

BOISE VA/VISN 20 CLINICAL RESOURCE HUB

PGY-2 AMBULATORY CARE RESIDENCY PROGRAM

UPDATED 8/2023

ABOUT THE PROGRAM

Program Purpose (ASHP):

PGY2 residency programs build upon Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency training to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives for advanced practice areas. Residents who successfully complete PGY2 residency programs are prepared for advanced patient care or other specialized positions, and board certification in the advanced practice area, if available.

V20 CRH Training Vision Statement:

Our CRH residency training experiences will provide the diverse perspective of care delivery across multiple VA Health Systems to produce inquisitive Clinical Pharmacist Practitioners with virtual care expertise who set the standard for effective and flexible healthcare delivery to underserved Veteran populations.

WHAT IS THE CRH?

The CRH is a VISN-owned and governed program that provides support to increase access to VHA clinical services for Veterans when local facilities have gaps in care or service capabilities.

In the VISN 20 CRH, there are currently 20 Clinical Pharmacist Practitioners, 4 Outpatient Clinical Pharmacists, and 2 Clinical Pharmacy Technicians serving Veterans in all 8 VA Medical Centers.

PROGRAM LOCATION

Currently Boise, Idaho

Every effort is being made to allow virtual participation in this novel program to ensure equitable access to quality PGY2 Ambulatory Care training.

Application via PhORCAS

NMS Code: 662765
