VHA TRAIN Course Catalog: Introduction

[VHA TRAIN](#) is a gateway into TRAIN National, the most comprehensive catalog of public health learning products. TRAIN is one of the most widely used learning management systems and is a free service of the Public Health Foundation. Access VA-approved and sponsored learning on Veteran health topics now! Also, [subscribe to specific topics of interest](#) to receive periodic VHA TRAIN eblasts and other news tailored to your area of interest.

Below is a list of current courses available through VHA TRAIN organized by topic and updated monthly:

MILITARY CULTURE				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
OPIOIDS, ADDICTION, AND PAIN MANAGEMENT				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Coping Skills Group for Substance Use Disorder	This recorded, knowledge-based training will educate inter-professional health care teams about the Coping Skills Group for Substance Use Disorder program, how it was developed, how it is being rolled out and what learners can expect.	1 hour	1125804	1/25/2028
How to Use Naloxone Nasal Spray	Opioid overdoses is a national emergency, and VA is taking the lead in combatting this epidemic. This recorded training will identify opioid overdose symptoms, as well as medication used when an opioid overdose is suspected to have occurred, and will describe the VHA Rapid Naloxone Initiative.	0.5 hour	1092122	4/7/2028
Group Therapy in the Treatment of Substance Use Disorder	The purpose of this recorded, knowledge-based webinar series is to demonstrate how group therapy can be more effective than individual therapy.	1 hour	1124055	10/17/2027
Gambling Disorder Treatment	This recorded, knowledge-based virtual training will educate and increase the skills of all VA providers who treat Veterans with substance use disorder by increasing treatment providers' competencies of evidenced-based screening, assessment and treatment for those struggling with problem gambling.	1 hour	1124419	11/7/2027

National Tobacco Cessation: Changing the Default for Tobacco Treatment to Increase Engagement and Cessation	This recorded, knowledge-based training will present a promising practice model of opt-out care for tobacco treatment.	1 hour	1122117	8/31/2027
Potential Uses of Psychedelics in Substance Use Disorder Care	This recorded, knowledge-based training will provide inter-professional health care teams with a thorough review of research examining the use of psychedelic-assisted psychotherapy for the treatment of substance use disorders, discuss clinical details of protocols and share potential training for providers in this modality.	1 hour	1120731	6/6/2027
Alcohol Use Disorder Pharmacotherapy Outside Substance Use Disorder Specialty Care: Seizing Opportunities and Overcoming Challenges	This recorded, knowledge-based training will provide inter-professional health care teams with information addressing common provider myths related to treatment of alcohol use disorder outside of specialty substance use disorder care. Representatives from primary care, psychiatry, gastroenterology and pharmacy will provide expertise and recommendations for dealing with this high-risk population.	1 hour	1119169	4/10/2027
Treating Tobacco Use in Patients With Mental Illness	This recorded, knowledge-based training will provide an overview of smoking as a health disparity issue among mental health populations, including data on the higher rates of smoking among mental health and substance use disorder populations, as well as the effect of smoking on mental health outcomes.	1 hour	1120555	4/29/2027
Digital Therapeutics for Substance Use Disorder	This recorded, knowledge-based training will provide inter-professional health care teams with information and rationale on digital tools for management of substance use disorders.	1 hour	1117751	3/11/2027
National Tobacco Cessation: Tobacco Use Treatment in Cancer Care Settings	The purpose of this recorded, knowledge-based training is to educate health care providers about the relationship between smoking and cancer; the benefits of quitting even after a cancer diagnosis; and the rationale for integrating smoking cessation interventions in cancer care settings from screening through survivorship, with a focus on lung cancer screening.	1 hour	1116623	2/4/2027

Minimal Services Methadone Maintenance Treatment	This recorded, knowledge-based training will explain the neurological and behavioral rationale for contingency management, as well as the procedural details in providing treatment to patients with substance use disorder.	1 hour	1098827	12/25/2026
Tobacco Cessation Evidence-Based Elements of Behavioral Counseling for Smoking Cessation	This recorded training is designed to familiarize inter-professional practitioners with basic assessment and brief counseling strategies, and educate providers regarding effective elements of behavioral counseling for treatment of tobacco dependence.	1 hour	1115438	12/15/2026
Recognition of VHA's Health Care Priorities and Aligning its Support of the National Drug Control Strategy: International Overdose Awareness and Harm Reduction	The purpose of this recorded, knowledge-based webinar is to provide attendees with greater awareness, education, training and resources on overdose prevention and harm reduction so that they are better positioned to provide timely and reliable interventions to Veterans at-risk for overdose and connect Veterans to individualized health care services.	1 hour	1114710	12/8/2026
Cultural Competence and Integrated Care for Substance Use Disorders	This recorded, knowledge-based presentation will improve cultural competence as it applies to providing integrated substance use care in Black, indigenous and People of Color patients and to achieve improved health outcomes associated with institutionalized racism, prejudice and discrimination.	1 hour	1098824	12/30/2026
Tobacco Treatment: Importance of Medications for a Chronic Relapsing Disease	This recorded, knowledge-based presentation will provide an overview of the Food and Drug Administration approved pharmacotherapy for tobacco treatment and emphasis on the chronic, relapsing nature of tobacco use dependence.	1 hour	1115708	12/18/2025
Mindfulness-Based Interventions for Smoking Cessation	This recorded presentation will give an overview of the current research on mindfulness for smoking cessation to date, with some specific studies highlighted that attempt to address existing gaps.	1 hour	1115596	10/21/2025
Lung Cancer Screening and Smoking Cessation: Combining Care to Improve Health Enduring	This recorded, knowledge-based presentation will review the new guidelines and supporting evidence for lung cancer screening with low-dose computed tomography and to discuss current knowledge and knowledge gaps surrounding the integration of tobacco dependence treatment into lung cancer screening care processes.	1 hour	1115592	1/29/2026
Group Tobacco Treatment: What Is It and Why Offer it?	This recorded, knowledge-based program will educate providers and teams regarding group tobacco treatment counseling. Participants will be able to learn about different approaches proven to work in group tobacco treatments, and they will be able to implement these different approaches in their own treatment plans for Veterans.	1 hour	1115526	5/25/2026

Introduction to the Updated VA/DoD Clinical Practice Guideline: The Use of Opioids in the Management of Chronic Pain	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who are prescribed opioids for managing pain. This recorded training will assist learners in delivering high-quality, evidence-based care to patients with pain who have been prescribed opioids.	1 hour	1107213	11/22/2025
Deconstructing Addiction Stigma	The purpose of this recorded, knowledge-based training is to help clinicians understand the impact of stigma in clinical environments and general culture; how it might jeopardize patient care; and how to best address stigma in clinical settings. It will also discuss the causes and effects of stigma, as well as discriminatory behaviors in addiction treatment.	1 hour	1107045	11/17/2025
Ethics in Substance Use Disorder Care	The purpose of this recorded, knowledge-based webinar is to fill identified knowledge and skill gaps in substance use disorder ethics, thereby promoting a strong ethical practice among health care teams and providers.	1 hour	1105409	8/15/2025
Lessons for the Substance Use Disorder Field From Chronic Care Medicine	The purpose of this recorded, knowledge-based webinar is to provide perspective on the treatment and evaluation of substance use disorders (SUDs) from comparative study of mainstream medicine's treatment of chronic illnesses. The presentation will improve communication between the SUD field and the rest of the mainstream health care teams. The presentation will also improve and modernize evaluation methods and outcomes. Expiring soon!	1 hour	1103897	5/30/2025
Best Substance Use Disorders Care for Native Americans	The purpose of this recorded, knowledge-based presentation is to promote traditional Indian medicine among clinicians. Participants will learn treatment strategies and multidisciplinary evaluation methods when treating American Indian/Alaska Native Veterans with substance use disorder, and will be able to refer the Veteran successfully, if required. Expiring soon!	1 hour	1103184	4/29/2025

WAR RELATED ILLNESS/POST DEPLOYMENT HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
WRIISC-HOME: Chronic Multi-Symptom Illness in Post 9/11-Era Veterans and US Civilians: A Comparison (Intermediate)	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will describe robust population-based findings on chronic multi-symptom illness and provide valuable comparisons between deployed, non-deployed and non-Veteran samples.	1 hour	1128015	3/25/2028
WRIISC-HOME: Military Environmental and Occupational Exposure to Endocrine Disruptors: Addressing Veteran Concerns	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will discuss how military exposures can impact the endocrine system, and how health care staff can address these concerns among Veterans.	0.5 hour	1126280	1/27/2028
WRIISC-HOME: Cognitive Behavioral Therapy for Insomnia: What You Need to Know: Introductory	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will demonstrate how cognitive behavioral therapy for insomnia (CBT-I) has shown that it is much more than a treatment for insomnia.	1.25 hours	1102948	4/6/2028
WRIISC Module 4: Chronic Multisymptom Illness	This training, put on by the War-Related Illness and Injury Study Center (WRIISC), will improve the ability of clinicians to evaluate, diagnose, and manage health concerns and medically unexplained conditions affecting Veterans of all eras and civilians, including chronic multisymptom illness.	1.25 hours	1084440	3/27/2028
WRIISC-HOME: Military Environmental Exposures and Risk of Breast Cancer: Clinical Observations and Noteworthy Research	This live, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will focus on how military environmental exposures are associated with breast cancer in women Veterans. Expiring soon!	1 hour	1126287	Live event to be held July 8 only
WRIISC-HOME: Impact of Military Toxic Exposures on Mental Health: What Every Behavioral Health Clinician Needs to Know	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will discuss how military environmental exposures impact mental health and	0.5 hour	1127730	3/23/2028

	outline specific action steps mental health professionals can take to address exposure-related health concerns.			
WRIISC-HOME: Complex and Emerging Military Exposure Threats	This recorded, knowledge-based training explores aspects of complex and emerging exposure cases and cohorts, as well as considerations to optimize consultations with the War Related Illness and Injury Study Centers (WRIISCs) and their Centers of Excellence. Research aimed at calculating exposure dose estimates, using objective and subjective military environmental exposure data, will be presented as an example of the type of projects under development at the new Complex Exposure Threats Center of Excellence.	1 hour	1127732	2/24/28
WRIISC-HOME: Radiation as a Military Exposure (Introductory)	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will provide education on the ionizing radiation registry, presumptions and evaluation of radiation military exposures.	1 hour	1123436	9/25/2027
WRIISC-HOME: An Update on Yoga as a Treatment for Chronic Symptoms of Gulf War Illness	This recorded, knowledge-based training, put on by the War-Related Illness and Injury Study Center (WRIISC) within Health Outcomes Military Exposures (HOME), will share findings from a recent clinical trial that showed yoga was effective for treating chronic pain and fatigue in Gulf War.	1 hour	1123989	10/22/2027
WRIISC-HOME: Chemical Warfare Agents: Impacts on Health and Resources for Veterans	This recorded training, put on by the War Related Illness and Injury Study Center within Health Outcomes Military Exposures, or WRIISC-HOME, will discuss what health care staff need to know about chemical warfare agents (CWA) among those deployed to Iraq, including the impact of CWA on health, the CWA program and tips for health care professionals.	0.5 hour	1124269	10/30/2027
WRIISC-HOME: The Airborne Hazards and Open Burn Pit Registry at 10 Years: Looking Back, Looking Forward	This recorded training, put on by the War Related Illness and Injury Study Center within Health Outcomes Military Exposures, or WRIISC-HOME, will share updates on the Airborne Hazards and Open Burn Pit Registry (AHOBPR) and increase provider knowledge. Strengths and limitations will be shared, and providers will be able to identify the	1 hour	1124587	11/4/2027

