types of electromagnetic energy and describe the authority for the ionizing registry exams. Last, they will be able to determine medical conditions that are presumed related to ionizing radiation exposure.	1 hour	1114748	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 8: Operation Tomodachi	The purpose of this enduring, knowledge-based module is to review a radiation case study. Clinicians will learn about the Great Tohoku Earthquake and its subsequent tsunami, and the ultimate Fukushima Nuclear Power Plant meltdown in 2011.	1 hour	1114749	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 9: Toxic Embedded Fragments and Depleted Uranium	The purpose of this enduring, knowledge-based module is to discuss a clinical case for a Veteran with toxic embedded fragment and depleted uranium concerns.	1 hour	1114746	10/12/2026

War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 10: Vietnam and Agent Orange Health Concerns	In this enduring, knowledge-based module, providers will learn how to access information and conduct environmental exposure assessments related to Agent Orange. They will be able to evaluate a Veteran with Agent Orange concerns and formulate a plan with appropriate referrals for follow-up care.	1 hour	1114747	10/12/2026
War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026
War-Related Injury and Illness Study Center: Clinical Neuroscience Consequences of Military Exposures	The purpose of the this recorded, knowledge-based presentation is to review neurological and neuropsychiatric conditions Veterans often suffer from, which may have been caused by exposures during their deployment.	1 hour	1112123	8/17/2026
War-Related Injury and Illness Study Center: Military Exposures and Gastrointestinal Health	The purpose of this recorded, knowledge-based presentation is to review the impact of war and occupational exposures on gut health, addressing the emerging role of the gut microbiome on Veteran's health and well-being.	1 hour	1112126	8/17/2026
War-Related Injury and Illness Study Center: Good for the Heart Is Good for the Brain: Brain Health Risks and Reduction	The purpose of this recorded, knowledge-based presentation is to provide information to clinicians on expanding clinical care and using best practices to improve healthy lifestyles and resources for Veterans.	1 hour	1112125	8/17/2026
War-Related Injury and Illness Study Center Module 1: Assessing Deployment-Related Environmental Exposures	The War-Related Illness and Injury Study Center, a national program in VA's Post-Deployment Health Services, provides expertise to Veterans and providers on difficult to diagnose illnesses and environmental exposure concerns. Module 1, Assessing Deployment-Related Exposures, provides clinically relevant knowledge on the role of environmental exposures in Veteran health and the importance of addressing each patient's exposure concerns.	1 hour	1070234	6/26/2026
War-Related Illness and Injury Study Centers: Tips for Working With Veterans With Airborne Hazards Concerns	This recorded training will discuss tips for how clinicians, nurses and health care providers can work with Veterans who have concerns about exposure to airborne hazards during their military service.	1 hour	1110628	5/22/2026
War-Related Illness and Injury Study Centers: Is it Exposure-Related?	The purpose of this recorded, knowledge-based presentation is to expand clinical care and best practices knowledge by	1 hour	1110695	5/22/2026

Evidence-Informed Clinical Decision-Making	being able to interpret published literature and incorporate best practices in clinical care.			
War-Related Illness and Injury Study Centers: Registry Exams: What Clinicians and Health Care Staff Need to Know	This inaugural Military Exposures Clinical Briefs series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Illness & Injury Study Center – Health Outcomes Military Exposures webinar series. This recorded session will discuss important information that health care providers and staff need to know about registry exams.	1 hour	1110624	5/22/2026
War-Related Illness and Injury Study Centers: Military Sexual Trauma Past, Present and Future	This intermediate-level webinar provides a historical overview of military sexual trauma (MST). This session will cover many topics pertinent to MST, including current prevalence by gender; impact on health, mental health and mortality; and the origins of universal screening for MST within VA.	1 hour	1098237	6/20/2024
War-Related Illness and Injury Study Centers: Mobile Health Apps to Supplement Care	The purpose of this presentation is to provide information on mobile mental health apps that are available to any Veteran with a mobile device. This introductory webinar will close a knowledge gap by describing basic functionality of VA mobile mental health apps, use cases and frameworks for evaluating apps.	1 hour	1098251	6/20/2024
War-Related Illness and Injury Study Centers: Deployment-Related Mental Health and Neurocognitive Concerns	The goals of this intermediate-level webinar are to provide an overview of deployment-related mental health and brain health concerns, discuss how to screen for symptoms and offer information on where to refer for additional services.	1 hour	1098326	7/20/2024
War-Related Illness and Injury Study Centers: Fibromyalgia and Veteran Care	This webinar will provide an overview of clinical and research updates for fibromyalgia and how these are applicable to the care of combat-deployed Veterans.	1 hour	1098289	6/20/2024
War-Related Illness and Injury Study Centers: Respiratory Issues of Returning Combat Veterans	This recorded, knowledge-based webinar will review the current understanding of respiratory health post-deployment, as well as identify gaps in current knowledge.	1 hour	1098250	6/20/2024
War-Related Illness and Injury Study Center: The Effectiveness of Health Coaching: An Intervention for	The purpose of this recorded presentation is to showcase how health coaching affects Veterans with multi-symptom illness. Through the use of case studies and historical trends, this video will share research and lessons learned on the	1 hour	1098323	2/1/2024

Veterans With Multi-Symptom Illness	effects of health coaching on clinical outcomes and Veteran well-being. Expiring soon!			
War-Related Illness and Injury Study Centers: Military Exposures and Dermatological Conditions	The purpose of this recorded, knowledge-based presentation is to increase provider knowledge while sharing best practices leading to expanding clinical care. Specific curriculums will be addressed, and providers/clinicians will have a higher understanding of the relationship between military exposures and dermatological conditions.	1 hour	1109937	3/28/2026
War-Related Illness and Injury Study Centers: Who We Are and How We Serve Clinicians and Providers	The purpose of this recorded, knowledge-based presentation is to discuss how Veterans exposure team-health outcomes of military exposures (VET-HOME)'s creation of a network of specialized providers and a call center provides Veterans with an integrated care team to support their comprehensive health care needs.	1 hour	1109916	5/28/2026
Quick Tips for Everyday Clinical Care of Veterans With Exposure Concerns	This knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills. This recorded session will discuss tips for how clinicians, nurses and health care providers can engage in everyday clinical care of Veterans with exposure concerns.	1 hour	1109396	3/27/2026
War-Related Illness and Injury Study Center: Supporting Veterans With Military Exposure Concerns	This recorded, knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Injury and Illness Study Center webinar series.	1 hour	1108887	3/14/2026
War-Related Illness and Injury Study Centers: Can Integrative Health Interventions Help Gulf War Veterans?	The current standard of care for Gulf War Veterans is not fully effective and may require complementary and alternative medicine approaches to enhance positive outcome for this unique post-deployment cohort. This recorded, knowledge-based presentation will increase and promote learning tools and understanding of available resource to Veterans, providers and other stakeholders.	1 hour	1108890	3/2/2026
War-Related Illness and Injury Study Centers: How to Help Veterans With Military Exposures	This knowledge-based, interview-style, Military Exposures Clinical Briefs series features conversations with specific occupational groups to offer some quick, hands-on skills as a complement to the	0.5 hour	1108272	2/1/2026

Receive the Benefits They Deserve	more detailed learning found in the War-Related Injury and Illness Study Center webinar series.			
War-Related Illness and Injury Study Centers: Tips for How Clinicians Can Talk With Veterans About Exposures	In this recorded, knowledge-based training, the presenter will discuss how clinicians can talk to Veterans about their exposure concerns, including the basics of risk communication and suggestions for how to respond to traditionally difficult-to-answer questions.	1 hour	1108269	2/1/2026
War-Related Illness and Injury Study Centers: Approaches to Long-COVID: Leveraging the Concordant Care Model For Chronic Multi-Symptom Illness	The purpose of this recorded, knowledge-based presentation is to educate providers on the concordant care treatment model developed for Veterans with chronic multi-symptom illness and how to apply this model to the treatment of Veterans with long-COVID.	1 hour	1108078	1/30/2026
War-Related Illness and Injury Study Centers: Module 5 – Depleted Uranium and Toxic Embedded Fragments	This curriculum provides health care providers with knowledge about the current research on health effects in depleted uranium (DU)-exposed populations; information about enrolling Veterans with suspected DU exposure or toxic embedded fragments into VA registry programs; and guidance about the clinical approach to Veterans with embedded fragments.	1 hour	1087697	10/1/2025
War Related Illness and Injury Study Center-VA Health Outcomes Military Exposures: Hot Topics in Environmental Exposures: Lead, Anti-Malarials and Karshi Khanabad	This recorded, knowledge-based webinar will include the latest information on topics including anthrax, liver fluke infection, mefloquine, directed energy, lead and radiation, as well as potential exposures at Qarmat Ali and Karshi Khanabad. Health care teams will be provided with best practices updates to help them answer questions from concerned Veterans.	1 hour	1102355	1/27/2025
War-Related Illness and Injury Study Centers: VA Health Outcomes Military Exposures: Health Coaching for Veterans With Complex Pain	This recorded, knowledge-based presentation will provide clinicians with clinical care best practices for health coaching and teach them skills to incorporate health coaching into their own practice for treatment of Veterans.	1 hour	1105910	10/6/2025
War-Related Illness and Injury Study Centers: Applying Health Coaching Strategies to Clinical Care	The purpose of this recorded, knowledge-based presentation is to introduce coaching strategies and tools for busy clinicians to leverage in their practice. It will provide awareness to providers of how the tools of health coaching can be used to increase patient satisfaction, improve clinical recommendation	1 hour	1105507	8/11/2025

	adherence and improve provider/patient communication.			
War Related Illness and Injury Study Center: Infectious Diseases, Vaccinations and Antimalarials	The purpose of this virtual, knowledge-based presentation is to review and discuss research and potential health effects of infectious diseases, vaccinations and antimalarials, and to highlight useful clinical resources. Providers will increase their knowledge and implementation of clinical best practices.	1 hour	1103340	5/8/2025
War-Related Injury and Illness Centers: Toward Zero Harm: Addressing Mental Health Misdiagnoses in Veterans: Introduction	This recorded, knowledge-based training will cover how to address, repair and prevent the harm caused by mental health misdiagnoses using clinical skills and existing resources available to Veterans and health care providers. The focus will be on the restorative power of accurate, compassionate care.	1 hour	1102202	2/14/2025
War Related Illness and Injury Study Center – VA Health Outcomes Military Exposures: Enhanced Implementation of the Burn Pit Registry Clinical Evaluation: Introductory Course	This recorded, knowledge-based presentation will increase learner's understanding of system characteristics affecting performance of airborne hazards and open burn pit registry (AHOBPR) exams. They will be able to identify best practices for integrating these exams into the broader context of the AHOBPR and clinical care.	1 hour	1101594	12/21/2024
War-Related Injury and Illness Centers: Behavioral Health Treatment for Medically Unexplained Symptoms: Introduction	This recorded, knowledge-based training will teach behavioral health providers a trans-theoretical approach to recognizing medically unexplained symptoms (MUS), developing rapport and treating MUS that they can integrate into their existing behavioral health practice.	1 hour	1101306	11/30/2024
War Related Illness and Injury Study Center – VA Health Outcomes Military Exposures: Garrison Exposures: Camp Lejeune, Fort McClellan and Polyfluoroalkyl Substances	The purpose of this knowledge-based webinar is to inform health care providers about garrison exposures at Camp Lejeune, Fort McClellan and other bases. This review will also provide guidance on how to care for and communicate with Veterans with these concerns.	1.25 hours	1101050	8/23/2024
War-Related Injury and Illness Centers: Behavioral Health Treatment for Medically Unexplained Symptoms: Introduction	This recorded, knowledge-based training will teach behavioral health providers a trans-theoretical approach to recognizing medically unexplained symptoms (MUS), developing rapport and treating MUS that they can integrate into their existing behavioral health practice.	1 hour	1101306	11/30/2024

