

### **Dr. Breu wins the VA Boston Healthcare System Excellence in Education Award!**

Congratulations to Dr. Tony Breu on receiving the VA Boston Healthcare System Excellence in Education Award!

Dr. Breu is a leader in developing and implementing novel training experiences as Director of Resident Education in the Medical Service.

He has served as a mentor and supervisor to trainees at VA Boston since 2013.

One of his nominators wrote: “Clinically Tony is among our finest clinicians and most respected educators.” Another wrote: “His tweetorials have garnered him literally tens of thousands of followers around the world. I have been approached by students in other medical schools, *as well as faculty* in other programs, asking me about him and telling me how much they have learned from his posts. Additionally, he has quite effectively mentored several classes of chief residents at the VA to do the same, and to draw attention to the fantastic education experiences that occur at VA Boston on a nearly daily basis.”

Congratulations Dr. Breu on this well-earned and well-deserved Award!!