	difference between health assessments and AHOBPR assessments.			
WRIISC-HOME: Potential Relationship Between Military Exposures and TBI	This recorded training, put on by the War Related Illness and Injury Study Center within Health Outcomes Military Exposures, or WRIISC-HOME, will help providers further enhance their knowledge on providing care to Veterans with TBI.	1 hour	1124637	11/11/2027
WRIISC-HOME: The Deployment-Related Respiratory Disease Toolkit	This recorded training, put on by the War Related Illness and Injury Study Center within Health Outcomes Military Exposures, or WRIISC-HOME, will discuss the deployment-related respiratory disease toolkit, a step-by-step guide for working with Veterans with airborne hazards and respiratory concerns.	1 hour	1124805	11/18/2027
WRIISC-HOME: Toward Zero Harm: Addressing Mental Health Misdiagnoses in Veterans: Introductory	This recorded training, put on by the War Related Illness and Injury Study Center within Health Outcomes Military Exposures, or WRIISC-HOME, will cover how to address, repair and prevent the harm caused by mental health misdiagnoses using clinical skills and existing resources available to Veterans and health care providers. The focus will be on the restorative power of accurate, compassionate care.	1 hour	1102202	2/12/2028
War-Related Injury and Illness Study Center: Chronic Multi-Symptom Illness/Gulf War Illness: Veteran Care and the 2021 Clinical Practice Guideline	The purpose of this recorded, knowledge-based webinar is to review, with providers, the developed care plan for Veterans with chronic multi-symptom illness (CMI)/Gulf War illness (GWI) and to increase their knowledge of CMI and GWI. Best practices based on evidence-based guidelines will be reviewed, in addition to addressing a specific curriculum requested by providers.	1 hour	1122954	7/22/2027
War-Related Injury and Illness Study Center: Garrison Exposures: Camp Lejeune, Fort McClellan and Polyfluoroalkyl Substances	The purpose of this knowledge-based webinar is to inform health care providers about garrison exposures at Camp Lejeune, Fort McClellan and other bases. This review will also provide guidance on how to care for and communicate with Veterans with these concerns.	1 hour	1101050	8/22/2027
War-Related Injury and Illness Study – Health Outcomes Military Exposures: Brain Cancer Mortality Among Gulf War I Veterans Exposed	This recorded, knowledge-based training will discuss brain cancer mortality among 1990-1991 Gulf War Veterans exposed to explosions of munitions facilities at Khamisiyah.	1 hour	1123106	8/15/2027

to Explosions at Khamisiyah				
War-Related Injury and Illness Study – Health Outcomes Military Exposures: Veteran Signals Survey: Fostering Veteran Trust Around Military Environmental Exposures	This purpose of this recorded course is to discuss the Veterans Signals survey and how health care professionals can continue to build trust with Veterans with concerns about military environmental exposures.	1 hour	1123113	8/15/2027
War-Related Injury and Illness Study Center: Impact of Deployment-Related Exposures on Women’s Health	This recorded training will enhance the current knowledge of providers on how to best care for women Veterans with deployment-related exposure health conditions.	1 hour	1122741	8/27/2027
War-Related Illness and Injury Study Centers: Clearing the Air: Understanding Airborne Hazards and Open Burn Pits	The purpose of this recorded, knowledge-based module is to provide information on airborne hazard and open pit exposures to providers who are interested in learning more about these exposures.	1 hour	1122721	8/5/2027
War-Related Injury and Illness Study Center: The Invisible Elephant: How to Identify and Address the Most Common Military Environmental Exposures	This recorded training will discuss the most common environmental exposures among military personnel and how these exposures may affect Veteran health.	1 hour	1122437	4/29/2027
War-Related Injury and Illness Study Center: Clinical Guidance and Policies Related to Per- and Polyfluoroalkyl Substances Exposure in the Military	The purpose of this recorded, knowledge-based webinar is to provide an overview of what is known about per- and polyfluoroalkyl substances (PFAS), as well as clinical guidance and policies to care for Veterans with PFAS concerns.	1 hour	1120298	5/14/2027
War-Related Illness and Injury Study Centers: Understanding the Veteran Woman: Briefs From Women’s Operational Military Exposure Network	This recorded, knowledge-based webinar will discuss the latest research on common health concerns among female Veterans with military exposures and how to translate these findings into clinical care.	0.5 hour	1117519	2/22/2027
Military Exposures and Care: Enhancing Military Culture Competence to Optimize Veteran-Centered Care	The purpose of this recorded, knowledge-based webinar is to provide clinicians with an understanding of common military customs and experiences that will help them better communicate with Veterans, establish trust and build rapport to optimize care.	1 hour	1117520	2/22/2027

War-Related Illness and Injury Study Centers: Neuropsychological Evaluation of Gulf War Veterans	This recorded, knowledge-based webinar will discuss neuropsychological evaluation of Gulf War Veterans, including why neuropsychological evaluation is important for this population, the latest research and tips for providers.	0.5 hour	1117552	2/22/2027
Individual Longitudinal Exposure Record Introductory Training	This knowledge-based training reviews the individual longitudinal exposure record, its limitations and its usefulness as a resource in accessing military environment exposure records.	1 hour	1116123	12/30/2026
War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 1: Introduction to Level 2 Certification	The purpose of this enduring, knowledge-based module is to share the importance of education and training to ensure health care personnel have the competence to address military-related exposure concerns among Veterans. By attending, clinicians will understand the general format of the level 2 certification in military environmental exposures and be able to explain eligibility criteria and purpose of Congressionally mandated VA programs.	1 hour	1114724	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 2: Airborne Hazards and Open Burn Pit Exposures	The purpose of this enduring, knowledge-based module is to provide additional information on airborne hazard and open pit exposures to providers who are interested in learning more about these exposures.	1 hour	1114715	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 4: Depleted Uranium, “Black Goo” and Karshi-Khanabad: Military Environmental Exposures at K-2 Air Base	The purpose of this enduring, knowledge-based module is to review the exposures at Karshi-Khanabad, or K-2, Air Base in Uzbekistan. Health care professionals will be able to identify the types of military environmental exposures that occurred at this specific location and apply this knowledge in their care of Veterans.	1 hour	1114759	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 5: Embracing a New Way of Thinking: Supporting Veterans	The purpose of this enduring, knowledge-based module is to enhance the clinicians understanding of the complex array of exposures often encountered by military personnel during the 1990-1991 Gulf War and other combat deployments. Clinicians will be able to recognize diagnostic	1 hour	1114763	10/12/2026

Living With Gulf War Illness	approaches and care planning for Veterans, and demonstrate competencies in the assessment and care for individuals with Gulf War illness and other similar chronic multi-symptom illnesses.			
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 6: Gulf War I Service and Non-Gulf War Illness Conditions	The purpose of this enduring, knowledge-based module is to gain understanding of non-chronic multi-symptom illness conditions affecting Gulf War I Veterans through several case study examples. During this module the Gulf War report and research and development report will be reviewed, along with mycoplasma theory as a non-contributor to fibromyalgia, chronic fatigue syndrome and/or GWI.	1 hour	1114745	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 7: Ionizing Radiation and Health Concerns for Veterans	The purpose of this enduring, knowledge-based module is to review what ionizing radiation energy is and its potential health effects. Providers will be able to understand the types of electromagnetic energy and describe the authority for the ionizing registry exams. Last, they will be able to determine medical conditions that are presumed related to ionizing radiation exposure.	1 hour	1114748	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 8: Operation Tomodachi	The purpose of this enduring, knowledge-based module is to review a radiation case study. Clinicians will learn about the Great Tohoku Earthquake and its subsequent tsunami, and the ultimate Fukushima Nuclear Power Plant meltdown in 2011.	1 hour	1114749	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 9: Toxic Embedded Fragments and Depleted Uranium	The purpose of this enduring, knowledge-based module is to discuss a clinical case for a Veteran with toxic embedded fragment and depleted uranium concerns.	1 hour	1114746	10/12/2026
War-Related Illness and Injury Study Centers – Health Outcomes Military Exposures: Case Study 10: Vietnam and Agent Orange Health Concerns	In this enduring, knowledge-based module, providers will learn how to access information and conduct environmental exposure assessments related to Agent Orange. They will be able to evaluate a Veteran with Agent Orange concerns and formulate a plan with appropriate referrals for follow-up care.	1 hour	1114747	10/12/2026
War-Related Illness and Injury Study Centers: Neurocognitive Functioning in Gulf War Illness: Concerns and Treatment	In this recorded webinar, the presenters discuss common neurocognitive concerns for Veterans with Gulf War illness and possible treatments to explore.	1 hour	1112973	8/17/2026

War-Related Injury and Illness Study Center: Clinical Neuroscience Consequences of Military Exposures	The purpose of the this recorded, knowledge-based presentation is to review neurological and neuropsychiatric conditions Veterans often suffer from, which may have been caused by exposures during their deployment.	1 hour	1112123	8/17/2026
War-Related Injury and Illness Study Center: Military Exposures and Gastrointestinal Health	The purpose of this recorded, knowledge-based presentation is to review the impact of war and occupational exposures on gut health, addressing the emerging role of the gut microbiome on Veteran's health and well-being.	1 hour	1112126	8/17/2026
War-Related Injury and Illness Study Center: Good for the Heart Is Good for the Brain: Brain Health Risks and Reduction	The purpose of this recorded, knowledge-based presentation is to provide information to clinicians on expanding clinical care and using best practices to improve healthy lifestyles and resources for Veterans.	1 hour	1112125	8/17/2026
War-Related Injury and Illness Study Center Module 1: Assessing Deployment-Related Environmental Exposures	The War-Related Illness and Injury Study Center, a national program in VA's Post-Deployment Health Services, provides expertise to Veterans and providers on difficult to diagnose illnesses and environmental exposure concerns. Module 1, Assessing Deployment-Related Exposures, provides clinically relevant knowledge on the role of environmental exposures in Veteran health and the importance of addressing each patient's exposure concerns.	1 hour	1070234	6/26/2026
War-Related Illness and Injury Study Centers: Tips for Working With Veterans With Airborne Hazards Concerns	This recorded training will discuss tips for how clinicians, nurses and health care providers can work with Veterans who have concerns about exposure to airborne hazards during their military service.	1 hour	1110628	5/22/2026
War-Related Illness and Injury Study Centers: Is it Exposure-Related? Evidence-Informed Clinical Decision-Making	The purpose of this recorded, knowledge-based presentation is to expand clinical care and best practices knowledge by being able to interpret published literature and incorporate best practices in clinical care.	1 hour	1110695	5/22/2026
War-Related Illness and Injury Study Centers: Registry Exams: What Clinicians and Health Care Staff Need to Know	This inaugural Military Exposures Clinical Briefs series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Illness & Injury Study Center – Health Outcomes Military Exposures webinar series. This recorded session will discuss important information	1 hour	1110624	5/22/2026

