

Dr. Xiangqin Cui (Director)

Dr. Cui is an associate professor in the Department of Biostatistics and Bioinformatics at Emory. Before joining Emory in 2017, she was a faculty member in the Biostatistics Department at University of Alabama at Birmingham for 13 years. Her research experience expands from genetics, genomics, to observational studies and intervention trials. She has collaborated extensively in studies of kidney disease, cancer, RA, and nutrition. Her current personal research interests include clinical studies of polycystic kidney disease and method development for electronic health records.
