Ending Veteran Homelessness, Increasing Access to Affordable Housing

WILMINGTON, Del. — The COVID-19 pandemic has highlighted a need for Veteran housing in America. According to the [Department of Housing and Urban Development's 2020 Annual Homeless Assessment Report \(AHAR\) to Congress](#) found that on a single night in January 2020, there were 37,252 Veterans experiencing homelessness in America.

The [Department of Veterans Affairs \(VA\) and Housing and Urban Development \(HUD\) are committed in its partnership in a mission of ending Veteran homelessness](#) by:

- Make ending Veteran homelessness a top priority
- Lead with an evidence-based housing first approach
- Reach underserved Veterans
- Ensure the delivery of quality supportive services
- Increase the supply of and access to affordable housing

Increase the Supply of and Access to Affordable Housing

There is a low inventory of available housing for at-risk Veterans in our area, and landlords are not accepting [HUD-VASH \(VA Supportive Housing\) Program](#) vouchers at previous rates. This is leading to a housing and health crisis for vulnerable Veterans.

“Housing is an essential part of health care. Reliable housing leads to an increase in access to health care services,” said Vince Kane, Director, Wilmington VA Medical Center. “When Veterans have stable housing, we can more easily connect with them and ensure they are receiving the health care services they need. Our goal is to work with private landlords to educate and encourage them to accept HUD-VASH vouchers to house our nation’s Veterans. Together, we can end Veteran homelessness.”

As part of this education effort, Wilmington VA Medical Center will be holding a virtual landlord resource fair in the coming months.