	that health care providers and staff need to know about registry exams.			
War-Related Illness and Injury Study Centers: Military Exposures and Dermatological Conditions	The purpose of this recorded, knowledge-based presentation is to increase provider knowledge while sharing best practices leading to expanding clinical care. Specific curriculums will be addressed, and providers/clinicians will have a higher understanding of the relationship between military exposures and dermatological conditions.	1 hour	1109937	3/28/2026
War-Related Illness and Injury Study Centers: Who We Are and How We Serve Clinicians and Providers	The purpose of this recorded, knowledge-based presentation is to discuss how Veterans exposure team-health outcomes of military exposures (VET-HOME)'s creation of a network of specialized providers and a call center provides Veterans with an integrated care team to support their comprehensive health care needs.	1 hour	1109916	5/28/2026
Quick Tips for Everyday Clinical Care of Veterans With Exposure Concerns	This knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills. This recorded session will discuss tips for how clinicians, nurses and health care providers can engage in everyday clinical care of Veterans with exposure concerns.	1 hour	1109396	3/27/2026
War-Related Illness and Injury Study Center: Supporting Veterans With Military Exposure Concerns	This recorded, knowledge-based series converses with specific occupational groups to offer providers some quick, hands-on skills as a complement to the more detailed learning found in the War-Related Injury and Illness Study Center webinar series.	1 hour	1108887	3/14/2026
War-Related Illness and Injury Study Centers: Can Integrative Health Interventions Help Gulf War Veterans?	The current standard of care for Gulf War Veterans is not fully effective and may require complementary and alternative medicine approaches to enhance positive outcome for this unique post-deployment cohort. This recorded, knowledge-based presentation will increase and promote learning tools and understanding of available resource to Veterans, providers and other stakeholders.	1 hour	1108890	3/2/2026
War-Related Illness and Injury Study Centers: How to Help Veterans With Military Exposures	This knowledge-based, interview-style, Military Exposures Clinical Briefs series features conversations with specific occupational groups to offer some quick, hands-on skills as a complement to the	0.5 hour	1108272	2/1/2026

Receive the Benefits They Deserve	more detailed learning found in the War-Related Injury and Illness Study Center webinar series.			
War-Related Illness and Injury Study Centers: Tips for How Clinicians Can Talk With Veterans About Exposures	In this recorded, knowledge-based training, the presenter will discuss how clinicians can talk to Veterans about their exposure concerns, including the basics of risk communication and suggestions for how to respond to traditionally difficult-to-answer questions.	1 hour	1108269	2/1/2026
War-Related Illness and Injury Study Centers: Approaches to Long-COVID: Leveraging the Concordant Care Model For Chronic Multi-Symptom Illness	The purpose of this recorded, knowledge-based presentation is to educate providers on the concordant care treatment model developed for Veterans with chronic multi-symptom illness and how to apply this model to the treatment of Veterans with long-COVID.	1 hour	1108078	1/30/2026
War-Related Illness and Injury Study Centers: Module 5 – Depleted Uranium and Toxic Embedded Fragments	This curriculum provides health care providers with knowledge about the current research on health effects in depleted uranium (DU)-exposed populations; information about enrolling Veterans with suspected DU exposure or toxic embedded fragments into VA registry programs; and guidance about the clinical approach to Veterans with embedded fragments.	1 hour	1087697	10/1/2025
War-Related Illness and Injury Study Centers: VA Health Outcomes Military Exposures: Health Coaching for Veterans With Complex Pain	This recorded, knowledge-based presentation will provide clinicians with clinical care best practices for health coaching and teach them skills to incorporate health coaching into their own practice for treatment of Veterans.	1 hour	1105910	10/6/2025
War-Related Illness and Injury Study Centers: Applying Health Coaching Strategies to Clinical Care	The purpose of this recorded, knowledge-based presentation is to introduce coaching strategies and tools for busy clinicians to leverage in their practice. It will provide awareness to providers of how the tools of health coaching can be used to increase patient satisfaction, improve clinical recommendation adherence and improve provider/patient communication.	1 hour	1105507	8/11/2025
War Related Illness and Injury Study Center: Infectious Diseases, Vaccinations and Antimalarials	The purpose of this virtual, knowledge-based presentation is to review and discuss research and potential health effects of infectious diseases, vaccinations and antimalarials, and to highlight useful clinical resources. Providers will increase their knowledge and implementation of clinical best practices. Expiring soon!	1 hour	1103340	5/8/2025

 POST-TRAUMATIC STRESS DISORDER (PTSD)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
The Dissociative Subtype of PTSD	This series of 14 courses is designed to address key areas of PTSD that have the most profound impact on Veterans and active-duty service members. This session will discuss the dissociative subtype of PTSD.	1 Hour	1063808	3/16/2028
PTSD Military Culture	This series of 14 courses is designed to address key areas of PTSD that have the most profound impact on Veterans and active-duty service members.	1 hour	1065104	3/25/2028
Using VA National Center for PTSD Mental Health Apps to Support Veteran Care	The purpose of this recorded training is to incorporate information about the latest developments in VA mental health mobile applications by navigating through technological developments and the release of new mental health apps since 2024.	1 hour	1124205	10/27/2027
Eye Movement Desensitization and Reprocessing to Treat PTSD	This recorded, knowledge-based webinar presentation will provide an overview of the evidence showing the effectiveness of using eye movement desensitization and reprocessing, or EMDR, to treat PTSD.	1 hour	1125089	11/28/2027
Treating PTSD in the Context of Suicidality	This training will review the evidence on how suicidality is affected by trauma-focused treatments, and will discuss when to provide trauma-focused treatments in the context of suicidality, as well as how to successfully manage both.	1 hour	1125608	12/4/2027
Cognitive Processing Therapy for PTSD Enhanced Practice	The purpose of this knowledge-based educational web course is to provide knowledge and skills to implement cognitive processing therapy in order to be able to offer this therapy as an option for all Veterans seeking treatment for their PTSD symptoms.	1 hour	1084993	6/30/2027
Clinical Practice Guideline for PTSD: Complementary, Integrative and Alternative Approaches	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to complementary, integrative and alternative approaches to treating PTSD. It will also discuss the clinical implications for providers treating Veterans with PTSD.	1 hour	1116160	12/30/2026

PTSD Consultation Program Monthly Lecture Series: Bridging the Gap: Using VA Mental Health Apps to Support Treatment for PTSD	This recorded, knowledge-based webinar will review current research and the latest clinical developments in the use of the National Center for PTSD mental health apps for self-care and to enhance clinical care.	1 hour	1116146	12/29/2026
PTSD: Cultural Considerations for Conducting Trauma-Focused Treatment With Latinx Patients	This recorded, knowledge-based presentation will propose several culturally responsive strategies for therapists and health care teams to consider when conducting prolonged exposure for or cognitive processing therapy with Latinx patients to improve clinical outcomes. Subjects discussed will include building trust and rapport early on; conducting culturally informed assessment; investing in psychoeducation; optimizing exposures; challenging beliefs with cultural humility; and problem-solving common barriers to treatment engagement.	1 hour	1101707	12/30/2026
PTSD Consultation Program Monthly Lecture Series: What's the Buzz?: New Developments in Prolonged Exposure for PTSD	This recorded, knowledge-based webinar will provide awareness and updates on some of the most groundbreaking research on prolonged exposure to dispel myths and increase understanding of its powerful efficacy with complex patients with PTSD in clinical practice.	1 hour	1116121	12/14/2026
Introduction to VA/DOD Clinical Practice Guideline for the Management of Posttraumatic Stress Disorder	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with posttraumatic stress disorder (PTSD) based on current therapeutic guidelines, best practices and clinical evidence. It will also have the learner apply the knowledge to clinical practice management.	1 hour	1115187	11/30/2026
PTSD Consultation Program Lecture Series: Treating Co-Occurring Chronic Pain and PTSD	This recorded, knowledge-based webinar presentation will provide information about the prevalence of chronic pain and PTSD; the relationship between these conditions; the literature around their treatment; and approaches for management of these co-occurring issues.	1 hour	1113757	9/30/2026
PTSD Consultation Program Lecture Series: Clinical Practice Guideline for PTSD	This recorded, knowledge-based webinar will clearly explain the clinical practice guideline recommendations related to medications and other	1 hour	1113891	9/14/2026

2023: Medication and Other Biological Treatments	biological treatments for PTSD, as well as discuss the clinical implications for providers treating Veterans.			
PTSD and Schizophrenia–Spectrum Disorders: Assessment and Treatment	This recorded, knowledge-based webinar will describe clinical recommendations to facilitate assessment and treatment of PTSD in those with co-occurring schizophrenia-spectrum disorders.	1 hour	1112324	8/14/2026
PTSD Consultation Program Lecture Series: Understanding Native American History as a Foundation of Culturally Aware PTSD Treatment	This recorded, knowledge-based webinar will help bridge a gap by providing information about historical trauma for Native American Veterans, the current culturally informed research related to historical trauma, how historical trauma may complicate PTSD treatment and strategies that are culturally informed to address historical trauma.	1 hour	1112320	8/14/2026
PTSD 101: The 2017 Revised Clinical Practice Guideline for PTSD: Recommendations for Medications	The purpose of this knowledge-based web course is to close a training gap by helping clinicians become knowledgeable about the recommendations for medication and to assist them in providing care based on the latest evidence. This course will review the process by which the guideline was developed, clearly explain the recommendations related to medications and discuss the clinical implications for providers treating Veterans.	1 hour	1083746	1/31/2026
PTSD 101: Prolonged Exposure Therapy: Effective Treatment for PTSD	The purpose of this knowledge-based course is to review the recent research on prolonged exposure (PE), provide a basic description of the treatment and to describe areas of future research for the team. By addressing a training practice gap, current PE providers/team members may improve their delivery of PE by learning about how recent research has informed new clinical recommendations for this treatment.	1 hour	1088863	11/29/2025
PTSD and Eating Disorders	This recorded training will inform attendees about the research findings regarding safety planning and post-acute care for individuals experiencing suicidal ideation. It will also describe the VHA enterprise-wide clinical program called Safety Planning in the Emergency Department, or SPED, that	1 hour	1103471	5/25/2025

	has been implemented within VA. Expiring soon!			
Clinician Administered PTSD Scale for DSM-5 Training Simulator Part 2	In this virtual course, learners will identify the interview principles required for administering the Clinician-Administered PTSD Scale for DSM-5 (CAPS-5).	1 hour	1090937	3/12/2026
Clinician-Administered PTSD Scale for DSM-5 Clinician Training: Part 4	This training uses virtual patient technology and voice recognition to give learners an immersive experience in administering the Clinician Administered PTSD Scale for DSM-5, or CAPS-5, to a challenging patient who has a number of comorbidities.	1.25 hours	1103441	3/17/2028
Health Care Planning and Management for Older Adults With Dementia	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced and virtual educational opportunities.	1 hour	1096045	11/1/2026
Examining Diagnostic Approaches to Dementia Care Through Use of Biomarkers	This recorded, knowledge-based webinar will help bridge the knowledge gap with what is currently known about Alzheimer's disease blood tests and introduce new research being conducted in the VA to improve current tests. Expiring soon!	1 hour	1103495	5/31/2025
Introducing CPT Coach 2.0: Integrating CPT Coach Into Cognitive Processing Therapy	The purpose of this recorded virtual conference tutorial is to provide clinicians with the knowledge and skills to augment their ability to implement cognitive processing therapy (CPT) in order to be able to offer this therapy as an option for all Veterans seeking treatment for PTSD symptoms. Expiring soon!	1 hour	1105041	7/20/2025