War-Related Illness and Injury Post-Deployment Health Services: The Airborne Hazards and Open Burn Pit Registry Follow-Up: What We've Learned	This webinar will focus on airborne hazards and Open Burn Pit Registry clinical exams and more advanced evaluations through the Airborne Hazards and Burn Pits Center of Excellence. Expiring soon!	1 hour	1098312	2/1/2024
---	--	--------	---------	----------

POST-TRAUMATIC STRESS DISORDER (PTSD)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Clinical Practice Guideline for PTSD: Complementary, Integrative and Alternative Approaches	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to complementary, integrative and alternative approaches to treating PTSD. It will also discuss the clinical implications for providers treating Veterans with PTSD.	1 hour	1116160	12/30/2026
PTSD Consultation Program Monthly Lecture Series: Bridging the Gap: Using VA Mental Health Apps to Support Treatment for PTSD	This recorded, knowledge-based webinar will review current research and the latest clinical developments in the use of the National Center for PTSD mental health apps for self-care and to enhance clinical care.	1 hour	1116146	12/29/2026
PTSD: Cultural Considerations for Conducting Trauma-Focused Treatment With Latinx Patients	This recorded, knowledge-based presentation will propose several culturally responsive strategies for therapists and health care teams to consider when conducting prolonged exposure for or cognitive processing therapy with Latinx patients to improve clinical outcomes. Subjects discussed will include building trust and rapport early on; conducting culturally informed assessment; investing in psychoeducation; optimizing exposures; challenging beliefs with cultural humility; and problem-solving common barriers to treatment engagement.	1 hour	1101707	12/30/2026
PTSD Consultation Program Monthly Lecture Series: What's the Buzz?: New Developments in Prolonged Exposure for PTSD	This recorded, knowledge-based webinar will provide awareness and updates on some of the most groundbreaking research on prolonged exposure to dispel myths and increase understanding of its powerful efficacy with complex patients with PTSD in clinical practice.	1 hour	1116121	12/14/2026

Introduction to VA/DOD Clinical Practice Guideline for the Management of Posttraumatic Stress Disorder	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with posttraumatic stress disorder (PTSD) based on current therapeutic guidelines, best practices and clinical evidence. It will also have the learner apply the knowledge to clinical practice management.	1 hour	1115187	11/30/2026
PTSD Consultation Program Lecture Series: Treating Co-Occurring Chronic Pain and PTSD	This recorded, knowledge-based webinar presentation will provide information about the prevalence of chronic pain and PTSD; the relationship between these conditions; the literature around their treatment; and approaches for management of these co-occurring issues.	1 hour	1113757	9/30/2026
PTSD Consultation Program Lecture Series: Clinical Practice Guideline for PTSD 2023: Medication and Other Biological Treatments	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to medications and other biological treatments for PTSD, as well as discuss the clinical implications for providers treating Veterans.	1 hour	1113891	9/14/2026
PTSD and Schizophrenia–Spectrum Disorders: Assessment and Treatment	This recorded, knowledge-based webinar will describe clinical recommendations to facilitate assessment and treatment of PTSD in those with co-occurring schizophrenia-spectrum disorders.	1 hour	1112324	8/14/2026
PTSD Consultation Program Lecture Series: Understanding Native American History as a Foundation of Culturally Aware PTSD Treatment	This recorded, knowledge-based webinar will help bridge a gap by providing information about historical trauma for Native American Veterans, the current culturally informed research related to historical trauma, how historical trauma may complicate PTSD treatment and strategies that are culturally informed to address historical trauma.	1 hour	1112320	8/14/2026
PTSD Patient Engagement	This course reviews the evidence base and utilization data for PTSD psychotherapies available in VA and defines patient engagement.	1 hour	1063771	3/23/2025
PTSD 101: The 2017 Revised Clinical Practice Guideline for PTSD: Recommendations for Medications	The purpose of this knowledge-based web course is to close a training gap by helping clinicians become knowledgeable about the recommendations for medication and to assist them in providing care based on the latest evidence. This course will	1 hour	1083746	1/31/2026

	review the process by which the guideline was developed, clearly explain the recommendations related to medications and discuss the clinical implications for providers treating Veterans.			
PTSD 101: Prolonged Exposure Therapy: Effective Treatment for PTSD	The purpose of this knowledge-based course is to review the recent research on prolonged exposure (PE), provide a basic description of the treatment and to describe areas of future research for the team. By addressing a training practice gap, current PE providers/team members may improve their delivery of PE by learning about how recent research has informed new clinical recommendations for this treatment.	1 hour	1088863	11/29/2025
Ethical Considerations in Shared Decision-Making for PTSD Treatment	This recorded, knowledge-based training will discuss ethical considerations in shared decision-making, including common pitfalls in selecting amongst evidence-based treatment options for health care teams. Resources to support the implementation of shared decision-making will be shared.	1 hour	1107258	1/1/2025
PTSD Lecture Series: Troubleshooting Lack of Improvement in PTSD Treatment	This recorded, knowledge-based lecture will provide a framework for examining progress in treatment, potential indicators for lack of improvement and recommendations for how to proceed in these cases. Research and literature associated with PTSD treatment planning and progress will be reviewed to help clinicians with decision-making.	1 hour	1107265	1/1/2025
The Science of Cannabis and Its Effects	The purpose of this recorded, knowledge-based webinar is to provide an overview of the science of cannabis and its acute and chronic effects.	1 hour	1114071	1114071
PTSD Lecture Series: Legalized Cannabis and PTSD Treatment	This recorded, knowledge-based webinar will provide information about the prevalence of cannabis use and the types of cannabis products available; the relationship between PTSD and cannabis use; and clinical practice strategies for addressing cannabis use among patients with PTSD.	1 hour	1107315	12/31/2024

Eye Movement Desensitization and Reprocessing to Treat PTSD	This recorded, knowledge-based webinar presentation provides an overview of the evidence showing the effectiveness of using eye movement desensitization and reprocessing (EMDR) to treat PTSD, and will review the eight-phase protocol and mechanisms of EMDR for health care teams. Strategies and resources for including EMDR within shared decision-making will also be discussed.	1 hour	1107253	1/1/2025
PTSD Treatment for Veterans With Disabilities	The purpose of this recorded, knowledge-based training is to provide knowledge and skills for mental health providers and health care team members providing culturally competent PTSD treatment to Veterans with disabilities.	1 hour	1107249	1/1/2025
The Dissociative Subtype of PTSD	This training series is designed to address key areas of PTSD that have the most profound impact on Veterans and active-duty service members.	1 hour	1063808	3/17/2025
PTSD and Eating Disorders	This recorded training will inform attendees about the research findings regarding safety planning and post-acute care for individuals experiencing suicidal ideation. It will also describe the VHA enterprise-wide clinical program called Safety Planning in the Emergency Department, or SPED, that has been implemented within VA.	1 hour	1103471	5/25/2025
The Role of Family Members in PTSD Treatment	This recorded, knowledge-based webinar will provide information from the perspectives of Veterans, family members and VA clinicians regarding family-inclusive care. The presentation will include specific advice for health care teams about how and when to discuss family involvement in care with Veterans, as well as outlining a number of brief protocols that have been developed specifically for Veterans and their loved ones.	1 hour	1103764	4/30/2024
Social Support to Reduce Risk of PTSD and Other Negative Outcomes	This recorded, knowledge-based training will explore ways that clinicians and health care teams can incorporate effective elements of social support into clinical care for PTSD and improve overall quality of life and well-being for Veterans.	1 hour	1103768	3/31/2024
Expiring soon!				

PTSD and Obsessive-Compulsive Disorder	This recorded, knowledge-based webinar helps to bridge a gap for health care teams by highlighting emerging literature on co-occurring PTSD and obsessive-compulsive disorder (OCD). This course will provide tools for effective differential diagnosis of PTSD and OCD and will outline clinical tips and guidance for effective treatment when a client meets criteria for both.	1.5 hours	1103784	4/30/2024
PTSD and Insomnia: Cultural and Clinical Considerations	This recorded, knowledge-based webinar will review the most up-to-date evidence related to considerations for integrated, sequential and concurrent treatment options for comorbid PTSD and insomnia. Additionally, learners and health care teams will be able to identify cultural and clinical considerations related to the assessment and treatment of these comorbid disorders to help inform case conceptualization and shared decision-making.	1 hour	1103783	4/30/2024
Clinician Administered PTSD Scale for DSM-5 Training Simulator Part 2	In this virtual course, learners will identify the interview principles required for administering the Clinician-Administered PTSD Scale for DSM-5 (CAPS-5).	1 hour	1090937	3/12/2026
Clinician-Administered PTSD Scale for DSM-5 (CAPS-5) Training Simulator – Part 4	This course uses speech recognition and virtual patient technology to help the most advanced learners gain a deeper understanding of how to administer and score the Clinician-Administered PTSD Scale (CAPS-5) for Diagnostic and Statistical Manual of Mental Disorders, or DSM-5. The course challenges learners to distinguish between a patient's symptoms of PTSD and co-occurring conditions.	1.25 hours	1103441	3/17/2025
PTSD and Aging: PTSD in Older Veterans	This course is designed to increase awareness of the impact of PTSD in older Veterans, including unique aspects of treatment and intervention related to this population. The course will also provide practitioners with practical tips and skills that may be used when working with older Veterans who experience post-trauma symptoms.	1 hour	1101748	10/30/2024

Health Care Planning and Management for Older Adults With Dementia	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced and virtual educational opportunities.	1 hour	1096045	11/1/2026
Examining Diagnostic Approaches to Dementia Care Through Use of Biomarkers	This recorded, knowledge-based webinar will help bridge the knowledge gap with what is currently known about Alzheimer's disease blood tests and introduce new research being conducted in the VA to improve current tests.	1 hour	1103495	5/31/2025
PTSD: From Neurobiology to Treatment	This presentation will highlight major advances in the neurobiology of PTSD and link these insights to novel therapeutic strategies. In doing so, this presentation will take a historical perspective and highlight advances from the 25 years of research within the Clinical Neuroscience Division of the National Center for PTSD.	1 hour	1083779	9/30/2024
Cognitive Processing Therapy for PTSD Enhanced Practice	The purpose of this knowledge-based educational web course is to provide knowledge and skills to implement cognitive processing therapy in order to be able to offer this therapy as an option for all Veterans seeking treatment for their PTSD symptoms.	1 hour	1084993	7/1/2024
Introducing CPT Coach 2.0: Integrating CPT Coach Into Cognitive Processing Therapy	The purpose of this recorded virtual conference tutorial is to provide clinicians with the knowledge and skills to augment their ability to implement cognitive processing therapy (CPT) in order to be able to offer this therapy as an option for all Veterans seeking treatment for PTSD symptoms.	1 hour	1105041	7/20/2025

