

## BLS/ACLS Certification Declaration

Health profession trainees (e.g., medical students, nursing students, clinical pharmacy students, residents) are responsible for maintaining the BLS or ACLS certification required by their national accrediting body or local program certification standards. These records are maintained by the sponsoring educational institution.

Notification will be made to the VA Designated Educational Officer as soon as possible but no later than 72 hours of changes in the academic status of individual trainees, adverse actions that affect the trainee appointment, or changes in health status that pose a risk to the safety of trainees, other employees, or patients.

I certify that all documents pertaining to the listed trainees are maintained on file and available to VA officials for review.

I certify that the information has been verified for the trainees on the enclosed list who are scheduled to receive clinical training at a Department of Veterans Affairs (VA) facility.

Full legal name of student (attach additional page if multiple students are to be included):