ETHICS IN HEALTH CARE/WHOLE HEALTH CARE/CULTURAL TRANSFORMATION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Clinician Self-Care: You in the Center of the Circle of Health	The purpose of this knowledge-based web course is to describe the challenges clinicians face and enhance their own resilience against burnout by creating their own health plan. These techniques will better address training gaps, as well as connect their health and well-being to their patient's health and well-being. Expiring soon!	1 hour	1068296	5/31/2025

Whole Health for Complex Patients: Chronic Pain	The purpose of this recorded, knowledge-based training is to address the intersection of mental health and chronic pain co-morbidities.	1 hour	1121551	7/1/2027
Whole Health as Suicide Prevention	This recorded, knowledge-based presentation will provide an overview of the whole health system to engage Veterans who are socially connected, engaged in self-care activities and have a trusting relationship with health care team members.	1 hour	1110868	5/11/2026
Whole Health for Nurses: Beginning the Whole Health Journey	The purpose of this knowledge-based web course is to introduce nurses to whole health and its synergies with foundational nursing theory and practice. Expiring soon!	1 hour	1105141	7/1/2025

CANCER

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Clinical Case Study – Pain Management in Older Cancer Patients	This clinical case course will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced, virtual educational opportunities.	0.5 hour	1102052	11/17/2027

CARDIAC CARE

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

DISABILITY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Disability and Medical Assessment: Medical Opinions	This course contains content for musculoskeletal medical conditions that Veterans may be diagnosed and treated for, and for which they are seeking a disability claim. The course provides an overview of the compensation and pension (C&P) process.	1 hour	1101687	12/15/2027
Disability and Medical Assessment: Mental Health Examinations	The purpose of this web-based training course is to provide an overview of mental health examinations, including PTSD, initial mental disorders, eating disorders	2.5 hours	1101690	12/12/2027

	and military sexual trauma related to PTSD. It will address a knowledge gap by providing updated information, including procedures regarding how to prepare for, conduct and properly document a thorough and legally defensible compensation and pension (C&P) examination.			
Disability Medical Assessment: Neurology Including Peripheral Nerves Examination	The purpose of this web-based training course is to provide an overview of the nerve/neurology disability examination. It will address a knowledge gap by providing updated information, including procedures and a demonstration regarding how to prepare for, conduct and properly document a thorough and legally defensible diabetes disability examination.	1 hour	1064759	1/27/2026
Disability Medical Assessment: Military Sexual Trauma and the Disability Examination Process – Update 2022	This training provides an overview of the compensation and pension (C&P) military sexual trauma (MST) and the disability examination process for interdisciplinary teams. This training will provide updated information, including procedures to prepare for, conduct and properly document a C&P MST examination sufficient for adjudication purposes.	1 hour	1107533	12/19/2025
Ethical and Practical Issues in Disclosure of Dementia Risk	This recorded, knowledge-based webinar will help bridge the knowledge gap with what is currently known about ethical and practical issues in disclosure of dementia risk. Expiring soon!	1 hour	1103853	5/31/2025

GERIATRICS AND EXTENDED CARE

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
PACERS: Normal Cognitive Aging and Dementia Caregiving	This course will describe topics related to decision-making, advanced care planning and safety for Veterans with dementia. Specific topics include competency, capacity and consent; advanced care planning; driving and dementia; and elder abuse.	1 hour	1074570	11/28/2026
Management of Acute and Severe Illness in Older Patients: Sepsis and Delirium	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced, virtual educational opportunities. This session will address the management of acute and severe illness in older patients.	1 hour	1090491	2/8/2027

Geriatric Care: Primary Care and Community Living Centers: End-of-Life Nursing Education Consortium: Palliative Care Nursing	This live, knowledge-based webinar will discuss the End-of-Life Nursing Education Consortium project that is a national and international education initiative designed to enhance quality palliative care by inter-professional health care teams so they can teach this essential information to practicing nurses and other health care professionals. This session will discuss palliative care nursing. Expiring soon!	1 hour	1125090	Live event to be held May 13 only
Clinical Case Study: Falls in Older Adults	These clinical case courses will train and enhance the skills of interdisciplinary providers and staff in topics that meet the care needs of older Veterans through on-demand, self-paced, virtual educational opportunities. The purpose of this vignette is to present a clinical case study of falls in older adults. Expiring soon!	0.25 hour	1104200	5/25/2025

DENTAL CARE

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
--------------	-------------	--------------	-----------	-----------------

MENTAL HEALTH

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Midwest VA Health Care Network Mental Health Summit Moral Injury Healing: Confronting the War Within	This live, knowledge-based training will explore aspects of complex and emerging exposure cases and cohorts, as well as considerations to optimize consultations with the War Related Illness and Injury Study Centers (WRIISCs) and their Centers of Excellence. Research aimed at calculating exposure dose estimates, using objective and subjective military environmental exposure data, will be presented as an example of the type of projects under development at the new Complex Exposure Threats Center of Excellence. Expiring soon!	4.75 hours	1127866	Live event to be held May 2, only
Working With Politically Charged Veterans in Mental Health Practice	The purpose of this recorded, knowledge-based training is to raise staff's awareness of how political beliefs of patients and staff can interfere in therapeutic interventions.	1 hour	1123909	10/22/2027

Clinician-Administered PTSD Scale for DSM-5 (CAPS-5) Clinician Training – Part 3	This course uses virtual patient technology to help advanced learners gain a deeper understanding the clinician-administered PTSD scale for the Diagnostic and Statistical Manual of Mental Disorders-5, or DSM-5. It challenges learners to administer and score the measure without any assistance, but in a low-stress environment.	1.5 hours	1098335	3/21/2027
Introduction to VA/DOD Clinical Practice Guideline for the Management of Bipolar Disorder	This recorded, knowledge-based program will equip learners with relevant information needed for managing patients with bipolar disorder based on current therapeutic guidelines, best practices and clinical evidence.	1 hour	1114069	10/29/2026
Pain and Stress	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114232	7/31/2026
Working With Deeper Beliefs	The purpose of this knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on working with deeper beliefs.	1 hour	1114568	8/1/2025
Recognizing and Managing Thoughts That Work Against You	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. Cognitive behavioral therapy stresses the relationship between one's thoughts, feelings and actions.	1 hour	1114602	7/31/2026
Pain and Communication	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and communication.	1 hour	1114605	7/31/2026
Pain and Emotions	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on pain and emotions.	1 hour	1114604	7/31/2026

Getting Active and Other Useful Health Habits	The purpose of this knowledge-based recorded webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This session will focus on useful health habits.	1 hour	1114611	8/1/2026
How The Brain Deals With Pain and How To Deal With The Brain	The purpose of this recorded, knowledge-based webinar series is to train providers in the components, techniques, structure and delivery of an effective, literacy-adapted cognitive behavioral therapy group for patients with chronic pain. This training will bridge the knowledge with what is currently known about the brain and pain stimulus and introduce new concepts on how to handle pain and the mental fallout from pain management.	1 hour	1114618	7/31/2026
Reviewing Your Pain Coping Toolbox: Your Gate Closers	This program is intended to train providers in the components, techniques, structure and delivery of an effective cognitive behavioral therapy group for Veterans with chronic pain.	1 hour	1114802	8/1/2025
Skills for Psychological Recovery	Skills for psychological recovery, or SPR, is a skills-building intervention for post-disaster environments that uses components of cognitive behavioral treatments that are common across many diagnoses. This course will allow those who work with Veterans to learn a skills-building approach that can both be applied to increasing resilience in Veterans and to better respond to mass casualty and disaster situations.	1 hour	1091207	3/24/2026
Cognitive Behavioral Therapy for Depression In Veterans and Military Servicemembers: Group Therapy Companion Guide for Therapists	The purpose of this guide is to provide clinicians who have received cognitive behavioral therapy for depression (CBT-D) training using a group format with a specific CBT-D protocol. Special focus is given to the importance of group process, as well as the implementation of specific cognitive and behavioral strategies within a 13-session group treatment protocol.	2.5 hours	1105251	8/8/2025

LEAD COORDINATOR TRAINING

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE

 TRAUMATIC BRAIN INJURY (TBI)

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
War-Related Injury and Illness Study Center: Gender Differences in Symptoms and Functional Outcomes in Veterans With Traumatic Brain Injury	The purpose of this webinar is to raise awareness of differences in the way traumatic brain injury is experienced in men and women.	1 hour	1098320	2/1/2027
Neuro-Behavioral Therapy Overview	This recorded, knowledge-based webinar aims to provide clinicians with knowledge and guidance regarding the evidence base for neuro-behavioral therapy. Topics will include diagnosis, definition and treatment. The course will also include an overview of the therapeutic approach and workbook session content.	1 hour	1118767	1/8/2027
Evidence Base for Neuro-Behavioral Therapy	This recorded, knowledge-based webinar aims to provide clinicians with knowledge and guidance regarding the evidence base for neuro-behavioral therapy. Topics will include reviewing data from clinical trials conducted using the intervention for patients with seizures and movement disorders, as well as an overview of the diagnostic formulation, which informs treatment. Expiring soon!	1 hour	1118202	6/20/2025