ETHICS IN HEALTH CARE/WHOLE HEALTH CARE/CULTURAL TRANSFORMATION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Whole Health as Suicide Prevention	This recorded, knowledge-based presentation will provide an overview of the whole health system to engage Veterans who are socially connected, engaged in self-care activities and have a trusting relationship with health care team members.	1 hour	1110868	5/11/2026

Whole Health for Nurses: Beginning the Whole Health Journey	The purpose of this knowledge-based web course is to introduce nurses to whole health and its synergies with foundational nursing theory and practice.	1 hour	1105141	7/1/2025
---	--	--------	---------	----------

CANCER

DISABILITY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

Disability and Medical Assessment: Mental Health Examinations	The purpose of this web-based training course is to provide an overview of mental health examinations, including PTSD, initial mental disorders, eating disorders and military sexual trauma related to PTSD. It will address a knowledge gap by providing updated information, including procedures regarding how to prepare for, conduct and properly document a thorough and legally defensible compensation and pension, or C&P examination.	1 hour	1101690	12/13/2024
---	--	--------	---------	------------

Disability and Medical Assessment: Medical Opinions	This training will provide information on medical opinions for compensation and pension clinicians, and will address identifying the purposes and types of medical opinions, as well as understanding the legal basis for them. It will provide training on recognizing required content of opinions, including use of legally appropriate language, and will also describe best practices for producing acceptable and accurate opinions and improve clinicians' skills in writing them.	1.5 hours	1064529	5/24/2024
---	---	-----------	---------	-----------

Ethical and Practical Issues in Disclosure of Dementia Risk	This recorded, knowledge-based webinar will help bridge the knowledge gap with what is currently known about ethical and practical issues in disclosure of dementia risk.	1 hour	1103853	5/31/2025
---	---	--------	---------	-----------

GERIATRICS AND EXTENDED CARE

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Geriatric Research Education and Clinical Centers Journal Club: Intrinsic Capacity as a Determinant of Physical Resilience in Older Adults and Evaluating the Design of the Integrated Care for Older People: A Theory of Change Approach	The purpose of the Geriatric Research Education and Clinical Centers Journal Club is to highlight new geriatric research findings for health care providers, while teaching these providers how to review research articles for the use of the best evidence to inform clinical practice. Expiring soon!	1 hour	1116111	Live event to be held Feb. 15 only
Orientation to VA Palliative and Hospice Care	This recorded, knowledge-based training provides inter-professional health care teams an orientation to VA palliative and hospice care (PHC), including communication infrastructure between programs and leaders from national, facility and Veteran Integrate Service Network settings and leaders; educational resources and curricula; data collection and reporting specific to PHC; and a description of key policy documents and how to access them.	1 hour	1114622	10/16/2026
VA Benefits for Veterans With Serious Illness and Their Families	This recorded, knowledge-based webinar will focus on the VA benefits most relevant to Veterans receiving palliative or hospice care, as well as their families/survivors. The presenters will introduce each benefit, including why it is of value and its eligibility criteria, and how palliative and hospice staff can assist Veterans and their families with the application process.	1 hour	1103633	5/2/2025
Clinical Case Study: Falls in Older Adults	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced, virtual educational opportunities. The purpose of this vignette is to present a clinical case study of falls in older adults.	0.25 hour	1104200	5/25/2025
Clinical Case Study: Pain Management in Older Cancer Patients	This clinical case course will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced, virtual educational opportunities. This session will cover pain management in older cancer patients.	1 hour	1102052	1/12/2025
Care for the Caregiver: An Inclusive Care Approach	This recorded, knowledge-based training will assist health care teams in understanding the needs of caregivers,	1 hour	1098568	6/14/2024

their critical role in the care of the Veteran and the benefits of practicing inclusive care.

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
MENTAL HEALTH				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Introduction to VA/DOD Clinical Practice Guideline for the Management of Bipolar Disorder	This recorded, knowledge-based program will equip learners with relevant information needed for managing patients with bipolar disorder based on current therapeutic guidelines, best practices and clinical evidence.	1 hour	1114069	10/29/2026
Pain and Stress	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114232	7/31/2026
Working With Deeper Beliefs	The purpose of this knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on working with deeper beliefs.	1 hour	1114568	8/1/2025
Recognizing and Managing Thoughts That Work Against You	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. Cognitive behavioral therapy stresses the relationship between one's thoughts, feelings and actions.	1 hour	1114602	7/31/2026
Pain and Communication	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and communication.	1 hour	1114605	7/31/2026
Pain and Emotions	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and emotions.	1 hour	1114604	7/31/2026

Getting Active and Other Useful Health Habits	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on useful health habits.	1 hour	1114611	8/1/2026
How The Brain Deals With Pain and How To Deal With The Brain	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This training will bridge the knowledge with what is currently known about the brain and pain stimulus and introduce new concepts on how to handle pain and the mental fallout from pain management.	1 hour	1114618	7/31/2026
Reviewing Your Pain Coping Toolbox: Your Gate Closers	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114802	8/1/2025
Skills for Psychological Recovery	Skills for psychological recovery, or SPR, is a skills-building intervention for post-disaster environments that uses components of cognitive behavioral treatments that are common across many diagnoses. This course will allow those who work with Veterans to learn a skills-building approach that can both be applied to increasing resilience in Veterans and to better respond to mass casualty and disaster situations.	1 hour	1091207	3/24/2026
Cognitive Behavioral Therapy for Depression In Veterans and Military Servicemembers: Group Therapy Companion Guide for Therapists	The purpose of this guide is to provide clinicians who have received cognitive behavioral therapy for depression (CBT-D) training using a group format with a specific CBT-D protocol. Special focus is given to the importance of group process, as well as the implementation of specific cognitive and behavioral strategies within a 13-session group treatment protocol.	2.5 hours	1105251	8/8/2025
Mental Health Treatment Planning: Best Practices and Requirements	The purpose of this recorded, knowledge-based presentation is to provide education about mental health treatment plan requirements and best practices for process and documentation, and to provide an update on treatment plan tools.	1 hour	1101065	11/16/2024

Deployment-Related Mental Health and Neurocognitive Concerns	The goals of this intermediate-level webinar are to provide an overview of deployment-related mental health and brain health concerns, discuss how to screen for symptoms and offer information on where to refer for additional services.	1 hour	1098326	7/20/2024
Coordinating Across all Levels of the Continuum of Mental Health Care: The Role of the Veterans Crisis Line	This recorded, knowledge-based training will provide clinicians and the interprofessional health care team a comprehensive overview of the crisis intervention services provided by the Veterans Crisis Line, both during and after the call.	1 hour	1097308	5/15/2024
Veterans Health Administration's Rapid Conversion to Virtual Mental Health Care During the COVID-19	The purpose of this recorded, knowledge-based training is to describe the factors that allowed the Veterans Health Administration to quickly pivot and provide increased virtual mental health care during the pandemic, the impact of virtual care on Veterans' mental health care, and future implications. Providers would benefit from understanding the VA's investment in virtual care and how this has improved access and outcomes so they can adopt successful virtual care services. Expiring soon!	1 hour	1095535	1/18/2024
Mindful Awareness	The purpose of this knowledge-based educational web course is to describe mindful awareness and its use within VA; explore the research regarding mindful awareness and its benefits; and consider how it can be incorporated into daily routine and practice. Expiring soon!	1 hour	1098359	3/31/2024
Mindful Awareness	The purpose of this knowledge-based educational web course is to describe mindful awareness and its use within VA; explore the research regarding mindful awareness and its benefits; and consider how staff can incorporate mindful awareness into their daily routine and practice. These techniques will help address training gaps, as well as identify how mindful awareness can help patients, clinicians and non-clinicians in their move toward whole health. Expiring soon!	1 hour	1070567	3/31/2024
Using the New Mobile App to Enhance Treatment for Military Sexual Trauma Survivors	This recorded, knowledge-based training will teach attendees about the background for and practical applications of a new mobile mental health app designed for military sexual trauma survivors and those who care for them.	1 hour	1103743	3/24/2025

LEAD COORDINATOR TRAINING

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

TRAUMATIC BRAIN INJURY (TBI)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
War-Related Injury and Illness Study Center: Gender Differences in Symptoms and Functional Outcomes in Veterans With Traumatic Brain Injury	The purpose of this webinar is to raise awareness of differences in the way traumatic brain injury is experienced in men and women.	1 hour	1098320	2/1/2027
Mild Traumatic Brain Injury	This recorded, knowledge-based virtual training will provide important information to members of the health care teams about the management of patients who have had a mild traumatic brain injury and the principles of rehabilitation for patients experiencing persistent symptoms related to the injury.	1 hour	1101353	10/11/2024
Traumatic Brain Injury: Diagnosis and Management	This recorded training will include information about VA's traumatic brain injury (TBI)/polytrauma system of care, the need to develop an individualized plan of care for Veterans with TBI and how to connect Veteran patients to VA resources. Additionally, participants will learn about online tools and training resources highlighting issues related to Veterans and service members with TBI.	1 hour	1101180	11/10/2024
Best Practice in Cognitive Rehabilitation for Traumatic Brain Injury	This recorded program aims to increase consistency in cognitive rehabilitation practices for service members and Veterans diagnosed with mild to moderate TBI.	1 hour	1088051	10/28/2024
War-Related Illness and Injury Post-Deployment Health Services: Gender Differences in Symptoms and Functional Outcomes in Veterans With TBI	The purpose of this webinar is to raise awareness of differences in the way TBI is experienced in men and women. Social constructs, as well as physiological differences, affect the success of diagnosing and treating TBI. Expiring soon!	1 hour	1098320	2/1/2024

Management of Traumatic Brain Injury and Co-Occurring Disorders	This recorded, knowledge-based training will improve the quality, competence and availability of providers to offer evidenced-based management of TBI with co-occurring disorders (CODs). Time will be spent providing an overview system of diagnosis and management for TBI with CODs and highlighting the clinical care and use of the clinical practice guidelines for management of TBI.	1.5 hours	1097516	5/3/2024
---	---	-----------	---------	----------

