

Louis A. Johnson VAMC
Document of Understanding

I understand that all listed deadlines for required documentation will be followed, with dates enforced by the Office of Staff Development at the LAJVAMC. Incomplete documents or documents submitted after the designated time frames will jeopardize the student's potential for participating in any form of clinical rotations.

Special consideration will only be given if the Office of Staff Development is notified of extenuating circumstances that are described by the student and said explanation is accepted by Staff Development. Verification of those circumstances must be certified by your Program Director.

It is at the discretion of Staff Development if *any* student will be accepted.