 SUICIDE PREVENTION

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Suicide Prevention: Public Health Monthly Suicide Postvention	The purpose of this recorded, knowledge-based webinar describes the widespread impact of suicide loss, including the impact of suicide loss on providers.	1 hour	1093767	9/11/2026
TBI, Suicide and Evidence-Informed Intervention Strategies	This recorded, knowledge-based webinar will review the evidence on how suicidality is affected by trauma-focused treatments. Evidence-informed intervention strategies that must be implemented to address risk and prevent suicide will be discussed in order to provide better Veteran care.	1 hour	1126269	1/23/2028
Cognitive Behavioral Therapy for Suicide Prevention	This recorded, knowledge-based training will provide an overview of cognitive behavioral therapy for suicide prevention, including the key cognitive and behavioral strategies that are used to target suicidal	1 hour	1098288	1/23/2028

	behavior and the evidence supporting the use of cognitive behavioral therapy.			
What has Changed in the 2024 Revised Clinical Practice Guideline for Suicide Prevention	This recorded, knowledge-based presentation will familiarize participants with the new suicide prevention Clinical Practice Guidelines, emphasizing changes that are particularly relevant to clinical practice.	1 hour	1123457	9/29/2027
Cultural Considerations Applied in Community: Tribal-VHA Partnerships in Suicide Prevention Toolkit	This recorded, knowledge-based virtual presentation will discuss how Native American Veterans have served in the United States military at higher levels per capita than any other race group, and how they also have the highest rates of suicide, which continue to rise.	1 hour	1124305	11/4/2027
Problem Solving Therapy and Suicidality	This recorded, knowledge-based webinar training will examine the relevance of emotion-centered problem-solving therapy as a treatment and prevention approach for health care teams and clinical professionals to reduce suicidality. A conceptual problem-solving model of suicide in addition to various clinical guidelines will be presented.	1 hour	1125541	12/4/2027
Clinical Practice Guideline for Suicide Prevention: Suicide Risk Stratification and Documentation	This knowledge-based recording will address risk stratification for the interprofessional health care team who will attend to risk in terms of both severity and temporality. It will also offer related documentation strategies.	1 hour	1096046	4/24/2027
Cultural Considerations for People at Risk for Suicide	This recorded, knowledge-based presentation will focus on the need for staff to be aware of their own biases when providing care to Veterans, especially those at risk for suicide. By learning the cultural characteristics to consider, staff can gain competency and skills in providing care that is inclusive, mindful, equal and equitable for those they serve.	1 hour	1122281	8/22/2027
Introduction to the Updated VA/DOD Clinical Practice Guideline: The Management of Suicide Risk	This recorded, knowledge-based webinar will provide important information to members of the health care teams about managing suicide risk. It will assist them to deliver high-quality, evidence-based care to patients with suicide risk, and better understand how the VA/DOD guideline was developed, how to use it and which interventions can provide the most benefit to their patients.	1 hour	1122458	7/14/2027

An Environmental Scan of Suicide Prevention Resources for Older Veterans in Primary Care	This recorded, knowledge-based presentation will help bridge the knowledge gap for providers when it comes to suicide risk management for older Veterans seen in primary care.	1 hour	1117658	2/21/2027
Preventing Suicide Among Veterans Experiencing Homelessness: Drivers of Risk and Tailoring Evidence-Based Care	This recorded program will help bridge the gap for providers working with Veterans experiencing homelessness by discussing important and novel approaches for understanding the needs of homeless Veterans, as well as resources and tools that providers can access to enhance their discharge and treatment planning.	1 hour	1119873	5/5/2027
Black Mental Health and Suicide Risk	The purpose of this recorded, virtual webinar is to provide attendees with the opportunity to openly explore and discuss the rising rates of suicide among Black individuals. This presentation will also create a space to openly explore inherent bias within the mental health system, with a focus on the stereotypes and bias directed at Black individuals.	1 hour	1114344	10/29/2026
Suicide Risk Management Consultation Program: Providers Working in Suicide Prevention	This recorded presentation promotes the importance of self-care and sustainability for providers and health care teams who work with individuals who are at higher risk for suicide. An area of focus will be on one presenter's experience of post-traumatic growth, recovery and healing in the wake of a colleague's death by suicide. The importance of recognizing signs of burnout and actualizing self-care strategies will be reviewed in order to allow for sustainability in challenging work.	1 hour	1113605	10/16/2026
Lethal Means Safety Training	This recorded webinar will provide updated lethal means training and resources for VHA facility suicide prevention coordinators and other mental health and suicide prevention clinicians.	1 hour	1075258	9/29/2026
Population-Level Analyses of the Rural Urban Suicide Disparity Among VA Patients	The overall purpose of this recorded knowledge-based program is to discuss recently published research examining the rural-urban disparity in the risk of death by suicide among VA patients.	1 hour	1111641	8/1/2026
Utilizing the Clinical Practice Guidelines to Inform Standardized Suicide Risk Screening and Evaluation	This virtual presentation will allow attendees to increase their familiarity with the clinical practice guidelines and to learn about real-world examples of how they can be implemented in clinical practice.	1 hour	1111237	6/25/2026
Military and Veteran Caregivers: Health, Well-	This recorded, virtual webinar will provide an overview of the psychosocial characteristics of military and Veteran	1 hour	1109612	4/27/2026

Being and Phenotypes for Suicidal Ideation	caregivers in the U.S. The presenter will describe the health, well-being and unique challenges of military and Veteran caregivers.			
Latest Research Updates on Caring Contacts for Suicidal Patients	This recorded webinar will describe the origin and rationale of Caring Contacts as envisioned by Motto, with a focus on recent meta-analysis and related clinical trials, including Caring Contacts research with active-duty military personnel and Veterans.	1 hour	1109151	2/24/2026
Gatekeeper Training as a Force Multiplier for Community Suicide Prevention	This recorded, knowledge-based webinar for interpersonal health care teams will introduce the clinical practice guidelines on gatekeeper training and provide an overview of the options and applications of such training in community settings.	1 hour	1107542	12/29/2025
Financial Well-Being and Suicide Risk in Military Veterans	This recorded, knowledge-based webinar provides an overview of financial well-being and challenges of Veterans, and then summarizes empirical research showing a link between financial strain and suicide risk in Veterans and non-Veterans.	1 hour	1106388	10/21/2025
Lithium for Suicide – A Therapeutic Risk Management-Informed Approach	This recorded webinar offers an approach to individualized risk-benefit analysis regarding the use of lithium for suicide prevention for patients with mood disorders.	1 hour	1105937	10/15/2025
Suicide Prevention in Veterans With Substance Use Disorders	This recorded, knowledge-based webinar will address challenges in assessing individuals with concurrent substance use and suicide risk, and it will offer treatment recommendations.	1 hour	1105865	9/23/2025
Suicide Prevention and End-of-Life	In this recorded training, learners will be provided with information on the differences between suicidality and the desire for hastened death. They will learn about the elements of risk assessment and appropriate interventions to manage suicidality and/or desire for hastened death at the end-of-life. Expiring soon!	1 hour	1104959	7/30/2025
Suicide Prevention Among Those With Neurologic Conditions	Individuals with a history of neurologic conditions have been identified as having a history of increased risk for suicide. In this recorded training, data regarding risk and associated risk will be presented, as well as information regarding most prevalent mechanisms of suicide death. Strategies for intervention with these high-risk cohorts will also be discussed. Expiring soon!	1 hour	1105253	7/30/2025
Suicide Risk Factors and Clinical Implications	This recorded presentation will provide an overview of suicide risk factors and the related literature findings. Presenters will	1 hour	1104919	7/15/2025

	emphasize clinical implications, including addressing risk factors in risk assessment, risk stratification and targeted treatment interventions. Expiring soon!			
Dialectical Behavior Therapy via Telehealth	The purpose of this recorded presentation is to present on dialectical behavior therapy, an evidence-based treatment for chronic suicidal behavior and borderline personality disorder, and discuss its application via telehealth. Expiring soon!	1 hour	1104069	5/31/2025
Self-Directed Violence Classification System	Understanding and classifying suicidal thoughts and behaviors remains a challenge. In particular, misclassification can impact clinical care and surveillance, which can result in decreased understanding of the issue and appropriate treatment considerations and planning. Utilization of a standard nomenclature, such as the Suicidal Self-Directed Violence Classification System (SDVCS), developed by the Centers for Disease Control and Prevention, addresses such an issue. This recorded course will discuss the SDVCS to assist learners in better understanding classification of this matter. Expiring soon!	1 hour	1103730	6/1/2025
Recommendations for Postvention Processing Sessions	When providers lose a patient to suicide, they are affected by the loss both personally and professionally. This recorded presentation will illustrate how to effectively and efficiently conduct postvention processing services for providers. Expiring soon!	1 hour	1103698	5/22/2025
Suicide Risk Management for Rural Native Veterans	This recorded program will provide context and overview of providing mental health care to Rural Native Veterans and discuss approaches in suicide risk management. Expiring soon!	1 hour	1103393	5/12/2025
Psychosocial Rehabilitation and Suicide Prevention	The purpose of this recorded webinar is to describe the Psychosocial Rehabilitation and Recovery Services section of the Office of Mental Health and Suicide Prevention, and how its mission promotes recovery and includes a prominent suicide prevention component. Expiring soon!	1 hour	1103392	5/12/2025
Treating PTSD and Suicide Risk: Separating Myth From Fact	PTSD is a well-established risk factor for suicidal behavior. Although suicidal thoughts and behaviors are common among patients with PTSD, myths and misconceptions about suicide abound among clinicians. In this training, data that refute these myths, especially the belief that suicidal patients cannot be safely or effectively treated with empirically	1 hour	1083785	12/23/2027

	supported trauma therapies, will be presented and discussed.			
Clinical Practice Guideline for Suicide Prevention: Status of VA Ketamine and Esketamine Services	The U.S. Department of Veterans Affairs (VA), Office of Mental Health and Suicide Prevention (OMHSP), will host monthly training webinars to educate VA field employees on how to implement the components of the organization's public health approach to suicide prevention.	1 hour	1095268	9/28/2026
Firearm Acquisition and Ownership: Decision-Making Within the Context of Injury Risk	The purpose of this recorded, knowledge-based program is to discuss the obstacles that hinder the adoption of safety recommendations in order to provide better Veteran care. It will offer and improved understanding of the reasons individuals own and use firearms, and how they make decisions about injury risk.	1 hour	1113222	9/29/2026
Safe Storage Options for Your Firearms	This video will provide education on the safe storage options for firearms. Expiring soon!	1 hour	1104942	5/31/2025

GRAND ROUNDS

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Amputation Grand Rounds: Beyond the Ordinary — Complex Upper Limb Loss Cases	This recorded, knowledge-based webinar will inform the attendees of various approaches employed to manage the issues of patients with complex upper limb loss.	1 hour	1114985	12/6/2026
Amputation Grand Rounds: Neural-Enabled Prostheses for Sensory Restoration Insert	The purpose of this recorded knowledge-based webinar is to cover knowledge about systems and methods to offer sensory restoration of touch and grasp to individuals with upper-limb amputation.	1 hour	1112013	8/7/2026
Amputation Grand Rounds: Regenerative Peripheral Nerve Interfaces for the Treatment and Prevention of Painful Neuromas in Major Limb Amputees	This recorded training offers insight into how painful neuromas in the amputee population are diagnosed and treated at both the Ann Arbor VA and the University of Michigan. It will also describe a novel surgical strategy, regenerative peripheral nerve interface, that seeks to both reduce chronic neuroma pain in existing lower extremity amputees and prevent neuroma development in patients undergoing new amputations.	1 hour	1110960	6/6/2026
Amputation Grand Rounds: The Utah Bionic Leg	The purpose of this recorded presentation is to introduce clinicians and inter-professional health care teams to the Utah Bionic Leg. This lightweight robotic leg	1 hour	1109611	4/5/2026

