VA ANN ARBOR HEALTHCARE SYSTEM OPENING NEW CLINIC IN HOWELL

Howell clinic is third facility opened by VAAAHS within the last year

ANN ARBOR – VA Ann Arbor Healthcare System (VAAAHS) is announcing the opening of a new Community Based Outpatient Clinic (CBOC) in Howell, Michigan. The facility is projected to open Fall 2022.

Located at 3399 E. Grand River Ave. in Howell, the nearly 7,100 square foot space offers 2 Primary Care teams with 6 exam rooms and a Blood Draw Lab for Veterans in the area.

The new location was chosen based on analysis of the Veteran population around the Livingston County area. VAAAHS staff determined many Veterans in the area drove greater than 30 minutes for routine medical appointments. Further, Mary Durst, Director of Veterans Services in Livingston County, strongly advocated for a VA clinic near Howell.

The Howell CBOC becomes the 6th CBOC in the VAAAHS network, joining clinics in Jackson, Flint, Adrian, Canton, and Toledo, Ohio.

###

About VA Ann Arbor Healthcare System

VA Ann Arbor Healthcare System (VAAAHS) provides state-of-the-art healthcare services to Veterans at seven locations of care in southeast Michigan and northwest Ohio. VAAAHS is a major tertiary care national and regional referral center and provides care at the Community-based Outpatient Clinics (CBOC) in Toledo, Ohio, and Jackson and Flint, Michigan. This year, construction began on a new Canton CBOC. The Medical Center campus includes the hospital, outpatient clinics, community living center, a radiation therapy facility, Fisher House, two research buildings, five administrative outbuildings, two parking garages, and an energy center. The facility includes state-of-the-art ambulatory care clinics, operating rooms, cardiac catheterization suite, intensive care units, laboratory, and diagnostic facilities.
