

VA Salt Lake City Health Care System

Who We Are...

VA Salt Lake City Health Care System (VASLCHCS) is part of the Rocky Mountain Veterans Integrated Service Network (VISN 19) which includes facilities in Utah, Colorado, Oklahoma, Montana and Wyoming.

Our health care system consists of our main facility located in Salt Lake City, Utah and ten community clinics across Utah, Idaho and Nevada spanning 125,000 square miles. We provide healthcare to over 72,000 unique Veterans across one of the largest geographical areas in VA.

The George E. Wahlen VA Medical Center is a 121-bed facility and serves as the anchor for the health care system. Located on an 81-acre campus situated at the foot of the Wasatch Mountain Range, we support an active academic affiliation with the University of Utah and a host of other academic institutions. A wide range of tertiary services are provided, including a regional heart transplant program operated in conjunction with the University of Utah.

What Makes Our VA Special

Telemental Health HUB

VA Salt Lake City is the National Telemental Health HUB and provides mental health services to our most rural Veterans across the country.

Whole Health

VASLCHCS provides a partnership in health care approach as a flagship facility for the Whole Health program. Veterans set wellness goals through Whole Health Coaches who in turn empower and end equip them to take charge of their health and well-being, and to live their life to the fullest.

VA National Transplant Program

We are one of five VA Heart Transplant Centers in the United States. In conjunction with the University of Utah, VA Salt Lake City cares for transplant patients from across the intermountain west pre- and post-transplantation.