GRAND ROUNDS

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
	prosthesis replicates the key biomechanical functions of the knee, ankle and toe. The presenters will review the design and development process, as well as the preclinical testing with individuals with above-knee amputations.			
Amputation Grand Rounds: How Limb Loss Affects Heart and Lung Function	During this recorded, knowledge-based webinar, interdisciplinary health care teams will explore how lower limb loss affects heart function and how very proximal limb loss affects breathing capacity. This will enable providers to help patients and their families formulate reasonable expectations surrounding prosthetic candidacy and outcomes.	1 hour	1108259	2/15/2026
Amputation Grand Rounds: The Psychological Impact of Amputation: What Rehabilitation Providers Should Know	During this recorded, knowledge-based webinar, factors associated with significant emotional distress and poor psychological functioning among amputees will be presented. This presentation will encourage the early identification of psychosocial contributors to adjustment to amputation and provide education about appropriate ways to intervene from an interdisciplinary care team perspective.	1 hour	1106324	10/9/2025
Amputation Grand Rounds: Prosthesis and Rehabilitation Considerations for K2 Ambulators	The purpose of this recorded, knowledge-based training session is to discuss prosthetic and rehabilitation considerations in people with lower limb amputation who are in Medicare functional classification level 2.	1 hour	1105362	8/16/2025
Amputation Grand Rounds: Dermatologic Surgery Interventions for People With Limb Loss: Use of Lasers and Botulinum Toxin in the Treatment of Scarring, Sweating and Folliculitis	This live, knowledge-based webinar will discuss various treatment techniques used by dermatology to address integumentary issues experienced by individuals living with limb loss. Health care teams will have the opportunity to review laser technologies, the use of botulinum toxins and other specialized treatments for scars to enhance the prosthesis-wearing experience. Expiring soon!	1 hour	1104495	6/14/2025

VETERAN COMMUNITY CARE PROVIDER				

GRAND ROUNDS

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Community Care Provider – A Perspective for Veteran Care	The course will give an introduction for community providers about Veterans and issues that are deemed more common in Veteran patients. It will discuss military culture; suicide awareness and prevention; military sexual trauma; PTSD; and traumatic brain injury.	1 hour	1085488	9/30/2025

COVID-19

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Personal Protective Equipment Powered Air Purifying Respirator and N95 Donning and Doffing	This interactive training experience will demonstrate the procedures for personal protective equipment (PPE) powered air purifying respirator (PAPR) and N95 donning and doffing according to PPE PAPR Center for Disease Control guidelines and VHA standard operating procedures. Expiring soon!	2.5 hours	1104873	5/27/2025

PHARMACY

COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Pharmacy Technician: Introduction to Pharmacy: Medical and Pharmaceutical	This course will identify the appropriate pharmaceutical terms and definitions; apply terms to scenarios; and assist in selecting the advantage and disadvantage of a given formulary type, as well as the reasons and implications for having a formulary.	1 hour	1102528	2/9/2026
Pharmacy Technician: Introduction to Compounding and Measuring	This course will assist participants in selecting terminology, descriptions, definitions, uses and procedures required for application in pharmacy small compounding, measuring and bulk compounding.	1 hour	1101908	1/5/2026
Pharmacy Technician: Calculations Percentage Preparations	This course will teach participants to calculate the percentage strength of a product when the amount of active ingredient and total amount of preparation are known.	1.5 hours	1101910	2/15/2026

Pharmacy Technician: Calculations Ratio and Proportions	This knowledge-based web course is designed to develop a common understanding of standards involving conversion or ratio and proportions specific to pharmacy technician roles and responsibilities.	2 hours	1101911	2/15/2026
Pharmacy Technician: Introduction to Calculations	This knowledge-based web course is designed to develop a common understanding of standards involving calculations. The course will assist participants to perform addition, subtraction, multiplication and division of whole numbers, mixed numbers, fractions and decimals with 100% accuracy.	2 hours	1101912	1/25/2026
Pharmacy Technician: Calculations Conversion and Metric	This course will teach participants how to convert between the various denominations of each of the basic units of the metric system given measures of weight and/or volume.	2 hours	1101898	1/5/2026
Pharmacy Technician: Calculations Specific Gravity	This course will provide information on how to solve for the missing variable given any two values of weight, specific gravity or volume, and provide information on how to calculate the amounts of ingredients required in a preparation involving specific gravity.	1 hour	1101999	1/31/2026
Pharmacy Technician: Pharmaceutical Calculations Dilutions	This course will provide information on mathematical problem-solving involving dilution of stock preparations and performing the mathematical steps to solve the correct answers.	4 hours	1102001	1/31/2026
Pharmacy Technician: Calculations Alligations	This knowledge-based web course is designed to develop a common understanding the mathematical problems involving the alligations method specific to pharmacy technician roles and responsibilities.	3 hours	1102000	1/31/2026
Pharmacy Technician: Pharmaceutical Dosage Calculations	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving dosage calculations specific to pharmacy technician roles and responsibilities.	2 hours	1102005	1/31/2026
Pharmacy Technician: Pharmaceutical Calculations Measurement Systems	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving Roman numerals, Arabic numerals and conversion systems specific to pharmacy technician roles and responsibilities.	1.5 hours	1102003	1/31/2026
Pharmacy Technician: Calculations Milliequivalents	This knowledge-based web course is designed to develop a common understanding of calculations	2 hours	1102059	1/31/2026

	milliequivalents specific to pharmacy technician roles and responsibilities.			
Pharmacy Technician: Calculations Reduction and Enlargement Formulation	This knowledge-based web course is designed to develop a common understanding of calculations reduction and enlargement formulas specific to pharmacy technician roles and responsibilities.	4 hours	1102058	1/31/2026
Pharmacy Technician: Calculations Sterile Preparation Dosage	This knowledge-based web course is designed to develop a common understanding of mathematical problems involving sterile preparation dosages specific to pharmacy technician roles and responsibilities.	2.5 hours	1102060	1/31/2026
Pharmacy Technician: Oncology	This knowledge-based web course is designed to familiarize learners with the many different types of cancers, the causes and the variety of treatments available specific to pharmacy technician roles and responsibilities.	2 hours	1102472	2/16/2026
Pharmacy Technician: Immune System	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the immune system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	2 hours	1102473	2/16/2026
Pharmacy Technician: Eyes and Ears	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the eyes and ears, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	1.5 hours	1102474	2/16/2026
Pharmacy Technician: Infectious Disease	This knowledge-based web course is designed to familiarize learners with terminology, characteristics and principles associated with infectious diseases specific to pharmacy technician roles and responsibilities.	3 hours	1102475	2/16/2026
Pharmacy Technician: Complementary and Alternative Medicines	This knowledge-based web course is designed to familiarize learners with alternative, natural and complementary medicines. They will learn about various definitions, dietary supplements, credible sources of information, and the potential benefits and risks associated with non-traditional medicines specific to pharmacy technician roles and responsibilities.	1.5 hours	1102476	2/16/2026
Pharmacy Technician: Introduction to Therapeutics	This knowledge-based web course will assist learners to recognize basic concepts and terms (anatomy, physiology and pharmacology) as they apply to pharmacy	2.5 hours	1102477	2/16/2026

	practice, and identify organ systems and their components, including cells, organelles and fluid movement.			
Pharmacy Technician: Therapeutics Dermatologic System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the dermatologic system, as well as associated diseases and disorders.	1 hour	1102478	2/16/2026
Pharmacy Technician: Therapeutics Gastrointestinal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the gastrointestinal system, as well as associated diseases and disorders.	1 hour	1102480	2/16/2026
Pharmacy Technician: Therapeutics Cardiovascular System	This knowledge-based web course will identify basic anatomy and physiology of the cardiovascular system, as well as diseases and disorders of the cardiovascular system.	1.5 hours	1102484	2/1/2026
Pharmacy Technician: Therapeutics Central Nervous System	This knowledge-based web course will identify basic anatomy and physiology of the central nervous system, as well as diseases and disorders of the central nervous system.	2 hours	1102485	2/16/2026
Pharmacy Technician: Therapeutics Peripheral System	This knowledge-based web course will identify basic anatomy and physiology of the peripheral system, as well as diseases and disorders of the peripheral system.	1 hour	1102486	2/16/2026
Pharmacy Technician: Therapeutics Respiratory System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the respiratory system, as well as associated diseases and disorders of the respiratory system.	2 hours	1102520	2/16/2026
Pharmacy Technician: Therapeutics Musculoskeletal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the musculoskeletal system, as well as associated diseases and disorders of the musculoskeletal system.	2 hours	1102521	2/1/2026
Pharmacy Technician: Therapeutics Renal System	This knowledge-based web course will assist learners in identifying the basic anatomy and physiology of the renal system, as well as associated diseases and disorders of the renal system.	2 hours	1102522	2/16/2026
Pharmacy Technician: Introduction to Pharmacy Roles and Responsibilities	This course will assist learners in selecting a timeline that accurately depicts the evolution of the role of the pharmacy technician; identifying responsibilities that belong to the pharmacy technician; and selecting ethical standards of conduct applicable to the pharmacy technician.	1 hour	1102525	2/3/2026

Pharmacy Technician: References and Drug Information	This course will identify the reasons to conduct drug information research and appropriate references for researching relevant information, given a particular drug and patient information.	1 hour	1102526	2/8/2026
Pharmacy Technician: Cause and Prevention of Medication Error	This knowledge-based web course is designed to develop a common understanding of medication errors; the outcome; procedures to prevent errors; response to errors; and why errors should be reported specific to pharmacy technician roles and responsibilities.	1 hour	1102523	1/13/2026
Pharmacy Technician: Introduction to Pharmacy Prescription Interpretation	This knowledge-based web course is designed to develop a common understanding of interpretation information on an outpatient prescription for dispensing, specific to pharmacy technician roles and responsibilities.	2 hours	1102524	2/3/2026
Pharmacy Technician: Therapeutics Nervous System Overview	This knowledge-based web course is designed to develop a common understanding of how the nervous system regulates how one breathes, thinks, eats and causes one to be happy or sad. This training is specific to pharmacy technician roles and responsibilities.	2 hours	1102530	2/15/2026
Pharmacy Technician: Therapeutics Endocrine System	This knowledge-based web course is designed to cover the basic anatomy and physiology of the endocrine system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	3 hours	1102531	2/15/2026
Pharmacy Technician: Reproductive System	This knowledge-based web course is designed to cover the basic anatomy and physiology of the reproductive system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.	1.5 hours	1102532	2/15/2026
Pharmacy Technician: Pharmaceutical Therapeutics Toxicology	This knowledge-based web course is designed to cover the methods of treatment and specific antidotes for selected poisons specific to pharmacy technician roles and responsibilities.	1 hour	1102554	2/16/2026
Pharmacy Technician: Hematologic System	This knowledge-based web course is designed to familiarize learners with the basic anatomy and physiology of the hematologic system, as well as associated diseases and disorders specific to pharmacy technician roles and responsibilities.		1102555	2/16/2026

WOMEN'S HEALTH

COURSE TITLE	DESCRIPTION	CREDIT	COURSE ID	EXPIRATION DATE
--------------	-------------	--------	-----------	-----------------

