Medical Director of the Mental Health Care Line
American Board of Psychiatry and Neurology
Areas of Interest: Geriatric Psychiatry, Education, and Research

Current Biographies of PMH-NP Residents

Terry Winoker, MSN, PMHNP-BC

Psychiatric Mental Health Nurse Practitioner Resident

I was born and raised in Cincinnati Ohio.

Education: Graduate of Northern Kentucky University

I have been committed to the field of nursing for more than 30 years. As a registered nurse I have worked in oncology, emergency medicine, nurse management, and corporate employee health. I am pleased to be part of the Psychiatric Nurse Practitioner Residency at the Cincinnati VA. This program is supporting my development as a skilled psychiatric advanced practice nurse. It is my honor to participate in this program and to have the opportunity to learn while serving the Veterans.

Vincent Bett, MSN, PMHNP-BC

Psychiatric Mental Health Nurse Practitioner Resident

I was born and raised in a small village in Kenya, Africa.

I came to the US about 12 years ago as a college runner. I was privileged to work as a nurse at a VA hospital in New Mexico. That is where I developed a strong connection with the veterans. In graduate school, I always wanted to work at a VA hospital as a nurse practitioner. Therefore, I was thrilled when I was selected as one of the PMHNP residents. Doing this residency is a blessing to me. I'm very grateful for it. I look forward to improving my clinical skills to better the outcomes of the veterans.
