

About the Program:

The Lincoln VA residency is a smaller site with supportive preceptors and primary care providers. We have had 20 graduates of our program, after graduation 16 were hired for VA positions or went on to a PGY2 residency program.

The program has collaborative activities with the Omaha and Grand Island pharmacy residency programs and residents can early commit to the PGY2 Amb Care residency at the Grand Island VA. There are many elective choices including the ability to complete rotations at the Omaha and Grand Island VA sites. Residents will precept P4 pharmacy students from Creighton University and the University of Nebraska.

Pharmacy Residency Program Purpose Statement:

PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for post-graduate year two (PGY2) pharmacy residency training.

Current Residents:
Lien.Pham@va.gov
Jennifer.Kathol@va.gov

This residency site agrees that no person at this site will solicit, accept or use any ranking-related information from any residency applicant.