SUICIDE PREVENTION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Black Mental Health and Suicide Risk	The purpose of this recorded, virtual webinar is to provide attendees with the opportunity to openly explore and discuss the rising rates of suicide among Black individuals. This presentation will also create a space to openly explore inherent bias within the mental health system, with a focus on the stereotypes and bias directed at Black individuals.	1 hour	1114344	10/29/2026
Suicide Risk Management Consultation Program: Providers Working in Suicide Prevention	This recorded presentation promotes the importance of self-care and sustainability for providers and health care teams who work with individuals who are at higher risk for suicide. An area of focus will be on one presenter's experience of post-traumatic growth, recovery and healing in the wake of a colleague's death by suicide. The importance of recognizing signs of burnout and actualizing self-care strategies will be reviewed in order to allow for sustainability in challenging work.	1 hour	1113605	10/16/2026
Lethal Means Safety Training	This recorded webinar will provide updated lethal means training and resources for VHA facility suicide prevention coordinators and other mental health and suicide prevention clinicians.	1 hour	1075258	9/29/2026
Population-Level Analyses of the Rural Urban Suicide Disparity Among VA Patients	The overall purpose of this recorded knowledge-based program is to discuss recently published research examining the rural-urban disparity in the risk of death by suicide among VA patients.	1 hour	1111641	8/1/2026
Utilizing the Clinical Practice Guidelines to Inform Standardized Suicide Risk Screening and Evaluation	This virtual presentation will allow attendees to increase their familiarity with the clinical practice guidelines and to learn about real-world examples of how they can be implemented in clinical practice.	1 hour	1111237	6/25/2026

Military and Veteran Caregivers: Health, Well-Being and Phenotypes for Suicidal Ideation	This recorded, virtual webinar will provide an overview of the psychosocial characteristics of military and Veteran caregivers in the U.S. The presenter will describe the health, well-being and unique challenges of military and Veteran caregivers.	1 hour	1109612	4/27/2026
Latest Research Updates on Caring Contacts for Suicidal Patients	This recorded webinar will describe the origin and rationale of Caring Contacts as envisioned by Motto, with a focus on recent meta-analysis and related clinical trials, including Caring Contacts research with active-duty military personnel and Veterans.	1 hour	1109151	2/24/2026
Skills Training for Evaluation and Management of Suicide	The purpose of this knowledge-based course is to provide training on how to use the clinical practice guidelines to facilitate the development of suicide risk assessment and management skills. Using information and micro-simulations, learners will be able to discuss suicide risk with Veterans, determine acute and chronic suicide risk, and implement a treatment plan to manage suicide risk.	1 hour	1090912	4/10/2025
Gatekeeper Training as a Force Multiplier for Community Suicide Prevention	This recorded, knowledge-based webinar for interpersonal health care teams will introduce the clinical practice guidelines on gatekeeper training and provide an overview of the options and applications of such training in community settings.	1 hour	1107542	12/29/2025
Financial Well-Being and Suicide Risk in Military Veterans	This recorded, knowledge-based webinar provides an overview of financial well-being and challenges of Veterans, and then summarizes empirical research showing a link between financial strain and suicide risk in Veterans and non-Veterans.	1 hour	1106388	10/21/2025
Lithium for Suicide – A Therapeutic Risk Management-Informed Approach	This recorded webinar offers an approach to individualized risk-benefit analysis regarding the use of lithium for suicide prevention for patients with mood disorders.	1 hour	1105937	10/15/2025
Suicide Prevention in Veterans With Substance Use Disorders	This recorded, knowledge-based webinar will address challenges in assessing individuals with concurrent substance use and suicide risk, and it will offer treatment recommendations.	1 hour	1105865	9/23/2025
Suicide Prevention and End-of-Life	In this recorded training, learners will be provided with information on the differences between suicidality and the desire for hastened death. They will learn about the elements of risk assessment and appropriate interventions to manage	1 hour	1104959	7/30/2025

	suicidality and/or desire for hastened death at the end-of-life.			
Suicide Prevention Among Those With Neurologic Conditions	Individuals with a history of neurologic conditions have been identified as having a history of increased risk for suicide. In this recorded training, data regarding risk and associated risk will be presented, as well as information regarding most prevalent mechanisms of suicide death. Strategies for intervention with these high-risk cohorts will also be discussed.	1 hour	1105253	7/30/2025
Suicide Risk Factors and Clinical Implications	This recorded presentation will provide an overview of suicide risk factors and the related literature findings. Presenters will emphasize clinical implications, including addressing risk factors in risk assessment, risk stratification and targeted treatment interventions.	1 hour	1104919	7/15/2025
Dialectical Behavior Therapy via Telehealth	The purpose of this recorded presentation is to present on dialectical behavior therapy, an evidence-based treatment for chronic suicidal behavior and borderline personality disorder, and discuss its application via telehealth.	1 hour	1104069	5/31/2025
Self-Directed Violence Classification System	Understanding and classifying suicidal thoughts and behaviors remains a challenge. In particular, misclassification can impact clinical care and surveillance, which can result in decreased understanding of the issue and appropriate treatment considerations and planning. Utilization of a standard nomenclature, such as the Suicidal Self-Directed Violence Classification System (SDVCS), developed by the Centers for Disease Control and Prevention, addresses such an issue. This recorded course will discuss the SDVCS to assist learners in better understanding classification of this matter.	1 hour	1103730	6/1/2025
Recommendations for Postvention Processing Sessions	When providers lose a patient to suicide, they are affected by the loss both personally and professionally. This recorded presentation will illustrate how to effectively and efficiently conduct postvention processing services for providers.	1 hour	1103698	5/22/2025
Suicide Risk Management for Rural Native Veterans	This recorded program will provide context and overview of providing mental health care to Rural Native Veterans and discuss approaches in suicide risk management.	1 hour	1103393	5/12/2025

Psychosocial Rehabilitation and Suicide Prevention	The purpose of this recorded webinar is to describe the Psychosocial Rehabilitation and Recovery Services section of the Office of Mental Health and Suicide Prevention, and how its mission promotes recovery and includes a prominent suicide prevention component.	1 hour	1103392	5/12/2025
Maximizing Therapeutic Alliance in Suicide Risk Assessment, Management and Treatment	This recorded, knowledge-based virtual training for health care teams will focus on key reasons for suicidality for active duty and Veteran women and how these reasons are impacted by military and other cultural factors.	1 hour	1103106	4/11/2025
Treating PTSD and Suicide Risk: Separating Myth From Fact	Although suicidal thoughts and behaviors are common among patients with PTSD, myths and misconceptions about suicide abound among clinicians. In this course, data that refute these myths, especially the belief that suicidal patients cannot be safely or effectively treated with empirically supported trauma therapies will be presented and discussed.	1 hour	1083785	12/14/2024
Understanding and Navigating Elevated Suicide Risk	This recorded webinar training will provide participants with an understanding of the extant literature on and a conceptual overview of using leading theory-driven models of suicidal self-directed violence. Existing services available within VHA will also be reviewed.	1 hour	1101511	12/20/2024
Sleep, Suicide and the Role of Sleep Medicine	This recorded training will explore relationships among sleep disorders, suicidal thought and behavior, as well as sleep medicine.	1 hour	1100750	10/29/2024
Problem Solving Therapy and Suicidality	This recorded, knowledge-based webinar training will examine the relevance of emotion-centered problem-solving therapy as a treatment and prevention approach for health care teams and clinical professionals to reduce suicidality. A conceptual problem-solving model of suicide in addition to various clinical guidelines will be presented.	1 hour	1100217	9/24/2024
Suicide Risk Management: Preventing Suicide Among Women Veterans	This recorded, knowledge-based webinar will provide clinicians and health care teams salient considerations to a gender-sensitive approach to suicide risk assessment and intervention with women Veterans.	1 hour	1098519	6/30/2024
Responding to Suicidal Ideation or Self-Harm From a Dialectical	This recorded, knowledge-based training will provide clinicians and health care teams the ability to identify the differences in operant versus respondent	1 hour	1098065	6/20/2024

Behavior Therapy Perspective	statements/behaviors and how to most effectively respond.			
Veteran Suicide Prevention Refresher	This recorded, knowledge-based webinar will educate health care teams on risk factors of suicide; provide clinical resources they can use in practice; and encourage lethal means safety counseling, which is a critical component of the safety planning intervention.	1 hour	1098378	6/14/2024
Clinical Practice Guidelines for Suicide Prevention: Cognitive Behavioral Therapy for Suicide Prevention	This recorded, knowledge-based training will provide an overview of cognitive behavioral therapy for suicide prevention, including the key cognitive and behavioral strategies that are used to target suicidal behavior and the evidence supporting the use of cognitive behavioral therapy.	1 hour	1098288	6/1/2024
Involving Family and Loved Ones in Suicide Prevention Efforts	This recorded, knowledge-based training will provide clinicians and health care teams with a comprehensive overview of the benefits and challenges of involving others in the care of individuals at risk for suicide. Presenters will discuss how to involve loved ones and support others clinically in the prevention of suicide for individuals at increased risk.	1 hour	1096884	4/20/2024
Clinical Practice Guidelines for Suicide Prevention: Evidence-Based Practice in Suicide Risk Screening Evaluation	This recorded webinar will provide an overview of evidence-based recommendations for suicide risk screening and evaluation. It will also discuss strategies for implementation of these practices in routine health care settings.	1 hour	1097063	5/1/2024
Suicide Risk Management: TBI, Suicide and Evidence-Informed Intervention Strategies	This recorded, knowledge-based webinar will review risk factors for suicide in Veterans with TBI. Evidence-informed intervention strategies, which must be implemented to address risk and prevent suicide, will be discussed. Expiring soon!	1 hour	1096538	3/31/2024
Clinical Practice Guideline for Suicide Prevention: Suicide Risk Stratification and Documentation	This knowledge-based recording will address risk stratification for the interprofessional health care team who will attend to risk in terms of both severity and temporality. It will also offer related documentation strategies. Expiring soon!	1 hour	1096046	2/26/2024
Home Visit as a Suicide Prevention Strategy	This recorded, knowledge-based webinar will inform attendees and health care teams about the research done on home visits that led recommendations in the Clinical Practice Guideline for the Assessment and Management of Patients at Risk for Suicide. This training will also describe a clinical program called the	1 hour	1096149	3/26/2024

	Home-Based Mental Health Evaluation, or HOME program, which involves a home visit and has been implemented in VA. Expiring soon!			
Clinical Practice Guideline for Suicide Prevention: Suicide Risk Stratification and Documentation	This knowledge-based recording will address risk stratification for the interprofessional health care team who will attend to risk in terms of both severity and temporality. It will also offer related documentation strategies. Expiring soon!	1 hour	1096046	2/26/2024
Home Visit as a Suicide Prevention Strategy	This recorded, knowledge-based webinar will inform attendees and health care teams about the research done on home visits that led recommendations in the Clinical Practice Guideline for the Assessment and Management of Patients at Risk for Suicide. This training will also describe a clinical program called the Home-Based Mental Health Evaluation, or HOME program, which involves a home visit and has been implemented in VA. Expiring soon!	1 hour	1096149	3/26/2024
Ketamine and Esketamine Treatment: Implications for VA Suicide Prevention Recording	This recorded, knowledge-based webinar will review the evidence supporting use of Ketamine and Esketamine in patients with suicidal ideation and major depressive disorder. Expiring soon!	1 hour	1095893	2/2/2024
Clinical Practice Guideline for Suicide Prevention: Status of VA Ketamine and Esketamine Services	The U.S. Department of Veterans Affairs (VA), Office of Mental Health and Suicide Prevention (OMHSP), will host monthly training webinars to educate VA field employees on how to implement the components of the organization's public health approach to suicide prevention.	1 hour	1095268	9/28/2026
Firearm Acquisition and Ownership: Decision-Making Within the Context of Injury Risk	The purpose of this recorded, knowledge-based program is to discuss the obstacles that hinder the adoption of safety recommendations in order to provide better Veteran care. It will offer and improved understanding of the reasons individuals own and use firearms, and how they make decisions about injury risk.	1 hour	1113222	9/29/2026
Safe Storage Options for Your Firearms	This video will provide education on the safe storage options for firearms.	1 hour	1104942	5/31/2025
Partnering With Firearm Retailers to Promote Temporary Out-of-Home Firearm Storage	This recorded, knowledge-based webinar describes preliminary findings from The Armory Project, a VA-community partnership with three firearm retailers to promote lethal means safety messaging and temporary storage options for suicide prevention.	1 hour	1102797	4/1/2025