		HOURS		
Addressing Low Sexual Desire in Rural Women Veterans	This recorded, knowledge-based training will describe the importance of assessing for low sexual desire in rural women Veterans, provide an overview of common contributors, review approaches to diagnosing low sexual desire and present a series of research-informed strategies for addressing low sexual desire in clinical settings.	1 hour	1121544	5/30/2027
Caring for Women Veterans in the Community	In this web-based course, community providers will learn about issues such as military sexual trauma, musculoskeletal pain and how post-deployment readjustment can differently impact women Veterans compared to non-Veterans.	1 hour	1096557	12/6/2026
OTHER				
COURSE TITLE	DESCRIPTION	CREDIT HOURS	COURSE ID	EXPIRATION DATE
Bee Calm Bee Well: Exploring Honeybee Initiative for Veterans' Empowerment and Support: What Is Involved in a Beekeeping Program?	This recorded, knowledge-based webinar provides an introduction to the Honeybee Initiative for Veterans' Empowerment and Support, or HIVES, therapeutic beekeeping program. It will explain what is involved in keeping bees and facilitating a therapeutic beekeeping program.	1 hour	1127869	3/30/20208
Clinical Perspectives on Compulsive Sexual Behavior	This recorded, knowledge-based training will provide inter-professional health care teams with knowledge on diagnostic criteria, research and clinical practices associated with compulsive sexual behavior disorder.	1 hour	1114126	8/18/2027
Food and Cognition: The Interplay of Nutrition and Neuroscience	This recorded, knowledge-based training for health care teams begins with a discussion of a healthy brain as an efficient brain and investigates how inefficiency in brain function relates to cognitive impairment. The second part of the webinar focuses on how nutrition contributes to brain health and efficiency and, therefore, to cognitive functioning.	1 hour	1098315	6/14/2028
Food Matters: Nutrition Care for Mental Health	The purpose of this recorded, knowledge-based training is to address the connection between nutrition and mental health. It will provide an overview of how nutrition correlates with mental health, specifically focusing on depression and anxiety; discuss supportive dietary patterns; and review	1 hour	1122862	8/25/2027

	emerging evidence on the connection between the gut and mental health so that providers can integrate this knowledge into patient care.			
Introduction to Complementary and Integrative Health Approaches	The purpose of this knowledge-based web course is to explore how complementary approaches may fit into clinical practice. In this course, participants can reflect on and learn how to converse with patients about complementary approaches by learning how to discuss what a complementary approach is and why it is important; learning how to incorporate different approaches into practice; and exploring how to guide patients on the use of complementary approaches. Expiring soon!	1 hour	1069357	5/31/2025
My Life, My Story	The My Life, My Story program is designed to help Veterans share their story and record it for their medical care team, family and friends. This recorded webinar will provide training for volunteers tasked in delivering the My Life, My Story program to Veterans.	0.25 hours	1120503	1/30/2027
Updated VA/DOD Clinical Practice Guideline: The Management of Hypertension in Primary Care	This recorded, knowledge-based webinar will provide important information to members of the health care teams about managing patients with hypertension. This video will assist health care teams better understand how the clinical practice guideline for the management of hypertension was developed, how to use it and which interventions will provide the most benefit to their patients.	1 hour	1119697	4/9/2027
Ethical Considerations in Assessing and Treating Moral Injury With Military Veterans	The purpose of this recorded, knowledge-based virtual training for health care teams is to address ethical considerations that VA mental health clinicians encounter when assessing and treating Veterans seeking care for moral injury.	1 hour	1123406	9/29/2027
Introduction to the Updated VA/DOD Clinical Practice Guideline: The Management of Stroke Rehabilitation	This recorded, knowledge-based program aims to equip the learner with relevant information for evaluating and managing care for adult patients, 18 years or older, who have experienced a stroke.	1 hour	1124787	11/14/2027
Screening Swallowing for Patients With Suspected Stroke	This program will present a systematic approach to swallowing screening using a swallowing screening bundle and a recently developed valid and reliable swallowing screening tool called the Rapid Aspiration	1 hour	1120311	4/4/2027

	Screening for Suspected Stroke, or RAS3, tool.			
The Ethics of Professional Boundaries in Rural Communities	This recorded, virtual presentation will improve the knowledge and skill of rural mental health practitioners to identify boundary issues and take proactive and constructive steps to resolve them.	1 hour	1119205	4/14/2027
Challenging Barriers to Safety Planning: Considering Context and Clinical Complexity	This recorded, knowledge-based webinar will inform inter-professional health care teams about current research solicitation and funding processes in VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115457	12/23/2026
The Role of Relationships in Risk for Directed Violence	This recorded, knowledge-based training virtual presentation for health care teams will discuss the impact that committed romantic relationships can have on a Veteran's self-harm based on recent research. Attendees will have the opportunity to discuss how to incorporate these insights into care of Veterans.	1 hour	1115720	12/28/2026
Using Person-Centered Care and Cultural Humility to Improve Care for Veterans With Dementia or Delirium	The purpose of this knowledge-based training is to employ a micro-learning approach and a cultural humility lens to equip acute care inter-professional staff to collect and convey key information regarding mentation and what matters most when caring for Veterans with dementia.	1 hour	1117143	1/28/2027
Let's Talk: Communication and Dementia	The purpose of this recorded, knowledge-based presentation is to provide an opportunity for interdisciplinary learning to increase their understanding of the best ways to communicate with patients with dementia and their families/caregivers.	1 hour	1125094	11/29/2027
Updates on Dementia: Biomarkers, Clinical Use	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up-to-date on changes to the clinical use of biomarkers and how they translate into care and diagnosis.	1 hour	1112334	8/13/2026
Updates on Dementia: Alzheimer Medications	The purpose of this recorded, knowledge-based webinar is for inter-professional health care teams to stay up to date on changes in dementia and how they translate into care and diagnosis.	1 hour	1112327	8/13/2026

Introduction to VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus	This recorded, knowledge-based program will educate health care team members on key principles of the VA/DOD Clinical Practice Guideline for the Management of Type 2 Diabetes Mellitus. It will equip learners with relevant information needed for managing patients with diabetes and prediabetes based on current therapeutic guidelines, best practices and clinical evidence.	1 hour	1112622	8/29/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Comprehensive Medical Evaluation and Assessment of Comorbidities and Glycemic Targets	The purpose of this comprehensive, knowledge-based program is to provide clinicians with advanced education and training on diabetes management and to prepare health care professionals to pass the diabetes care and education specialist certification exam or the board certified advanced diabetes management exam. This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover comprehensive medical evaluation and assessment of comorbidities, as well as glycemic targets.	1 hour	1110625	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Pharmacologic Approaches to Glycemic Treatment	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover pharmacologic approaches to glycemic treatment.	1.5 hours	1110660	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Children and Adolescents	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetic care for children and adolescents.	1.5 hours	1110665	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Facilitating Behavior Change and Managing Diabetes in Pregnancy	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss facilitating behavior change and managing diabetes in pregnancy.	1.5 hours	1110661	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Prevention or Delay of Type 2 Diabetes and Associated Comorbidities	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover prevention or delay of type 2 diabetes and associated comorbidities, as well as obesity and weight management for the prevention and treatment of type 2 diabetes.	1 hour	1110662	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This	1 hour	1110663	5/5/2026

Program: Cardiovascular Disease and Chronic Kidney Disease	session will discuss cardiovascular disease and chronic kidney disease.			
Certified Diabetes Care and Education Specialist Certification Preparation Program: Retinopathy, Neuropathy and Foot Care	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss retinopathy, neuropathy and foot care.	1 hour	1110666	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Technology	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss the role of technology in diabetic care.	2 hours	1110670	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Diabetes Advocacy and Care in Hospital	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will discuss diabetes advocacy and care in hospitals.	1 hour	1110676	5/5/2026
Diabetes Champion Hypoglycemia Patient-Centered Strategies	The purpose of this knowledge-based webinar is to provide new information on the nutrition care process and clinical recommendations for hypoglycemia risk mitigation.	1.5 hours	1110672	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Improving Care and Promoting Health in Populations and Older Adults	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will cover improving care and promoting health in populations and older adults.	1.5 hours	1110900	5/5/2026
Certified Diabetes Care and Education Specialist Certification Preparation Program: Overview of Becoming a Certified Diabetes Care and Education Specialist and Classification/Diagnosis of Diabetes	This program will increase the knowledge and skills needed for health care teams to help manage Veterans with diabetes. This session will give an overview on becoming a certified diabetes care and education specialist and also classification/diagnosis of diabetes.	1 hour	1110904	5/5/2026
Exploring Grief, Loss and Meaning in Black, Indigenous and People of Color Veterans	This recorded webinar will provide information to help explore the impact of historical trauma on contemporary grief and loss recovery.	1 hour	1108935	2/27/2026
Supporting Staff During Challenging Times	This recorded webinar will address the understanding of the impact of stressful life events on staff. It will discuss strategies leaders can take to support staff in the face of both acute and ongoing stressors.	1 hour	1107559	12/29/2025
Chronic Pain Education for Health Care Providers: Care of the Complex Patient	Chronic pain is a significant clinical challenge for both patients and providers. In this course, participants will learn how to break the "iatrogenic cycle" of complex	1 hour	1106794	10/31/2025

	chronic pain; conduct a comprehensive biopsychosocial evaluation; respond helpfully during difficult clinical interactions; prescribe/taper opioids consistent with current guidelines; and help patients become an active partner in their own pain care.			
Improving Medication Prescription Practices Utilizing VIONE Medication Deprescribing Tool	The purpose of this recorded, knowledge-based webinar is to provide a formal update to providers and health care teams on the topic of improving medication prescribing practices using the vital, important, optional, not indicated, every medication has a reason, or VIONE, deprescribing tool.	1 hour	1105856	9/30/2025
Strategies for Conceptualizing and Intervening on Therapy Interfering Behaviors	This recorded, knowledge-based webinar will identify and describe strategies for identifying and conceptualizing potential therapy interfering behaviors (TIBs). Approaches to intervening on these TIBs will be discussed with specific strategies explored to target specific TIBs.	1 hour	1105829	9/20/2025
Enduring Dementia: Enhancing Care for Veterans Experiencing Dementia	The purpose of this recorded, knowledge-based training series is to provide health care teams with adequate knowledge and/or skills to appropriately manage common geriatric conditions and syndromes in older Veterans. This recorded session focuses on reviewing pertinent elements of the cognitive assessment and current available treatments for cognitive impairment.	1 hour	1109699	4/24/2026
Updates on Dementia: Complex Care	The purpose of this recorded, knowledge-based webinar is to keep clinicians up-to-date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations. Expiring soon!	1.5 hours	1105391	7/31/2025
Updates on Dementia: Novel Therapies for Dementia	This course provides clinicians and health care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations. Expiring soon!	1 hour	1105393	7/31/2025
Updates on Dementia: Bold Act	The purpose of this recorded, knowledge-based webinar is to keep clinicians up to date on dementia changes and how they translate into care and diagnosis. This course will provide clinicians and health	1 hour	1105395	7/31/2025

