FOR IMMEDIATE RELEASE

San Francisco VA Health Care System provided 547 permanent housing placements to homeless Veterans in 2022

SAN FRANCISCO — As part of VA’s nationwide goal to house [38,000 homeless Veterans in 2022](#), the San Francisco VA Health Care System has provided 547 permanent housing placements to homeless Veterans.

Permanent housing placements provided by VA staff and community partners included apartments or houses that Veterans could rent or own, often with a subsidy to help make the housing affordable. VA staff also helped some Veterans end their homelessness by reuniting with family and friends.

These placements, along with placements provided by other VA health care systems across America, led to VA housing 40,401 Veterans nationwide, meeting and exceeding its national goal by more than 6.3%.

“This goal was achieved through the hard work and dedication of our SFVAHCS homeless programs staff, our grantees and contractors and our valued community partners,” said SFVAHCS Medical Center Director, Jia Li. “The progress we’re seeing with Veteran homelessness in the San Francisco Bay Area shows that we have the right solutions to end homelessness for all Veterans we care for.

Nationally, the total number of Veterans who experienced homelessness on a single night in January 2022, was 33,129 — a decrease of 11% from January 2020, the last year a full PIT Count was conducted. In total, the estimated number of Veterans experiencing homelessness in America has declined by 55.3% since 2010.

All of these efforts are built on the [evidence-based “Housing First”](#) approach, which prioritizes getting a Veteran into housing, then provides the Veteran with the wraparound support they need to stay housed — including health care, job training, legal and education assistance and more.