GRAND ROUNDS

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Amputation Grand Rounds: Beyond the Ordinary — Complex Upper Limb Loss Cases	This recorded, knowledge-based webinar will inform the attendees of various approaches employed to manage the issues of patients with complex upper limb loss.	1 hour	1114985	12/6/2026
Amputation Grand Rounds: Neural-Enabled Prostheses for Sensory Restoration Insert	The purpose of this recorded knowledge-based webinar is to cover knowledge about systems and methods to offer sensory restoration of touch and grasp to individuals with upper-limb amputation.	1 hour	1112013	8/7/2026
Amputation Grand Rounds: Regenerative Peripheral Nerve Interfaces for the Treatment and Prevention of Painful Neuromas in Major Limb Amputees	This recorded training offers insight into how painful neuromas in the amputee population are diagnosed and treated at both the Ann Arbor VA and the University of Michigan. It will also describe a novel surgical strategy, regenerative peripheral nerve interface, that seeks to both reduce chronic neuroma pain in existing lower extremity amputees and prevent neuroma development in patients undergoing new amputations.	1 hour	1110960	6/6/2026
Amputation Grand Rounds: The Utah Bionic Leg	The purpose of this recorded presentation is to introduce clinicians and inter-professional health care teams to the Utah Bionic Leg. This lightweight robotic leg prosthesis replicates the key biomechanical functions of the knee, ankle and toe. The presenters will review the design and development process, as well as the preclinical testing with individuals with above-knee amputations.	1 hour	1109611	4/5/2026
Amputation Grand Rounds: How Limb Loss Affects Heart and Lung Function	During this recorded, knowledge-based webinar, interdisciplinary health care teams will explore how lower limb loss affects heart function and how very proximal limb loss affects breathing capacity. This will enable providers to help patients and their families formulate reasonable expectations surrounding prosthetic candidacy and outcomes.	1 hour	1108259	2/15/2026
Amputation Grand Rounds: The Psychological Impact of Amputation: What Rehabilitation Providers Should Know	During this recorded, knowledge-based webinar, factors associated with significant emotional distress and poor psychological functioning among amputees will be presented. This presentation will encourage the early identification of psychosocial contributors to adjustment to	1 hour	1106324	10/9/2025

	amputation and provide education about appropriate ways to intervene from an interdisciplinary care team perspective.			
Amputation Grand Rounds: Prosthesis and Rehabilitation Considerations for K2 Ambulators	The purpose of this recorded, knowledge-based training session is to discuss prosthetic and rehabilitation considerations in people with lower limb amputation who are in Medicare functional classification level 2.	1 hour	1105362	8/16/2025
Amputation Grand Rounds: Dermatologic Surgery Interventions for People With Limb Loss: Use of Lasers and Botulinum Toxin in the Treatment of Scarring, Sweating and Folliculitis	This live, knowledge-based webinar will discuss various treatment techniques used by dermatology to address integumentary issues experienced by individuals living with limb loss. Health care teams will have the opportunity to review laser technologies, the use of botulinum toxins and other specialized treatments for scars to enhance the prosthesis-wearing experience.	1 hour	1104495	6/14/2025
Amputation Grand Rounds: Innovations in Prosthetic Limb Control: The Ewing Procedure	This recorded education session is designed to provide clinicians with enhanced awareness and knowledge related to innovations in prosthetic limb control, including the Ewing procedure.	1 hour	1103178	4/11/2025
Amputation Grand Rounds: Impairments, Pain and Performance in Upper Extremity	The purpose of this recorded, knowledge-based education session is to provide health care teams with enhanced knowledge and skills to manage Veterans with upper extremity amputation. It will facilitate dissemination and understanding of recent research studies. Participants will specifically review the results of a large, multi-center research study of people with major upper limb amputation and who use prostheses.	1 hour	1100735	10/10/2024
Amputation Grand Rounds: Latest Advances and New Strategies in Amputation Prevention	The purpose of this recorded, knowledge-based education session is to provide health care teams with specific knowledge and skills to enhance amputation prevention through better understanding of new strategies and latest advances in amputation protocols and technology.	1 hour	1099564	8/26/2024
Amputation Grand Rounds: Gait Changes Following Lower Limb Amputation	This recorded, knowledge-based training is designed to provide health care teams with an overview of changes in gait following lower limb loss. At the conclusion of the session, it is expected that participants will obtain an understanding of current evidence describing changes in	1 hour	1097303	5/12/2024

GRAND ROUNDS

Personal Protective Equipment Powered Air Purifying Respirator and N95 Donning and Doffing	This interactive training experience will demonstrate the procedures for personal protective equipment (PPE) powered air purifying respirator (PAPR) and N95 donning and doffing according to PPE PAPR Center for Disease Control guidelines and VHA standard operating procedures.	2.5 hours	1104873	5/27/2025

PHARMACY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Pharmacy Technician: Introduction to Pharmacy:	This course will identify the appropriate pharmaceutical terms and definitions; apply terms to scenarios; and assist in	1 hour	1102528	2/9/2026

Medical and Pharmaceutical	selecting the advantage and disadvantage of a given formulary type, as well as the reasons and implications for having a formulary.			
Pharmacy Technician: Introduction to Compounding and Measuring	This course will assist participants in selecting terminology, descriptions, definitions, uses and procedures required for application in pharmacy small compounding, measuring and bulk compounding.	1 hour	1101908	1/5/2026
Pharmacy Technician: Calculations Percentage Preparations	This course will teach participants to calculate the percentage strength of a product when the amount of active ingredient and total amount of preparation are known.	1.5 hours	1101910	2/15/2026
Pharmacy Technician: Calculations Ratio and Proportions	This knowledge-based web course is designed to develop a common understanding of standards involving conversion or ratio and proportions specific to pharmacy technician roles and responsibilities.	2 hours	1101911	2/15/2026
Pharmacy Technician: Introduction to Calculations	This knowledge-based web course is designed to develop a common understanding of standards involving calculations. The course will assist participants to perform addition, subtraction, multiplication and division of whole numbers, mixed numbers, fractions and decimals with 100% accuracy.	2 hours	1101912	1/25/2026
Pharmacy Technician: Calculations Conversion and Metric	This course will teach participants how to convert between the various denominations of each of the basic units of the metric system given measures of weight and/or volume.	2 hours	1101898	1/5/2026
Pharmacy Technician: Calculations Specific Gravity	This course will provide information on how to solve for the missing variable given any two values of weight, specific gravity or volume, and provide information on how to calculate the amounts of ingredients required in a preparation involving specific gravity.	1 hour	1101999	1/31/2026
Pharmacy Technician: Pharmaceutical Calculations Dilutions	This course will provide information on mathematical problem-solving involving dilution of stock preparations and performing the mathematical steps to solve the correct answers.	4 hours	1102001	1/31/2026
Pharmacy Technician: Calculations Alligations	This knowledge-based web course is designed to develop a common understanding the mathematical problems involving the alligations method specific to pharmacy technician roles and responsibilities.	3 hours	1102000	1/31/2026

Pharmacy Technician: Pharmaceutical Dosage Calculations	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving dosage calculations specific to pharmacy technician roles and responsibilities.	2 hours	1102005	1/31/2026
Pharmacy Technician: Pharmaceutical Calculations Measurement Systems	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving Roman numerals, Arabic numerals and conversion systems specific to pharmacy technician roles and responsibilities.	1.5 hours	1102003	1/31/2026
Pharmacy Technician: Calculations Milliequivalents	This knowledge-based web course is designed to develop a common understanding of calculations milliequivalents specific to pharmacy technician roles and responsibilities.	2 hours	1102059	1/31/2026
Pharmacy Technician: Calculations Reduction and Enlargement Formulation	This knowledge-based web course is designed to develop a common understanding of calculations reduction and enlargement formulas specific to pharmacy technician roles and responsibilities.	4 hours	1102058	1/31/2026
Pharmacy Technician: Calculations Sterile Preparation Dosage	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving sterile preparation dosages specific to pharmacy technician roles and responsibilities.	2.5 hours	1102060	1/31/2026
Pharmacy Technician: Oncology	This knowledge-based web course is designed to familiarize learners with the many different types of cancers, the causes and the variety of treatments available specific to pharmacy technician roles and responsibilities.	2 hours	1102472	2/16/2026
Pharmacy Technician: Immune System	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the immune system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	2 hours	1102473	2/16/2026
Pharmacy Technician: Eyes and Ears	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the eyes and ears, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	1.5 hours	1102474	2/16/2026
Pharmacy Technician: Infectious Disease	This knowledge-based web course is designed to familiarize learners with terminology, characteristics and principles associated with infectious diseases specific	3 hours	1102475	2/16/2026

	to pharmacy technician roles and responsibilities.			
Pharmacy Technician: Complementary and Alternative Medicines	This knowledge-based web course is designed to familiarize learners with alternative, natural and complementary medicines. They will learn about various definitions, dietary supplements, credible sources of information, and the potential benefits and risks associated with non-traditional medicines specific to pharmacy technician roles and responsibilities.	1.5 hours	1102476	2/16/2026
Pharmacy Technician: Introduction to Therapeutics	This knowledge-based web course will assist learners to recognize basic concepts and terms (anatomy, physiology and pharmacology) as they apply to pharmacy practice, and identify organ systems and their components, including cells, organelles and fluid movement.	2.5 hours	1102477	2/16/2026
Pharmacy Technician: Therapeutics Dermatologic System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the dermatologic system, as well as associated diseases and disorders.	1 hour	1102478	2/16/2026
Pharmacy Technician: Therapeutics Gastrointestinal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the gastrointestinal system, as well as associated diseases and disorders.	1 hour	1102480	2/16/2026
Pharmacy Technician: Therapeutics Cardiovascular System	This knowledge-based web course will identify basic anatomy and physiology of the cardiovascular system, as well as diseases and disorders of the cardiovascular system.	1.5 hours	1102484	2/1/2026
Pharmacy Technician: Therapeutics Central Nervous System	This knowledge-based web course will identify basic anatomy and physiology of the central nervous system, as well as diseases and disorders of the central nervous system.	2 hours	1102485	2/16/2026
Pharmacy Technician: Therapeutics Peripheral System	This knowledge-based web course will identify basic anatomy and physiology of the peripheral system, as well as diseases and disorders of the peripheral system.	1 hour	1102486	2/16/2026
Pharmacy Technician: Therapeutics Respiratory System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the respiratory system, as well as associated diseases and disorders of the respiratory system.	2 hours	1102520	2/16/2026