	care teams with knowledge and skills to serve people living with dementia and their care partners more effectively, while keeping clinicians up to date with innovations. This session will discuss the Bold Act. Expiring soon!			
Yoga and Meditation for Veterans' Healing, Health and Well-Being	This recorded, knowledge-based presentation will describe the clinical yoga program at VA Palo Alto, and some of the research conducted into yoga at Palo Alto demonstrating the benefits of yoga for Veteran health. This course will increase provider knowledge and introduce implementation of clinical best practices. Expiring soon!	1 hour	1103852	6/9/2025
Introduction to the Updated VA/DOD Clinical Practice Guideline: The Diagnosis and Treatment of Low Back Pain	This recorded, knowledge-based webinar will provide important information to members of health care teams about managing patients who suffer from low back pain. Expiring soon!	1 hour	1104025	6/6/2025
Sleep Apnea Assessment and Intervention: Recommendations to Optimize Veteran Adherence to Positive Airway Pressure	The purpose of this recorded, knowledge-based training is to provide an overview of sleep-disordered breathing, including challenges and troubleshooting opportunities for Veterans who may struggle to adhere with positive airway pressure, or PAP, therapy.	1 hour	1119748	4/29/2027
Introduction to VA/DOD Clinical Practice Guideline for the Management of Headaches	This recorded, knowledge-based program aims to equip the learner with relevant information needed for managing patients with headaches based on current therapeutic guidelines, best practices and clinical evidence, and then have the learner apply the knowledge to clinical practice management.	1 hour	1115985	1/9/2027
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Oral Facial Pain	This recorded, knowledge-based webinar will provide a review of the most common presentations of facial pain syndromes that are likely to be encountered by multiple medical disciplines.	1 hour	1107741	1/10/2026
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cluster Headache	This webinar will provide case-based reviews for cluster headaches. It will present various treatment options for cluster headache and will help increase knowledge among clinicians in the field related to cluster headaches.	1 hour	1107749	12/26/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Apnea and Sleep Disturbance Management in Headache	This recorded, knowledge-based webinar will start with a review of important headache-related lifestyle factors and sleep disturbance management in headache. Participants will learn to recognize headache types and to apply multiple,	1 hour	1107062	11/29/2025

	evidence-based modalities for evaluation and management of headache.			
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Secondary Headaches	This recorded, knowledge-based activity will start with discussion of important secondary headache-related lifestyle factors and a review of general diagnostic criteria for secondary headache. This will be followed by case-based reviews, where inter-professional health care teams will learn to recognize secondary headache and to apply multiple, evidence-based modalities for evaluation and management.	1 hour	1106389	10/10/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Migraine and Medication Overuse Headache Management	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting.	1 hour	1105636	8/31/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Cervicogenic and Tension Headache Management	This recorded, knowledge-based webinar series will start with review of important headache-related lifestyle factors, neuropharmacology and pathophysiology of migraine as a continuation of background information for the Headache Evaluation and Management for Primary Care webinar series. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting. Expiring soon!	1 hour	1104613	6/28/2025
Headache Evaluation and Management for Primary Care Webinar Series: Case-Based Review of Women With Headache Disorders	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache. Expiring soon!	1 hour	1103745	5/1/2025

Headache Evaluation and Management for Primary Care Webinar Series: Migraine Pathophysiology	This recorded, knowledge-based webinar series will review the pathophysiology of the migraine. This will be followed by case-based reviews, in order of clinical prevalence, for the most common primary and secondary headache disorders to be encountered in the primary care setting. The attendees will learn to recognize headache types and to apply multiple evidence-based modalities for evaluation and management of headache. Expiring soon!	1 hour	1103231	4/26/2025
Amputation System of Care Education Series: Gait Training for the Amputation Specialty Care Team	This recorded, knowledge-based webinar offers guided instruction in the process of gait training for amputee-specific patient populations from initial balance and ambulation to higher level tasks.	1 hour	1123657	10/2/2027
Amputation System of Care Series: Amputation Prevention – Latest Research and PAVE Program Initiatives	This recorded, knowledge-based webinar will provide attendees with an update on the latest research findings, clinical guidelines and Prevention of Amputation in Veterans Everywhere, or PAVE, initiatives so they will be able to better implement new strategies in the clinical setting to improve Veteran outcomes.	1 hour	1119696	5/5/2027
Amputation Skills Training: Introduction to and Overview of the Amputee Coalition	This recorded webinar presentation will educate clinicians on the mission and vision of the amputee coalition. The presentation will give participants an overview of the amputee coalition, explain how to obtain resources and introduce the clinician to the National Limb Loss Amputee Coalition website.	1 hour	1114586	11/1/2026
Amputation Skills Training: A Multidisciplinary Approach to Treating Veterans With Multiple Limb Amputations	This recorded presentation will provide education and skills training to the clinicians of the interdisciplinary team in care of the individual with multiple limb loss using a case study approach with videos and photos; provide the clinicians of the interdisciplinary amputation clinic lessons learned from challenging cases related to caring for Veterans with conflict-related multiple limb amputees; and provide skills in evaluation, assessment, prescription and rehabilitation treatment most effective in caring for this population of conflict related multiple limb amputees.	1 hour	1110491	5/5/2026
Amputation Skills Training: Keeping Patients off the Floor: Addressing Fall Prevention After Limb Loss	The purpose of this live, knowledge-based webinar is to address fall prevention associated with limb loss. During the training, inter-professional health care teams will review factors contributing to	1 hour	1108674	3/2/2026

	falls in the early post-amputation phase and for the ambulatory prosthetic user.			
Amputation Skills Training: You Can't Improve What You Don't Measure: A FLOW3 Story	This recorded, knowledge-based training will focus on the nuances of the FLOW3 system, conceived at the Seattle VA medical center and collaboratively developed with the Orthotics and Prosthetics Program Office in VA Central Office. There will be real-time presentation of the system to demonstrate how inter-professional health care teams should be integrating use of the system into their clinical practice.	1 hour	1107941	1/26/2026
2024 Amputation System of Care Education Series: How to Turn a Great Idea Into a Scientific Research Project	This recorded course will describe how research is funded, reviewed and managed in the VHA Office of Research and Development. The presentation will guide the attendee through the process from clinical idea to a developed research proposal and highlight funding channels within VA.	1 hour	1115864	1/2/2027
Amputation Skills Training: Key Takeaways From the Updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation	This recorded, knowledge-based education session is designed to provide health care teams with enhanced knowledge regarding the recently updated VA-DOD Clinical Practice Guideline for Upper Limb Amputation Rehabilitation.	1 hour	1105732	9/11/2025
Amputation Skills Training: Prosthetic Knees – Clinical Selection	During this recorded, knowledge-based webinar, health care teams will be provided with an overview of prosthetic knee options and key features to optimize various phases of rehabilitation and activity levels for patients with knee disarticulations, transfemoral and hip disarticulation amputations. Expiring soon!	1 hour	1104831	7/11/2025
Amputation Skills Training: Optimizing Service Delivery and the Patient Experience for Veterans With Limb Loss	This recorded, knowledge-based will address common myths that exist in relation to amputation and prosthetic limb care to enhance both the quality and consistency of amputation care. It will also address the importance of collaboration across services to optimize the Veteran experience and outcomes.	1 hour	1106686	11/2/2025
Amputation Skills Training: Post-Operative Management of the Complicated Major Lower Extremity Amputation	This recorded, knowledge-based webinar aims to provide health care teams with strategies for managing foot wounds in the population of Veterans at risk for limb loss. The presenters discuss the challenges in post-op incision healing, including healing and wound care techniques, prevention and managing slow-to-heal or complicated	1 hour	1103493	5/26/2025

	residual limb incision sites, and treating residual limb wounds. Expiring soon!			
VA Pharmacy Procurement: Wall-to-Wall Inventory	This module will provide pharmacy procurement staff the understanding of the wall-to-wall inventory, including preparation; completion; reports; review and analysis; as well as submission and editing of data.	1 hour	1094928	8/14/2026
VA Pharmacy Procurement B09 Reconciliation Training - Pharmacist	This module will provide VA pharmacy procurement staff the understanding of the B09 Reconciliation, including preparation, completion, reports, review and analysis as well as submission of data.	1 hour	1094926	8/30/2026
Lethal Means Safety Training	This virtual knowledge-based presentation will educate VHA mental health providers and health care teams on lethal means safety counseling. Participants will learn about the purpose of lethal means safety counseling, including how to work with Veterans and their friends and family to facilitate lethal means safety during high-risk periods. The training emphasizes Veteran autonomy and teaches clinicians to work collaboratively with Veterans towards solutions that align with each Veteran's values and preferences.	1 hour	1075258	9/29/2026
War-Related Illness and Injury Study Centers: Team Addressing of Veterans' Military Exposure Concerns	Using registry evaluations as a model, this recorded, knowledge-based webinar will provide training for primary care providers and health care teams on how to integrate and address exposure concerns into their workflows as Step 1 providers, as well as how to work closely with their registry clinicians, other Step 2 providers and the War-Related Injury and Illness Study Centers to ensure seamless stepped care for exposure-related health concerns.	1 hour	1107645	12/29/2025
War Related Illness and Injury Study Center — VA Health Outcomes Military Exposures: Exposure Concerns and Autoimmune Diseases	The purpose of this recorded, knowledge-based webinar is to help providers develop an awareness of the extrinsic contributions to autoimmune disease in order to help them better address Veteran concerns. Expiring soon!	1 hour	1104566	7/7/2025
War Related Illness and Injury Study Center: Southwest Asia Deployment Associated Lung Disease: Diagnostic Challenges	The lack of clarity in terminology, such as "deployment-related lung disease" and "Iraq War lung disease," often leads to confusion among Veterans and providers causing diagnostic challenges. The purpose of this recorded, knowledge-based presentation is to provide information on correct terminology and share best clinical	1 hour	1105581	9/11/2025

	practices providers can implement when treating Veterans.			
First Care Responder Bleeding Control Simulation	This training will address a training gap in the ability of bystanders and first responders to perform immediate and emergent care for a victim suffering from a hemorrhaging injury. The training module uses an immersive approach to demonstrate bleeding control application.	1 hour	1106862	10/31/2025
Tinnitus Clinical Management - Module 1 - Overview of Tinnitus and its Management	This is Module 1 of a series of four online courses describing tinnitus clinical management. Module 1 is appropriate for all health care providers who are interested in learning about tinnitus and what can be done about it.	1 hour	1090587	9/30/2025
Tinnitus Clinical Management – Module 2: Tinnitus Assessment and Basic Care	This is one of four web courses that provide training in tinnitus management. This module describes the basic protocol conducted by audiologists to provide tinnitus care, which is referred to as progressive tinnitus management level 2 audiologic evaluation. This knowledge-based activity reviews tinnitus characteristics from module 1 and steps through a decision-tree protocol for audiologists.	1 hour	1090589	11/30/2025
Tinnitus Clinical Management – Module 3: Clinical Intervention for Tinnitus	This is one of four web courses that provide training in tinnitus management. This module describes progressive tinnitus management (PTM) level 3 skills education that is provided for patients needing care beyond PTM level 2.	1 hour	1090590	11/30/2025
Tinnitus Clinical Management – Module 4: Virtual Practicum for Tinnitus Management	This is one of four web courses that provide training in tinnitus management. This module provides a virtual practicum for tinnitus management.	1 hour	1090591	11/30/2025
