2019 FACT SHEET

VA MONTANA HEALTH CARE SYSTEM

Who We Are

The VA Montana Health Care System is part of the Rocky Mountain Veterans Integrated Service Network (VISN 19) which includes facilities in Colorado, Oklahoma, Montana, Utah and Wyoming. Our health care system includes our main facility located in Fort Harrison, Montana.

The VA Montana Health Care System is a medical-surgical facility that hosts a 34-bed acute care, 24-bed inpatient mental health, and a 30-bed Community Living Center that serves over 47,000 enrolled Veterans across Montana—an area roughly 147,000 square miles in size.

Veterans are cared for by a staff of nearly 1,200 at 17-sites of care across the state. One third of our employees are Veterans themselves. Montana VA empowers Veterans through partnership, moving beyond simply treating illness, by striving for optimal health and a positive healthcare experience. Our mission is to offer options to timely, quality services for Veterans through care and respect for one’s physical, psychological, and spiritual health.

What Makes Our VA Special

Seventy two percent of Veterans served by the Montana VA are considered rural. Nearly half of the 47,000 enrolled Veterans in the Montana VA Health Care System served during Vietnam.

Montana VA uses telehealth to connect Veterans on tribal reservations with health care services. Become a patient. Call (406) 442-6410 and press 4.

With six foundational services: Primary Care, Mental Health, Primary Care Mental Health Integration, Telehealth, Pain Management, Prosthetics and Sensory Aids.