Pharmacy Technician: Therapeutics Musculoskeletal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the musculoskeletal system, as well as associated diseases and disorders of the musculoskeletal system.	2 hours	1102521	2/1/2026
Pharmacy Technician: Therapeutics Renal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the renal system, as well as associated diseases and disorders of the renal system.	2 hours	1102522	2/16/2026
Pharmacy Technician: Introduction to Pharmacy Roles and Responsibilities	This course will assist learners in selecting a timeline that accurately depicts the evolution of the role of the pharmacy technician; identifying responsibilities that belong to the pharmacy technician; and selecting ethical standards of conduct applicable to the pharmacy technician.	1 hour	1102525	2/3/2026
Pharmacy Technician: References and Drug Information	This course will identify the reasons to conduct drug information research and appropriate references for researching relevant information, given a particular drug and patient information.	1 hour	1102526	2/8/2026
Pharmacy Technician: Cause and Prevention of Medication Error	This knowledge-based web course is designed to develop a common understanding of medication errors; the outcome; procedures to prevent errors; response to errors; and why errors should be reported specific to pharmacy technician roles and responsibilities.	1 hour	1102523	1/13/2026
Pharmacy Technician: Introduction to Pharmacy Prescription Interpretation	This knowledge-based web course is designed to develop a common understanding of interpretation information on an outpatient prescription for dispensing, specific to pharmacy technician roles and responsibilities.	2 hours	1102524	2/3/2026
Pharmacy Technician: Therapeutics Nervous System Overview	This knowledge-based web course is designed to develop a common understanding of how the nervous system regulates how one breathes, thinks, eats and causes one to be happy or sad. This training is specific to pharmacy technician roles and responsibilities.	2 hours	1102530	2/15/2026
Pharmacy Technician: Therapeutics Endocrine System	This knowledge-based web course is designed to cover the basic anatomy and physiology of the endocrine system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	3 hours	1102531	2/15/2026
Pharmacy Technician: Reproductive System	This knowledge-based web course is designed to cover the basic anatomy and physiology of the reproductive system, as well as associated diseases and disorders	1.5 hours	1102532	2/15/2026

	specific to pharmacy technician roles and responsibilities.			
Pharmacy Technician: Pharmaceutical Therapeutics Toxicology	This knowledge-based web course is designed to cover the methods of treatment and specific antidotes for selected poisons specific to pharmacy technician roles and responsibilities.	1 hour	1102554	2/16/2026
Pharmacy Technician: Hematologic System	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the hematologic system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.		1102555	2/16/2026

WOMEN'S HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Trauma and Complex Trauma Among Service Members and Women Veterans	This recorded, knowledge-based virtual training for health care teams is intended to increase mental health providers' knowledge of assessing and treating the effects of traumatic stress exposure among women service members and Veterans. The specific focus is to describe traumatic stress exposures common among women Veterans and service members, frequently observed symptom presentations associated with these types of traumatic stress exposures and best practice treatment options for associated mental health conditions.	1 hour	1103377	3/28/2025
Women's Mental Health Across the Lifespan	This recorded, knowledge-based virtual training will provide an overview of women-specific influences on mental health throughout the lifespan, from in utero influences through adolescence, pregnancy, the postpartum period, the transition to menopause and aging.	1 hour	1103217	3/28/2025
Trauma-Informed Care and Women Veterans	This course will raise clinician's awareness of how women Veterans may benefit from the adoption of a trauma-informed approach to caring for women.	1 hour	1099292	7/26/2024

OTHER

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

Cognitive Processing Therapy for Diverse Populations	This recorded, knowledge-based webinar will discuss one of the evidence-based psychotherapies for PTSD, cognitive processing therapy, and will review the research conducted adapting this psychotherapy for various diverse patient populations, both within and outside of the United States.	1 hour	1116145	12/29/2026
Challenging Barriers to Safety Planning: Considering Context and Clinical Complexity	This recorded, knowledge-based webinar will inform inter-professional health care teams about current research solicitation and funding processes in VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115457	12/23/2026
The Role of Relationships in Risk for Directed Violence	This recorded, knowledge-based training virtual presentation for health care teams will discuss the impact that committed romantic relationships can have on a Veteran's self-harm based on recent research. Attendees will have the opportunity to discuss how to incorporate these insights into care of Veterans.	1 hour	1115720	12/28/2026
Updates on Dementia: Biomarkers, Clinical Use	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up-to-date on changes to the clinical use of biomarkers and how they translate into care and diagnosis.	1 hour	1112334	8/13/2026
Updates on Dementia: Alzheimer Medications	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up to date on changes in dementia and how they translate into care and diagnosis.	1 hour	1112327	8/13/2026
Computerized Patient Record System Tab by Tab: A Basic Orientation	This training covers the basic aspects of using the VA Computerized Patient Record System (CPRS). Learners will experience each tab of the CPRS, basic operations and how they can customize settings to make more efficient use of the system. It will equip the new employee with the skills necessary to navigate the electronic health record and provide existing employees ongoing training and job aids they can use to build their CPRS skills while working in their professional capacity. Expiring soon!	1 hour	1111362	2/10/2024
Introduction to VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus	This recorded, knowledge-based program will educate health care team members on key principles of the VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus. It will equip	1 hour	1112622	8/29/2026

	learners with relevant information needed for managing patients with diabetes and prediabetes based on current therapeutic guidelines, best practices and clinical evidence.			
Certified Diabetes Care and Education Specialist Certification Preparation Program: Comprehensive Medical Evaluation and Assessment of Comorbidities and Glycemic Targets	The purpose of this comprehensive, knowledge-based program is to provide clinicians with advanced education and training on diabetes management and to prepare health care professionals to pass the diabetes care and education specialist certification exam or the board certified advanced diabetes management exam. This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover comprehensive medical evaluation and assessment of comorbidities, as well as glycemic targets.	1 hour	1110625	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Pharmacologic Approaches to Glycemic Treatment	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover pharmacologic approaches to glycemic treatment.	1.5 hours	1110660	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Children and Adolescents	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetic care for children and adolescents.	1.5 hours	1110665	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Facilitating Behavior Change and Managing Diabetes in Pregnancy	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss facilitating behavior change and managing diabetes in pregnancy.	1.5 hours	1110661	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Prevention or Delay of Type 2 Diabetes and Associated Comorbidities	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover prevention or delay of type 2 diabetes and associated comorbidities, as well as obesity and weight management for the prevention and treatment of type 2 diabetes.	1 hour	1110662	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Cardiovascular Disease and Chronic Kidney Disease	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss cardiovascular disease and chronic kidney disease.	1 hour	1110663	5/5/2026

Certified Diabetes Care and Education Specialist Certification Preparation Program: Retinopathy, Neuropathy and Foot Care	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss retinopathy, neuropathy and foot care.	1 hour	1110666	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Technology	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss the role of technology in diabetic care.	2 hours	1110670	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Advocacy and Care in Hospital	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetes advocacy and care in hospitals.	1 hour	1110676	5/5/2026
Diabetes Champion Hypoglycemia Patient-Centered Strategies	The purpose of this knowledge-based webinar is to provide new information on the nutrition care process and clinical recommendations for hypoglycemia risk mitigation.	1.5 hours	1110672	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Improving Care and Promoting Health in Populations and Older Adults	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover improving care and promoting health in populations and older adults.	1.5 hours	1110900	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Overview of Becoming a Certified Diabetes Care and Education Specialist and Classification/Diagnosis of Diabetes	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will give an overview on becoming a certified diabetes care and education specialist and also classification/diagnosis of diabetes.	1 hour	1110904	5/5/2026
Exploring Grief, Loss and Meaning in Black, Indigenous and People of Color Veterans	This recorded webinar will provide information to help explore the impact of historical trauma on contemporary grief and loss recovery.	1 hour	1108935	2/27/2026
Supporting Staff During Challenging Times	This recorded webinar will address the understanding of the impact of stressful life events on staff. It will discuss strategies leaders can take to support staff in the face of both acute and ongoing stressors.	1 hour	1107559	12/29/2025
Disability Medical Assessment: Neurology Including Peripheral Nerves Examination	The purpose of this web-based training course is to provide an overview of the nerve/neurology disability examination. It will address a knowledge gap by providing updated information, including procedures and a demonstration regarding how to prepare for, conduct and properly	1 hour	1064759	1/27/2026

	document a thorough and legally defensible diabetes disability examination.			
Disability Medical Assessment: Military Sexual Trauma and the Disability Examination Process – Update 2022	This training provides an overview of the compensation and pension (C&P) military sexual trauma (MST) and the disability examination process for interdisciplinary teams. This training will provide updated information, including procedures to prepare for, conduct and properly document a C&P MST examination sufficient for adjudication purposes.	1 hour	1107533	12/19/2025
Chronic Pain Education for Health Care Providers: Care of the Complex Patient	Chronic pain is a significant clinical challenge for both patients and providers. In this course, participants will learn how to break the “iatrogenic cycle” of complex chronic pain; conduct a comprehensive biopsychosocial evaluation; respond helpfully during difficult clinical interactions; prescribe/taper opioids consistent with current guidelines; and help patients become an active partner in their own pain care.	1 hour	1106794	10/31/2025
Improving Medication Prescription Practices Utilizing VIONE Medication Deprescribing Tool	The purpose of this recorded, knowledge-based webinar is to provide a formal update to providers and health care teams on the topic of improving medication prescribing practices using the vital, important, optional, not indicated, every medication has a reason, or VIONE, deprescribing tool.	1 hour	1105856	9/30/2025
Strategies for Conceptualizing and Intervening on Therapy Interfering Behaviors	This recorded, knowledge-based webinar will identify and describe strategies for identifying and conceptualizing potential therapy interfering behaviors (TIBs). Approaches to intervening on these TIBs will be discussed with specific strategies explored to target specific TIBs.	1 hour	1105829	9/20/2025
Enduring Dementia: Enhancing Care for Veterans Experiencing Dementia	The purpose of this recorded, knowledge-based training series is to provide health care teams with adequate knowledge and/or skills to appropriately manage common geriatric conditions and syndromes in older Veterans. This recorded session focuses on reviewing pertinent elements of the cognitive assessment and current available treatments for cognitive impairment.	1 hour	1109699	4/24/2026
Updates on Dementia: Complex Care	The purpose of this recorded, knowledge-based webinar is to keep clinicians up-to-date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health	1.5 hours	1105391	7/31/2025

