

# VA Portland Health Care System

*a Magnet designated facility*

## Transition to Practice Program for Registered Nurses

### **Do you have less than 1 year of RN experience?**

*When you join our team as a newly hired RN you will be a part of our Transition to Practice Program (TTP)\*.*

The 12-month RN Transition to Practice consists of:

- structured mentoring and precepting experiences,
- monthly workshop days,
- clinical debriefing,
- Evidence-based practice curriculum, and more!

As an RN TTP, you will have the opportunity to better understand the Veteran population and VA healthcare system while successfully transitioning to your new nursing role.

*\*All RNs with 1 year or less of RN experience hired into any care setting will automatically be part of the TTP Program. There are 2 cohort start dates per year.*