	care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations.			
Updates on Dementia: Novel Therapies for Dementia	This course provides clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations.	1 hour	1105393	7/31/2025
Updates on Dementia: Bold Act	The purpose of this recorded, knowledge-based webinar is to keep clinicians up to date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations. This session will discuss the Bold Act.	1 hour	1105395	7/31/2025
Yoga and Meditation for Veterans' Healing, Health and Well-Being	This recorded, knowledge-based presentation will describe the clinical yoga program at VA Palo Alto, and some of the research conducted into yoga at Palo Alto demonstrating the benefits of yoga for Veteran health. This course will increase provider knowledge and introduce implementation of clinical best practices.	1 hour	1103852	6/9/2025
Introduction to the Updated VA/DOD Clinical Practice Guideline: The Diagnosis and Treatment of Low Back Pain	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who suffer from low back pain.	1 hour	1104025	6/6/2025
Sports and Arts – TetraWatercraft: Control Everything With Anything	This education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive disabilities opportunities for recreation, fitness and sports. It will discuss independence and performance on the water with the world's only hybrid adaptive watercraft for kayaking and sailing.	1 hour	1104151	1/16/2025
9th Annual Advance Practice Provider Symposium	This recorded, knowledge-based symposium is an educational opportunity provided by a partnership with VA and the Duke University School of Nursing. During the COVID-19 pandemic, there has been limited opportunities for providers to attend educational conferences. The goal of the knowledge-based educational symposium is to enhance health care	7.5 hours	1103088	3/14/2025

	teams' clinical practice with up-to-date, evidence-based education that affects current clinical practices across the country.			
Sports and Arts – Out on a Limb: Adaptive Sports Recommendations for Athletes With a Prosthesis	This recorded education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive disabilities opportunities for recreation, fitness and sports. With these skills, clinicians can implement recreation as part of Veterans rehabilitation to improve function, independence and getting them active in their home communities in sport and fitness.	1 hour	1103056	3/20/2025
Sports and Arts – Sit Down and Stand Out! Adaptive Equipment Recommendations for Seated Athletes	This recorded education program is designed to provide clinicians with the knowledge and skills needed to provide individuals with physical and cognitive disabilities opportunities for recreation, fitness and sports. With these skills, clinicians can implement recreation as part of Veterans rehabilitation to improve function, independence and getting them active in their home communities in sport and fitness.	1 hour	1103057	3/20/2025
Environmental Health Registry Telehealth Services: Introductory	This recorded training offers health care teams formal training on telehealth or video-connect. It will help users to fully appreciate that this technology is going to grow in usage and continue to be recommended.	1 hour	1101010	7/26/2024
Empowerment Safety Planning	The purpose of this recorded, knowledge-based training is to discuss the clinical utility of prevention safety planning and the added relevance of acceptance and commitment therapy (ACT), a contextual behavioral approach for suicide prevention. This program will specifically describe how an ACT approach can inform steps, used by health care teams, in the safety planning process when it comes to understanding the emotions and values of high-risk patients.	1 hour	1100647	11/5/2024
Introduction to VA/DOD Clinical Practice Guideline for the Management of Headaches	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with headaches based on current therapeutic guidelines, best practices and clinical evidence, and then have the learner apply the knowledge to clinical practice management.	1 hour	1115985	1/9/2027

Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Oral Facial Pain	This recorded, knowledge-based webinar will provide a review of the most common presentations of facial pain syndromes that are likely to be encountered by multiple medical disciplines.	1 hour	1107741	1/10/2026
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cluster Headache	This webinar will provide case-based reviews for cluster headaches. It will present various treatment options for cluster headache and will help increase knowledge among clinicians in the field related to cluster headaches.	1 hour	1107749	12/26/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Apnea and Sleep Disturbance Management in Headache	This recorded, knowledge-based webinar will start with a review of important headache-related lifestyle factors and sleep disturbance management in headache. Participants will learn to recognize headache types and to apply multiple, evidence-based modalities for evaluation and management of headache.	1 hour	1107062	11/29/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Secondary Headaches	This recorded, knowledge-based activity will start with discussion of important secondary headache-related lifestyle factors and a review of general diagnostic criteria for secondary headache. This will be followed by case-based reviews, where inter-professional health care teams will learn to recognize secondary headache and to apply multiple, evidence-based modalities for evaluation and management.	1 hour	1106389	10/10/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Migraine and Medication Overuse Headache Management	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting.	1 hour	1105636	8/31/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cervicogenic and Tension Headache Management	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary	1 hour	1104613	6/28/2025

	and secondary headache disorders encountered in the primary care setting.			
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Review of Women With Headache Disorders	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1103745	5/1/2025
Headache Evaluation and Management for Primary Care Webinar Series: Migraine Pathophysiology	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders to be encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1103231	4/26/2025
Headache Evaluation and Management for Primary Care Webinar Series: Neuropharmacology of Headache	This recorded, knowledge-based webinar followed by discussion and post-learning questions will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1103003	4/4/2025
Headache Evaluation and Management for Primary Care Webinar Series: Lifestyle Management in Headache	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headaches.	1 hour	1102470	3/1/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case Studies and Mixed Headaches	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based	1 hour	1101768	12/30/2024

	modalities for evaluation and management of headaches.			
Headache Evaluation and Management for Primary Care Webinar Series	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1101493	12/5/2024
Headache Evaluation and Management for Primary Care Webinar Series	This recorded, knowledge-based webinar—followed by discussion and post-learning questions—will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1100899	10/25/2024
Empowering Veterans Through Crisis Response Planning and the Safety Planning Intervention	This recorded, knowledge-based webinar training will discuss how advanced training improves provider competency and the quality of safety plans, which impacts Veteran outcomes by reducing suicide behaviors.	1 hour	1100475	10/15/2024
Multi-symptom Illness	This recorded, knowledge-based training will educate members of the health care team on key principles of the 2021 VA/DOD clinical practice guidelines and the management of chronic multi-symptom illness (CMI), a diverse set of disorders, including, but not limited to, chronic fatigue syndrome, fibromyalgia syndrome and irritable bowel syndrome. CMI encompasses military-specific medically unexplained illnesses, such as Gulf War illness, Gulf War syndrome or post-deployment syndrome.	1 hour	1100646	10/13/2024
Emergency Department Care Plans	The VA Office of Mental Health and Suicide Prevention hosts monthly training webinars to educate employees on how to implement the components of the organization's public health approach to suicide prevention. This recorded session will cover emergency department care plans.	1 hour	1100216	9/24/2024
Complementary and Integrative Health: Partnering With VHA	This recorded, knowledge-based webinar is intended for non-VA providers to better understand how to best work with the VA	1 hour	1100108	9/24/2024

	for seamless patient care. Policy, workflows and promising practices for care coordination will be covered.			
Introduction to Updated VA-DOD Clinical Practice Guideline: Management of Chronic Obstructive Pulmonary Disease	This recorded, knowledge-based training will provide important information to members of health care teams about managing patients with chronic obstructive pulmonary disease (COPD). Listening to the webinar will assist them to deliver high-quality, evidence-based care to patients with COPD.	1 hour	1100282	9/10/2024
VHA Guided Imagery Foundation Course: Introduction to Guided Imagery	The goal of this course is to ensure that health care team providers have the knowledge and skills necessary for optimal delivery of health care services for Veterans with guided imagery needs.	1.75 hours	1100133	8/29/2024
Perspectives on Firearm-Related Conversations in Clinical Settings	This knowledge-based webinar training will provide a synthesis of current knowledge related to perspectives on conducting firearm-related conversations in clinical spaces. This presentation may be informative for clinicians, administrators and other stakeholders aiming to promote lethal means conversations among at-risk patients.	1 hour	1099674	8/20/2024
Clinical Practice Guidelines: World Health Organization Brief Intervention and Contact Program VA Adaptations	This recorded training will describe the World Health Organization Brief Intervention and Contact Program (WHO BIC) intervention. The presentation will include a discussion of findings from individual trials of the WHO BIC program. In addition, preliminary work will be shared that has been conducted in VA to understand the applicability of WHO BIC to the Veteran population.	1 hour	1098942	7/15/2024
Oral Care in State Veterans Homes	This training introduces a toolkit for implementation of an oral care program in the nursing home setting to prevent pneumonia as an inpatient complication. Expiring soon!	1 hour	1098010	2/1/2024
Headache Evaluation and Management for Primary Care Webinar Series	This recorded, knowledge-based webinar followed by discussion and post-learning questions will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1099871	8/30/2024

Headache Evaluation and Management for Primary Care Webinar Series	In this recorded, knowledge-based training, attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache. This course aims to reduce the gap in knowledge of headaches and treatment for Veterans among health care teams.	1 hour	1099290	8/1/2024
Headache Evaluation and Management for Primary Care	This recorded, knowledge-based webinar will review, in order of clinical prevalence, the most common primary and secondary headache disorders to be encountered in the primary care setting. Attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache.	1 hour	1098380	5/27/2024
Pharmaceutical Prime Vendor Creating and Submitting an Order	The purpose of this module is to inform, educate and provide specific training on procurement and regulatory requirements to procure medications and medical supplies for VA pharmacy staff. It will give staff the tools and understanding to order specialty pharmaceuticals, plasma and biologics, and ensure the correct fiscal account is used for adherence to the contract.	1 hour	1094927	6/2/2024
Receiving a Pharmaceutical Prime Vendor Order	This training provides the step-by-step process to receive a pharmaceutical order from the prime vendor. Requirements and the actions will be explained. This training is important to all new procurement pharmacy staff as it provides the specific knowledge needed for completing the final steps of receiving pharmaceuticals. Expiring soon!	1 hour	1097511	3/5/2024
Standardized Episodes of Care and Request for Services Overview	The purpose of this recorded, knowledge-based training is to provide community providers an overview of the VA standardized episodes of care (SEOC) and request for services processes. Additionally, community providers and health care teams will learn about the precertification process, their roles and responsibilities, and additional resources and tools to support the referral process. Participants will learn what a SEOC is and will understand its purpose and how it relates to payments.	1 hour	1097260	4/12/2024
Agent Orange: What You Need to Know	This recorded, knowledge-based webinar will offer clinicians a better understanding of how Agent Orange affects Veteran well-being. It will assist learners in knowing	1 hour	1096687	3/15/2024

	which health conditions to screen for and make recommendations to improve overall health outcomes. Expiring soon!			
Digital Delivery of Treatment Protocols	This recorded, knowledge-based webinar will inform viewers and health care teams through discussion on the current state of the science, and will present VHA digital resources with the goal of increasing their use.	1 hour	1096756	4/1/2024
Intro to Updated VA/DOD CPG: The Management of Dyslipidemia for Cardiovascular Risk Reduction	This recorded, knowledge-based webinar will provide important information to members of the health care teams about managing patients with dyslipidemia. Listening to the webinar will assist them to deliver high-quality, evidence-based care to patients to patients with dyslipidemia. Expiring soon!	1 hour	1096688	3/22/2024
Introduction to the New VA/DOD Clinical Practice Guideline: The Non-Surgical Management of Hip and Knee Osteoarthritis	This recorded, knowledge-based virtual training will provide important information to members of the health care teams about managing patients who suffer from osteoarthritis (OA). Expiring soon!	1 hour	1096504	3/3/2024
Amputation System of Care Series March 2024: Amputation Prevention – Latest Research and PAVE Program Initiatives	This live, knowledge-based webinar will provide attendees with an update on the latest research findings, clinical guidelines and Prevention of Amputation in Veterans Everywhere, or PAVE, initiatives so they will be able to better implement new strategies in the clinical setting to improve Veteran outcomes. Expiring soon!	1 hour	1116255	Live event to be held March 19 only
Amputation System of Care Education Series: The Veteran Perspective: Effective Utilization of Veteran Feedback to Improve the Clinic Experience	This live, knowledge-based webinar will enhance the knowledge and skills of VHA clinical providers working in amputation specialty clinics regarding Veteran experience data and resources for the enhancement of clinical care and Veteran outcomes. Expiring soon!	1 hour	1115951	Live event to be held Feb. 20 only
Amputation Skills Training: Introduction to and Overview of the Amputee Coalition	This recorded webinar presentation will educate clinicians on the mission and vision of the amputee coalition. The presentation will give participants an overview of the amputee coalition, explain how to obtain resources and introduce the clinician to the National Limb Loss Amputee Coalition website.	1 hour	1114586	11/1/2026
Amputation Skills Training: A Multidisciplinary Approach to Treating Veterans With Multiple Limb Amputations	This recorded presentation will provide education and skills training to the clinicians of the interdisciplinary team in care of the individual with multiple limb loss using a case study approach with videos and photos; provide the clinicians of the interdisciplinary amputation clinic	1 hour	1110491	5/5/2026

	lessons learned from challenging cases related to caring for Veterans with conflict-related multiple limb amputees; and provide skills in evaluation, assessment, prescription and rehabilitation treatment most effective in caring for this population of conflict related multiple limb amputees.			
Amputation Skills Training: Keeping Patients off the Floor: Addressing Fall Prevention After Limb Loss	The purpose of this live, knowledge-based webinar is to address fall prevention associated with limb loss. During the training, inter-professional health care teams will review factors contributing to falls in the early post-amputation phase and for the ambulatory prosthetic user.	1 hour	1108674	3/2/2026
Amputation Skills Training: You Can't Improve What You Don't Measure: A FLOW3 Story	This recorded, knowledge-based training will focus on the nuances of the FLOW3 system, conceived at the Seattle VA medical center and collaboratively developed with the Orthotics and Prosthetics Program Office in VA Central Office. There will be real-time presentation of the system to demonstrate how inter-professional health care teams should be integrating use of the system into their clinical practice.	1 hour	1107941	1/26/2026
2024 Amputation System of Care Education Series: How to Turn a Great Idea Into a Scientific Research Project	This recorded course will describe how research is funded, reviewed and managed in the VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115864	1/2/2027
Amputation Skills Training: Key Takeaways From the Updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation	This recorded, knowledge-based education session is designed to provide health care teams with enhanced knowledge regarding the recently updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation.	1 hour	1105732	9/11/2025
Amputation Skills Training: Prosthetic Knees – Clinical Selection	During this recorded, knowledge-based webinar, health care teams will be provided with an overview of prosthetic knee options and key features to optimize various phases of rehabilitation and activity levels for patients with knee disarticulations, transfemoral and hip disarticulation amputations.	1 hour	1104831	7/11/2025
Amputation Skills Training: Optimizing Service Delivery and the Patient Experience for Veterans With Limb Loss	This recorded, knowledge-based will address common myths that exist in relation to amputation and prosthetic limb care to enhance both the quality and consistency of amputation care. It will also address the importance of collaboration	1 hour	1106686	11/2/2025

	across services to optimize the Veteran experience and outcomes.			
Amputation Skills Training: Post-Operative Management of the Complicated Major Lower Extremity Amputation	This recorded, knowledge-based webinar aims to provide health care teams with strategies for managing foot wounds in the population of Veterans at risk for limb loss. The presenters discuss the challenges in post-op incision healing, including healing and wound care techniques, prevention and managing slow-to-heal or complicated residual limb incision sites, and treating residual limb wounds.	1 hour	1103493	5/26/2025
Amputation Skills Training: Seating and Equipment Considerations for the Veteran Living With Limb Loss	The purpose of this recorded, knowledge-based webinar is to increase the awareness of the continuous need of seating and equipment assessment of Veterans living with limb loss. During this training, health care teams will have the opportunity to review the roles of each clinician on the amputee clinic team in providing seating and equipment assessment.	1 hour	1103004	3/25/2025
Amputation Skills Training: Maximizing Participation in Fitness and Adaptive Sports for the Patient With Limb Loss	This recorded, knowledge-based presentation will focus on the integration of a comprehensive, multidisciplinary evaluation for Veterans with limb loss in an effort of increasing participation and success in fitness and sports endeavors.	1 hour	1101930	2/10/2025
Amputation Skills Training: Rehabilitative and Prosthetic Considerations for Veterans	This recorded session will equip providers with specific skills when dealing with device determination, prosthetic training and troubleshooting.	1 hour	1101396	1101396
Amputation Skills Training: Lower Extremity Residual Limb Care	This recorded, knowledge-based webinar is designed to provide health care teams with specific knowledge and skills to manage the post amputation healing process and ensure residual limbs become optimized for prosthetic wear. At the conclusion, amputee health care team practitioners will have improved their understanding of skin anatomy, the healing process and scarring.	1 hour	1100107	9/15/2024
Amputation Skills Training: Prosthetic Gait Training From Beginning to End	This recorded, knowledge-based presentation is to provide health care teams with education and resources to implement prosthetic gait training with their patients. Participants will review how to develop and instruct the patients in a treatment plan, which includes progressive exercises for a patient with newly acquired limb loss.	1 hour	1097792	5/23/2024

Amputation Skills Training: Improving Interdisciplinary Gait Deviation Assessment	This recorded, knowledge-based presentation will provide health care teams with an overview of gait deviations commonly exhibited by lower limb prosthetic users, as well as the tools to differentiate between potential root causes.	1 hour	1098964	7/13/2024
VA Pharmacy Procurement: Wall-to-Wall Inventory	This module will provide pharmacy procurement staff the understanding of the wall-to-wall inventory, including preparation; completion; reports; review and analysis; as well as submission and editing of data.	1 hour	1094928	8/14/2026
VA Pharmacy Procurement B09 Reconciliation Training - Pharmacist	This module will provide VA pharmacy procurement staff the understanding of the B09 Reconciliation, including preparation, completion, reports, review and analysis as well as submission of data.	1 hour	1094926	8/30/2026
Lethal Means Safety Training	This virtual knowledge-based presentation will educate VHA mental health providers and health care teams on lethal means safety counseling. Participants will learn about the purpose of lethal means safety counseling, including how to work with Veterans and their friends and family to facilitate lethal means safety during high-risk periods. The training emphasizes Veteran autonomy and teaches clinicians to work collaboratively with Veterans towards solutions that align with each Veteran's values and preferences.	1 hour	1075258	9/29/2026
National Telestroke Program	This training will facilitate successful implementation of a national telestroke program at a facility. The purpose of this training is to support the development of rapid access techniques that decrease Veteran's time for diagnoses and treatment of stroke. Expiring soon!	1 hour	1097300	1/28/2024
War-Related Illness and Injury Study Centers: Team Addressing of Veterans' Military Exposure Concerns	Using registry evaluations as a model, this recorded, knowledge-based webinar will provide training for primary care providers and health care teams on how to integrate and address exposure concerns into their workflows as Step 1 providers, as well as how to work closely with their registry clinicians, other Step 2 providers and the War-Related Injury and Illness Study Centers to ensure seamless stepped care for exposure-related health concerns.	1 hour	1107645	12/29/2025
War Related Illness and Injury Study Center — VA Health Outcomes Military Exposures: Exposure	The purpose of this recorded, knowledge-based webinar is to help providers develop an awareness of the extrinsic contributions	1 hour	1104566	7/7/2025

Concerns and Autoimmune Diseases	to autoimmune disease in order to help them better address Veteran concerns.			
WRIISC-HOME: Individual Longitudinal Exposure Record and Exposure Assessments: Introductory	This recorded, knowledge-based presentation will educate providers and registry clinicians on VA/DOD military occupational and exposure assessments and use of the individual longitudinal exposure record. Updated information will be provided on this VA resource for VA providers and researchers to use when assessing Veteran environmental exposures.	1 hour	1102471	3/1/2025
War Related Illness and Injury Study Center: Southwest Asia Deployment Associated Lung Disease: Diagnostic Challenges	The lack of clarity in terminology, such as "deployment-related lung disease" and "Iraq War lung disease," often leads to confusion among Veterans and providers causing diagnostic challenges. The purpose of this recorded, knowledge-based presentation is to provide information on correct terminology and share best clinical practices providers can implement when treating Veterans.	1 hour	1105581	9/11/2025
Servant Leadership 101	The VA leadership development framework is centered around the principles of servant leadership, grounded in ICARE values, and aligned with the Office of Personnel Management's executive core qualifications. This course will discuss how servant leadership in VA is framed around	1 hour	1100091	7/28/2024

	the following concepts, focus on the mission and personal character; focus on others; and focus on organization results.			
Veterans Integration to Academic Leadership: Fostering a Military Friendly Environment on Campus	The purpose of this webinar series is to provide college and university health care teams with knowledge and resources to help them meet the needs of student Veterans. The goal of this program is to provide training and education on the health and mental health needs of student Veterans and the best practices for meeting those needs. This recorded session will address fostering a military friendly environment on campus.	1 hour	1096689	4/15/2024
First Care Responder Bleeding Control Simulation	This training will address a training gap in the ability of bystanders and first responders to perform immediate and emergent care for a victim suffering from a hemorrhaging injury. The training module uses an immersive approach to demonstrate bleeding control application.	1 hour	1106862	10/31/2025
Tinnitus Clinical Management - Module 1 - Overview of Tinnitus and its Management	This is Module 1 of a series of four online courses describing tinnitus clinical management. Module 1 is appropriate for all health care providers who are interested in learning about tinnitus and what can be done about it.	1 hour	1090587	9/30/2025
Tinnitus Clinical Management – Module 2: Tinnitus Assessment and Basic Care	This is one of four web courses that provide training in tinnitus management. This module describes the basic protocol conducted by audiologists to provide tinnitus care, which is referred to as progressive tinnitus management level 2 audiologic evaluation. This knowledge-based activity reviews tinnitus characteristics from module 1 and steps through a decision-tree protocol for audiologists.	1 hour	1090589	11/30/2025
Tinnitus Clinical Management – Module 3: Clinical Intervention for Tinnitus	This is one of four web courses that provide training in tinnitus management. This module describes progressive tinnitus management (PTM) level 3 skills education that is provided for patients needing care beyond PTM level 2.	1 hour	1090590	11/30/2025
Tinnitus Clinical Management – Module 4: Virtual Practicum for Tinnitus Management	This is one of four web courses that provide training in tinnitus management. This module provides a virtual practicum for tinnitus management.	1 hour	1090591	11/30/2025
